Incident Action Plan #10

Flint Water Crisis, MI

Unified Coordination Group

(ASPR, CDC, EPA, FEMA)

Operational Period

Feb. 18, 2016 – Feb 25, 2016

0800 – 0800

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: Flint Water Crisis	2. Operational Period: Date From: 2/18/16 Time From: 0800	Date To: 2/25/16 Time To: 0800

3. Objective(s):

Water Quality Task Force (WQTF):

1a. Conduct emergency water testing to a) determine chlorine and bacterial levels in the water supply; and b) study efficacy of water filters. (WQTF)

2. Coordinate with local and State partners to evaluate and if needed, respond to higher levels of concern for lead and other contaminants. (WQTF)

3a. Develop and implement environmental sampling plans to a) evaluate water quality parameters; b) conduct regulatory sampling in accordance with the LCR/SDWA; c) conduct sequential sampling to better understand lead leachability in the water distribution system; and d) establish a pipe-rig to assess water quality for transition to the KWA source waters. (WQTF)

4. Ensure compliance with EPA enforcement orders pursuant to this incident. (WQTF)

Public & External Affairs (PEATF):

5a. Coordinate the development of targeted public health messaging and communication products for lead exposure in collaboration with the Genesee County Health Department, the Michigan Department of Health and Human Services, US Environmental Protection Agency and other partners. (PEATF)

12a. Coordinate the intergovernmental, public and external affairs effort to ensure awareness and visibility of communications activities regarding Flint water crisis. (PEATF)

16a. Ensure a coordinated approach to public messaging and outreach with state partners. (PEATF)

Nutrition and Education Task Force (NETF):

11. Assess progress towards enhancing healthy food availability for the community. (NETF)

Health & Medical Task Force (HMTF):

22a. Provide nurse case management to Genesee County Health Department. (HMTF)

24. Identify optimal mechanisms to track and share lead-related data with MDHHS and Genesee County Health Department stakeholders. (HMTF)

26. Build community capacity and capabilities through Psychological First Aid (PFA) training. (HMTF)

27a. Support development of stress management resources for community-based responders. (HMTF)

28. Develop a community-driven behavioral health response plan with immediate, intermediate, and long-term objectives. (HMTF)

29a. Facilitate development of behavioral health data and gap analysis plan. (HMTF)

30. Ensure that all appropriate HHS resources / programs are engaged and available to support the Flint water crisis. (HMTF)

4. Operational Period Command Emphasis:

Coordinate and support local and State government to provide Federal support to meet the needs of the Flint Community during the Water Crisis.

General Situational Awareness: Weather- see weather attachment

5. Site Safety Plan Required? No ☐ Yes ■

Approved Site Safety Plan(s) Located at:

6. Incident Action Plan (the items checked below are included in this Incident Action Plan):

ICS FORM 204 ASSIGNMENT LIST	1. Incident Name FLINT WATER CRISIS	2. Operational Period (Date/Time): O Period #10 Feb 18 0800 to Feb 25, 2016, 0800

3. TASK FORCE: **PUBLIC & EXTERNAL AFFAIRS TASK FORCE**

4. Operations Personnel: Position	Contact Information
Operation Section Chief (OSC): Tim Gleeson (HHS)	irct1.ops@hhs.gov
UCG Member (ASPR): Elleen Kane	elleen.kane@hhs.gov
Task Force Lead (ASPR): Elleen Kane	elleen.kane@hhs.gov

5. Resources Assigned

Agency	Resource Leader Name	Leader Contact Information	Total # of Persons	Work Assignments	Reporting Location/Time
HHS	Elleen Kane		6	a. Develop, review and approve for use, required informational products, based on operational needs. b. *Provide background information to visiting* officials. c. Help plan, coordinate and staff HHS Secretary Burwell visit Feb 18 d. Work with State JIC to develop a joint communications strategy to secure more 'call to action' messages utilizing current products and websites that are relevant to Flint residents and community leaders. e. *Continue to update key stakeholders and* partners on a recurring basis. f. Maintain inventory of public messaging products at all levels to assess what is currently available. g. Collaborate and engage with Flint Recovery Communication and Education Points of Recovery Groups.	UCG Flint

				h. Coordinate with the State JIC public messaging regarding verification of credentials in the field.	
HHS	Annemarie Marchi	)	1	i. Update Stakeholders Database as new information becomes available. j. Maintain Speakers Bureau Log of relevant community meetings and events; make recommendations regarding attendance of federal personnel	UCG Flint

6. Special Instructions or Resource Needs:
Report task force situation report for previous day by 0900 to UCG Flint Planning section via email to: irct1.plan@hhs.gov
Be aware of your surroundings while walking or driving. Winter weather conditions will cause slick roads and walking surfaces. Do not travel alone, use the buddy system. Do not drink Flint water. Report all injuries as soon as possible to operations and safety.

Please be constantly aware of your surroundings. Recognize LIFE SAFETY is always the first priority. Should you encounter any situation, person or device that creates concern use means of egress to access a safe space. You should always identify two means of egress leading to safe spaces. If any situation becomes untenable or leads to unrest notify police and your Task Force Leader. Maintain situational awareness at all times.

7. Prepared by: Annemarie Marchi 17 Feb 2016

ICS FORM 204 ASSIGNMENT LIST	1. Incident Name FLINT WATER CRISIS	2. Operational Period (Date/Time) : OPeriod #10 18 Feb 0800 to 25 Feb 0800

3. TASK FORCE: **HEALTH & MEDICAL TASK FORCE**

SAFETY MESSAGE/PLAN (ICS 208)

ASPR
ASSISTANT SECRETARY FOR PREPAREDNESS AND RESPONSE

1. Incident Name: Flint Water Crisis,	2. Operational Period: Date From: 02/18/16 Date To: 02/25/16 Time From: 0800 Time To:2000

3. **Location:** Genesee County Burton Health Clinic, 3373 Saginaw Street, Flint, MI 48503

4. **Site Emergency Action Plan:** (Alarm and Evacuation Signal, Route and Rally Point, Accountability and Critical Material/Process Actions): Evacuation routes posted on back of room door. Know your closest egress and have a second in case your route is unavailable. Building has smoke detectors and *fire detection automated sprinkler system. Follow the mapped routes for evacuation and have* predetermined rally point for accountability for Operations. AED is located in Laboratory on the wall next to the first aid kit.

5. **Hazardous Areas/Work Prohibitions:** (Prohibited Areas or Activities): Use the buddy system when it is necessary to go out. Do not travel alone. Temperatures are ranging from the middle 40's to the 20's and below . This results in snow and ice melting in the warmer temperatures and freezing again when temperatures drop and creating hazardous driving conditions and slippery footing. MAINTAIN SITUATIONAL AWARENESS.

6. **Sanitation:** (Toilets, Hand Washing, Shower, Waste Locations or Protocol): Wash hands regularly and *before meals and after restroom use. Dispose of waste in appropriate containers. If you are billeted in* a facility on Flint water DO NOT DRINK FLINT WATER. Our instructions are showering is acceptable. Ingestion from drinking is not.

7. **Security:** (Control Point and Site Security Protocol): Hotel has key card entry to rooms and on outside entry doors in the evening. Don't leave your valuables in your room. Use additional dead bolt provided to lock your door. Don not allow entry persons unknown to you.

7. Safety Officer: Bill Kershner	Contact:

8. **Prepared by:** Name: Bill Kershner Position/Title: Safety Officer Signature:
Date/Time: 02-17-16 1445

SAFETY MESSAGE/PLAN (ICS 208)

ASPR
ASSISTANT SECRETARY FOR PREPAREDNESS AND RESPONSE

1. Incident Name/Location: Flint Water Crisis	2. Operational Period: Date From: 2/18/16 Date To: 2/25/16 Time From: 0800 Time To: 0800

3. **Location:** UCG Flint/ DTMB Building 125 East Union St, Flint MI

4. **Site Emergency Action Plan (Alarm and Evacuation Signal, Route and Rally Point, Accountability and Critical Material/Process Actions):** UCG operating from Administration Building; if fire alarm activates exit building through fire tower stairways located in the elevator lobby and near cargo elevator, UCG Plans will have copy of current personnel assigned and be responsible for accountability, rally point will be across from main lobby entrance in front of parking garage. Do not return to the building until given the all clear by Command.

5. **Hazardous Areas/Work Prohibitions (Prohibited Areas or Activities):** Avoid construction area in the main lobby. Rain and snow are expected and appropriate cold weather and rain gear should be in use. Driving conditions change with the weather. Temperature fluctuations result in wet pavement becoming ice and dangerous driving and walking conditions. Seat belt use is mandatory in rental cars in addition to all government vehicles.

6. **Sanitation (Toilets, Hand Washing, Shower, Waste Locations or Protocol):**
   - Facility has indoor restrooms to support up to 100 people (normal daily use).
   - Use refuse containers deployed about work area.
   - Please separate recyclables and deposit in appropriate containers (marked).
   - Regular hand washing is recommended. Wash hand after restroom use and prior to eating.
   - Canned and bottled water is available in the UCG.

7. **Security (Control Point and Site Security Protocol):** All personnel will wear issued identification and check with security in lobby when entering building if they have no building access card. Do not leave valuables in your car or your hotel room.

Do not travel alone. Use the buddy system.

7. Safety Officer Bill Kershner Contact:	2/17/16 1445

SAFETY MESSAGE/PLAN (ICS 208)

1. **Incident Name:** Flint Water Crisis	2. **Operational Period:** Date From: 2/18/16 Date To: 02/25/16 Time From: 0800 Time To: 0800

3. **Location:** Genesee Health Systems, 420 West 5th Avenue. , Flint Michigan, 48502 PHS Officers

4. **Site Emergency Action Plan:** (Alarm and Evacuation Signal, Route and Rally Point, Accountability and Critical Material/Process Actions): Evacuation routes posted in the main hall adjacent to where personnel are working. Capt. Farabaugh, Cdr William Ruiz-Colon, and Cdr. Carma Ayala will brief crews on their evacuation routes. Evacuation point is corner of 3rd and Saginaw for accountability. Follow instructions of law enforcement when given. Building has automatic sprinklers, fire and smoke detectors. Exits are clearly marked and shown on evacuation maps located on each floor. Report illness/injury as soon as possible to Operations and Safety. All injuries/illness must be recorded in e-comp with Admin/Finance and Safety Officer.

5. **Hazardous Areas/Work Prohibitions (Prohibited Areas or Activities):** Use the buddy system when it is necessary to go out. Do not travel alone. Temperatures are ranging from the middle 40's to the lower 20's. Use cold weather gear and rain gear as needed. This results in snow and ice melting in the warmer temperatures and freezing again when temperatures drop and creating hazardous driving conditions and slippery footing. MAINTAIN SITUATIONAL AWARENESS. *If assigned to do sampling in private homes be* aware of any slip, trip, and fall hazards and pets in the home that might be hazardous.

6. **Sanitation (Toilets, Hand Washing, Shower, Waste Locations or Protocol):** Wash hands regularly and before meals and after restroom use. Dispose of waste in appropriate containers.

7. **Security (Control Point and Site Security Protocol):** Security Officers are in the building on the first floor. Travel in pairs utilizing the buddy system or larger groups. Do not travel alone. If you see any behavior you believe to be odd report it to Command. If you see something say something.

8. Prepared by: Name: Bill Kershner Position/Title: Safety Officer Signature:
Date/Time: 2/17/16

UNIFIED COMMAND GROUP – FLINT, MI
SAFETY MESSAGE 2-18-16

Travel:

Adjust your driving speed and distance between vehicles with wet/slippery driving conditions. Freezing weather and snow will produce icy conditions on roadways and walking surfaces. Wear appropriate cold weather gear. Limit driving and walking in these conditions as much as is realistic.

Report vehicle accidents through the chain of command as soon as possible. Supervisory personnel will investigate all accidents as per agency procedure.

If you are not experienced driving in snow and icy conditions ask for some help. If you are uncomfortable ask and a ride can be provided for you.

Illness and Injury:

Report all illness and injuries as soon as possible to your supervisors and to Safety and the Operations Section. Maintain situational awareness of your surroundings at all times.

Personal Safety:

Travel utilizing the buddy system of at least two persons more is recommended.

Due to the ongoing water crisis, do not drink City of Flint water.

Security:

According to FBI crime data, Flint, Detroit, Pontiac, and Saginaw are consistently ranked among the most violent cities in the United States. The Michigan State Police is providing enhanced law enforcement services to these cities. These services require the addition of enforcement personnel to the post areas that service these cities. While road patrol troopers are often the most recognized MSP asset, there is also a joint Major Crimes Detective Bureau that includes the MSP and the Flint Police Department. The detective bureaus are supported by criminal intelligence analysts who have daily interaction with the detectives, as well as the state's fusion center, the Michigan Intelligence Operations Center (MIOC).

If necessary, uniform officers can accompany teams. This will be coordinated through the local and/or the state EOC.

FOR EMERGENCIES CALL 911
Flint Police Department Front Desk: 810-237-6800

Genesee County dispatch 810-397-3485

MSP operations: 517-241-8000.

If you receive calls requesting personal information, credit card numbers, never do that over the phone insist on face to face conversations to verify it is a legitimate representative from where ever you were told they were from. Report any attempts, you think, were attempts at fraud.

Operational Period 10 Weather Forecast:

Thursday
Increasing clouds, with a high near 31. Wind chill values as low as -5. South wind 6 to 14 mph, with gusts as high as 18 mph.
Thursday Night
A chance of snow showers, freezing rain, and sleet. Cloudy, with a low around 28. Breezy, with a south southeast wind 17 to 23 mph, with gusts as high as 26 mph. Chance of precipitation is 30%.
Friday
A chance of showers. Cloudy, with a high near 52. Breezy, with a south wind around 23 mph, with gusts as high as 34 mph. Chance of precipitation is 40%.
Friday Night
Mostly cloudy, with a low around 39. Windy.
Saturday
Partly sunny, with a high near 47.
Saturday Night
Mostly cloudy, with a low around 32.
Sunday
Mostly cloudy, with a high near 44.
Sunday Night
A chance of snow showers. Mostly cloudy, with a low around 28.
Monday
A chance of snow showers. Mostly cloudy, with a high near 35.
Monday Night
Mostly cloudy, with a low around 20.
Tuesday
Partly sunny, with a high near 33.

Cc: MSP-SEOCSDEM; Katarsky, Anthony (MSP); FEDERALSEOC; MSP-SEOCOPSC; MSP-seoclgc
Subject: RE: List of those on on the Flint Water System

Sir,

We can currently provide this list with property owner and tax payer for single tenant properties (residential, commercial, and industrial). However, multi-tenant remains a challenge as there currently is a single file that contains all of the unit level information.

That said, we had a meeting with ESRI (mapping vendor) yesterday and specifically discussed this issue. As part of this we developed a strategy for building this list per your guidance. The key note that was discussed with ESRI is that Computer Aided Dispatch (CAD) systems are most often used nationally by local jurisdictions when they do similar work to pull master lists from.

As such, we began coordination yesterday with state CAD administrators to try and get the data from them. However, they noted that the information they have is dated and we would need to go direct with Genesee County for this information. We plan to attempt to go direct with them today. That said, the state administrators also noted that the county CAD does not appear to be comprehensive based on the dated information they have.

Knowing CAD would also potentially be an incomplete list, we believe the solution that needs to be executed is to use "address standardization" tools to combine all of our known lists together. Currently, DTMB/CSS has a tool they use for this in house and we have begun coordination to pass them information and build the dataset. DTMB/CSS already has the ability to pull from common state addressing sources (secretary of state, licensing sources, etc.). However, we would need to provide our field team activity, CAD Data, and potentially a master list from postal service to DTMB/CSS to really flesh things out.

I write all of this detail to highlight that the building of this list may take more time than we are being allotted, although, it is achievable. Especially, when you consider that we have significant labor to do still to fulfill the FOIA request (approximately 10-20 staff hours). With the FOIA, I would anticipate we could complete this by the middle of next week to have something for you.

As an alternative (not knowing the intended use of the master list), ESRI also noted that many large municipalities use crowd sourcing apps when they are facing incomplete lists to address citizen issues until a list can be built. We can built a crowd sourcing app very quickly based on mission need. Example may include a website citizens can go to, to notify the state that they need a replacement cartridge, or where they could submit photos of their water meters for plumbers to evaluate if they are led based on appearance.

Subject: List of those on on the Flint Water System
Importance: High

I need a list of all addresses of those on the Flint water system. Apartments need to be shown as such with the number of apartments. Also, all franchise customers need to identified. Would like full address and names if possible.

Would like no later than Friday or sooner. Who can do this??

Thanks in advance.

Dept. of Finance

Subject: Financial Data – Estimate of Water Emergency and DWSD Switchover Costs

In response to the State's request for all costs associated with the water emergency and the switchover to and from the Flint River Water for the period April 2014-October 2015, please note the following:

1. Equipment and supplies totaled $18,427,859.29
2. Listing of Consumers Energy invoices detailing increased electric costs in the amount of $728,392.92
3. Personnel overtime costs associated with the after-hour and emergency water treatment totaling $160,340.57
4. Emergency IT related purchases in the amount of $249,732.82
5. Purchase of treated water from Detroit Water and Sewer Department $2,000,000

Please note that the supporting documentation, including accounts payable and payroll registers detailing overtime costs, is attached. These registers were reviewed by Water Plant Supervisor Brent Wright and Utilities Accounting Coordinator Yolanda Gray. In turn, they provided our office with a listing of those costs that were applicable.

Please let me know if you require additional information.

Dept. of Finance

Subject: Financial Data – Estimate of Water Emergency and DWSD Switchover Costs

In response to the State's request for all costs associated with the water emergency and the switchover to and from the Flint River Water for the period April 2014-October 2015, please note the following:

1. Equipment and supplies totaled $18,427,859.29
2. Listing of Consumers Energy invoices detailing increased electric costs in the amount of $728,392.92
3. Personnel overtime costs associated with the after-hour and emergency water treatment totaling $160,340.57
4. Emergency IT related purchases in the amount of $249,732.82
5. Purchase of treated water from Detroit Water and Sewer Department $2,000,000

Please note that the supporting documentation, including accounts payable and payroll registers detailing overtime costs, is attached. These registers were reviewed by Water Plant Supervisor Brent Wright and Utilities Accounting Coordinator Yolanda Gray. In turn, they provided our office with a listing of those costs that were applicable.

Please let me know if you require additional information.

Yes. She can give you the list. I didn't want to take it because of privacy concerns, but she can give it to you. She has a spreadsheet.

Subject: RE: FLINT ISD taskers and email intro

If possible, I would like the list of addresses as we still have five teams in the field going to homes missed. Since the survey we may have gotten to some of those areas. We just found some mobile home parks that were missed and have since visited them which could have been some of the 142.

Let me know if we can get the addresses. I will give Dr. Hagel a call on the bulk recipient idea.

Chris

Subject: FLINT ISD taskers and email intro

Email intro:

Chris and Mel: Dr. Lisa Hagel is the Superintendent of the Genessee County ISD. As discussed yesterday, she had a survey sent home with the kids that indicated 142 homes without water filters. She also has a phone "alert system" to all the kids parents and runs a backpack program. Her phone number is

Dr. Hagel: Capt Chris Kelenske runs the State Emergency Operations Center and Melanie Brown runs the State Joint Information Center.

Taskers and good ideas:

1.) We need to set up the ISD as a bulk recipient of commodities. They don't have enough water or filters. Also, they can send commodities home with the kids. Dr. Hagel to explain what she envisions for distribution as she already has a system in place but is under-resourced.

2.) Dr. Hagel has the names and addresses of the 142 families that say they have no filter. We need to circle around to those locations to validate. She has some concerns about folks answering doors so that may be a challenge that needs to be addressed.

3.) Mel: *Is there some way to leverage Dr. Hagel's communication systems and relationships with these families to* better our dissemination of messaging and strategic communications? At the very least, this is a good news story.

4.) Mel: Dr. Hagel conducts a "lead impact meeting" every Monday at the ISD. This looks like an opportunity to send one of your folks to give/receive important information on what the parties are doing/information. Dr. Hagel to explain. When you set this up, let me know the details. Either Rich or myself will attend one.

Let me know what I can do to help and thanks in advance,

Kevin

Thursday, February 18, 2016
HHS awards $500,000 in funding to Flint health centers
FLINT, Mich. – U.S. Department of Health and Human Services Secretary Sylvia M. Burwell today announced $500,000 in funding to help two area health centers increase and expand activities in response to the lead contamination of Flint's water.

Following a tour of the Hamilton Community Health Network, Inc. (HCHN), Burwell and HHS Assistant Secretary for Preparedness and Response Dr. Nicole Lurie, who is leading the federal response and recovery effort in Flint, announced that HCHN and Genesee Health System (GHS) will each receive $250,000 in emergency supplemental funding to hire additional personnel and provide more lead testing, treatment, outreach, and education to meet the increased need for health services in the Flint community.

"We are focused on supporting the people of Flint by helping to ensure they have access to clean water and the health services they need to mitigate the effects of lead exposure," said Burwell. "This additional funding will allow health centers in Flint to enhance their lead testing efforts and quickly hire more staff for community outreach and to better meet the needs of the people they serve."

In addition to touring HCHN, Burwell met with community members and elected officials, including Governor Rick Snyder, about the federal government's response and recovery effort. The focus of the federal response is to work at every level of government to support state and local officials in ensuring Flint has access to safe water, and there is a clear understanding of the impact of lead exposure on residents' health in order to mitigate the damage.

"Primary care, which includes ongoing lead screening, follow up, and continued attention to a child's development, is important for children in Flint," Lurie added. "The funding we're announcing today is one of many ways we are supporting health recovery for the community, and we will continue to look across federal programs, including in health, nutrition and education, to assist the people of Flint."

Last week, during a meeting with members of House Democratic leadership and the Michigan delegation, Burwell and Lurie confirmed that HHS anticipates being able to quickly approve a number of requests, including a major Medicaid coverage expansion for children and pregnant women in Flint that would include blood-lead level monitoring, behavioral health services nutritional support, and comprehensive targeted case management, among other services.

More than 1,300 health centers, supported by Health Resources and Services Administration, operate approximately 9,000 service delivery sites in every U.S. state, D.C., Puerto Rico, the Virgin Islands and

the Pacific Basin. These health centers employ more than 170,000 staff who provide care for nearly 23 million patients. For millions of Americans, including some of the most vulnerable individuals and families, health centers are the essential medical home where they find services that promote health, diagnose and treat disease and disability, and help them cope with environmental challenges that put them at risk.

Subject: FEMA Region V DSAR 02-18-2016

FEMA Region V Daily Situational Awareness Report
DATE: 02/18/2016

REGION V RESPONSE STATUS:

- **RRCC:** Watch / Steady State
- **IMAT:** Blue
  - *Alpha: deployed to Lansing, Michigan in support of MI-3375-EM*
  - Bravo: deployed to Flint, Michigan in support of HHS UCG
  - Charlie: Collateral IMAT
- **LNO:** *Cornelius Miller*

REGION V SEOC STATUS:

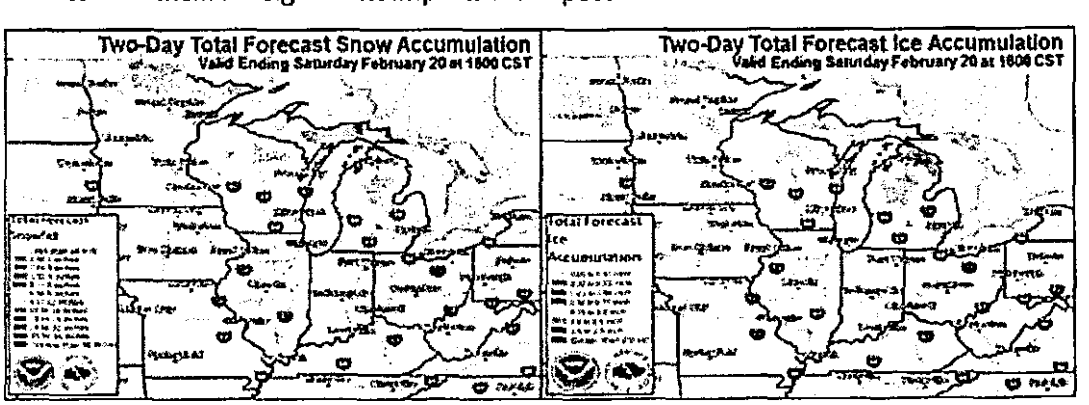
- **Illinois:** Normal Operations
- **Indiana:** Normal Operations
- ***Michigan:*** Full Activation (Flint Water Emergency)
- **Minnesota:** Normal Operations
- **Ohio:** Normal Operations
- **Wisconsin:** Normal Operations

NATIONAL TERRORISM ADVISORY SYSTEM (DHS): Bulletin (12/16/2015 – 06/16/2016)

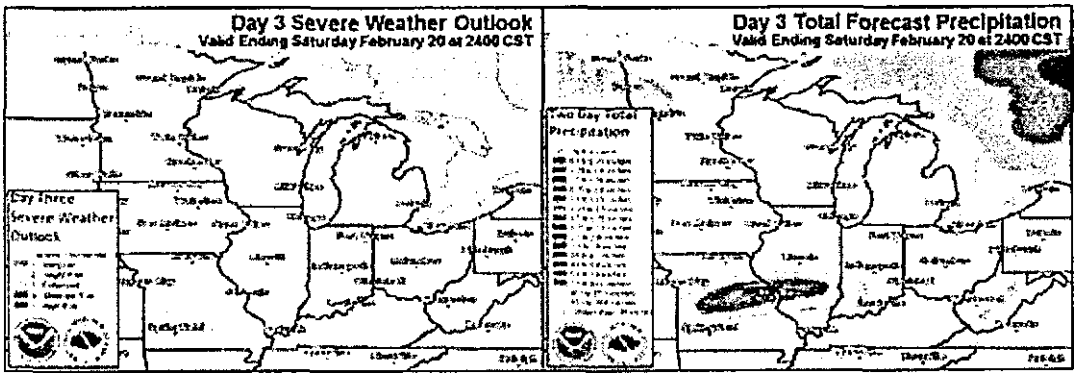
NOTEWORTHY EVENTS: Nothing significant to report.

SIGNIFICANT WEATHER (NWS, SPC)**:**

- **Today and Tonight.** A cold front will move southward and eastward across the Upper Midwest and Great Lakes today, bringing light snow and freezing rain to parts of Minnesota, Wisconsin, and Michigan.
  - A Winter Weather Advisory has been issued for parts of northeastern Minnesota from 1800 CST tonight until 0600 CST tomorrow morning. Light snow and light freezing rain are possible, making travel difficult. No significant accumulations are expected.
  - Light freezing rain is also possible across larger parts of northern Minnesota, northern Wisconsin, and most of Michigan. Although most areas should see less than 0.10 inch, parts of northeastern Lower Michigan could see up to 0.25 inch. No significant impacts are expected.



- **Extended Outlook.** Strong winds are possible across the northern half of the Region Friday into Saturday, but no significant impacts are expected. Isolated thunderstorms are possible across parts of southern Illinois, southern Indiana, and southern Ohio on Saturday, but no severe weather is expected. Temperatures will continue to warm through the weekend.



HYDROLOGIC CONDITIONS (AHPS): Flood Warnings remain in effect along the Kaskaskia River in Illinois. No significant impacts have been reported and none are expected.

FIRE CONDITIONS (SPC): Nothing significant to report.

REGION V DISASTER SUMMARY:
- **Declaration Requests:** None.
- **PDA Summary:** None.
- **Disaster Declarations:** FEMA-3375-EM provides emergency assistance for water, water filters, water filter cartridges, water test kits and other necessary related items for a period of no more than 90 days for Genesee County.

TRAINING EVENTS:
- **Feb 17-18:** L-213 Application Review, Indianapolis, IN
- **Feb 29-Mar 1:** REP Core Concepts Course (RCCC); Manitowoc, WI
- **Mar 1-2:** L-276 Benefit Cost Analysis, Indianapolis, IN
- **Mar 2-4:** REP Plan Review Course (RPPR); Manitowoc, WI
- **Mar 3-4:** L-214 Hazard Mitigation Assistance Implementation & Closeout
- **Mar 21-24:** REP Exercise Evaluator Course (REEC); Madison, WI
- **Mar 25:** REP Exercise Controller Course (RECC); Madison, WI
- **Apr 4-7:** L580 Emergency Management Framework for Tribal Governments; Leech Lake Band of Ojibwe, MN
- **Apr 18-21:** REP Exercise Evaluator Course (REEC); Springfield, IL
- **Apr 22:** REP Exercise Controller Course (RECC); Springfield, IL
- **May 3-5:** L207 Introduction to Hazard Mitigation Field Operations; Chicago, IL

EXERCISE EVENTS:
- **Feb 18:** FEB COOP Devolution FSE; Detroit, MI
- **Mar 3:** Indiana Cyber (Power Disruption) TTX; Camp Atterbury, IN
- **Mar 16:** FEB COOP Devolution FSE; Cincinnati, OH
- **Mar 30:** RV/RII Devolution TTX (Phase II); Chicago/New York (via VTC)
- **Apr 6:** Braidwood REP; IL
- **Apr 18:** FEB COOP Reconstitution TTX; Chicago, IL
- **Apr 20:** NSSE RNC SL TTX; Cleveland, OH
- **Apr 26:** Palisades REP; MI
- **Apr 27:** America's Preparathon

Very Respectfully,

Sent: Thursday, February 18, 2016 12:57 PM
To: Kelenske, Chris (MSP)
Subject: Appeal Extension Letter
Attachments: Appeal Ext Req.docx

The draft correspondence requesting an extension to the appeal period is attached for your review. We need to get this out as soon as possible to allow FEMA time for review and decision making. I have instructed Tom Weber to proceed with the appeal as though an extension will not be granted. I have asked for 30 additional days.

The letter still needs to be formatted.

Elizabeth A. Zimmerman
Associate Administrator
Office of Response and Recovery
Federal Emergency Management Agency
500 C Street SW
Washington, DC 20472

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Ms. Zimmerman:

Under the provisions of 44 C.F.R. § 206.46(d), I hereby request an extension until March 6, 2016 to submit an appeal for the denial of the Individual and Households Program (IHP), the Hazard Mitigation Grant Program (HMGP), as well as emergency protective measures (Category B) under the Public Assistance program for FEMA-3375-EM-MI. Pursuant to 44 C.F.R. § 206.46(d), I am submitting this written request for an extension within 30 days of the date of denial received on January 22, 2016.

As support of this extension request, I offer the following information:

The State of Michigan has requested documentation from the City of Flint to support our appeal, but to date, the city has not been able to supply this information. On February 12, 2016, Mayor Weaver terminated the city administrator, significantly complicating the ability of the city to provide information requested by our office.

Submittal of disaster related costs without the City of Flint's data will eliminate a major component of the basis for our appeal. This time extension is necessary due to the inability of the city to compile the information needed to support our appeal within the given time frame.

At this juncture, three days remain of the 30-day window to request an appeal as specified in 44 C.F.R. § 206.46. Therefore, it is necessary to request an extension to allow the State of Michigan the time necessary to properly develop the appeal for the denial of the Individual and Households Program (IHP), the Hazard Mitigation Grant Program (HMGP),as well as emergency protective measures (Category B) under the Public Assistance program for FEMA-3375-EM-MI. An extension of 30 days, until March 22, 2016, will allow the City of Flint to assemble information and the State of Michigan to conduct the required analyses to develop the appeal request.

Sincerely

Elizabeth A. Zimmerman
Associate Administrator
Office of Response and Recovery
Federal Emergency Management Agency

Subject: Timeline

Capt:

I pulled together a timeline of contact made with the locals for Category B information needed for the appeal. Lt. Roach continued reaching out to the city as well.

January 25, 2016 – Call Genesee County EM Chris DeVriendt to discuss need for Category B costs for possible appeal if denied by FEMA. He was going to reach out to Keith Francis, Controller for Genesee County, Shawn Kammer with the City of Flint and Mike Glasgow with the City of Flint DPS.

I was contacted by Keith Francis the same afternoon to discuss what was needed and timelines for completion.

January 26, 29, February 1 and 8 – Continuing discussions with Keith Francis from Genesee County.

February 1st – Still have no information from City of Flint and no contact. Engaged Lt. Roach to reach out to Sean Kammer for this information. Advised that Natasha Henderson would be the POC for the City of Flint.

February 2nd – Received initial report of category B costs from Genesee County. Requested details to accompany the report for determining costs were actually Category B in nature.
Advised by Lt. Roach that Natasha Henderson deferred to Sean Kammer as City POC.

February 8th – Received additional information from Genesee County as requested. This information has been included in the amounts compiled for the FEMA appeal.

February 10th – Talked to Sean Kammer about the information still needed. He was going to reach out to City of Flint Finance again.

February 12th – Received a report from Sean Kammer that only outlined costs incurred for January 2016. Contacted Sean to let him know this was not the information needed. Talked to Vickie Foster from City of Flint Finance to discuss information needed for the FEMA appeal. There was another person on the call who indicated they were from the water plant and that there were a lot of costs they were unsure of. Advised they should send anything they think may qualify and we will review all costs to ensure nothing is missed.

February 18th – Still no data from City of Flint.

Kevin

The response to those who email should be that they enter their information in the database versus us doing it. We will not be entering vendor information in the website for them.

Thanks Allison for your reply! Pleased to know that the Governor's committee is filled already.

Am confident the brand new Governor Team will work with the leaders of the City, State and the Federal government as well as our legislature to lead us to the finish line in the earliest possible date.
I applaud the courage , leadership, and commitment the Governor has shown in taking charge of this challenge.
As an independent water treatment professional over 37 years in the State of Michigan, I stand ready to volunteer to serve the needs of Michigan. Areas of my expertise that could help stakeholders include water chemistry and treatment(taught water treatment at U M in Ann Arbor in 1980), engineering design and construction management with practical costs in Michigan(1978-present), and environmental leadership in research and development. If opportunity arises in the future, I will be ready to provide advice to the Team on developing approaches that are comprehensive, fair, and practical.

Dear Allison Scott,

This is Melia from Rc Unique ,I write to offer solutions for Flint water crisis ,I read online that your government is working very hard to offer free drinking water and filters to local citizens ,We are very concern about local citizens that we would like to help .our company has a technology that can clean up the corroded water pipes for residents with 2-3 hours for individual house .But to make sure the residents get clean water ,there are three steps .

1,the water source is clean water .
2.the corroded public water pipes are replace or cleaned .
3,we can offer equipment and technology support for cleaning up the residents corroded water pipes .

So far our technology only works for residential ,instead of replacing all the corroded water pipes which will takes so much money and so long time .with our equpiment and technology ,we can clean up each individual house with 2-3 hours .in this way ,the entire house get cleaner water .Like I said ,what we can do is the third step .first and second still up to your government .if you want to know more information about us ,pls take few minutes to check our website ,let me know how we can help .thanks .

2016-02-02

Best regards!

As an independent water treatment professional over 37 years in the State of Michigan, I stand ready to volunteer to serve the needs of Michigan. Areas of my expertise that could help stakeholders include water chemistry and treatment(taught water treatment at U M in Ann Arbor in 1980), engineering design and construction management with practical costs in Michigan(1978-present), and environmental leadership in research and development. If opportunity arises in the future, I will be ready to provide advice to the Team on developing approaches that are comprehensive, fair, and practical.

State Partners Again with MSU Student Athletes in Flint to Help With Recycling and Water Distribution Efforts

Recycling Site Open Saturday, Feb. 20, from Noon to 4 p.m.

Flint, Mich. – Student athletes from Michigan State University will once again partner with Schupan Recycling, Republic Services and the Michigan Community Service Commission (MCSC) to aid in recycling and water distribution efforts in Flint on Saturday, Feb. 20. These efforts will include collection of empty water bottles, distribution of recycling bags and information on how to participate in curbside recycling.

Recycling collection and water distribution will take place Saturday from noon to 4 p.m. in the parking lot of the Northwest Shopping Center, 2629 West Pierson Road, Flint, MI 48504 (corner of Clio Road and W. Pierson Road).

"Our first recycling event was so successful that the MSU students wanted to come back and help again," said Ginna Holmes, executive director of MCSC. "We are grateful for their contributions, as well as the contributions of Schupan and Republic for donating their recycling services and expertise."

Residents are asked to bring their empty water bottles to this location. Schupan Recycling will collect the bottles to process for turning into new products. Residents can also sign-up for curbside recycling from Republic Services.

Daily water distribution is ongoing at fire stations 1, 3, 5, 6 and 8. When picking up water, residents will be given a recyclable bag, donated by Petoskey Plastics, and instructions on how to recycle their water bottles either curbside or at a Schupan Recycling trailer location.

Recycling trailers are located at fire stations 1, 5 and 8, along with 3008 Airpark Drive S (Comcast) and 4119 North Saginaw (Empowerment Village).

Media is invited to attend the Saturday event.

Michigan.gov/flintwater has key information in American Sign Language and four other languages

FLINT, Mich. – To ensure all communities in Flint have the information they need, the State of Michigan continues to add to its inventory of communication materials. Key informational materials related to the Flint water crisis are available in Spanish, Mandarin Chinese, Arabic and Hmong, as well as American Sign Language (ASL).

"It is vital that all Flint residents, regardless of their native language, have access to the information and resources they need during this emergency," said Governor Rick Snyder.

The Michigan School for the Deaf is located in Flint, and the area is home to a large population of individuals who are deaf. The State is working on making critical information available in American Sign Language, including this video.

"Flint is home to a number of individuals who may not be proficient in English, including a significant community of people who use American Sign Language," said Agustin Arbulu, Director of the Michigan Department of Civil Rights. "It is critical that they have access to the same important information we're providing to everyone, in a form they can understand."

After consulting with community leaders and the Michigan Department of Civil Rights, the state worked with certified translators to have key documents translated to ensure important information is available to those with no or limited English comprehension.

Translated documents are available in the "Alternative Language Resources: Español - 中文 - العـــربي" area of www.michigan.gov/flintwater. Further, our federal partners have resources available in Spanish, traditional Chinese, simple Chinese, Vietnamese, and Korean available at www.epa.gov/flint.

For additional information related to the response in Flint, visit www.michigan.gov/flintwater.

To: lhagel@geneseeisd.org
Cc: Brown, Melanie (DEQ); Kelenske, Chris (MSP); Baird, Richard (GOV)
Subject: FLINT ISD taskers and email intro

Email intro:

Chris and Mel: Dr. Lisa Hagel is the Superintendent of the Genessee County ISD. As discussed yesterday, she had a survey sent home with the kids that indicated 142 homes without water filters. She also has a phone "alert system" to all the kids parents and runs a backpack program. Her phone number is

Dr. Hagel: Capt Chris Kelenske runs the State Emergency Operations Center and Melanie Brown runs the State Joint Information Center.

Taskers and good ideas:

1.) We need to set up the ISD as a bulk recipient of commodities. They don't have enough water or filters. Also, they can send commodities home with the kids. Dr. Hagel to explain what she envisions for distribution as she already has a system in place but is under-resourced.

2.) Dr. Hagel has the names and addresses of the 142 families that say they have no filter. We need to circle around to those locations to validate. She has some concerns about folks answering doors so that may be a challenge that needs to be addressed.

3.) Mel: Is there some way to leverage Dr. Hagel's communication systems and relationships with these families to better our dissemination of messaging and strategic communications? At the very least, this is a good news story.

4.) Mel: Dr. Hagel conducts a "lead impact meeting" every Monday at the ISD. This looks like an opportunity to send one of your folks to give/receive important information on what the parties are doing/information. Dr. Hagel to explain. When you set this up, let me know the details. Either Rich or myself will attend one.

Let me know what I can do to help and thanks in advance,

Kevin

Subject: RE: List of those on on the Flint Water System

Sir,

We can currently provide this list with property owner and tax payer for single tenant properties (residential, commercial, and industrial). However, multi-tenant remains a challenge as there currently is a single file that contains all of the unit level information.

That said, we had a meeting with ESRI (mapping vendor) yesterday and specifically discussed this issue. As part of this we developed a strategy for building this list per your guidance. The key note that was discussed with ESRI is that Computer Aided Dispatch (CAD) systems are most often used nationally by local jurisdictions when they do similar work to pull master lists from.

As such, we began coordination yesterday with state CAD administrators to try and get the data from them. However, they noted that the information they have is dated and we would need to go direct with Genesee County for this information. We plan to attempt to go direct with them today. That said, the state administrators also noted that the county CAD does not appear to be comprehensive based on the dated information they have.

Knowing CAD would also potentially be an incomplete list, we believe the solution that needs to be executed is to use "address standardization" tools to combine all of our known lists together. Currently, DTMB/CSS has a tool they use for this in house and we have begun coordination to pass them information and build the dataset. DTMB/CSS already has the ability to pull from common state addressing sources (secretary of state, licensing sources, etc.). However, we would need to provide our field team activity, CAD Data, and potentially a master list from postal service to DTMB/CSS to really flesh things out.

I write all of this detail to highlight that the building of this list may take more time than we are being allotted, although, it is achievable. Especially, when you consider that we have significant labor to do still to fulfill the FOIA request (approximately 10-20 staff hours). With the FOIA, I would anticipate we could complete this by the middle of next week to have something for you.

As an alternative (not knowing the intended use of the master list), ESRI also noted that many large municipalities use crowd sourcing apps when they are facing incomplete lists to address citizen issues until a list can be built. We can built a crowd sourcing app very quickly based on mission need. Example may include a website citizens can go to, to notify the state that they need a replacement cartridge, or where they could submit photos of their water meters for plumbers to evaluate if they are led based on appearance.

Rich

Looking for some assistance via a nudge to the City of Flint.

We are having trouble getting data from the City of Flint for the appeal to FEMA. The city's information is critical. Thus far we have gotten an amount of $15,000 which is clearly not indicative of what this has cost them.

What we need from the City of Flint are any and all costs related to the water emergency – dating back to April 25, 2014 - that would fall into FEMA's Category B – Emergency Protective Measures. Category B costs are defined as measures to

save lives, to protect public health and safety, and to protect improved property. To be considered eligible, the emergency protective measures for property must eliminate or lessen immediate threats of significant damage to improved public or private property through cost-effective measures.

Some of the following examples may help the city in their review of financial information to locate all Category B costs:

* Security in the disaster/emergency area
* Provision of WATER and other essential needs at a central distribution point for use by local citizens
* Removal of health and safety hazards which includes any costs associated with the water treatment (increased chemical costs, etc.)
* Emergency protective measures to protect lives or improve property
* Building safety inspections (maybe the water plant)

They should also look at any activities that were performed to prepare for the disaster/emergency – like activation of a local EOC.

If they have any questions, please have them call Ms Penny Burger on her cell at . We have provided the above information to the city already but it clearly is not being looked at as an urgent item.

Thanks for any help with this.

Importance: High

I need a list of all addresses of those on the Flint water system. Apartments need to be shown as such with the number of apartments. Also, all franchise customers need to identified. Would like full address and names if possible.

Would like no later than Friday or sooner. Who can do this??

Thanks in advance.

Michigan House committee OKs $30M to cover Flint water bills
(AP)

Michigan: A Michigan legislative committee has approved spending $30 million to help cover the water bills of Flint residents confronting a lead-contaminated supply. The budget legislation unanimously OK'd Wednesday moves to the full House for consideration, possibly later in the day. It won approval from the Senate nearly two weeks ago. The bill backed by Republican Gov. Rick Snyder would cover about two-thirds of the water portion of people's water/sewer bills, dating back nearly two years. Republicans blocked Democrats' attempt to spend $60 million to fully cover waters bills, including water not consumed or used to cook or bathe. Separately, Snyder is pushing $165 million in additional spending over this fiscal year and next for lead pipe replacement, bottled water, filters, health care and other services.

Public Health

University Of Michigan Investigating Possible Norovirus Outbreak; Nearly 100 Students Sickened
(WDIV)

Ann Arbor, Michigan: The University of Michigan in Ann Arbor is investigating a possible outbreak of norovirus after nearly 100 students became ill. In a statement Wednesday, the university said between 75-100 students living in residence halls in the West and South quads sought treatment for symptoms, which include stomach pain, vomiting and diarrhea. "This appears to be a viral-type illness, like norovirus," says a health officer. "Test results sent to the Michigan Department of Community Health won't be complete until late Friday afternoon or early next week." According to the Centers for Disease Control and Prevention, norovirus is a very contagious. "Since norovirus is highly contagious, students who develop symptoms should isolate themselves in their rooms until they are symptom-free for 48 hours," the health officer said.

WHO Issues $56 Million Plan To Combat Virus In Coming Months
(Washington Post)

Americas: The World Health Organization (WHO) says it will take $56 million to kick start a coordinated international response to the Zika virus outbreak racing through much of the Americas, and the WHO plans to tap a newly created emergency contingency fund to pay for the initial efforts. The WHO expects the funds to come from member states and other donors and said that in the meantime it has tapped a new emergency contingency fund for $2 million to finance its initial operations. In an action plan published Tuesday, the organization said a hefty chunk of the money will go toward disease surveillance, which will include tracking new Zika cases and the suspected birth defects and rare autoimmune syndrome that scientists suspect are linked to the mosquito-borne virus. More funding will be used to help provide counseling to pregnant women, as well as to help communities with mosquito-control programs. Still more funds will go toward research to speed the development of new vaccines, treatments and diagnostic tests, as well as to study whether and how Zika is causing serious conditions such as microcephaly. More than half the money will be spread among a collection of international partners, including non-governmental organizations and research institutions such as Unicef, AmeriCares, Save the Children, the International Medical Corps and the University of Texas Medical Branch. The remaining funds will be disbursed within the WHO and its regional offices in the Americas -- known as the Pan American Health Organization -- to help carry out the plan through June.

Energy

Enbridge Says Sandpiper Pipeline Won't Start Up Until 2019

(AP)

Minnesota: Enbridge Energy Partners says it expects to push back until 2019 the start-up dates for its proposed Sandpiper pipeline and a replacement for its existing Line 3 pipeline because of the need for an environmental review. Company officials told analysts Wednesday the projects probably won't go into service until early 2019. The company previously said 2017. They also expect costs will be a little bit higher, but declined to say how much. The Minnesota Court of Appeals ruled in August that Sandpiper requires a full environmental review before the state can grant a certificate of need. Sandpiper would carry North Dakota oil across northern Minnesota to Enbridge's terminal in Superior, Wisconsin. The aging Line 3 carries Canadian crude and its replacement would share part of the same route as Sandpiper.

Law Enforcement and Intelligence

"All Clear" Given After BSU Suspicious Package Investigation

(WANE)

Muncie, Indiana: The Ball State University (BSU) student center was given the "all clear" after an earlier evacuation Wednesday afternoon when a "suspicious package" was delivered to the parking services office in the basement of the building. The building was cleared by police by 3:15 p.m. local time. Nearby Burris Laboratory School was placed on a "partial lockdown," according to an email distributed to parents, but Burris students were dismissed at the normal time. A BSU spokesperson said officials showed an "abundance of caution" in evacuating the building until the package could be examined.

Subject: RE: Conservation Corps and Long Term Commodity Distribution

You're working COA 4 for water distro transition as we read it. I'll call you tomorrow to talk it out. He wants to do the Seeds program for the CCC (beautification, trees, and such) and bifurcate that from the water distro transition. Completely separate at this point from the hiring program and water distro.

We were moving on COA4. So is COA 4 out? We would still use the "CCC" type program to hire but would use a direct distribute of replacement filters versus having replacements at the PODs.

We are getting granular on details/dates but hiring could start with personnel getting into the current PODs now.

Subject: Conservation Corps and Long Term Commodity Distribution

Attached are a few documents that eventually will come together to form a more solid plan.

One of the attached is how a conservation corps would potentially work in MI. There is some missing information in the document but it lays out courses of action with utilizing Seeds of Traverse City as a group to assist us. Seeds is an ecology based youth conservation organization that was created in 1999 in Traverse City. They currently have operations in the Upper Peninsula, Traverse City Area, and Sleeping Bear Dunes. They are a 501 (c)3 organization that has the capacity to expand their operations into Flint.

I am also sending the notes from my staff on the local hire program and I believe TIA sent you the potential list of jobs *which was also a part of this meeting.*

Lastly, are bullet points from the course of action I believe is appropriate to push the distribution of commodities from the current PODs to 9 PODs (one in each ward) with local citizens hired to staff the PODs. I also attached all the COAs we looked at (the ppt) and COA1 and COA4 scored the best. The recommendation was COA4 with some modifications I made.

COA4 – Long-term Distribution

- These would be mostly portable PODs (parking lots, near bus stops, etc).

- Churches and other organizations could be credentialed to get some commodities (I believe water only is appropriate due to the current status of homes with filters). Many faith based organizations are currently only providing water.

- If possible, we should go to water only at the PODs under this COA (or if we need to, go with a week of all commodities and then move to water only). We have almost 90% of the homes on the water system with filters which is why the water only at the PODs seems appropriate. *We always reserve the right to add commodities as needed for* groups such as populations that for whatever reasons need additional support.

- We will continue with rapid response teams for homebound or other functional need issues.

- The COA selected is for filter replacements to be shipped by a third party. This would likely be two filters every other month per home on the water system or what we end up with deciding but I do not believe we need to do this *every month based on current filter life. Cost is TBD at this time.*

- This would eventually phase out the NG from PODs.

- Requires 81 personnel to be hired under the jobs program.

This all needs to be distilled and finalized with more details but the city, county, state, and FEMA were involved in this. *Sean believes the Mayor will be on board and I advised him she would likely be the one delivering the message to show* the city wants this. Let me know if this direction seem appropriate and we will finalize with more details.

Memorandum for Record:

To: Captain Chris Kelenske, Michigan State Police

From: Lieutenant Colonel Robert Seeley, Michigan Department of Military and Veterans Affairs

Re: White Sheet for Michigan Conservation Corps

Possible Names:

Michigan Conservation Corps
Michigan Youth Conservation Corps
Michigan Youth Corps

Categories

Youth: 15-18 YOA
Member: 18 - 25 YOA
Leader / Mentor: over 25 YOA

Contacted:

Student conservation Association
California Conservation Corps
Texas Conservation Corps
Montana Conservation Corps
Washington Conservation Corps
Conservation Corps of Minnesota and Iowa
Vermont Youth Conservation Corps

Led to: Michigan Community Service Commission
Ginna Holmes, [1]

Led to: Seeds - Traverse City

Course of Action:

The Youth Conservation Corps model will be utilized for any of the following COA's. The model is a core organization, based on a 501(c)3 organization, that would become the fiduciary and management organization for the State. The existing organizations I spoke with are all tied to state government, but not completely run by state government. They operate as a Non Profit Organization that utilizes some state money (10% of their budget) and contracts with state, county, and local governments as well as for profit companies (90% of their budget) to complete works projects. They are mostly used for conservation and ecology types of projects, such as clearing out state parks, national parks, commercial properties, etc, planting trees, building and maintaining community gardens, beach restorations, etc. They are also used for disaster recovery, some of the Minnesota and Iowa Conservation Corps projects are currently in Missouri where they are clearing out homes from the damage done by flood waters. All of the people I spoke with in these agencies stated that they currently are not operating in urban areas, they do not see why a Conservation Corps would not work in such an area and

concentrate on blight removal, community gardens, and clearing out parks in that urban environment.

Their model is to send in management personnel into the affected area then work with local agencies to hire local, usually displaced, workers to do the work. They use federal, state, and private grant monies to fund the operations, provide training to the individuals hired, and pay the hired workers a competitive wage through the duration of the emergency. They also work to get contracts from governmental agencies to perform work. If they get a contract from the DNR to clear out an area of a State Park, the Conservation Corps would operate in the same manner, sending in administrative people then hire the workers locally, providing them with

COA - 1, Utilize Seeds of Traverse City. Seeds is an ecology based youth conservation organization that was created in 1999 in Traverse City. They currently have operations in the Upper Peninsula, Traverse City Area, and Sleeping Bear Dunes. They are a 501 (c)3 organization that has the capacity to expand their operations into Flint. They currently are looking for ways to expand their capacity. Their method of operations for any of their current operations is 2 crew leaders and 10 - 12 crew members, which fits into the POD organizational structure that we put forward in planning with the POD based planning piece, COA #1 and COA # 2 I believe, for the long range planning put forward. This also works for the food bank option, COA #3, where direct hires from the state could be used to supplement the food banks. Seeds is willing to become the employer of record for the Department of Labor's labor grant that is currently being applied for by the Michigan Works people. If we partner with Seeds, and allow them to handle the Flint water crisis, this organization could partner with a state agency and become the Michigan Youth Conservation Corps utilizing this existing foundation. Seeds currently works with Michigan Works in Northern Michigan to hire displaced workers for their projects. They have had contracts with the National Park Service in Munising for the Pictured Rocks National Lakeshore and Sleeping Bear Dunes near Traverse City. They are currently working with the Michigan DNR to get contracts in several northern Michigan State Parks. If they partner with a state agency like MDMVA or Michigan Community Service Commission, they could possibly have easier access to works projects throughout the state.

COA # 2, Utilize the existing Michigan Community Service Commission to begin a Youth Conservation Corps. This COA would take longer to create, and it would cause us to have to find an employer of record outside of the Youth Conservation Corps to begin with in Flint. The Michigan Community Service Commission would have to form a separate organization that would be the Michigan Conservation Corps, which would be worked through Ginna Holmes who is the chair of that Commission. She is currently working with the NCCC in Flint, which is the national civilian conservation corps volunteers. There are several people in the other state conservation corps that would be willing to assist us in creating this organization. Once the organization is created, then they could transition into the role of the Flint water crisis' employer of record and use that as a base to have similar organizations in the other cities.

COA #3, Utilize the Michigan Department of Military and Veterans Affairs to begin a Youth Conservation Corps. This would be the same as COA #2, but would utilize the existing MDMVA structure to enhance their operations and could possibly utilize Michigan Guard Armories.

COA #4, Utilize the Michigan Department of Natural Resources, Parks Division to begin a Youth Conservation Corps. This would operate the same as COA #2, but could utilize existing State Parks and their facilities to enhance their operations.

Recommendation:

I recommend COA #1 and that we utilize the existing structure of Seeds to go forward with this project. We should immediately find a person to partner with Seeds, the DNR seems like the best partner organization for this organization. If the DNR is the partner organization, it would be easier for this organization to grow.

The existing organizations I spoke with are all tied to state government, but not completely run by state government. They operate as a Non Profit Organization that utilizes some state money (10% of their budget) and contracts with state, county, and local governments as well as for profit companies (90% of their budget) to complete works projects. They are mostly used for conservation and ecology types of projects, such as clearing out state parks, national parks, commercial properties, etc, planting trees, building and maintaining community gardens, beach restorations, etc. They are also used for disaster recovery, some of the Minnesota and Iowa Conservation Corps projects are currently in Missouri where they are clearing out homes from the damage done by flood waters. All of the people I spoke with in these agencies stated that they currently are not operating in urban areas, they do not see why a Conservation Corps would not work in such an area and

concentrate on blight removal, community gardens, and clearing out parks in that urban environment.

Their model is to send in management personnel into the affected area then work with local agencies to hire local, usually displaced, workers to do the work. They use federal, state, and private grant monies to fund the operations, provide training to the individuals hired, and pay the hired workers a competitive wage through the duration of the emergency. They also work to get contracts from governmental agencies to perform work. If they get a contract from the DNR to clear out an area of a State Park, the Conservation Corps would operate in the same manner, sending in administrative people then hire the workers locally, providing them with

COA - 1, Utilize Seeds of Traverse City. Seeds is an ecology based youth conservation organization that was created in 1999 in Traverse City. They currently have operations in the Upper Peninsula, Traverse City Area, and Sleeping Bear Dunes. They are a 501 (c)3 organization that has the capacity to expand their operations into Flint. They currently are looking for ways to expand their capacity. Their method of operations for any of their current operations is 2 crew leaders and 10 - 12 crew members, which fits into the POD organizational structure that we put forward in planning with the POD based planning piece, COA #1 and COA # 2 I believe, for the long range planning put forward. This also works for the food bank option, COA #3, where direct hires from the state could be used to supplement the food banks. Seeds is willing to become the employer of record for the Department of Labor's labor grant that is currently being applied for by the Michigan Works people. If we partner with Seeds, and allow them to handle the Flint water crisis, this organization could partner with a state agency and become the Michigan Youth Conservation Corps utilizing this existing foundation. Seeds currently works with Michigan Works in Northern Michigan to hire displaced workers for their projects. They have had contracts with the National Park Service in Munising for the Pictured Rocks National Lakeshore and Sleeping Bear Dunes near Traverse City. They are currently working with the Michigan DNR to get contracts in several northern Michigan State Parks. If they partner with a state agency like MDMVA or Michigan Community Service Commission, they could possibly have easier access to works projects throughout the state.

COA # 2, Utilize the existing Michigan Community Service Commission to begin a Youth Conservation Corps. This COA would take longer to create, and it would cause us to have to find an employer of record outside of the Youth Conservation Corps to begin with in Flint. The Michigan Community Service Commission would have to form a separate organization that would be the Michigan Conservation Corps, which would be worked through Ginna Holmes who is the chair of that Commission. She is currently working with the NCCC in Flint, which is the national civilian conservation corps volunteers. There are several people in the other state conservation corps that would be willing to assist us in creating this organization. Once the organization is created, then they could transition into the role of the Flint water crisis' employer of record and use that as a base to have similar organizations in the other cities.

COA #3, Utilize the Michigan Department of Military and Veterans Affairs to begin a Youth Conservation Corps. This would be the same as COA #2, but would utilize the existing MDMVA structure to enhance their operations and could possibly utilize Michigan Guard Armories.

COA #4, Utilize the Michigan Department of Natural Resources, Parks Division to begin a Youth Conservation Corps. This would operate the same as COA #2, but could utilize existing State Parks and their facilities to enhance their operations.

Recommendation:

I recommend COA #1 and that we utilize the existing structure of Seeds to go forward with this project. We should immediately find a person to partner with Seeds, the DNR seems like the best partner organization for this organization. If the DNR is the partner organization, it would be easier for this organization to grow.

Potential Local Hire Program
Meeting Notes – 2/12/16

Participants

Maggie Sayles, MTED
Tom Weber, MSP/EMHSD
Brianna Briggs, MSP/EMHSD
Zach Baker, MSP/EMHSD
LTC Seeley, National Guard
Alisha Tate-Nadeau, FEMA
Jason Gamble, FEMA
Jeannie Moran, FEMA

Notes

Workforce Innovation and Opportunity Act (WIOA)
National Dislocated Worker Grant/National Emergency Grants

- Handles the humanitarian effort to include training, workforce money for unemployed, temporary work assignments
- Grant funding could be used to support attire, equipment leases, etc.
- Should be thinking about apprenticeships and training for positions that could turn into long-term hiring
- Timeline - USDOL has indicated, with the Presidential Declaration, turnaround could be as quick as 48 hours
- TEGL 2-15 is the guidance document
- Training and background checks could be paid under the grant
- Maximum award? – No indications there is a maximum
    - Estimates put us around at least $12 million, potentially $15 million (additional asks can be made as needs arise)

Who can be the employer of record?

- It can be NGO or a governmental entity (city or county)
- Employer of record would write paychecks
- MI Works would provide case management to employees

****Need to identify at least one employer of record (very important next step)**

- Maggie to provide a list of criteria we could use when approaching potential employers to provide details on what this would entail (would be based on the Fair Labor Standards Act)
- No matter who the employer of record is, the employee should be working closely with MI Works
- Could have multiple employers of record, if needed

General MI Works Information

- Often Workforce Development Agency has a work/school based employment
    - 35 hours work, 5 hours school (training/work enhancement opportunities), generally
- LTC Seeley will provide Maggie with information for the Youth Conservation Corps
    - Could potentially fit as one employer of record
    - Focuses on youth hires (16-24 years of age)
    - Would hire locally in Flint
- Other grants currently being used by MI Works could be realigned to assist in the short term in getting people out there doing some of this work
- They initially pull from people they already have signed up for work opportunities, particularly with special skills.
- MI Works (GST Works – locally) has space in their facility near downtown that could be used for training or meeting space for these operations

**Need to work on list of jobs with descriptions (FEMA and Brianna are putting together based on COAs)

- MI Works could help determine appropriate pay scale for jobs

Maggie – Research

- Reached out to California (received $18 million previously) and received information
- Reached out to Missouri on Joplin tornado response and received some information from them (MO uses this program fairly regularly now after declared disasters)

**-Action items for MSP/EMHSD

Chris: Please tell me briefly what this info is for. I will do my best to get it. I think it is for the FEMA appeal, but what is the dollar amount we get if we win the appeal? Maybe that will stimulate people. Was there a form or something to fill out or do you just need the below info generally from the city?

Rich

Looking for some assistance via a nudge to the City of Flint.

We are having trouble getting data from the City of Flint for the appeal to FEMA. The city's information is critical. Thus far we have gotten an amount of $15,000 which is clearly not indicative of what this has cost them.

What we need from the City of Flint are any and all costs related to the water emergency – dating back to April 25, 2014 - that would fall into FEMA's Category B – Emergency Protective Measures. Category B costs are defined as measures to *save lives, to protect public health and safety, and to protect improved property. To be considered eligible,* the emergency protective measures for property must eliminate or lessen immediate threats of significant damage to improved public or private property through cost-effective measures.

Some of the following examples may help the city in their review of financial information to locate all Category B costs:

* Security in the disaster/emergency area
* Provision of WATER and other essential needs at a central distribution point for use by local citizens
* Removal of health and safety hazards which includes any costs associated with the water treatment (increased chemical costs, etc.)
* Emergency protective measures to protect lives or improve property
* Building safety inspections (maybe the water plant)

They should also look at any activities that were performed to prepare for the disaster/emergency – like activation of a local EOC.

If they have any questions, please have them call Ms Penny Burger on her cell at 517-898-0551. We have provided the above information to the city already but it clearly is not being looked at as an urgent item.

Thanks for any help with this.

Chris

Hi Tom-

I was wondering if you were part of the planning team for the piping project for homes in Flint. We have been in connection with the Community Foundation of Greater Flint and they said their focus was on the long-term planning and putting in new pipes in homes/housing complexes. We believe that is an area Good360 could assist in because of who some of our largest corporate partners all. We have already begun initial discussions and were introduced to a Michigan company that would like to donate cash to help cover some of the costs for delivering products were the piping project. We are still waiting for an update from our other contact about the piping project, but I thought I would reach out to you and see if there was any information you could share that we could forward to this potential donor.

Please feel free to reach out with any questions.

Thanks,
Lindsay Jones

Subject: Daily Summary
Attachments: 2015-10-01 City of Flint Water Contamination-Shortage SitRep 43 2016-02-17.pdf

Capt. Kelenske,

Below is a summary of events for today. Peter Manning has reviewed the Sit Rep. The Operations Section Chief (F/Lt Covey) reviewed and approved also.

Update 2/17/16 – 43rd Day (42nd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), five ARC teams.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Target Water Response Team operations to provide filters to homes where data shows filters have not been provided and visit mobile home parks.
- Continue to work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information and drafting the appeal (scheduled to be completed this week).

Attached:

1. Sit Rep #43.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Requested water and supply distribution. Visiting the last three mobile home parks (out of 8 total) and visiting remaining 34 addresses of those who receive city water.
- Five (5) American Red Cross Teams scheduled for Thursday, February 18, 2016.

Items to Note

- A press conference was held with Governor Snyder at 1 p.m. today where he announced a contract to begin replacing lead service lines.
- MDEQ secured vehicles for Sentinel water sampling collection crews.
- Southern Baptist Disaster Relief took over rapid response deliveries from NCCC on 02/16/2016 with five teams in the field (continuing).
- DNR GIS developed a collector App to be utilized by the High Lead/Copper Teams for real time data collection in the SEOC.
- CDC will begin visiting the homes of families with children who have received high blood level test results, to begin case management. Have requested additional members who have knowledge of the community and

additional local resources. Have submitted a resource request and may fill it in coordination with the recovery branch.

- GIS is generating a list of apartment buildings receiving water from the City of Flint and how many times each building has been visited.
- GIS generating a list of total residences that potentially will be using a water filter that use water from the City of Flint.

Unified Coordination Group (UCG):

- Surgeon General visited the UCG and provided a briefing.
- The UCG release IAP#10, operational period from 0800 2/18/2016 through 0800 2/25/2016
- CDC will provide a weekly report on the rash investigations.
- There was a "Flint Michigan Water Crisis-Destination Recovery" Community partner meeting (75 partners with six sub-committees – 1) Recovery Resources, 2) Education, 3) Communication, 4) Physical Health, 5) Emotional & Behavioral Health, and 6) Coordination.

Local EOC:

- The elevated lead and copper task force was out in the field today, contacting households with elevated lead or copper levels in water.
- Local EOC transition to local staffing continues (Sheriff Office – Logistics, discussed Region 3 IMT availability to staff.)
- Discussed distribution of recycling bags to PODs with National Guard, VRC, MDOC and warehouse management.

Carol Wolfinger
Planning Group Chief, State Emergency Operations Center
Michigan State Police/Emergency Management and Homeland Security
(This email is monitored only when the SEOC is activated)

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	02/16/2016 08:00:00
Operational Period End:	02/23/2016 08:00:00
Situation Report No.	43
SEOC Status:	Full
SEOC Hours of Operation Begin:	02/17/2016 08:00:00
SEOC Hours of Operation End:	02/17/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (February 17, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Donation Management Meeting – still looking for donated warehouse
- Conference call with UPS – coordinating delivery of filters/cartridges to functional needs/vulnerable population.

JIC:
- The JIC Manager attended the Communications Subcommittee meeting with PIOs from FEMA, CDC and EPA. The JIC Manager agreed to convene a small group of community organization representatives to review www.michigan.gov/flintwater and obtain input on how to better communicate with Flint residents.
- The PIOs staffed a press conference with Governor Snyder where he announced a contract to begin replacing lead service lines.
- Media hotline staff answered fewer than 10 emails and phone calls that ranged from the legitimacy of fundraising efforts to inquiries about donating water.
- Created a media monitoring report and looked for misinformation; found none.
- Reviewed a news release about a recycling event on Saturday with MSU student-athletes.
- Continued routing public information materials for approval, including updated information on recycling, water testing, and child safety. Received and posted additional translated materials to www.michigan.gov/flintwater.
- Received and uploaded videos in American Sign Language and additional translated materials on www.michigan.gov/flintwater. Issued a news release about the availability of these materials.
- Issued tweets on @MichEMHS about Marc Edwards' statement about whole home water filters and an event for small businesses affected by the water crisis.
- Began printing emails from JICNews and JICManager email accounts for submitting to FOI staff.
- Updated the Daily JIC Activities log to catalog actions completed for the day and planned products and events for the week.

Recovery Branch:
- Attended UCG Brief, SEOC State Agency Briefing Meetings, Distribution Process Meetings.
- Continued identifying addresses that are unable to be matched with parcels in city's parcel data set.
- Team Priority Visited Today: 5 teams in the field – Mobile Home Parks, and Water Distribution.
- Team Priority Scheduled Tomorrow: Remaining Mobile Home Parks, 34 No Contacts List, water distribution, and supplies requested.
- 5 American Red Cross Teams scheduled for Thursday, February 18, 2016.

o Total homes visited:
- 25,870 (round 3 total)*
- 991 (today).

o Water cases (liters calculated by multiplying # of cases x 12):
- *184,968 liters or 15,414 cases (round 3 total)**
- 6,852 liters or 571 cases (today).

o Faucet filters:
- 7,837 (round 3 total)*
- 45 (today).

o Replacement cartridges:
- 6,745 (round 3 total)*
- 414 (today).

o Water Test Kits:
- 2,901 (round 3 total)*
- 92 (today)

**Totals updated to reflect newest information.*

Planning Section:

- Developed and approved Sit Rep #43.
- Updated burn rates and projection costs, per request
- Updated Flint Water Timeline.
- Inquired to Local EOC regarding recycling data.
- Participated in daily UCG, state agency, and distribution process meetings.
- Developed daily Governor's Report.

Operations Section:
- *Participated in Unified Coordination Group briefing.*
- Facilitated SEOC Agency briefings.
- Participated in Distribution Process meeting.
- Worked on situation report and press release review.
- Warehouse Numbers as of 1800:
- Water (liters):
- 828,374 liters or 69,031 cases.
- Filters (faucet):
- 47,132.
- Replacement cartridges:
- 402,638.
- Test Kits (prepped):
- 35,508.
- PODs (Number as of 1700 2/16):
- Water (cases):
- 60,696 liters or 5,058 cases.
- Filters (faucet):
- 126.
- Replacement Cartridges:
- 552.
- Test kits:
- 356.

Finance Section:
- Review state agency costs reports submitted for the weekly status update
- Identify additional lodging in Flint that can be direct billed to MSP for JIC and EOC staff working in Flint.
- Review agenda and reporting template for SBO meeting at MSP HQ on Friday.

GIS Branch Updates:
- Worked on gathering information for the FOIA request
- Daily Parcel Pairing & JIC map
- Moved filter locations to parcels

DTMB:
- Continue to provide DTMB management SEOC updates.
- Received resource requests for supplies needed at Pierson Road warehouse (2nd warehouse).
- Received information on printing of all information related to the Flint Water Emergency for the
- DTMB SEOC computer and email.
- DEQ requested to have their DEQ SEOC mailbox size increased.
- FEMA provided safety recommendations for both warehouses. *DTMB provided (2) Automated*
- External Defibrillators and contacted landlords to address other items.
- SEOC requested a second printer to be used at the SEOC to assist in the printing for MSP's FOIA request.

DHHS-CH:
- CDC will begin visiting the homes of families with children who have received high blood level test results, to begin case management. Have requested additional members who have knowledge of the community and additional local resources. Have submitted a resource request and may fill it in coordination with the recovery branch.
- A plan is in place for transportation, when needed, to a doctor's office offering free examinations regarding rashes. MTA will provide whatever is needed. Requests will be funneled through LEOC.
- Held a weekly DM meeting. Activity is slowing down some. Plan to focus on data entry. MCSC pretty much getting completely out of the volunteer coordination, focusing on DM.
- The community partner meeting is now called the Flint Michigan Water Crisis: Destination Recovery. They are composed of over 75 partners and are organized into six sub committees:
Recovery Resources, Education, Communication, Physical Health, Emotional & Behavioral Health, and Coordination.

DEQ:
- Continued documenting compliance with EPA Emergency Administrative Order and second EPA request.
- Secured vehicles and equipment for the Sentinel Sampling 2 crews.
- A collector App was developed by DNR GIS today to be utilized by the High Lead/Copper Teams for real time data collection in the SEOC.
- Provided information on a high lead-content test result from a Flint residence to the Governor's Office and Director by the 1pm press conference.
- Began planning for next phase of testing and data collections.

Unified Coordination Group (UCG):
- Surgeon General visited and gave a briefing.
- There were rumors regarding fake credentials used in the field. This is being verified by EPA.

Local EOC:
- National Guard transitioning to new unit on 02/17 and 02/18/2016. New National Guard EOC Liaison on site.
- Transition to local staffing at Genesee County EOC ongoing:
- Sheriff's Office now staffing Logistics Section.
- IC and LOFR met with Region 3 IMT to further discuss their availability.
- *Coordinated with MTA for transportation of affected populations with rashes to Dermatologist offering free exams.*
- Discussed distribution of recycling bags to PODs with National Guard, VRC, MDOC and warehouse management.

• Coordinated for distribution of all 15 pallets of lose bottles from warehouse.
• Referring large numbers of vendors offering plumbing and other services to vendor link on helpforflint.com.
• Elevated Lead and Copper Initial Assessment Task Force out in the field, contacting households with elevated water lead or copper levels.
• Southern Baptist Disaster Relief out in the field with 5 teams for delivery of supplies to affected populations.

Injuries:
• None reported today.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
12. Approve and begin implementation of a comprehensive long term recovery and transition plan.
11. Ensure accurate tracking and accounting of all donations and expenditures.
2. Ensure accurate tracking and accounting of all commodities.
3. Continue to improve and maintain public information processes and strategies with all partner agencies.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
9. Continue to enhance situational awareness and common operating picture of all activities.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.

Joint Information Center / Public Information Officer

Flint Joint Information Center Daily Update

February 17, 2016

Situation Report
The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 17.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, Michigan Economic Development Corporation and Departments of Environmental Quality, Health and Human Services and Natural Resources. The American Red Cross was also present.
Tasks accomplished:
• JIC Manager attended the Communications Subcommittee meeting with PIOs from FEMA, CDC and EPA. JIC Manager agreed to convene a small group of community organization representatives to review www.michigan.gov/flintwater to obtain input on how to better communicate with Flint residents.

• PIOs staffed a press conference with Governor Snyder where he announced a contract to begin replacing lead service lines.

• *Media hotline staff answered fewer than 10 emails and phone calls that ranged from the legitimacy of fundraising efforts to* inquiries
about donating water.

• Created a media monitoring report and looked for misinformation; found none.

• Reviewed a news release about a recycling event on Saturday with MSU student-athletes.

• Continued routing public information materials for approval, including updated information on recycling, testing your water, and keeping kids safe. Received and posted additional translated materials to www.michigan.gov/flintwater.

• Received and uploaded videos in American Sign Language and additional translated materials on www.michigan.gov/flintwater. Issued a news release about the availability of these materials.

• Issued tweets on @MichEMHS about Marc Edwards' statement about whole home water filters and an event for small businesses affected by the water crisis.

• Began printing emails from JICNews and JICManager email accounts for submitting to FOI staff.

• Updated the Daily JIC Activities log to catalog actions completed for the day and planned products and events for the week.

Agriculture and Rural Development (MDARD)

As of 4:00 PM on 2-16-16,
• 6 water assessments were completed
• 6 IN-USE samples were collected.
• 3 sampling appointments have been scheduled.
• Also scheduled are 26 in use samples, 26 assessments.

Followed up on the Pb and companion animal issue, provided response to the request with AID support, request has been marked complete.

Worked with Communications and FDD to develop final response to 211 call regarding consumption of home canned produce *using water from Flint water system, response from FDD will be forwarded to Communications and then will be sent through JIC by* 2/18/16.

Provided information to MSP planning for the appeal regarding the number of facilities (615) FDD will assess and the number of assessments completed to date, which includes follow-up inspections, (298).

American Red Cross (ARC)

The American Red Cross deployed 5 Water Response Teams on Wednesday, 2/17/16.

The Volunteer Reception Center was operating today from 9am to 5pm, and the plan is for those hours to continue daily, through Sunday.

Civil Rights (MDCR)

Continue to monitor media and state agency activities for issues impacting underrepresented, at-risk, and populations with barriers to services and information. Informed senior leadership of current activities and concerns. Advised that ASL materials are posted to FlintWater site. Discussed engagement opportunities with SEOC_PIO and State VAL and will prepare an engagement proposal.

Community Health (MDCH)

The CHECC remains activated at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.

Continue to research shower filters.

MDHHS collaborated with MDEQ on questions to be included in the High Home Lead Level Team app.

Dr. McFadden will be providing a weekly report on the rash investigations.

Corrections (MDOC)

Warehouse 2 was fully operational today. The 7th Day Adventists were on site to job shadow.MDOT is dedicating 2 employees to the effort. DTMB continues to dedicate 2 trucks with drivers.

Effective today, MDOC will work with Red Cross to pick assembled recycling bags and deliver them to Warehouse 1. Warehouse 1 will inventory and distribute the bags to the PODS and Comcast Service Center. The task was completed in coordination with Henrik at the Local EOC.

A temporary replacement battery was delivered today for the forklift at Warehouse 2 until the permanent replacement arrives Thursday or Friday.

To address the following safety concerns at Warehouse 1;
-Security staff to restrict access (In process)
-Propane storage areas (Propane tanks were moved today)
-Exhaust fumes in warehouse (Safety briefings to all staff to advise today)
-Safety Vests (Vests were delivered today and used today)
-Floor tape designating machine and pedestrian areas (Ordered - DTMB will advise once delivery date is given)
-First Aid and AED (First Aid kits and AEDS will be delivered on Thursday, February 18, 2016)
-Dust Masks (N-95 Masks will be delivered on Thursday, February 18, 2016)

MDOC continues to keep trucks dedicated to delivering to individual POD's and covering Rapid Responses for PODs that get to a critical level. PODs remained well supplied throughout day and will continue to be well supplied moving forward.

We are continuing to work with Finance and MDOC assets to capture total employee payroll information and expenditures. Sent to finance today for the last pay period.

MDOC continue to staff the SEOC from 0800-2000, 7 days/week. Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC

513 DEQ and 12 MDARD test kits were delivered from Flint to Lansing today.

Education (MDE)

1. MDE and MSD are working with LARA and landlord with uniqueness of lease agreement for MSD and plumbing fixture replacement.
2. MDE has shared with MSP Operations the number of nutritional schools/entities that are served within Flint water zip codes.
3. MDE has request from MEA (Michigan Education Association) about teacher training sessions. Working with DHHS on this request

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

- Continued documenting compliance with EPA Emergency Administrative Order and second EPA request.

- Secured vehicles and equipment for the Sentinel Sampling 2 crews.

- A collector App was developed by DNR GIS today to be utilized by the High Lead/Copper Teams for real time data collection in the SEOC.

- Provided information on a high lead-content test result from a Flint residence to the Governor's Office and Director by the 1pm press conference.

- Began planning for next phase of testing and data collections.

Human Services (MDHS)

CDC going to begin visiting homes of families with children who have received high blood level test results to begin case management. Have requested additional members with knowledge of community and additional local resources. Have submitted *resource request and may fill with recovery branch.*

Plan in place for transportation, when needed, to a Dr. office offering free examinations regarding rashes. MTA will provide whatever's needed. Will funnel the requests through LEOC.

Held weekly DM meeting. Activity is slowing down some. Plan to focus on data entry. MCSC pretty much getting completely out of the volunteer coordination, focusing on DM.

Community partner meeting now called the Flint Michigan Water Crisis: Destination Recovery. They are comprised of 75+ partners and organized into six sub committees:

Recovery Resources

Education
Communication
Physical Health
Emotional & Behavioral Health
Coordination

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team.

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.

Faucet Project information is being prepared for the affected facilities. LARA continuing efforts to plan and schedule faucet replacements for Flint facilities. LARA is working with MDOC to track and store incoming material at the warehouse.

Translation services for various documents continue to be provided as needed - these include Spanish, Arabic, Mandarin, Hmong and American Sign Language. Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort with state agencies. Arrangements in progress for assistance to various ethnic communities to provide services.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 1712002016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC: Ssg Gazzeny, Darryl L. Cell: Email: armyinfantry31@yahoo.com

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: 1-125 IN including additional mixed state units has Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. Signs have been printed off for the POD Buildings. Requesting approval to get the signs laminated from the purchasing office.

1.) TF Flint OIC, 2LT Benke will be meeting NLT 19FEB2016 with Calix Martinez in the city of Flint Plans and Marketing office to have signs designed and printed.

b. Soldiers are conducting RIP/TOA with key leadership roles and designated POD NCOIC's.

c. 44 Soldiers from 1-125 IN are conducting reverse RSOI in Saginaw.

8. PERSONNEL: Soldiers are currently assigned to the POD operations. Soldiers are assigned in teams at Fire Stations 1, 3, 5, 6 and 8.

9. INTELLIGENCE / FORCE PROTECTION:

10. LOGISTICS: In support of TF Flint

a. The VRC is now assembling the recycling kits and a plan is being coordinated to facilitate delivery to warehouse.

b. Recycling trailers are being assessed by schupon on frequency of pickup.

11. COMMUNICATIONS: No communications issues at this time.

P: RRF cell phones alternate for WRTs.
A: Personal cell phone
C: 800 MHz radios issued to PODs and WRTs.
E: Runner

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:
• AAR and operational notes are being consolidated into SOP's to send to JOC to assist in updating the All Hazards Plan.
• An operational handoff packet including SOP's, POC's, POD sector sketches, hand-receipts, and other operational notes has been handed of per RIP/TOA
• OUT (last 24 hours)
Bottled water-5245 Water (Gallons)-25 Lead Testing Kits-134
Pitcher (23 cup)-0 Brita Faucet Filter-103 Brita Replacement Cartridge-158
Pur Filter-84 Pur Replacement Filter-262

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan.gov are being forwarded to the Operations Lt. The phone number for the on duty Operations Lieutenant is 517-241-8000

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management SEOC updates.

Received resource requests for supplies needed at Pierson Road warehouse (2nd warehouse).
Received information on printing of all information related to the Flint Water Emergency for the DTMB SEOC computer and email.
DEQ requested to have their DEQ SEOC mailbox size increased.
FEMA provided safety recommendations for both warehouses. DTMB provided (2) Automated External Defibrillators and contacted landlords to address other items.
SEOC requested a second printer to be used at the SEOC to assist in the printing for MSP's FOIA request.

Transportation (MDOT)

Continuing to maintain situational awareness and responding to issues regarding equipment and road conditions.

Subject: 2-1-1 Update Flint Water Response for Wednesday, February 17, 2016

This is the daily 2-1-1 summary on the Flint Water Response for Wednesday, February 17, 2016

GENERAL INFORMATION

- **Invitation to visit the Central Michigan 2-1-1 Center:** Jennie Pollak, Manager of Central Michigan 2-1-1 at LifeWays Community Mental Health in Jackson, is extending an invitation for Flint Water Response partners to visit the center and have a first-hand experience observing 2-1-1 in action. If you are interested, please email Tom Page at tpage@uwmich.org.

CALL VOLUME

Call volume from Flint residents appears to be stabilizing for the moment between 150-160 calls per day and around 200 distinct referrals (many callers have multiple needs and receive more than one referral).

CORRECTION

- Yesterday's item on shower filter distribution reported 200 filters were handed out in 15 minutes. News reports indicate there were 75 shower filters distributed in seven minutes. The report says cars were backed up for half a mile with residents seeking a shower filter.
  View the news report at http://www.abc12.com/home/headlines/Chaotic-water-filter-give-away-369026911.html

SPECIAL NEEDS/REQUESTS

- ☐ **Requests for shower filters dominated calls to 2-1-1 today** following yesterday's report of shower filter distribution at Berston Field House by native Flint basketball star Deanna Nolan. Callers asked when and where will shower filters be distributed again. 2-1-1 is informing callers that, as of today, there are no official plans to distribute shower filters.
  NOTE: The demand for shower filters was first reported by 2-1-1 on 1/26/16. The national organization Good360 has identified a corporate donor that is willing to provide shower filters below cost if there is interest in addressing this demand and distribution plan for making these filters available

RUMOR/SCAM CONTROL

☐ **On 2/16/16 Michigan 2-1-1 received a report that DHHS is looking at rehousing options** for residents in housing that 'environmental investigators' have deemed hazardous for human habitation.
2/17/16 UPDATE: 2-1-1 is following up with an identified lead from MDHHS for specific circumstances indicating how they would like 2-1-1 to respond on a case by case basis.

UNRESOLVED

☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier?**
1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.

☐ **2/10/16 UPDATE:** Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.

☐ **From 2/11/16: Dentists concerned about impact of drinking unfluoridated bottled water** on the long term dental health of Flint children. Michigan Association of United Ways reported hearing this issue at a meeting with pediatricians and dentists. One suggestion to address this was providing the school-based fluoride treatments.

☐ **From 2/12/16:** 2-1-1 has received several calls from residents seeking information about the safety of produce they canned at home using unfiltered city water prior to the emergency declaration. Losing this food could affect household food security. **CAN SEOC or MDHHS provide guidance about whether this food is safe to consume?**

☐ **From 2/15/16: Good360, a 501(c)(3) nonprofit that coordinates bulk donations from corporate partners, has identified a potential source of high-capacity water filters** for restaurants, churches, shelters and other businesses that are not currently eligible for free water filters. These are filtering systems, not faucet filters. ***Good360 is working to verify these filters meet NSF standards for lead and copper, but is asking for feedback if there is a need by local businesses and agencies for this kind of filtering option.***

☐ **From 2/15/16:** Callers continue to ask about relocation assistance. 2-1-1 is informing residents that there is no government relocation assistance available at this time. We have identified several private initiatives to assist with relocation, but have been unable to verify the legitimacy of any of these efforts. **Can the Attorney General's office or another agency help investigate if any of these efforts are legal and legitimate?**
- https://www.facebook.com/IamShiftingParadigms/posts/821354508011097
- https://pages.giveforward.com/emergency/page-42jxcw4/
- http://www.plumfund.com/charity-fundraising/help-flint-mi-residents-relocate

☐ **From 2/16/16: The Attorney General's Office is contacting organizations that are soliciting support for Flint,** according to one community partner, to verify their legitimacy and prevent scams or misuse of funds. **Is there a contact at the AG's office who can provide a list of vetted organizations to answer questions about the legitimacy of suspect organizations?**

Flint Water Response Team Plan
Thursday, 02.18.16 FINAL

Key

WRT	Water Response Team
OIC	Officer In Charge
ARC	American Red Cross
HH	Household
LEOC	Local Emergency Operations Center

Key Leaders

ARC OIC	Christina Curtis		christina.curtis@redcross.org

Plan

Agency	Team Types	Mission
ARC	5 Type V	500 HH

Resource Status

ARC

Team Type & Quantity	**Type:** Type V **Quantity:** 5 (5 ERV + 5 Trucks)				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
Team Leader	5	5		2/18/16	8:00 pm
ARC ERV	5	5		2/18/16	8:00 pm
ARC ERV Driver	5	5		2/18/16	8:00 pm
Team Member	15-20	15-20		2/18/16	8:00 pm
Team Transport Vehicle for 2-4 Team Members	5	5		2/18/16	8:00 pm
Team Transport Vehicle Driver	5	5		2/18/16	8:00 pm
iPads	5	5		2/18/16	8:00 pm
Hand Warmers	50	50		2/18/16	8:00 pm
Distribution Kit	500	500		2/18/16	8:00 pm

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas

Team Priority – Teams will visit the remaining 3 Mobile Home parks (addresses provided) for water distribution, door cards, test kits, and filters. Teams will contact the remaining 34 Flint addresses who receive City Water (addresses included as an attachment with this report) and are still being reported as having no contact. Teams will begin visiting addresses identified as AFN (Address list provided earlier in the day and maps are being worked o). Water will be distributed as needed or requested.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail, unless specifically directed otherwise by the SEOC.
2. If iPads are not being utilized or are not available for team use, Street Data Entry Sheets will be completed in the field and entered by ARC volunteers for data accountability.

Subject: Re: Vendor Issue Resolution

Hi Stacie: Sorry about the delay. This is probably not the most concise answer. Refer them to the helpforflint website unless it is an email that comes in directly to the Governor or is one of the Governor's acquaintances or a referral from someone on the legislature. We have had quite a few of those.

In other words, 99.9% of them should go to the SEOC through the website.

Feel free to send them to me if you can't decide which bucket to drop them in.

Sorry for the confusion. Building a plane while we are flying it.

Subject: Request

Hello Everyone,

I wanted to let you know of an offer that Amtrak has provided for March - it is listed below.

I thought I would send this request out to determine if with your contacts you know of someone who would allow the use of two fork lifts and pallet jacks to transfer the water from the trains to trucks at the Flint stations.

They need to have it happen quickly and so they can continue on their route. This is the missing link at this point to make this happen. It will allow the people who have had water drives, but do not have transportation, to send their donations to Flint.

I am checking on a few other options, but I wanted to see if any of you had some leads for us to contact.

Description:

Amtrak has begun consideration of a 'relief train'. The basic premise would involve using Amtrak baggage cars to bring palletized water and other supplies (per an official 'needs' list) to Flint. The baggage cars (likely two, maximum of three) would begin their journey in Boston and make their way to Washington, DC, stopping in the major cities along the route (i.e. New York, Philadelphia, Baltimore) to be loaded with palletized relief supplies. The baggage cars would then be attached to our overnight train from Washington to Chicago where it would take on additional relief supplies. The baggage cars would then be attached (likely that same day) to the rear of the Chicago-Port Huron *Blue Water* train, which is the train serving Flint. We operate that service on behalf of the State of Michigan (MDOT)..

Thank you for your help.

Governor,

Attached is the daily report. Still waiting on DEQ for an update on the sentinel sites. They have not yet provided today's information to their representative at the SEOC, so I will be calling staff directly.

We are meeting with DHHS, DEQ, and GIS staff tomorrow at the SEOC to map out the process for populating your spreadsheet through the environmental visits.

Nat

SEOC Report for: February 17, 2016

Full Days Since Emergency Declaration: 43

Items to Note

• The Chief Medical Executive, Dr. Eden Wells is conducting her third webinar for health care professionals in Genesee County today.

• Full faucet replacement at schools in Wayland and Brownell and Eisenhower Elementary schools today.

Harvey and Capt. Kelenske,

Attached is the draft agenda for Friday's meeting and the subcommittee sheets I have received as of 5pm today. Dr. Yanna is sending me her presentation on Thursday.

1. Draft Agenda
2. Water Quality Sheet
3. Water Infrastructure Sheet
4. Health & Education Sheet (still waiting on information from Education)
5. Policy Sheet

Stacie

FLINT WATER INTERAGENCY COORDINATING COMMITTEE

FEBRUARY 19, 2016, 10:00AM – 11:30AM

I. Introductions (All – 5 min)

II. Opening Remarks (Hollins – 5 min)

- a. Today's Subcommittee Presentations
- b. Preview Dr. Yanna Lambrinidou's Presentation
- c. Future Committee Meetings
  - i. March 4, 11 and 18
  - ii. Start Time Change

III. Subcommittee Priorities Presentations

- a. Policy (Edgerton – 15 mins)
  - i. Analyze and Recommend Changes to the Federal Lead and Copper Rules
  - ii. Establish Improvements to Notification/Communication Protocols Between Agencies
  - iii. General State Policy Review
- b. Communications (Hollins – 15 mins)
- c. Incident Action Plan (Kelenske – 15 mins)

IV. Lead Copper Rule Revision (Dr. Lambrinidou- 30)

- a. Presentation
- b. Q & A

V. Closing Remarks (Hollins/Kelenske – 5 min)

DRAFT

Health and Education

PRIORITY: Objectives & Tasks	Metric	Timeline
Objective 1: Blood Lead Testing		
Task 1.1: Obtain blood testing for all children under the age of six who are under the care and supervision of MDHHS and currently residing in placements using City of Flint water.	100% of children tested	4/1/16
Task 1.2: Obtain blood testing for all children under the age of six who are under the care and supervision of MDHHS and resided in the City of Flint between 4/14-1/16, but no longer reside in Flint.	100% of children tested	4/1/16
Task 1.3: Work with Medicaid Health Plans to increase testing for children under age 6.	Outreach and encouragement of testing of all Medicaid eligible children under 6 in the impacted area by Medicaid Health Plans.	7/1/16
Task 1.4: Begin lead testing at WIC clinics.	WIC clinics begin testing for lead	4/1/16
Task 1.5: Develop testing centers throughout the city.	1 or more testing centers open on regular or reoccurring basis	5/1/16
Objective 2: Access to Physical and Behavioral Health Services		
Task 2.1: Increase access to targeted case management through Medicaid up to age 21.	Approval of Targeted Case Management (TCM) Designated Provider Organizations and training of staff to provide TCM services to Medicaid eligible individuals under 21, as well as pregnant women.	7/1/16
Task 2.2: Work with SAMSHA and GHS to develop community recovery plan with short, medium, and long range goals	Short, medium, and long range plan finalized.	4/1/16
Task 2.3: Develop plan for implementation of developmental screening tool.	Plan completed and implementation by providers begins.	3/1/16
Task 2.4: Provide trainings to providers regarding screening children.	25% of providers will receive training regarding administration of screening tools and appropriate response to tool by May 1, 2016' 50% by Aug. 1, 2016; and 90% by Nov. 1, 2016.	11/1/16
Task 2.5: Screen young children 0 to under for behavioral health needs.	50% of children under 6 seen by their primary health providers will be screened for behavioral health needs by June 1, 2016; 75% by Sept 1, 2016, and 100% by Dec. 1, 2016.	12/1/16
Objective 3: Improved Nutrition		
Task 3.1: Complete expansion of new WIC clinic site.	New WIC clinic opens	4/1/16

Task 3.2: Expand WIC services to the 2 existing WIC GCHD clinics.	2 existing GCHD clinics offer expanded WIC services	5/1/16
Task 3.3: Expand healthy foods programs	Expand provision of Double Up Food Bucks including WIC Project FRESH and Senior Project FRESH	6/1/16
Task 3.4: Expand capacity to deliver more food.	Home deliveries of food increase from 2,000 per month to 15,000 per month.	4/1/16
Task 3.5: Develop website that provides resources on nutrition and lead	*Website becomes operational.*	4/1/16
Objective 4: Prompt Case Management and Proper follow up of children with EBLs		
Task 4.1: Provide additional resources to support Case Management at GCHD	Additional funding for Case Management received by GCHD	3/1/16
Task 4.2: Provide incentives to families to participate in Case Management.	Identify incentives that are allowable and of interest to families, identify funding sources, and then fund these incentives.	3/1/16
Task 4.3: Develop plan for providing adult Case Management.	Plan for adult Case Management is developed and begins	3/1/16
Task 4.4: Give agencies providing Case Management more flexibility for how they deliver a defined set of services.	Contract language is revised for more flexibility in how outcomes are achieved	3/1/16
Task 4.5: Improve Case Management reporting and documentation.	Eliminate paper record requirement and modify reporting form	3/1/16
Objective 5: Education-Birth to 12th grade		
Task 5.1: Communicate with parents of MSD students about lead testing.	In-person meeting with parents held	3/1/16
Task 5.2: *Test all faucets in MSD for lead.*	100% of faucets at MSD tested for lead	3/1/16
Task 5.3: Distribute and monitor supplemental funds to Genesee ISD	Funds received by GISD	3/1/16
Task 5.4: Increase awareness of Head Start. Kyle Guerrant	Increased enrollment in Head Start	6/1/16
Task 5.5: Increase Early Head Start-Child Care Partnerships. Kyle Guerrant	Increase funding received	7/1/16

Information for Flint Water Interagency Coordinating Committee Subcommittees

Establishing Initial Incident Priorities

Clear initial priorities are important to establishing unity of effort early in the incident response process. When the members of the team clearly understand the intent behind instructions, they are equipped to act decisively and make better decisions. While many things vie for attention, especially in the immediate aftermath of a disaster or emergency, not everything can be a priority. The axiom that if everything is a priority, then nothing is a priority clearly applies to incident management.

Objectives

Good objectives:

- Are concise and stated in the form of a command
- Begin with an action verb (but not "continue" or "maintain")

Tasks

Tasks define specific actions to be performed to achieve a planned outcome. Tasks specify who, what, where, and when for implementing strategies to achieve incident objectives. Tasks describe the deployment and direction of resources, based on the strategy to accomplish the incident objectives.

In this case, tasks or tactics can be developed by those personnel at lower levels who will be implementing the priorities and objectives.

Garza, Oralya (MSP)

From: Wolford, Robert (MSP)
Sent: Wednesday, February 17, 2016 4:55 PM
To: Kelenske, Chris (MSP)
Subject: *OBS Suggestions*

Hello Chris,

These are some suggestions for helping your people cope with activations, especially those that are very long in nature:

Level 1:

Notify OBS, Dr. Wolford, upon any activation of the SEOC.

After three days of activation, Dr. Wolford will check with the Captain or Assistant Commander Ref need for services or visits from OBS. The type of services and length can be discussed whenever you would like or in an additional email.

No more than three weeks of 12 hour shifts, especially with no days off. (The research in this area clearly shows that there is a significant decline in cognitive functioning and an increase in the probability of mistakes being made after about three weeks.)

After three weeks of 12 hour shifts, hours should be reduced to 10 hours per day and then back to 8 hours per day. Best way to address this is to use people who are trained from adjacent EOC's and to cross train our own people from different divisions and sections. After thirty days, hours can go back up again, if absolutely necessary. This pattern of time allows for the employees and their families to tolerate a much more extended state of emergency. (Note, not telling you how to do your job. Just trying to get the most out of your people so they do not quit during the event or after.

For extended activations, OBS could offer support groups for family members.

Level 2:

During the first week of activation, I would suggest the establishment of an on-site relaxation room – no telephone and no television – and a family room with Skype installed. The purpose of the first room is to give the staff a place to relax where it is quite and semi-dark. The family room should be located near the main entrance of the building and a place where the family can meet and/or eat with mom or dad and bring the kids. Skype is available for 15 minute periods per the current military model, which I might add works wonderfully.

During weeks 1, 2, and 3, to start with, I would suggest that the Department bring in a person trained in Chair Massage twice a week for both night and day shifts. Time on site, will be dictated by the number of employees in the center. One might scoff at this approach until you look at the data from Google and how it directly impacts production and employee morale.

If the large screen is not being used, every once in a while a relaxing picture of a setting or an activity should be put up on the screen. A good starting schedule is about five minutes every hour. The pictures need to be selected with relaxation and cognitive refresh in mind and avoidance of "wish I was there and not here." A good

example is of a stream running through a forest. It has sight and sound which are very helpful and powerful with relaxation.

At the minimum, different Command Staff need to drop by in person or by video link to thank and compliment the staff on their work, dedication, and sacrifice.

Hope this helps and please contact me if you would like to meet or talk. I can come to your location, as I know how busy you are.

Bob

From: MSP-SEOCSDEM
Sent: Wednesday, February 17, 2016 4:02 PM
To: Kelenske, Chris (MSP)
Subject: Flint - Shower Filters

Per the Flo tec website: "Today's most advanced shower filtration system features the exclusive KDF filter media. Unlike ordinary charcoal-based filters, the KDF system uses a patented copper zinc alloy to more effectively rid your water of unwanted chlorine and odors. Your hair and skin will never look and feel better. • Special KDF filter media reduces chlorine up to 98% to prevent dry hair and skin.
• Special KDF media reduces the effects of hard water buildup for softer hair and skin.
• Reduces hard water staining on the tub and shower walls"
Contacted the Water Quality Association wqa.org and spoke to Marissa 630-929-2524 ext. 555 to get more information on water filters. Marissa explained that NSF Standard 42 is an aesthetic standard for things such as chlorine that do not have health consequences, but are more associated with taste and smell-cosmetic purposes. These type products are not typically designed to remove contaminants such as the heavy metals, because these filters are not used for water that is for ingestion. Shower filters are not considered to be for drinking water treatment. NSF Standard 53 is used for filters that are designed to remove contaminants that have health effects when ingested such as lead, mercury, cadmium etc. Shower filters have an NSF standard 177, which is similar to the NSF 42 in that it is still only for aesthetics. If the purpose of the shower filter is to remove lead, it would have to fall under NSF Standard 53, shower filters are not.

Subject: Re: [redacted] High Lead Response

Some additional information. Just spoke with Dan Lord at DEQ. He said that it's his understanding that all of the >100 ppb sites have been visited but that the paper records are still with the local EOC in Flint. I told him that we need actual eyes on those documents in order to confirm that fact. He is working on expediting delivery of those docs to the DEQ so that those records can be entered into a spreadsheet today. Before they spend time entering the paper records, I asked him to have staff review the >100 ppb sheets and confirm with me by phone that each site has had face-to-face contact. Hopefully, I will have that information for the 7:30 call.

> On Feb 9, 2016 a sample for 924 Barney was received at the state laboratory. The analytical results were provided to the SEOC and others on Feb 11, 2016 at 5:15P. The typical time frame for sample analysis from receipt to result is 48 hours. The SEOC DEQ desk forwarded the result to the local EOC on Feb 11, 2016 at 5:39pm. The High Lead/Copper Team comprised of DEQ/DHHS/Licensed Plumber made contact with the homeowner on Feb 12, 2016 where a plumbing inspection, cleansing of aerators and flushing of lines was provided. The homeowner was provided two additional test kits and a bus pass to assist with travel to a clinic for blood testing. The laboratory has not received additional samples from this address to date. The High Lead/Copper Team is visiting with the resident again today.
>
> A collector App will be developed by DNR GIS today to be utilized by the High Lead/Copper Teams for real time data collection in the SEOC.

Subject: FW: 2-1-1 Update Flint Water Response for Tuesday, February 16, 2016

This is the daily 2-1-1 summary on the Flint Water Response for Tuesday, February 16, 2016

GENERAL INFORMATION:

- **Invitation to visit the Central Michigan 2-1-1 Center: Jennie Pollak, Manager of Central Michigan 2-1-1 at LifeWays Community Mental Health in Jackson, is extending an invitation for Flint Water Response partners to visit the center and have a first-hand experience observing 2-1-1 in action. If you are interested, please email Tom Page at tpage@uwmich.org.**

- **US Surgeon General Vice Admiral Vivek Murthy is in Flint this week to meet with officials and community members. MLIVE reports there will be a meeting tonight (2/16) at 6 pm at Mount Carmel Baptist Church, 1619 W. Pierson Road at to talk to residents. The session will include education on the effects of lead on the body and there will be an opportunity for residents to ask questions.**
  Full news story at:

http://www.mlive.com/news/flint/index.ssf/2016/02/us_surgeon_general_talks_flint.html#incart_river_index

- **There is an informational meeting on one of the class action lawsuits tonight, Tuesday, February 16, from 6:30 pm – 8:30 pm at 432 N. Saginaw Street, Flint, MI in the North Bank Grand Ballroom at University of Michigan Flint Campus. More information at www.flintwaterclassaction.com. The web site is operated by one of the law firms filing a suit.**

CALL VOLUME:

Central Michigan 2-1-1 was able to handle entire volume of Flint calls today with support from management and supervisory staff during the few peaks of high call volume.

SPECIAL NEEDS/REQUESTS

- ☐ **A private donor organized the distribution of 200 FlowTec shower filters at Berston Field House. Demand was extremely high and all filters were taken within 15 minutes. The distribution spurred a large number of calls to 2-1-1 and affirmed the unmet demand for shower filters. At least one from a homebound resident asking to have a shower filter delivered. Callers are expressing tremendous frustration about not feeling safe to bathe, one caller said, *"You can't boil enough bottled water to take a hot bath."* As noted in past updates, Good360 has identified a corporate donor that is willing to provide shower filters below cost if there is interest in addressing this demand.**

RUMOR/SCAM CONTROL

☐ Michigan 2-1-1 received a report that DHHS is looking at rehousing options for residents in housing that 'environmental investigators' HAVE deemed hazardous for human habitation. CAN A CONTACT AT DHHS INVESTIGATE AND REPORT BACK TO MICHIGAN 2-1-1 ON THE VERACITY OF THIS RUMOR?

☐ The Attorney General's Office is contacting organizations that are soliciting support for Flint, according to one community partner, to verify their legitimacy and prevent scams or misuse of funds. Is there a contact at the AG's office who can provide a list of vetted organizations to answer questions about the legitimacy of suspect organizations?

☑ A community agency in Flint notified Michigan 2-1-1 that a client said they received a referral from 2-1-1 to a clinic asking for payment to do a child lead screening test. Central Michigan 2-1-1 verified there are no children's lead testing clinics in the database that charge a fee. The only locations in the 2-1-1 database are coordinated by the Health Department, either onsite or at various community locations. As of this time adults are charged a fee for lead testing. 2-1-1 has asked the community agency to seek additional information to assist with 2-1-1's investigation.
UPDATE: 2-1-1 has clarified that, while lead testing for children is free, clinics may ask for insurance information in order to bill the insurer for testing, but there should be no cost to the patient.

UNRESOLVED

☐ From 1/18/16: One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ From 1/26/26: There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. Are shower filter donations a request that can be coordinated through Good360 or another supplier?
1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.
2/10/16 UPDATE: Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.

☐ From 2/11/16: Dentists concerned about impact of drinking unfluoridated bottled water on the long term dental health of Flint children. Michigan Association of United Ways reported hearing this issue at a meeting with pediatricians and dentists. One suggestion to address this was providing the school-based fluoride treatments.

☑ From 2/11/16: Community partners report Flint residents concerned about 2-1-1 sharing their personal information. Service agencies in Flint report some residents are afraid to call 2-1-1 or choose the Flint Water prompt due to concerns that 2-1-1 is tracking and reporting their needs and personal information to government agencies.
Update 2/12/16: 2-1-1 is reviewing the language of the phone prompts and hold messages to determine the best way to reassure callers that 2-1-1 calls are confidential and 2-1-1 will *never* release information without first receiving permission from the caller.

☐ From 2/12/16: 2-1-1 has received several calls from residents seeking information about the safety of produce they canned at home using unfiltered city water prior to the emergency declaration. Losing this food could affect household food security. CAN SEOC or MDHHS provide guidance about whether this food is safe to consume?

☐ From 2/15/16: Good360, a 501(c)(3) nonprofit that coordinates bulk donations from corporate partners, has identified a potential source of high-capacity water filters for restaurants, churches, shelters and other businesses that are not currently eligible for free water filters. These are filtering systems, not faucet filters. *Good360 is working to verify these filters meet NSF standards for lead and copper, but is asking for feedback if there is a need by local businesses and agencies for this kind of filtering option.*

☐ **From 12/15/16: Callers continue to ask about relocation assistance. 2-1-1 is informing residents that there is no government relocation assistance available at this time. We have identified several private initiatives to assist with relocation, but have been unable to verify the legitimacy of any of these efforts. Can the Attorney General's office or another agency help investigate if any of these efforts are legal and legitimate?**

Subject: Piping project for Flint

Hi Tom-

I was wondering if you were part of the planning team for the piping project for homes in Flint. We have been in connection with the Community Foundation of Greater Flint and they said their focus was on the long-term planning and putting in new pipes in homes/housing complexes. We believe that is an area Good360 could assist in because of who some of our largest corporate partners all. We have already begun initial discussions and were introduced to a Michigan company that would like to donate cash to help cover some of the costs for delivering products were the piping project. We are still waiting for an update from our other contact about the piping project, but I thought I would reach out to you and see if there was any information you could share that we could forward to this potential donor.

Please feel free to reach out with any questions.

Thanks,
Lindsay Jones

Subject: Reschedule of Interview

Capt-

Mr Carmody with Michigan Radio has requested that we reschedule the interview to Thursday or Friday morning, either in person or over the phone. This is reference trends that we are seeing in the use/distribution of water, filters and testing kits (see below). Would you be available for that?

Thank you
Kevin

Subject: A news media question

Hello,

I'm not sure who to send this question to.

I was wondering have you seen any trends in bottled water, water filter or lead testing distribution.

Are people in Flint picking up the same amount of bottled water every day since the start of the city wide distribution?

Are people asking for more water filters? Was there a spike in demand after the water main break this month near Dort Highway?

What about demand for lead testing kits?

Steve Carmody

Subject:	Commodities Analysis
Attachments:	*Commodities Rec Feb 17.docx*

The attached document provides an analysis of issues related to securing commodities in response to the Flint water event. The intent of the document is twofold: 1) provide direction in placing orders with FEMA to maximize federal assistance to the fullest extent possible and 2) identify the most prudent, defensible course of action for now and in the future. Our principal enemy at this juncture is time. If we do not place orders through FEMA expeditiously, we may not be able to secure commodities at the 25% cost share rate. Requesting too little will significant increase costs; requesting too much will leave excess inventory and wasted funding.

The document is marked "draft" primarily due to the recommended quantities of commodities and associated costs, which are largely unknown and extremely costly. Recommendations should be viewed as initial thoughts. Numbers must be thoroughly reviewed and adjusted as appropriate prior to implementation.

Finally, the attachment is not included in the attachment. The individual who develop it is not in the office today. I will provide a hard copy for now and send it via email.

Anthony P. Katarsky
Assistant Division Commander
Michigan State Police
Emergency Management and Homeland Security Division

Recommendation for FEMA Commodities Purchase

While we are two months away from the termination date of FEMA involvement, we need to make decisions regarding ordering commodities prior to their departure. Any decision is complicated by uncontrollable variables which could leave us either short on supplies or in possession of massive quantities with nowhere to unload them. Our decision is further complicated by the inevitable audits to come, the potential for inadequate supply by manufacturers, and the ability of FEMA to provide financial and administrative support. Recommendations follow.

Documentation

Any decision we make must be based on the best data available. Due to the unknown variables, we will need to make assumptions. If we sufficiently document our course of action leading to our decision, we may be criticized, but only for our assumptions. If these are based on data based trends, we are on far more solid ground.

Key Variables

How many residences have lead service lines?

- We cannot determine the number of residences with lead service lines. While there are cards that indicate which residences have lead lines, Department of Public Works personnel have stated there is no way to truly know what is there until excavation is complete.
- Without knowing how many residences have lead service lines, there is no way to gauge how many filters, how many cartridges, and how much water will be needed to sustain users of the Flint water system.

Will the entire Flint water system be replaced?

- The Flint mayor has demanded the entire water distribution system be replaced. No one knows the answer to this question.
- If system replacement is the call, the project will last for many years. The City of Lansing embarked on replacement of lead service lines over 10 years ago. The project has yet to be completed.
- Replacement activity would result in sediment being released into the water system. Sediment may or may not include lead.

When, if ever, will the EPA or MDEQ pronounce the Flint water system safe for all uses, including for infants and other highly susceptible populations? Or, when will the EPA or MDEQ pronounce the Flint water system safe for some subset of the population using the Flint water system?

- Declaring any portion of the system safe for all uses will have significant impacts on the need for bottled and filtered water.
- If no decision is made, we can proceed on our current course.

The SEOC mission is to provide three commodities to users of the Flint water system: bottled water, filters, and filter cartridges. Each commodity has its own set to variables.

- Bottled water
    - Much of the public does not believe what they are being told, opting only to drink bottled water.

- While messaging indicates that filters render water safe for consumption by all, it also notes that infants should only consume bottled water.
- It is not possible to gauge what the public will find acceptable in the future and if a decision contrary to public opinion would ever be made.

- Filter cartridges
  - Much of the public does not believe what they are being told, opting only to bathe in and drink bottled water, while others opt only to bathe in filtered water.
  - The uncertainty around the need to use filtered water renders any estimate of how many filters will be required in the future to being a guess.
- Filters
  - The number of filters needed per residence will ultimately be a decision of the residents. While government may suggest two filters per residence, practical matters dictate otherwise; for example, when a home is divided into multiple living quarters by occupants.
- Warehousing
  - Warehousing needs will be dependent on the quantity of commodities ordered and whether delivery of each item type can be staggered. Costs will remain unknown until we know whether we know actual space needed and whether space is donated.

Assumptions

1. All residences will be supplied with bottled water and filters until December 31, 2016. The situation will be reevaluated at this time.
2. Each resident requires one case of water per week based on FEMA guidance. However, the amount of water distributed should decline as residents begin to trust recommendations based on actual testing done by the USEPA and MDEQ. For our purposes, we must err on the conservative side and order water at the current rate of usage.
3. Each residence will need two water filters, one for the kitchen faucet and one for a bathroom. This will facilitate cooking and personal hygiene.
4. Water filters will be replaced every two weeks. Filter manufacturers recommend replacement every three months or 100 gallons. Replacement every two weeks should cover all needs. Additionally, all filters have an indicator to show when filter cartridge should be replaced.
5. Water test kits will be supplied, distributed, and collected by MDEQ.

Recommendations

1. We need to decide on types and quantities of commodities quickly as possible. Any delay potentially impacts our ability to obtain commodities through FEMA at the 25% state cost share.
2. The following numbers are my estimates, which must undergo staff review and analysis prior to proceeding.
   a. Current bottled water usage is 54,500 liters per week[1]. Factoring in current inventory, we will need an additional 17.5 million liters of water at a cost of $2.4 million if purchased through FEMA (state share).
   b. The current stock of filters supports the remainder needed for the rest of 2016. No additional filters should be purchased.

[1] Attachment 1 provides the basis of this number and an overall assessment of water usage to date.

c. A huge stock of filter cartridges will be needed to ensure coverage through December 31, 2016. While it may be argued the need for filtered water will decrease, the type and level of repairs to the Flint water system remain unknown at this time, and will undoubtedly occur at some level. Repairs will release unknown sediment into Flint water, making the need for continued filter usage imperative. The 46,200 household units using Flint water will need replacement of two filter cartridges every two weeks. Factoring in current inventory, 1,016,400 filter cartridges will be needed at a cost $10 each ($254 million state share if purchased through FEMA) to provide adequate supplies through December 31, 2016.

3. Documentation of each step taken will be critical to minimize potential audit findings after the fact. This is imperative to helping us avoid an administrative disaster after the fact.

FEMA Region V Morning Brief
DATE: 02/17/2016

REGION V RESPONSE STATUS:

- **RRCC:** Watch / Steady State
- **IMAT:** Blue
  - *Alpha: deployed to Lansing, Michigan in support of MI-3375-EM*
  - Bravo: deployed to Flint, Michigan in support of HHS UCG
  - Charlie: Collateral IMAT
- **LNO:** Cornelius Miller

REGION V SEOC STATUS:

- **Illinois:** Normal Operations
- **Indiana:** Normal Operations
- ***Michigan:*** *Full Activation (Flint Water Emergency)*
- **Minnesota:** Normal Operations
- **Ohio:** Normal Operations
- **Wisconsin:** Normal Operations

NATIONAL TERRORISM ADVISORY SYSTEM (DHS)**:** Bulletin (12/16/2015 – 06/16/2016)

NOTEWORTHY EVENTS: Nothing significant to report.

SIGNIFICANT WEATHER (NWS, SPC)**:** No severe winter weather or heavy precipitation is forecast across Region V for the next 48 hours. On Friday, temperatures are expected to moderate to the high 50s during the day time and 30s during the night hours; strong southerly winds are also anticipated. The warming in the weather pattern, following the cold front during the past few days will produce a chance of rain showers and light snow across portions of Region V. No significant impacts are forecast.

HYDROLOGIC CONDITIONS (AHPS)**:** Flood Warnings remain in effect along the Kaskaskia River in Clinton County, IL, due to heavy rains. No significant impacts have been reported or are expected at this time.

FIRE CONDITIONS (SPC)**:** Nothing significant to report.

REGION V DISASTER SUMMARY:

- **Declaration Requests:** None.
- **PDA Summary:** None.
- **Disaster Declarations:** FEMA-3375-EM provides emergency assistance for water, water filters, water filter cartridges, water test kits and other necessary related items for a period of no more than 90 days for Genesee County.

TRAINING EVENTS:

- **Feb 17-18:** L-213 Application Review, Indianapolis, IN
- **Feb 29-Mar 1:** REP Core Concepts Course (RCCC); Manitowoc, WI

- **Mar 1-2:** L-276 Benefit Cost Analysis, Indianapolis, IN
- **Mar 2-4:** REP Plan Review Course (RPPR); Manitowoc, WI
- **Mar 3-4:** L-214 Hazard Mitigation Assistance Implementation & Closeout
- **Mar 21-24:** REP Exercise Evaluator Course (REEC); Madison, WI
- **Mar 25:** REP Exercise Controller Course (RECC); Madison, WI
- **Apr 4-7:** L580 Emergency Management Framework for Tribal Governments; Leech Lake Band of Ojibwe, MN
- **Apr 18-21:** REP Exercise Evaluator Course (REEC); Springfield, IL
- **Apr 22:** REP Exercise Controller Course (RECC); Springfield, IL
- **May 3-5:** L207 Introduction to Hazard Mitigation Field Operations; Chicago, IL

EXERCISE EVENTS:

- **Feb 18:** FEB COOP Devolution FSE; Detroit, MI
- **Mar 3:** Indiana Cyber (Power Disruption) TTX; Camp Atterbury, IN
- **Mar 16:** FEB COOP Devolution FSE; Cincinnati, OH
- **Mar 30:** RV/RII Devolution TTX (Phase II); Chicago/New York (via VTC)
- **Apr 6:** Braidwood REP; IL
- **Apr 18:** FEB COOP Reconstitution TTX; Chicago, IL
- **Apr 20:** NSSE RNC SL TTX; Cleveland, OH
- **Apr 26:** Palisades REP; MI
- **Apr 27:** America's Preparathon

Respectfully,

William M. Pillai

Importance: *High*

Good Morning Tonya & Carley,
Do you have a few minutes today for a quick call today?
I just finished with an internal Red Cross planning meeting for the Flint water response. I want to share our plans with you and make sure they are still in alignment with the state plans.
I will make myself available at your convenience.
Thank you,
Dave

Subject: FW: FOIA Plan Update
Attachments: SEOC FOIA Plan FINAL.docx

Please review the attached plan for FOIA printing. The instructions are for when in the SEOC. Do not change your computer to the printer in the instructions, it is for use in the SEOC. Use the printer your computer is currently connected to for printing from your computer and personal email or use another one in the EMHSD office area. However, there is helpful information for use in any location. Please remember to ensure that your default printer settings are set for single sided printing before you begin.

Subject: FOIA Plan Update

SEOC FOIA Print Plan
Tips for Printing

Print Plan – Thru Friday, February 19

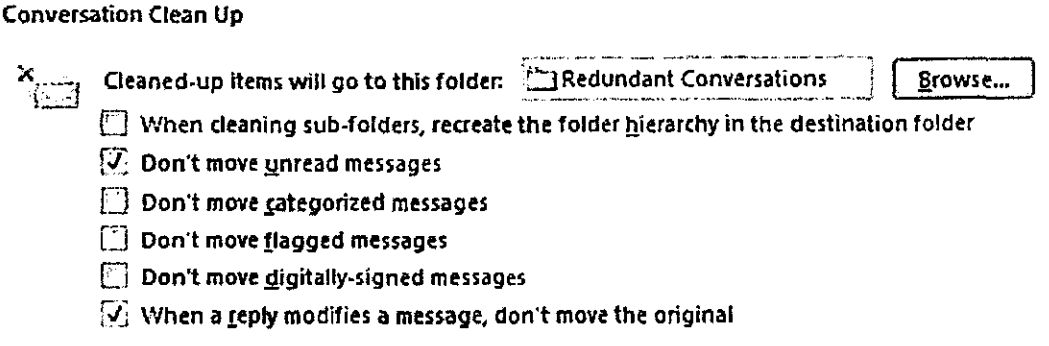
- When printing emails/documents, make sure to **change your default printer** to the following printer:
  - EOC_F1COMM_RI3054 on EOC084M1OAPF502 (located in the Communications Room)
  - Additional helpful hints for each document type below
- SEOC IT staff will set up to "Print to Hold" for each PC in the SEOC.
- Be sure to print/copy all documents **Single Sided.**
- *Advise the SEOC Operations Section Chief prior to printing.* ***Do not interrupt someone else's print job.*** The SEOC Operations Section Chief will ensure coordinated printing efforts.
- When at the printer, select Print > Select your agency name > Select All > Print.
- Test printing a couple of emails before printing out a large quantity.
- Once all items have been printed/copied, give all to Oralya Garza or Jodie Frese (daily staff) located just outside Governor's Conference Room A in the SEOC. **Do not go direct to FOIA Unit staff working in the conference room.** They will reach out if they have any questions.
- Make sure to clip or rubber band your information to keep separate from others information being turned in.
- Sources: Emails, Documents, S drive, Desktop, Cell phone/text messages, Copies of handwritten notes, DCDS, Invoices, Photos
- *SEOC IT Staff will be responsible for printing all documentation from MI CIMS.*
- For any IT issues, contact IT Staff in the SEOC. This is usually Jaclyn Barcroft or Rich Law. GIS staff should be contacted only if both of them are unavailable.

How to Recover Deleted Emails

- In Outlook, select the Folder Tab.
- On the top, select Recover Deleted Items.
- Recover any items pertinent to the Flint Water response.
- You may need to select various folders on the left side in order to recover everything possible.

How to Clean up Redundant Email Conversations

- In Outlook, click on the File tab.
- Click Options.
- Click Mail.
- Under the Conversation Clean Up section, change the location where conversations will go. Select Browse. Click on "Cabinet" in the list. Select "New Folder" and name it "Redundant Conversations." Ensure the options are *identical to the below:*



- In Outlook, on the Home tab, in the Delete group, click Clean Up.
- Select Clean Up Folder. Click Clean Up Folder.

SEOC FOIA Print Plan
Tips for Printing

Tips for Printing Emails

- For State Agency SEOC personnel, **only** print emails from your SEOC email address.
- Print emails by selecting **up to 100 at a time** (select one, hold shift, click on the last one).
    - Select the File Tab > Print > Click Print Options button > Select Memo Style and Check Box for "Print Attached Files" (bottom left corner of pop up) > Select Print
- Attachments will not show up in the preview, but will print out with the emails

Tips for Printing Documents from Desktop, S Drive, My Documents (wherever files are saved)

- Make sure documents are formatted correctly for printing prior to moving to the next steps (Excel files tend to be the most troublesome).
- Sort documents in folders by "Type".
- Highlight "like" file types (Adobe Acrobat Document, Microsoft Excel Worksheet, etc.).
- Right click, select Print.

Tips for Printing Text Messages

- Android
- iPhone

Email – After All Your Files are Printed

- Send a CC to the following email address when sending items from the SEOC:
    - MSP-FOIAProject@michigan.gov
    - For State Agency SEOC personnel, **only** CC emails from your SEOC email address
- Send all documents created to the same email address

Flint paid highest rate in U.S. for water
Detroit Free Press
Michigan: Flint residents paid the highest water rates in America even as their water was tainted with lead, according to a national study released Tuesday by the public interest group Food and Water Watch. A survey of the 500 largest water systems in the country, conducted last year, found that on average, Flint residents paid about $864 a year for water service, nearly double the national average and about three-and-a-half times as much as Detroiters pay. The figure is based on an annual household consumption of 60,000 gallons. "It far exceeds what the United Nations designates as affordable for water and sewer service," said Mary Grant, one of the study's authors. The United Nations recommends that water and sewer service shouldn't exceed 3% of a household income. In Flint, the charges totaled about 7%, Grant said. A Flint lawyer who sued to reduce the rates says they are high in part because city officials and state-appointed emergency managers have tapped water and sewer money for other needs.

Public Health

Woman Becomes 4th Case of Zika Virus in Illinois
(NBC)
Illinois: A fourth case of the Zika virus has been reported in Illinois, the Illinois Department of Public Health said in a statement on its website. IDPH told NBC Chicago a woman who is not pregnant has the virus. Further details about her age or her travel history were not disclosed. Most people exposed to Zika, a tropical virus spread by mosquitoes, suffer only mild symptoms. But the risk is far greater for pregnant women because of a possible link to a birth defect and neurological problems.

FDA Issues New Blood Donation Recommendations; WHO Evaluating New Forms Of Mosquito Control
(ABC News)
Global: The U.S. Food and Drug Administration (FDA) issued recommendations Tuesday to safeguard the donated blood supply during the Zika virus outbreak. The agency is recommending that those at risk of having been infected with the Zika virus should not donate blood for four weeks. These include those who have had Zika virus symptoms or sexual contact with people who have traveled to countries known to have ongoing transmissions. Additionally, the FDA recommends that no blood be used from areas where there is active transmission of the virus. No transmissions of the virus between mosquito and human have been reported in the U.S. In a new report, officials from the World Health Organization (WHO) said they are looking into new forms of mosquito control, including "a genetically modified prototype mosquito." The WHO Vector Control Advisory Group is evaluating new tools in an effort to kill the insects that spread the Zika virus. In addition to GMO mosquitoes, the group is also looking at sterilizing a male mosquitoes using a low dose of radiation. Additionally, a bacteria called "Wolbachia" could be used to stop mosquito eggs from hatching. The bacteria is not infectious to humans or other mammals.

Law Enforcement and Intelligence

Three Arrested In Connection To Reported Shooting At Cleveland Clothing Store
(Cleveland News)

Cleveland, Ohio: Cleveland police arrested three people following a shooting Monday at a Krush Clothing store in the Warehouse District. Officers were called to the store Monday at about 7:00 p.m. local time for reports of gunfire and police were told that a shooter was possibly inside the store. Police shut down nearly all of West 9th Street for over two hours and warned passersby to avoid the area. A SWAT team and a K-9 unit searched store, but didn't find any suspects; no one was hurt. The suspects haven't been formally charged in the incident at a Krush Clothing store on the 1300 block of West 9th Street, a Cleveland police spokeswoman said. Police caught a male with a backpack full of money near the scene although it is not clear if the cash was taken from the clothing store. Detectives seized one gun from the store and another gun from a vehicle. The police department's Gang Impact Unit is continuing to investigate.

Mr. Pratt,

Thanks for coming to inform me of the Emergency Management Teams and what they can offer in this response and recovery.

Even more thanks for assisting the woman that came to speak to me after the event. That was one of the reasons the Surgeon General came to town. To connect people with resources and orgs with orgs, so thank you.

I am putting you in contact with the State VAL, Mr. Tom Weber who should be able to point you in the right direction for volunteer efforts.

Cc'ing Cpt Kelenske as I mentioned who is in charge of the State EOC.

Thanks again for reaching out.

Best,
Jamal

> Dr. Gwathney,
>
> Thank you so much for your visit to Flint and for speaking with me following the meeting at Mt. Carmel.
> Here is a link to an article about Incident Management Teams I suggested:
> http://www.emergencymgmt.com/disaster/All-Hazards-Type-3-Incident-Management-Teams.html
> I believe such a team could be extremely valuable managing this disaster. Having 7000 homes canvassed is a great feat for a local NGO, there are still hundreds if not thousands that have not been reached. Providing water and filters to the most vulnerable citizens must be a top priority.

This can only be accomplished by going door to door. I'm told the State Police and National Guard are both going door to door, Dr. Murthy mentioned the 7000 houses Flint Rising has reached but we are still missing houses. There needs to be better communication/collaboration between the EOC and the NGO's operating in the field.

There are dozens of unofficial water distribution stations, some documented and some simply set up by people from all over the country who want to help. Without leadership and control from the EOC it's impossible to know how many resources are being used. St. Mary's, St. Michael's and Mission of Hope are the three sites I'm most familier with and there is little documentation about who is bringing resources (water, filter, baby wipes, formula etc...) or how soon they are depleted.

If there are official assigned to coordinate with NGO's we need a way to contact them.
I could go on all night about the need for ROWPU's or a strategy for those who have faucets that cannot be fitted with filters but we are both busy individuals.
Again THANK YOU for assisting in this disaster,
Respectfully,
Bob Pratt

Subject:	Data report
Attachments:	GovernorReport 2016-02-15 (6).pdf

Governor,

Attached is the daily report. One item to note regarding the apartment data: According to the SEOC, all apartments have been visited; however, the Red Cross did not record every visit. As a result, the "not visited" heading has been changed to "attested but unrecorded visits."

I also noticed that the data DHHS entered into their spreadsheet for blood tests last week contained additional Flint zip codes that include a mix of Flint Water and non-Flint Water customers. The attached report goes back to using the original zip codes, and we will produce a week-by-week comparison sheet tomorrow. Using the original zip codes, and comparing the weeks ending 2/5 and 2/12, the EBL percentages are very similar.

Nat

SEOC Report for: February 16, 2016
Full Days Since Emergency Declaration: 42

Items to Note

• Commenced development of a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.
• Southern Baptist Disaster Relief taking over rapid response deliveries from NCCC on 02/16/2016 with five teams in the field.
• IC coordinating with MSU College of Veterinary Medicine and MDARD for development of blood lead level testing program for companion animals.

Subject: Daily Summary
Attachments: 2015-10-01 City of Flint Water Contamination-Shortage SitRep 42 2016-02-16.pdf

Capt. Kelenske,

Below is a summary of events for today. Peter Manning has reviewed the Sit Rep. Ben and Nat are working on an updated version to today's Governors Report and will pass it along once it is available.

Update 2/16/16 – 43rd Day (42nd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #42.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Water distribution and supplies requested.
- 5 American Red Cross Teams scheduled for Wednesday, February 17, 2016.

Items to Note

- A Congressional/Legislative conference call was held today at 2:30 PM.
- MDEQ commenced development of a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.
- Southern Baptist Disaster Relief took over rapid response deliveries from NCCC on 02/16/2016 with five teams in the field.
- Local EOC IC is coordinating with MSU College of Veterinary Medicine and MDARD for development of blood lead level testing program for companion animals.
- GIS is generating a list of apartment buildings receiving water from the City of Flint and how many times each building has been visited.

- GIS generating a list of total residences that potentially will be using a water filter that use water from the City of Flint.
- DTMB Real Estate researching options for a 200,000 sq. ft. warehouse for long term distribution plan, preferably on the bus line.

Unified Coordination Group (UCG):

- CDC will meet with state on rash complaints/test results.
- Attended Command/Control subgroup this afternoon. Group would like to change the name to coordination.
- Important to include state reps on each subgroup.

Local EOC:

- Sentinel monitoring teams collected 273 water samples at yesterday.
- Elevated lead and copper task force were out in the field today.
- Local EOC IC attended Community Stakeholders meeting.
- Local EOC Liaison attended Community Stakeholders and long term distribution process meeting.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	02/09/2016 08:00:00
Operational Period End:	02/16/2016 08:00:00
Situation Report No.	42
SEOC Status:	Full
SEOC Hours of Operation Begin:	02/16/2016 08:00:00
SEOC Hours of Operation End:	02/16/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (February 16, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Worked on potential donated warehouse opportunities.

JIC:
- Created a media monitoring report and looked for misinformation.
- Updated a Daily JIC Activities log to catalog actions completed for the day and planned news release strategies for the week.
- Drafted and intended to issue a news release about the National Guard rotating soldiers in the city of Flint.
- Continued routing public information materials for approval, including fact sheets on recycling, testing water, and keeping Flint kids safe.
- Additional translated news releases were received and routed.
- Created a community outreach spreadsheet to keep track of meetings occurring in the city of Flint.

Recovery Branch:
- Attended UCG Brief, SEOC State Agency Briefing Meetings, Distribution Process Meetings.
- Continued identifying addresses that are unable to be matched with parcels in city's parcel data set.
- Team Priority Visited Today: 5 teams in the field - Water Distribution – turned 211 information over to local EOC and Southern Baptist Teams.
- Team Priority Scheduled Tomorrow: Water distribution and supplies requested.
- 5 American Red Cross Teams scheduled for Wednesday, February 17, 2016.
- Total homes visited:
  - 24,879 (round 3 total)*
  - 1,023 (today).
- Water cases (liters calculated by multiplying # of cases x 12):
  - 178,116 liters or 14,843 cases (round 3 total)*
  - 8,076 liters or 673 cases (today).
- Replacement cartridges:
  - 6,331 (round 3 total)*
  - 809 (today).
- Faucet filters:
  - 7,792 (round 3 total)*
  - 90 (today).

*Totals updated due to changes in previous data.

Planning Section:
- Developed and approved Sit Rep #42.
- Updated burn rates and projection costs, per request.
- Participated in daily UCG, state agency, and distribution process meetings.
- Developed daily Governor's Report.

Operations Section:
- Participated in Long Term Recovery planning meeting.
- Participated in Unified Coordination Group briefing.
- Facilitated Command/General Staff/SEOC briefing.
- Participated in Distribution Process meeting.
- Assisted in developing print plan for FOIA request.
- Assisted state agencies in handling requests from Governor's office, media, etc.
- Warehouse Numbers as of 1800:

❑ Water (liters):
• 828,374 liters or 69,031 cases.
❑ Filters (faucet):
• 47,132.
❑ Replacement cartridges:
• 402,782.
❑ Test Kits (prepped):
• 35,854.
• PODs (Number as of 1700 2/15):
❑ Water (cases):
• 59,184 liters or 4,932 cases.
❑ Filters (faucet):
• 162.
❑ Replacement Cartridges:
• 453.
❑ Test kits:
• 131.

Finance Section:
• Gathering information for meeting with State Budget Office.
• Update Category B Financial Spreadsheet.
• Reviewing donation information for potential as future match.

GIS Branch Updates:
• Update MDEQ water testing layer.
• Generate a list of apartment buildings receiving water from the City of Flint and how many times each building has been visited.
• Generate a list of total residences that potentially will be using a water filter that use water from the City of Flint.
• Compare and contrast 2016 Flint parcel layer with 2015 Flint parcel layer.
• Edit Flint Water Resource Team field data to parcel.

DTMB:
• Provided a dumpster for the Pierson Rd. Warehouse.
• Provided seven (7) iPads for DEQ sampling teams.
• DTMB to provide a truck and driver for the Food Bank for Thursday through Saturday.
• Procured a replacement fork lift battery for the Pierson Rd. Warehouse.
• Addressing issues with Pierson Rd. Warehouse with landlord, MDOC and 7th Day Adventist.
• DTMB Real Estate researching options for a 200,000 sq. ft. warehouse for long term distribution plan, preferably on the bus line.

DHHS-CH (weekly):
• The CHECC remains activated at a Level 2, and continue to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.
• The CHECC met with senior MDHHS leadership, UCG representatives and team members that have been supporting GCHD Case Management efforts today to continue planning efforts for lead testing and case management activities going forward.

DEQ:
• Continued documenting compliance with EPA Emergency Administrative Order and second EPA request.
• Reviewed incident objectives to reflect Director's priorities for upcoming week.
• Began developing a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.
• Continued monitoring and mapping of school fixture upgrade/replacements.
• Began planning for next phase of testing and data collections.

Unified Coordination Group (UCG):
• CDC will meet with state on rash complaints/test results.
• Attended Command/Control subgroup this afternoon. Group would like to change the name to coordination.
• Important to include state reps on each subgroup.

Local EOC:
• Sentinel monitoring teams collected 273 water samples at yesterday.
• Elevated lead and copper task force were out in the field today.
• Local EOC IC attended Community Stakeholders meeting.
• Local EOC Liaison attended Community Stakeholders and long term distribution process meeting.

Injuries:
• None reported today.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
12. Approve and begin implementation of a comprehensive long term recovery and transition plan.
11. Ensure accurate tracking and accounting of all donations and expenditures.
2. Ensure accurate tracking and accounting of all commodities.
3. Continue to improve and maintain public information processes and strategies with all partner agencies.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
9. Continue to enhance situational awareness and common operating picture of all activities.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 16.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Environmental Quality, Health and Human Services and Natural Resources. The Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:
• Media hotline staff answered less than 10 emails and phone calls, ranging from commodity distribution trends at the Water Response Sites to inquiries about volunteering in the city of Flint.

• Created a media monitoring report and looked for misinformation.
• Updated a Daily JIC Activities log to catalog actions completed for the day and planned news release strategies for the week.
• Drafted and intended to issue a news release about the National Guard rotating soldiers in the city of Flint.
• Continued routing public information materials for approval, including fact sheets on recycling, testing water, and keeping Flint kids safe. Additional translated news releases were received and routed.
• Created a community outreach spreadsheet to keep track of meetings occurring in the city of Flint.

Agriculture and Rural Development (MDARD)

MDARD's field activities for 2/12/16 included:
• 15 assessments conducted (6 initial, 9 follow-up and 2 second follow-up).
• 5 water samples collected.
• 6 water sample requests/appointments were scheduled.

As of 2/5/16, MDARD has completed initial water assessments at all food businesses in the high risk area and has conducted a total of 371 assessments (280 initial/ 91Follow-up). The compliance rate is 77.63%. 242 water samples have been collected and 41 are currently scheduled.

Also followed up with general information regarding testing of Pb in companion animals in response to question from DEQ desk.

Completed request from MSP planning regarding closures of food establishments as result of non compliance, see below:

I will be at the SEOC on Wednesday and follow up with Drs. Averill and Frank regarding Genesee county companion animal information.

American Red Cross (ARC)

The American Red Cross deployed 5 Water Response Teams on Tuesday, 2/16/16.

The Volunteer Reception Center was operating today from 9am to 5pm, and the plan is for those hours to continue daily, through Sunday.

A limited number of water bottle recycling kits were assembled today.

Civil Rights (MDCR)

Continue to monitor media and state agency activities for issues impacting underrepresented, at-risk, and populations with barriers to services and information. Informed senior leadership of current activities and concerns.

Community Health (MDCH)

The CHECC remains activated at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.

Dr. McFadden reported that to date there is no conclusion regarding the cause of rashes that have been reported, no common presentations on interview. Epidemiological investigations are on-going. A dermatologist has offered to do evaluations of individuals with rashes at no charge. Dr. McFadden's team will schedule the appointments and MDHHS -Human Services Representative is working with the local EOC to determine a transportation plan for these individuals if required. EPA test results of the water from the individuals' homes are expected today.

Shower filters are only NSF/ANSI certified for chlorine. Contacted makers of the KDF filters which are used on showers and was informed that due to the high flow rate of showers, the water is not in contact with filters long enough so they are not really designed for more than cosmetic purposes.

MDHHS continues to provide volunteers to accompany the MDEQ High Lead Home Teams.

Corrections (MDOC)

MDOC began staffing the second warehouse 7 days/week 10-6 effective today. MDOT is dedicating 2 employees to the effort. DTMB continues to dedicate 2 trucks with drivers.

The building owner of Warehouse 2 restricted access to an unsafe area (compressor room). A padlock w/chain and signage was used.

MSP dispatched a unit to Warehouse 2 for an abandoned vehicle with busted windows in the parking lot. The vehicle was not stolen and the issue was turned over to the city PD for disposition.

A temporary replacement battery will be delivered tomorrow for the forklift at Warehouse 2 until the permanent replacement arrives Thursday or Friday.

Met with FEMA VAL regarding safety concerns at Warehouse 1.
-Security staff to restrict access
-Propane storage areas
-Exhaust fumes in warehouse
-Safety Vests
-Floor tape designating machine and pedestrian areas
-First Aid and AED
-Dust Masks

We are addressing the issues and will correct them. A follow up will be in the next Sit-Rep.

MDOC will provide a Truck and Driver for the Flint Food Bank for Wednesday, February 17, 2016.

MDOC continues to keep trucks dedicated to delivering to individual POD's and covering Rapid Responses for PODs that get to a critical level. PODs remained well supplied throughout day and will continue to be well supplied moving forward.

We are continuing to work with Finance and MDOC assets to capture total employee payroll information and expenditures.

MDOC continue to staff the SEOC from 0800-2000, 7 days/week. Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC.

403 DEQ and 0 MDARD test kits were delivered from Flint to Lansing today.

Education (MDE)

MDE has a request from Planning to determine if any school days or instructional time has been lost due to the Flint water situation. We have reached out to GISD with a request for this information. MDE has received a request from the MEA Region Director for training of teachers of students impacted by Flint water situation.

MDE continues to work with MSD on faucet replacement and re-replacement with a new target date of 24 February for completion.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

Continued documenting compliance with EPA Emergency Administrative Order and second EPA request.

Reviewed incident objectives to reflect Director's priorities for upcoming week.

Began developing a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.

Continued monitoring and mapping of school fixture upgrade/replacements.

Began planning for next phase of testing and data collections.

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team.

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.

Faucet Project information is being prepared for the affected facilities. LARA continuing efforts to plan and schedule faucet replacements for Flint facilities.

LARA is working with MDOC to track and store incoming material at the warehouse.

Translation services for various documents continue to be provided as needed - these include Spanish, Arabic, Mandarin, Hmong and American Sign Language.

Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort with state agencies.

Arrangements in progress for assistance to various ethnic communities to provide services.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 1612002016.

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN).

3. POC: Ssg Gazzeny, Darryl L. Cell: Email: armyinfantry31@yahoo.com.

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502.

5. SITUATION OVERVIEW: 1-125 IN has ? Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has ? Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. Signs have been printed off for the POD Buildings. Requesting approval to get the signs laminated from the purchasing office.

1.) TF Flint OIC, 2LT Benke has a meeting on 16FEB2016 with Calix Martinez in the city of Flint Plans and Marketing office to have signs designed and printed.

b. Soldiers are preparing for the unit change at the PODs.

1.) 1-125 IN conducting relief in place within next 24 hours.

8. PERSONNEL: Soldiers are currently assigned to the POD operations. Soldiers are assigned in teams at Fire Stations 1, 3, 5, 6 and 8.

9. INTELLIGENCE / FORCE PROTECTION:

10. LOGISTICS: In support of TF Flint

a. 60 cases of recycle bags have been placed at POD locations.

b. Recycling trailers are being assessed by schupon on frequency of pickup.

11. COMMUNICATIONS: No communications issues at this time.

P: RRF cell phones alternate for WRTs.
A: Personal cell phone.
C: 800 MHz radios issued to PODs and WRTs.
E: Runner.

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:
• AAR and operational notes are being consolidated into SOP's to send to JOC to assist in updating the All Hazards Plan.
• An operational handoff packet including SOP's, POC's, POD sector sketches, hand-receipts, and other operational notes is being built to assist the incoming unit.
• POC needed for incoming unit
• OUT (last 24 hours)
Bottled water-3733 Water (Gallons)-2020 Lead Testing Kits-131
Pitcher (23 cup)-0 Brita Faucet Filter-34 Brita Replacement Cartridge-128
Pur Filter-76 Pur Replacement Filter-243

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan.gov are being forwarded to the Operations Lt. The phone number for the on duty Operations Lieutenant is 517-241-8000.

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management SEOC updates and expenditures to-date.

Provided a dumpster for the Pierson Rd. Warehouse.
Provided seven (7) iPads for DEQ sampling teams.
DTMB to provide a truck and driver for the Food Bank for Thursday through Saturday.
Procured a replacement fork lift battery for the Pierson Rd. Warehouse.
DTMB Print & Graphics printing multiple print jobs.
Added calendar access to two additional DEQ employees.
Addressing issues with Pierson Rd. Warehouse with landlord, MDOC and 7th Day Adventist.
DTMB Real Estate researching options for a 200,000 sq. ft. warehouse for long term distribution plan, preferably on the bus line.

Transportation (MDOT)

Continuing to maintain situational awareness and responding to issues regarding equipment and road conditions.

Based on these trends, does the JIC plan to reassess the current distribution model?

Possibly move distribution out of the fire stations and into churches or other venues?

On Tue, Feb 16, 2016 at 2:50 PM, JICNews <JICNews@michigan.gov<mailto:JICNews@michigan.gov>> wrote:
Hi Steve,

We're seeing an overall downward trend for bottled water, water filters and lead testing kits at our water response sites.

For the water main break on Dort Highway, there was a slight jump for resources. It looks like there was a little bit of an increase for replacement cartridges, too.

I've attached a few charts I received from the State Emergency Operations Center. It sort of gives a picture of what's going on.

Thanks,

Ron

Subject: A news media question

Hello,

I'm not sure who to send this question to.

I was wondering have you seen any trends in bottled water, water filter or lead testing distribution.

Are people in Flint picking up the same amount of bottled water every day since the start of the city wide distribution?

Are people asking for more water filters? Was there a spike in demand after the water main break this month near Dort Highway?

What about demand for lead testing kits?

Also,

The laboratory provides a query of results >100ppb twice daily. These results are sent to CDC, DHHS, EPA and the local EOC. DHHS and DEQ teams then make contact via the protocols in the attached plan. CDC and GCHD have a plan of their own and have not coordinated with the state teams.

Subject: Questions

Please let me know on the following:

- When the water lead levels come back >150 ppb can we confirm which homes of those in this category have been visited? How quickly are they visited?
- What do the letters say when the water lead levels are >15 ppb? The below article indicates we are telling them to call the local health department. We need better messaging. We should include what services are available such as WIC, 211, etc.
- For the tests that come back below 15 ppb are we sending a letter indicating their water lead level is below the action level and then proceed to let them know they are safe to use the water filters. We need to increase trust in the water filters and get better messaging out.
- For the tests that come back below 150ppb are we sending a letter indicating their water lead level allows them to safely use the water filters. We need to increase trust in the water filters and get better messaging out.

Read the below and lets discuss. Thanks

PLAN FOR INITIAL OUTREACH VISIT TO RESIDENTS WITH LEAD LEVELS IN EXCESS OF 150 ug/l (ppb)

GOAL: To conduct initial outreach visit to every residence within the Flint Water Emergency footprint within 48 hours of receipt of laboratory data that indicates water sample levels in excess of 150 ppb.

PLAN:

1. Deploy one Initial Outreach Team on February 4, 2016 to homes with lead levels in water samples greater than 150 ppb to provide safe drinking water commodities (e.g. bottled water, filters, replacement cartridges, and sample kits) and information packets (attached). The Initial Outreach Team will also offer to schedule a follow up appointment for additional services that will be provided by the High Lead Response Task Force. The Initial Outreach Team consists of one Department of Environmental Quality representative, two Team Rubicon representatives, one Penske truck loaded with commodities, and one uniform police in escort vehicle. Goal is to visit every address within the Flint Water Emergency footprint with lead levels in water greater than 150 ppb on February 4, 2016.

2. Going forward, after all addresses in Task 1 have been visited, the Initial Outreach Team will visit every address within the Flint Water Emergency footprint within 48 hours of receipt of laboratory data that indicates lead levels in water greater than 150 ppb.

3. After all addresses with lead levels in water greater than 150 ppb have been visited, the Initial Outreach Team will visit addresses immediately adjacent to those with lead levels in water greater than 150 ppb and offer to leave test kits for water sample collection.

4. The High Lead Response Task Force will conduct follow up appointments scheduled through, or as a result of, the Initial Outreach Team visits. Their mission is to collect water samples; inspect plumbing, fixtures, clean

aerators, and flush hot water heaters as needed; and provide health consultation services. The High Lead Response Task Force will consist of one Department of Environmental Quality representative, one Department of Health and Human Services representative (or equivalent), one licensed plumber, and one law enforcement escort.

5. Data will be recorded by both the Initial Outreach Team and High Lead Response Task Force using an iPad and program that will record geospatial data that can be uploaded into Geographic Information System (GIS).

6. Residences with high lead levels in water samples will be asked if they will participate in the sentinel sampling program.

Would it be possible to do an in-person interview with someone tomorrow (wednesday) about the declining numbers?

My schedule is wide open on Wednesday. I can do the interview in Flint or Lansing.

Based on these trends, does the JIC plan to reassess the current distribution model?

Possibly move distribution out of the fire stations and into churches or other venues?

Hi Steve,

We're seeing an overall downward trend for bottled water, water filters and lead testing kits at our water response sites.

For the water main break on Dort Highway, there was a slight jump for resources. It looks like there was a little bit of an increase for replacement cartridges, too.

I've attached a few charts I received from the State Emergency Operations Center. It sort of gives a picture of what's going on.

Thanks,

Ron

Subject: A news media question

Hello,

I'm not sure who to send this question to.

I was wondering have you seen any trends in bottled water, water filter or lead testing distribution.

Are people in Flint picking up the same amount of bottled water every day since the start of the city wide distribution?

Are people asking for more water filters? Was there a spike in demand after the water main break this month near Dort Highway?

What about demand for lead testing kits?

Captain,

Henrik and Lt. Roach went to each house tonight. Henrik just called and advised that each house appears to be vacant. One house is currently be fixed up, but is still vacant at this time ıe neighbors stated that no has lived in that house for at least four months. The other houses showed no sign of being in habited. No footprints in snow, no signs of furniture, electricity, etc. They are confident that these homes are all vacant.

Please advise if you require additional information.

Thank you.

Kevin,

Below is the status of the 5 addresses you provided.

-The Property was marked as abandoned on 1/16/16. . If the resident is claiming no contact, we will put them on the RRT list.

- Parcel is marked as unvisited. We will put it on the RRT list

-This is not listed within the City's Parcel Database. If the resident is claiming no contact, we will put them on the RRT list.

Parcel is marked as unvisited. We will put it on the RRT list

- This parcel was marked as abandoned on 1/17/16. . If the resident is claiming no contact, we will put them on the RRT list.

Thank you so much for bringing this to our attention. We will move forward with these and hope to have them visited as soon as possible.

Thanks,

Alex

Captain,
Mr. Carmody is looking to discuss what trends we have seen with filters, testing kits and water. Those are the commodities and goods he is looking to discuss (as of this point in time). Basically, are the requests decreasing for these items, did the water main break cause a spike in the requested items? My guess is he might ask about our current supply and if we feel we have enough, ect

VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

I was wondering have you seen any trends in bottled water, water filter or lead testing distribution.

Are people in Flint picking up the same amount of bottled water every day since the start of the city wide distribution?

Are people asking for more water filters? Was there a spike in demand after the water main break this month near Dort Highway?

What about demand for lead testing kits?

Subject: Bullets - Draft Long Term Recovery Plan

Ken,

Attached is a draft of the bullets of what was discussed on the direct delivery/POD course of action. Please take a look and let us know if you see anything we missed. We provided some strengths and weaknesses, as well as some items to note on the faith based courses of action.

Thanks,
Bri, Jay & Zach

Bullet Points on Long Term Distribution Course of Action
Direct Delivery and PODs Approach

Scope

- Direct delivery of filters, cartridges, and pitchers to residences.
- DTMB will go through an RFP process to secure contractor for direct deliveries.
- Utilize PODs primarily for water distribution and recycling.
    - 1 POD per Ward = 9 total PODs
    - Fixed Location: Parking lot next to bus route and/or transportation route based on FEMA IS26 compliant checklist
    - Box truck with just in time commodities
    - Staffing would be provided all or in part by workforce development grants
    - 9 per POD for a total of 81 personnel
- Rapid Response Teams for Access and Functional Needs (AFN)
    - 1 Rapid Response Team per Ward = 9 total Rapid Response Teams
    - 1 Rapid Response Team = 1 Box Truck and 2 personnel
    - Staffing would be provided all or in part by workforce development grants
    - Approximately 3,000 AFN in affected area
- Designated officials will coordinate pickup for franchise customers.

Strengths

- Tracking and protection of personally identifiable information is the contractor's responsibility.
- Places tracking and accounting aspects in the hands of the contractor.
- Provides a convenient and citizen/survivor centric solution.
- This COA may be supplemented by faith and community based distribution centers at their discretion (account for undocumented workers).
- Allows a phased approach transition to community pods for water distribution.
- Scalable PODs operations based on the overall demand for water.
- Follows FEMA approved guidelines for operation of a POD.
- PODs are Ward based, giving local government more visibility of the operation.

Weaknesses

- Increases the cost of the response, at least initially.
- Burn rates and other data will not be readily available.
- May require an MOU for the PODs locations.
- Increased possibility for retail fraud.
- Initial setup time will be more extensive.

Other COA Weaknesses

- Faith based courses of action
    - Require excessive number of volunteers to sustain operations
    - Unmanageable number of distribution points
    - Religious sensitivities

Thanks, Amanda.

Please compare this report with last night's report. I need to know which cells have changed, and what cells have not.

I'll be forwarding you a copy of last night's report in case you don't have one.

Ben

Attachments: *Media Advisory Flint Water delivery 2016.docx*

FYI...

FOR IMMEDIATE RELEASE

Detroit City Council President Brenda Jones and Councilman Andre L. Spivey Partner with local community partners *through its Detroit to Flint: Water Campaign will provide over 1 Million bottles of water to Flint, MI.* A Total of 28 Semi-Trucks will delivery approximately 1 Million bottles of water

WHEN: Wednesday, February 17, 2016
11:00am (Press Conference)
11:20am (Caravan Departure)
1:10pm (Arrive in Flint)

WHERE: D & B Distributors
35400 Central City Parkway
Westland, MI 48185

WHO: Council President Brenda Jones
Councilman Andre L. Spivey
Representative from D & B Grocers
Representative from United Way for Southeastern Michigan
Representative from The Association of Food and Petroleum Dealers

WHAT: Detroit City Council President Brenda Jones and Councilman Andre Spivey, along with a collective group of residents, businesses, churches, and community organizations in metro Detroit came together to help out a neighboring community in need—Flint, Michigan. The campaign set out to raise funds for 30,000 cases of water and like always Detroiters answered the call and funds for over 40,000 cases of water were collected. Craig Newmark, the founder of Craiglist, donated 25,000 cases of water to the campaign. The generous support of D & B Distributors, AFPD, Absopure of Michigan and Faygo allowed the campaign to purchase cases of water at the wholesale rate of $2.00 per case. The Detroit To Flint: Water Campaign raised over $85,000 during the week of January 25-31, 2016. This campaign was made possible by the support of United Way for Southeastern Michigan, WXYZ TV 7, The Ambassador Bridge Company, and Mason & Coco in the Morning Show.

Transportation to transport the water to Flint is being donated by: D & B Distributors, Faygo, LaBarge Trucking, NE Logistics, and Absopure of Michigan.

Delivery Locations: Food Bank of Eastern Michigan
2300 Lapeer Rd
Flint, Michigan 48503

Triumph Church
1657 Broadway Blvd
Flint, Michigan 48506

The Village Center
G5262 North Saginaw Street
Flint, Michigan 48505

Quinn Chapel AME Church
2101 Lippincott Blvd
Flint, Michigan 48503

February 13, 2016

Harvey Hollins III
Director
Office of Urban and Metropolitan Initiatives
State of Michigan
3044 West Grand Blvd.; Suite 14-650
Detroit, Michigan 48202
via email – FWICC@michigan.gov

Dear Director Hollins:

I look forward to connecting with you early next week to discuss the water crisis in Flint and how our firm, K2 Intelligence, can be an asset to you as you address this on-going concern.

K2 Intelligence is an industry-leading investigative, compliance and cyber defense services firm founded in 2009 by Jeremy M. Kroll and Jules B. Kroll, the originator of the modern corporate investigations industry. We are proud of our reputation, relationships and the rich network of experts situated around the world that we have amassed over the last 40 years. We are also proud of our world-class multidisciplinary team, with backgrounds in government intelligence, law enforcement, regulation, forensic analysis and journalism, known for their investigative, analytic and advisory excellence. Our firm is also known for its strategic approach and use of cutting-edge technology and has been ahead of the curve in bringing advanced tools, formerly only used within law enforcement and the intelligence community, to the private sector. With offices in New York, London, Madrid, Tel Aviv, Geneva and Los Angeles, and nearly 300 professionals located around the world, we advise governments, companies, boards and individuals across a wide range of business areas.

The firm's senior leadership team includes:

- Jules Kroll – the originator of the modern corporate investigations industry;
- Ray Kelly – renowned expert in risk management and one of the world's most highly esteemed law enforcement leaders; and
- Al Bernikow – former Deputy Chief Executive Officer of Deloitte & Touche.

Among the many services we provide to our clients, one that we believe to be particularly relevant is Project Oversight Monitoring. Project oversight monitoring involves the use of a third party retained by a public agency, company or organization in order to minimize opportunities for fraud, waste and abuse as well as to assure compliance with legal and regulatory requirements.

K2 is well-poised to provide project oversight monitoring services to the State of Michigan and City of Flint. Our multi-disciplinary approach includes engineers, auditors, grants management specialists, attorneys, and investigators that can provide a wide range of programmatic and financial management in order to comply with all state and federal regulations and statutes. As we discussed previously, the K2 oversight, compliance and due diligence model allows the client to have real-time monitoring of all phases of the project while also relying upon K2's expertise with internal controls and process management to proactively minimize any waste, fraud, or abuse that may possible exist.

K2 has provided project oversight monitoring services for some of the largest public infrastructure projects and programs in our country's history, including the cleanup at Ground Zero following the 9/11 terrorist attacks, the rebuilding of the World Trade Center, the States of New York and New Jersey and the City of New York's post-hurricane Sandy recovery and rebuilding programs, and perhaps most relevant, the $3.2 billion reconstruction of the Croton Water Filtration Plant.

Once again, I look forward to connecting early next week and for taking the time to review our materials.

Sincerely,

Joseph A. DeLuca
Executive Vice-President, Americas

PRIVATE AND CONFIDENTIAL

K2 Intelligence

Jules B. Kroll

Chairman of the Board
jules@k2intelligence.com
+1 212 694 7000

Areas of Expertise:
Complex Investigations

Jules B. Kroll is Chairman and co-founder of K2 Intelligence. He is also Chairman and CEO of Kroll Bond Rating Agency, Inc.

Jules is the founder of Kroll, Inc., and the acknowledged pioneer of the modern investigations, intelligence and corporate security industry. In 1972, he established Kroll Associates Inc. the prototype for a new breed of professional services firms dedicated to mitigating risk. By employing former prosecutors, law enforcement officials, journalists and academics who used sophisticated fact finding techniques to address decision-makers' needs for accurate information, Jules established investigations and risk consulting as indispensible corporate services.

In 2004, Jules sold Kroll Associates to Marsh & McLennan Companies, ultimately reaching $1 billion in annual revenue. He currently serves as Chairman of the John Jay College of Criminal Justice Foundation. Jules is a former member of the Board of Regents of Georgetown University and Board of Trustees of Cornell University and also served as the Chairman of the Georgetown Law Center Board of Visitors.

Education

Jules received an LL.B. from Georgetown University Law Center and a B.A. from Cornell University.

Raymond W. Kelly

Vice Chairman
Ray.Kelly@k2intelligence.com
+1 212 694 7000

Areas of Expertise:
Complex Investigations & Disputes
Board Advisory

Raymond W. Kelly is Vice Chairman of K2 Intelligence.

Former New York Police Department (NYPD) Commissioner Ray Kelly brings decades of experience setting strategy to combat threats faced by nations around the world, by the public and by the private sector. He will provide valuable insight into the design and development of tailored enterprise risk solutions for K2 Intelligence clients around the world. Both internal and external risks affecting the safety of client assets and the reputation and stability of their key stakeholders will be addressed. Ray will provide C-suite executives and government municipalities top-level guidance on issues such as infrastructure safety, regulatory compliance, and government enforcement response.

Ray is a distinguished leader and protector and is New York City's longest-serving police commissioner. Under his leadership the NYPD has been described as the premier domestic public-safety agency in the United States. Ray established the first Counterterrorism Bureau of any municipal police department in the country and built the Department's Intelligence Bureau, creating a global intelligence program with detectives stationed in cities abroad.

Ray joins K2 Intelligence from Cushman & Wakefield, where he was President of the firm's Risk Management Services group. This group offered clients of the commercial real-estate firm tailored solutions to manage and mitigate risks around the world. In the private sector he has also served as President of Investigative Group International and as Chief of Security at Bear Stearns. Ray is a Distinguished Visiting Fellow at the Council on Foreign Relations and an ABC News consultant.

Ray's almost 50-year career in public service includes serving as Commissioner of the US Customs Service and as Undersecretary of Enforcement at the US Treasury Department. He served as a Vice President of Interpol and directed the International Police Force in Haiti, where he was awarded the exceptionally meritorious service commendation from the President of the United States. Ray is also a retired United States Marine Corps Reserves Colonel with 30 years of service in the United States Marine Corps Reserves, including serving a combat tour in Vietnam. He received 14 citations of merit for outstanding police work during his tenure at NYPD and was awarded France's highest decoration, the *Legion d'Honneur*. Ray is the author of the best-selling book *Vigilance: My Life Serving America and Protecting Its Empire City* (Hachette Books Group USA, 2015).

Education

Ray received his J.D. from St. John's University School of Law, his L.L.M. from New York University Graduate School of Law, his M.P.A. from the Kennedy School of Government at Harvard University, and his B.B.A. from Manhattan College. He is an attorney and a member of the New York State Bar. He has also been awarded honorary degrees from the Catholic University of America, Manhattan College, St. John's University, the State University of New York, the College of St. Rose, Iona College, Marist College, New York University, Pace University, Quinnipiac University, and St. Thomas Aquinas College.

Thomas D. Thacher

Chief Executive Officer –
Thacher Associates
toby@thacherassociates.com
+1 212 845 7525

Areas of Expertise:
Board Advisory
Integrity Monitoring & Compliance
Complex Investigations & Disputes
AML & Regulatory Compliance

Thomas D. Thacher is Chief Executive Officer of Thacher Associates, an investigative consulting firm that forms part of K2 Intelligence, Inc.

Prior to founding Thacher Associates in 1996, Thomas (Toby) Thacher had more than 20 years' experience in both civil and criminal law. Immediately before founding the company, he served as vice president and inspector general of the New York City School Construction Authority. While in that position, he helped bring about fundamental reforms that saved the Authority tens of millions of dollars.

Thomas also served as the first executive director of the Construction Industry Strike Force (CISF) created by New York Governor Mario Cuomo to investigate and prosecute corruption and racketeering in New York's construction industry. Thomas and his team of more than 100 attorneys, investigators, accountants and analysts conducted a massive investigation of the industry that resulted in the successful prosecution of scores of significant construction industry operatives and the publication of a seminal study of corruption and racketeering in the construction industry. Prior to his appointment to CISF, he served as assistant deputy attorney general in the New York State Organized Crime Task Force and assistant district attorney in New York County.

Thomas is a leading expert in the design of integrity-risk and corruption control programs and in managing investigation of fraud, bribery and corruption. He has lectured and written extensively on these subjects.

Joseph A. DeLuca

Executive Vice President, Americas
joe@k2intelligence.com
+1 212 845 7515

Areas of Expertise:
Integrity Monitoring and Compliance
Board Advisory
Data Analytics & Visualization
Complex Investigations & Disputes

Just prior to founding Thacher Associates, Joe served as assistant inspector general and chief of operations for the New York City School Construction Authority (SCA). Created in 1990, the agency's main purpose was to put an end to corruption by removing control of capital projects from the city's Board of Education.

Under Toby's and Joe's leadership, the SCA was hailed by the government and the Kennedy School at Harvard University as a model to replicate in both the public and private sectors.

Joe also spent 10 years as the chief of operations of the Construction Industry Strike Force and as chief of analysis for the New York State Organized Crime Task Force. Prior to that he was a member of the colonel's special staff section of the New Jersey State Police.

Joe is recognized as a leading expert on organized crime and racketeering, with specialized knowledge in the construction and carting industries in New York City. He has lectured around the world on the topics of procurement fraud and organized crime.

Project Oversight Compliance and Monitoring

K2 Intelligence is an investigative consultancy founded by Jeremy and Jules Kroll, the originator of the modern investigations industry.

Advising governments, companies and individuals, we help mitigate risk and maximize growth across the strategic, operational and reputational landscape.

K2 Intelligence conducts due diligence, investigative, analytic and advisory assignments all over the world. The firm employs a wide range of traditional investigative techniques—often amplified by the application of proprietary technology.

www.k2intelligence.com

Who Are We?

K2 Intelligence is an industry-leading investigative, compliance and cyber defense services firm founded in 2009 by Jeremy M. Kroll and Jules B. Kroll, the originator of the modern corporate investigations industry. Over the last 40 years, Jules, Jeremy, and their teams have built a reputation not only for investigative, analytic and advisory excellence, but for the independence and insight they bring to investigations. With offices in New York, London, Madrid, Tel Aviv, and Geneva, and nearly 300 professionals located around the world, K2 Intelligence advises government, companies, boards and individuals in business areas including complex investigations, business intelligence, investigative due diligence, project oversight compliance and monitoring, construction and real estate compliance, anti-money laundering and regulatory compliance, data analytics and visualization and cybersecurity investigations and defense.

In 2012, K2 Intelligence acquired Thacher Associates, a well-known pioneer in the field of project oversight risk management and the industry leader in providing private sector risk management solutions for the public sector. For over 17 years, legacy Thacher Associates has been dedicated to protecting the clients' bottom line by preventing fraud, waste and abuse in the construction sector and beyond. Today the legacy Thacher Associates team forms the basis of K2 Intelligence's Construction and Real Estate practice perhaps best known for its reputation for conducting independent investigations and project oversight monitoring. K2 Intelligence is proud to continue this legacy and together the combined teams help clients mitigate risk across the strategic, operational and reputational landscape.

K2 Intelligence's Construction and Real Estate practice provides independent project oversight compliance and monitoring of mega-construction, infrastructure, and disaster recovery projects and programs and continues to be led by the practitioners who pioneered this concept. Our methodologies to prevent fraud, waste abuse and mismanagement can and have been applied to a variety of industry groups across the 16 critical infrastructure sectors.

What is project oversight monitoring?

Project oversight monitoring involves the use of a third party retained by a public agency, company or organization in order to minimize opportunities for fraud, waste and abuse as well as to assure compliance with legal and regulatory requirements. The use of a project oversight monitor has a history of almost two decades in various parts of the country, but most notably in the New York metropolitan area. The concept arose from a recognition that the construction industry in and around New York was susceptible to systemic corruption. As the role of the project oversight monitor has evolved within the project oversight practice, it has broadened to include not only fraud prevention, but assurance that public funds or private investments will be protected from waste through mismanagement or inadequate controls.

Where have project oversight monitors been utilized?

The project oversight monitoring model was first developed, tested and proven effective at the New York City School Construction Authority in response to massive corruption and organized crime infiltration of the New York City building trades in the 1990s. The model brought about fundamental reforms, saved the School Construction Authority tens of millions of dollars, and was hailed by the Harvard Kennedy School as the model to be replicated in both the private and public sectors.

K2 Intelligence is an investigative consultancy founded by Jeremy and Jules Kroll, the originator of the modern investigations industry.

Advising governments, companies and individuals, we help mitigate risk and maximize growth across the strategic, operational and reputational landscape.

K2 Intelligence conducts due diligence, investigative, analytic and advisory assignments all over the world. The firm employs a wide range of traditional investigative techniques—often amplified by the application of proprietary technology.

www.k2intelligence.com

The first large-scale deployment of project oversight monitors in a disaster recovery setting was at Ground Zero, where project oversight monitors engaged by the City of New York were involved at every phase of the World Trade Center recovery effort from contract award to on-site activity. The message the City of New York conveyed through its use of integrity monitors was clear – integrity counted. Cleanup was on time, under budget. In fact some estimates credited the integrity monitors with more than $60 million dollars in anti-fraud savings. In 2006, a U.S. House of Representatives subcommittee heralded the World Trade Center Monitorship Program as "an overwhelming success," and noted that the program was so effective because it was preventative in nature, with monitors calling for immediate corrections and remediation in real time versus after-the-fact auditing discoveries.

The City of New York again utilized project oversight monitors in the City's Rapid Repair Program – a program designed to help residential property owners affected by Superstorm Sandy make emergency repairs while sheltering in their own homes. The State of New Jersey also codified this best practice when it utilized similar monitors via bi-partisan legislation authorizing their use on all major Superstorm Sandy reconstruction projects. Even Federal officials mandated the use of project oversight monitors following Superstorm Sandy when the Federal Transit Administration required any public agency receiving over $100 million in disaster relief funds to hire monitors.

K2 Intelligence and its practitioners have served as project oversight monitors for each of the examples described above and have actively expanded the use and utilization of independent project oversight monitors for disaster relief throughout the continental U.S. and globally.

How has the need for project oversight monitoring changed today?

In 2013, seven years after Congress first appropriated over $29 billion in Gulf Coast hurricane relief funds, the Department of Housing and Urban Development's Office of Inspector General reported almost $700 million of the funds allocated to victims of Hurricane Katrina and Rita went unaccounted for and are likely lost forever.

Both the public and private sector's response to disaster recovery is accompanied by many of the same inherent risks, regardless of the disaster, geography or responding entity. Two of the most common risks: The need and desire to provide funding and begin assisting the impacted areas as soon as possible, and; a responding entity that frequently lacks the internal controls or infrastructure required to distribute and monitor the immense amount of funds of which they become stewards.

Previous experience from project oversight monitoring efforts in disaster recovery and large-scale infrastructure construction efforts have demonstrated that these monitors provide a very cost-effective way to ensure accountability and transparency.

How can K2 Intelligence help?

K2 Intelligence works within both the public and private sector developing customized solutions designed to protect programs, projects, and funds from waste, fraud, abuse and mismanagement. Utilizing an intelligence-driven approach, we identify the key risks likely to derail, delay, or embarrass, and design detailed monitoring work plans that ensure those risks are mitigated, while not wasting our clients' limited resources on areas of minimal concern. These solutions have ranged from supporting current internal compliance and control capabilities to designing, developing, and deploying investigative and compliance capabilities within public and private clients operations to performing full-service project oversight monitoring on behalf of clients.

If you want to keep doing that, that's great. But are you just talking about large donations of water? Jeff is setting up a team to coordinate vendors so there is no overlap in case someone wants to donate something along the lines of 100 water coolers or something like that. Right now he is working with DOW on a major reverse osmosis system donation. For example.

I also was told by Tori Sachs that vendors with services/products to sell should go through DTMB (Jeff Brownlee). Is this something you can clarify on your call this evening?

SEOC Report for: February 16, 2016
Full Days Since Emergency Declaration: 42

Items to Note

• There will be a Congressional/Legislative conference call on Tuesday, February 16 at 2:30 PM.
• Commenced development of a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.
• Southern Baptist Disaster Relief taking over rapid response deliveries from NCCC on 02/16/2016 with five teams in the field.
• IC coordinating with MSU College of Veterinary Medicine and MDARD for development of blood lead level testing program for companion animals.

Subject: Lt. Gov visit to SEOC

Hello Captain Kelenske,

The Lt. Governor would like to stop by at some point this week to thank everyone for their work. He would prefer it to be unannounced and informal. Could you please tell the best time of the day that can potential work for this?

Best Regards,

Nick Tolfree

Administrative Assistant
Office of Lieutenant Governor Brian Calley
State of Michigan
tolfreen@michigan.gov
Office: (517) 241 – 5625

Subject: Tele-Town Hall Thursday

Hello,

The Governor would like to host a tele-town hall (same format as the one he hosted last week by phone) Thursday afternoon at 3:30 PM. Our office hoped that each of your departments could provide a representative to participate by phone. Please let me know if you are able to participate and I can send the info for the call.

Thanks so much,
Morgan

Garza, Oralya (MSP)

From: MSP-seocfgc
Sent: Tuesday, February 16, 2016 9:33 AM
To: Kelenske, Chris (MSP)
Cc: Katarsky, Anthony (MSP)
Subject: City of Flint - Costs Requested

Captain:

What we need from the City of Flint are any and all costs related to the water emergency – dating back to April 25, 2014 - that would fall into FEMA's Category B – Emergency Protective Measures. Category B costs are defined as measures to save lives, to protect public health and safety, and to protect improved property. To be considered eligible, the emergency protective measures for property must eliminate or lessen immediate threats of significant damage to improved public or private property through cost-effective measures.

Some of the following examples may help the city in their review of financial information to locate all Category B costs:

- Security in the disaster/emergency area
- Provision of WATER and other essential needs at a central distribution point for use by local citizens
- Removal of health and safety hazards
- Emergency protective measures to protect lives or improve property
- Building safety inspections (maybe the water plant)

They should also look at any activities that were performed to prepare for the disaster/emergency – like activation of a local EOC, and such.

If they have any questions, please have them give me a call either in the SEOC as listed below or my cell at 517-898-0551.

Thanks,
Penny

Subject: Rashes Suggestion

Spoke to Capt. Kelenske about the rash investigation results to date. His question is, once we find that someone has a rash, what is being done. I explained that we are waiting for EPA results of the water from the residences and informed him about what we found with the MDEQ results so far. He said the Governor is going to want to know what we are actually doing about rashes and what kind of shower filters we should provide and to whom. I am wondering if rather than a knee jerk reaction and just purchasing shower filters for everyone, if it might be a better science based approach to provide a dermatology consult to individuals complaining of rash to determine the actual diagnosis and treatment, particularly if we continue to see no correlations. At least that way we would be helping the individuals that are complaining about rashes. Just a suggestion and one that might be fiscally sound as well as medically sound.

Subject: RE: Shower Filters

Richard Thelen and I just compared the addresses supplied by Jevon to the Pb and Cu water results supplied by DEQ. We could only find results for the following:

a- 12/2 Pb 3 Cu 190
/23 Pb 0 Cu 0; 1/24 Pb 0 Cu 0
1/23 Pb 0 Cu 0; 2/4 Pb 4 Cu 0
d.-9/23 Pb 1 Cu 0; 12/10 Pb 0 Cu 0
- 1/21 Pb 0 Cu 0
- 1/30 Pb 207 Cu 660; 1/29 Pb 0 Cu 90
Dr- 1/27 Pb 1 Cu 130

The DEQ report did not specify which faucet was tested.

Hi Jackie,

I got a verbal statement yesterday from EPA that, as of yesterday, they had 7 homes worth of data and that they will be sending the results to Mark Johnson (ATSDR). They have not sent the results, as of yesterday.

I will follow-up with Mark et al. and execute our plan to evaluate the data.

Also, Jevon got a request from the Governor's GIS team for an update as well.

Do we have results of the EPA testing on the water of the homes with owners with rashes? I haven't seen the results. If the rash is due to lack of washing, and the filter doesn't help with lead, how would it help them? We certainly don't want to reduce the bacteria killing chlorine.

Subject: Data Report
Attachments: GovernorReport_20160214.pdf; ATT00001.txt

Governor,

Attached is the daily report. Ben and I spent the last few days working with SEOC staff to clean up the commodity data. In general, the problem is that there are too many data sources, and the recording practices vary. We attempted to reconcile the daily reports with the supporting spreadsheets to see where the errors were occurring and then we instituted a new process to hopefully avoid similar problems in the future.

A couple of items to note:

1) Reconciling the daily burn data and the daily commodity totals was tricky, both because of formula changes that occurred since 1/19 and because of the irregular entry of FWRT data. Rather than get bogged down trying to match up historic data, we just redid the formula back to 1/19. What you're seeing in the graphs is average daily FWRT data for the different commodities, calculated by week, layered on top of daily POD data.

2) We have added apartment data, but the filter records are not as accurate as those for houses. Unlike the house data, the apartment data is not entered through the GIS app because each apartment complex shows up as a single point on the map. So, we're dealing with handwritten records from the Red Cross and data from MSHDA. For two reasons, SEOC staff believe that a number of the apartment units with unconfirmed filters have actually received filters in the past: 1) this is the second or third time many of these units have been visited, and 2) the Red Cross distributed a disproportionate number of replacement cartridges. I have asked Recovery staff to share their spreadsheet with GIS staff to see if they can glean any additional information about filters at these complexes from the POD filter address data.

3) The volunteer data, which also comes from the Red Cross, is not great. It's reported from a number of different sources at different times, and the Red Cross representative couldn't even reconcile the data he had reported in the past. Again, we cleared out the historic data and repopulated the spreadsheet based on the source records. We also created specific input cells for different categories of volunteers, so that we will know when a class of volunteers has not been included in the reported totals. Incidentally, the volunteer graph should say "Average DAILY Volunteers by week." We'll correct that tomorrow.

Regarding your spreadsheet request, I connected Jackie Scott at DHHS with Dan Lord at DEQ and they are working together to implement your data request for the environmental EBL/water investigations. I also heard back from DHHS on the distribution of blood data issue. There is a process by which they can share blood data with those working to protect the public. I will follow up with DHHS and Legal about that.

Finally, when GIS starts getting data on the sentinel sites, we will begin adding it to the daily report.

Nat

SEOC Report for February 15, 2016
Full Days Since Emergency Declaration: 41

Items to Note

- There will be a Congressional/Legislative conference call on Tuesday, February 16 at 2:30 PM.
- Throughout the Sentinel Site Monitoring Team mission last week, 241 households have agreed to be sentinel monitoring points for long-term water testing.
- Sentinel Site Monitoring Collection Teams starting to collect samples at sentinel monitoring points on 02/15/2016. The teams will collect samples bi-weekly at each monitoring point.

Rich: As a follow up to our meeting last Friday, attached is the draft list of jobs for Flint residents we are working from. I consider this a work in progress, subject to updates as events on the ground unfold (eg, the Seventh Day Adventists new role may impact this list.)

As I mentioned, we have existing Federal funds available to pay wages for certain adults and youth in the short term; and we are pursuing a new grant from the US DOL to support wages and other costs in the longer term. The local MI Works Agency in Flint will be administer this effort, in coordination with local non-profits and service providers.

Thanks,
Stephanie

Capt. Kelenske,

Please see the attached and below. The sit rep has been approved and is attached.

Update 2/15/16 – 42nd Day (41st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #41.
2. Weekly List of Events.
3. Flint Water Timeline Daily Update.
4. Maps: Residential Water Sampling Results for lead and copper. Updated to include 2/13/2016 data.

Key items for tomorrow to note are:

- There will be a Congressional/Legislative conference call on Tuesday, February 16 at 2:30 PM
- Southern Baptists will be at the local EOC in the morning and will be taking over rapid response activities from the NCCC teams.

Items to Note

- Published IAP #10.
- Throughout the Sentinel Site Monitoring Team mission last week, 241 households have agreed to be sentinel monitoring points for long-term water testing.

- Sentinel Site Monitoring Collection Teams starting to collect samples at sentinel monitoring points on 02/15/2016. The teams will collect samples bi-weekly at each monitoring point.
- Per MDEQ, based on the population, the City of Flint needs 60 samples for their compliance monitoring for this monitoring period under the Lead and Copper Rule. These compliance sampling sites must be "Tier 1" sites, and at least half of them must be lead service lines. We wanted all of the compliance sites to be lead service lines. We were hoping that the 402 sentinel sites would produce at least 60 sites with lead service lines. However, we now know we will need to do some more searching to find even the minimum number of sites for compliance monitoring

Unified Coordination Group (UCG):

- Developed Situation Report
- CDC/ASTDR field team representative attended community meeting at local church where an estimated 50 community members were in attendance.

Local EOC:

- In processed Southern Baptist Disaster Relief Group. Southern Baptist Disaster Relief taking over rapid response deliveries for NCCC teams on 02/16/2016.
- 140 water samples picked up at sentinel monitoring points by 1600 on 02/15/2016. Will be close to completing pick up at all 241 locations before end of day.
- Discussing lead and copper exposure of animals in City of Flint with MSU College for Veterinary Medicine.
- Introducing local staff to EOC positions and processes.
- Evaluating potentially culturally sensitive messages on water donated through one specific source. Holding water at warehouse until confirmation that displayed messages are inoffensive is received.
- Sit Rep # 35 published.

Flint Water Timeline

Day	Date	Event
	October 1 Thursday	• Genesee County Health Department declares a Public Health Emergency
	December 15 Tuesday	• City of Flint declares a local State of Emergency.
	January 4 Monday	• Local State of Emergency declared by Genesee County along with request for a Governor's Declaration. • Genesee County EOC activated.
1	January 5 Tuesday	• Governor Snyder issues Declaration of Emergency for the City of Flint and the County of Genesee (end of day). • SEOC is activated and will be staffed 0800-1700 beginning January 6. • FEMA Region V contacted to provide update (Watch Desk and State Director call with FEMA Region V Administrator).
2	January 6 Wednesday	• SEOC Staffed (M-F 0800 to 1700), SEOC State Director has call with FEMA Region V, Deputy Administrator, to request LNOs. • Contacted local EM, advised him of 0830 daily call and initiate contact. • JIC established at 4000 Collins Rd, Lansing, MI. • Briefing held with SMEs Dr. Wells and George Krisztian. • 1400 media round table at Collins Road with Capt. Kelenske and Dr. Wells
3	January 7 Thursday	• FEMA LNOs arrive in the evening and have discussion with State Director (via phone). • Initial damage assessment submitted to EMHSD by local jurisdictions (evening). Infrastructure replacement costs only. Information provided to the local EOC on the best methods of identifying health and non-structural impacts for the damage assessment process. • Deployed two EMHSD personnel to the local EOC to assist with command and control.
4	January 8 Friday	• FEMA LNOs arrive at SEOC 0800. • SEOC State Director orders SEOC to stay open 7 days a week, 0800 – 2000 until incident is stabilized. • Media is driving a message of what the state is doing versus locals. • Held first legislative/congressional conference call. • JIC has been co-located in the City of Flint. • Originally we were advised we had 80-90 PODS from the local EM. Identified those as party stores, etc. Received confirmation of the 8 POD locations but there is confusion in the SEOC as to what the local EOC has coordinated. Five fire stations have been dedicated to be PODs (from the Mayor). Logistics for these locations is being worked on by the SEOC and EOC. • Finalizing 9 church locations to distribute 2000 filters (200 each) plus water. • State personnel deployed to (3) assist with incident management functions at the local EOC (not public information)

Flint Water Timeline

Day	Date	Event
5	January 9 Saturday	• Third FEMA LNO in SEOC. • 5 PODs open 0900-1600. Staffed by ARC. • Ten state personnel in the local EOC to ensure command and control at the local level. • Working on "one team" messaging. • The County EOC has no support from the City of Flint, liaison is necessary for smooth operations and to serve residents.
6	January 10 Sunday	• 9 Churches provided filters and water for Sunday distribution. ARC assisting. • 5 PODs open 0900-2100 until further notice. • Freeman Elementary School pilot project initiated. • State agencies working to translate materials into multiple languages.
7	January 11 Monday	• Working to identify warehouse for our use. • Media event held at a POD. • Media event held at the Genesee County Office Building. • Some supply issues arose due to the hard time keeping up with the large demand for water. • Working to finalize logistics plan and get the plan in place.
8	January 12 Tuesday	• Focus is on receiving, storing, and increasing quantities of supplies; fine tuning logistics, increasing door to door team; increase collaboration and messaging of collaboration with local agencies. • Four state WRTs plus the Sheriff's Department teams...App developed and used in the field. • EO activating the National Guard. Mission is to replace ARC volunteers in PODs. • Governor requested FEMA to identify a POC for non-Stafford Act resources (Federal agencies acting under their own authority). Approved by FEMA Region V Administrator and LNO Zuelke identified. He will be a liaison to the FWIACC. • 7,824 cases of water arrived (109 pallets) • Ordered 19,152 cases to arrive 1/13 (109 Pallets), 1/3 going to GCCARD and rest going to warehouse • 12,768 cased to arrive daily beginning 1/14 (177 pallets a day). • PSA video pushed out by the Governor's office.
9	January 13 Wednesday	• Planning for increase in teams. • Draft request for a Presidential Declaration of a Major Disaster and an Emergency sent review. • 5 WRTs in field. • Flint Mass Transportation Authority adding PODs to route. • NG deployed personnel to PODS.
10	January 14 Thursday	• Request for Presidential declarations submitted to FEMA. • Current number of citizens who are willing to be sample sites is 114. • Senator Ananich visits SEOC.

Flint Water Timeline

Day	Date	Event
		• Secured 80,000 square foot warehouse. • Email to state employees for volunteer opportunity. • Deployed 8 WRTs. • NG deployed total personnel to PODs.
11	January 15 Friday	• LG visits local and state EOC. • Short session on managing stress held in SEOC. • 10 state/local and 5 ARC WRTs deployed. • Standing requirements for JIC information created. • 7,474 homes visited by FWRTs. • 18,576 cases of water distributed to date; 45,916 filters; 165,382 filter cartridges; 3,217 test kits.
12	January 16 Saturday	• Received Emergency Declaration – limited to Direct Federal Assistance. FCO David Samaniego on site. • Major Disaster Declaration Denied. • Deployed 11 state/local teams and 10 ARC teams. • LG visited local EOC and discussed local EOC operations. • DEQ sampling kits are being received at PODs now. • 20,876 cases distributed; 47,935 filters; 167,401 filter cartridges; 3,322 test kits. • 11,324 homes visited by WRTs to date • 3,850 homes visited
13	January 17 Sunday	• Deployed 11 state/local WRTs and 10 ARC FWRTs. • 4,963 homes visited • Website attacks of Michigan.gov, city of Flint, and Flint township website occur. • Conference call with legislative and congressional representatives. • 16,353 homes visited by WRTs to date. • 27,195 cases of water distributed to date; 50,432 filters; 168,605 cartridges; 4,861 test kits. • Supplies provided to ~14 churches
14	January 18 Monday	• Jesse Jackson in Flint. • Deployed ! state/local and 10 ARC FWRT. • Resource request sent for MIANG assistance to deliver water, filters, test kits, and replacement filters to residents. • Community Health Emergency Coordination Center was notified that the Center for Disease Control Agency for Toxic Substances & Disease Registry will have a team of 3-5 people coming to Michigan. This team is coming to provide technical assistance as part of their regular mission. • Governor approved the use of the National Guard for the Door to Door Operations in Flint. 200 National Guard personnel arriving on Wednesday (1-20-16).

Flint Water Timeline

Day	Date	Event
		• Media availability event at the Volunteer Reception Center. • Faith based organizations continue to assist with distributing resources. • 5,040 homes visited. • 21,299 home visited to date by FWRT. • 37, 313 cases of water distributed to date; 53,713 filters; 169,520 cartridges; 7,379 test kits.
15	January 19 Tuesday	• White House press release identified the Department of Health and Human Services (DHHS) as the lead for the federal government response to the public health crisis in Flint. HHS will have staff in Michigan in the next few days. • National Guard in-processed : Soldiers to augment points of distribution operations. • Deployed 5 state/local and 10 ARC FWRT. • Flint video is now on available on Comcast On-Demand. • 2,809 homes visited. • 24,108 to date by FWRT • 77,794 cases of water distributed to date; 69,730 filters; 184,457 cartridges; 16,671 test kits.
16	January 20 Wednesday	• Legislative and Congressional Conference Call. • JIC held a media advisory and news release at 1100 about the Michigan National Guard's increase in support and change in mission. • Governor appeals denial of federal major disaster declaration for Flint. • Dr. Nicole Lurie, Assistant Secretary for Preparedness and Response, US DHHS has arrived. • Deployed National Guard/state/local teams and 10 ARC FWRT. • 3,395 homes visited. • 27,503 homes visited to date by FWRT. • 90,377 cases of water distributed to date; 73,229 filters; 185,852 cartridges; 19,866 test kits.
17	January 21 Thursday	• Deployed: National Guard/state/local and 10 ARC FWRT • 6,416 homes visited. • 6,416homes visited by FWRT, phase II. • 105,091 cases of water distributed to date; 79,571 filters; 189,428 cartridges; 21,625 test kits. • Dr. Lurie the US DHHS ASPR at the CHECC and SEOC to explain the US DHHS transition.
18	January 22 Friday	• Deployed National Guard/state/local and 15 ARC FWRT. • National Guard is working to deploy : cyber personnel to assist at the Michigan Cyber Command Center (MC3). • 6,166 homes visited. • 12,582 homes visited by FWRT, phase II. • 121,404 cases of water distributed to date; 82,687 filters; 191,704 cartridges; 23,415 test kits.

Flint Water Timeline

Day	Date	Event
19	January 23 Saturday	• Deployed } National Guard/state/local and 40 ARC FWRT. • 14,118 homes visited. • 21,291 homes visited by FWRT, phase II. • 153,005 cases of water distributed to date; 84,505 filters; 195,264 cartridges; 24,866 test kits.
20	January 24 Sunday	• Deployed ı National Guard/state/local and 19 ARC FWRT. • DEQ confirmed that a multidisciplinary team will be revising the process for home lead level test results being reported to the household. Letters are being revised to reflect one way of reporting the lead levels and actions to be taken. • Beginning Monday 1/25/2016 at 0730 the MDOC will be assuming management duties at the Warehouse. • MDNR and MSP GIS are working to map known lead service lines based off of geographical locations and zip codes. • MIARNG has ı Soldiers and Airmen deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). • 11,243 homes visited. • 37,943 homes visited by FWRT, phase II. • 164,991 cases of water distributed to date; 91,763 filters; 197,775 cartridges; 28,763 test kits.
21	January 25 Monday	• Held a media availability at Flint Fire Station No. 8 to provide an update on the activities and mission of the water response teams. Maj. Gen. Gregory Vadnais, Spl/F/Lt. Dave Kaiser, Genesee County Sheriff's Office and the American Red Cross participated in the event. • JIC coordinated with FEMA to arrange a Congressional/Legislative briefing for tomorrow afternoon. • MDHHS leadership and CHECC staff met with federal partners from SAMHSA and CDC/HHS today to discuss technical assistance and federal activities. • National Guard demobilized canvassing teams. Soldiers are currently assigned to the POD operations and cyber mission. • Deployed 11 ARC FWRT. • 2,596 homes visited by ARC as part of the targeted canvassing mission. • 176,118 cases of water distributed to date; 93,048 filters; 198,552 cartridges; 29,320 test kits.
22	January 26 Tuesday	• Operations for the Flint Water Response Teams has shifted to a targeted effort to get filters into homes that we show have not been contacted. • Governor Snyder signed Executive Order 2016-3 transferring the ethnic commissions – the Hispanic/Latino Commission of Michigan (HLC), the Michigan Asian Pacific American Affairs Commission (MAPAAC), and the Commission on Middle Eastern American Affairs (CMEAA) - from MDCR to the Department of Licensing and Regulatory Affairs (LARA). • Michigan's HHS Regional Coordinator will serve as the Federal Health Coordinating Officer (FHCO) within a

Flint Water Timeline

Day	Date	Event
		Unified Coordination Group (UCG) that will be operational this week in an effort to streamline information and coordinate federal activities. • Legislative and Congressional Call with FEMA. • NAACP meeting at U of M Flint. • Deployed 10 ARC FWRT. • 1,350 homes visited by ARC. • 3,946 homes visited to date for targeted canvassing mission. • 186,309 cases of water distributed to date; 94,301 filters; 199,489 cartridges; 29,841 test kits.
23	January 27 Wednesday	• Senate Appropriations Committee meeting. • Press conference at the University of Michigan-Flint's Northbank Center to provide an update about current actions and next steps to address about Flint water. • MDHHS CHECC staff met with the HHS State Coordinator Officer (SCO) regarding what HHS resources will be sent to Michigan, to include a nine person team. The team will consist of the following individuals: Mental Health staff, Sanitarian, Health Educator, Nurse, Nurse Manager, Behavioral Health staff, Risk Communication Developer, and Data Support. • Donations Management team and several branches of State and FEMA met regarding donation and volunteer management, will be meeting weekly. • Deployed 10 ARC FWRT. • 1,020 homes visited by ARC. • 4,966 homes visited to date for targeted canvassing mission. • 196,456 cases of water distributed to date; 95,417 filters; 200,654 cartridges; 30,255 test kits.
24	January 28 Thursday	• Media advisory and coordinated a press conference about recycling with Lt. Gov. Brian Calley at 1200 at Fire Station #1. • Community Partnership meeting, local, state, and FEMA representatives attended. • MDHHS is collective historical blood lead data is being obtained and an accurate display that is clear and understandable is in development. • Deployed 10 ARC FWRT. • 1,768 homes visited by ARC. • 6,734 homes visited to date for targeted canvassing mission. • 207,055 cases of water distributed to date; 97,342 filters; 201,848 cartridges; 30,801 test kits.
25	January 29 Friday	• Began working on SBA loan application. • Deployed 10 ARC FWRTs. • 924 homes visited by ARC. • 7,658 homes visited to date for targeted canvassing mission.

Flint Water Timeline

Day	Date	Event
		• 216,605 cases of water distributed to date; 98, 641 filters; 202,566 cartridges; 31,111 test kits.
26	January 30 Saturday	• Deployed 10 ARC FWRTs. • 1,368 homes visited by ARC teams today. • 9,026 homes visited to date in targeted canvassing mission. • 227,188 cases of water distributed to date; 99,969 filters; 203,932 cartridges; 31,512 test kits.
27	January 31 Sunday	• Deployed 10 ARC FWRTs • 551* homes visited by ARC teams today (number low due to issue with iPads these additional homes will be added to the numbers tomorrow). • 9,577 homes visited to date in targeted canvassing mission. • 234,490 cases of water distributed to date; 100,593 filters; 204,736 cartridges; 32,093 test kits.
28	February 1 Monday	• EMHSD Liaison participated in the Incident Action Plan development for the Unified Coordination Group. • Recovery Branch coordinated meeting with Michigan Community Service Commission (MCSC), Local EOC, *and ARC regarding volunteer coordination and reporting.* • Deployed 10 ARC FWRT • 1,135 homes were visited by ARC yesterday. Data was not included in daily report. • 1,164 homes visited by ARC teams today. • 11,876 homes visited to date in targeted canvassing mission. • 244,933 cases of water distributed to date; 101,911 filters; 205,820 cartridges; 33,561 test kits.
29	February 2 Tuesday	• Deployed 10 targeted ARC FWRTs. • State VAL, Recovery Branch, and local, state and, federal partners met today to work on finalizing the long term transition and recovery plan. • 530* homes visited by ARC teams today (number low due to issue with iPads these additional homes will be added to the numbers tomorrow). • 12,406 homes visited by FWRT to date in targeted canvassing mission • 3,065,484 liters or 255,475 cases of water distributed to date; 102,498 filters; 206,642 cartridges; 33,243 test kits(numbers down from previous day due to 432 test kits at POD being returned to warehouse due to missing instructions).
30	February 3 Wednesday	• Deployed 10 targeted ARC FWRT. • JIC assisted with Governor Snyder's 10:45 p.m. media availability at the Flint and Genesee County Chamber of Commerce. The governor will ask the Michigan Legislature to approve a $30 million water consumption credit plan for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink. • Strategized with the U.S. Department of Health and Human Services and Environmental Protection Agency on how to better coordinate public information.

Flint Water Timeline

Day	Date	Event
		• 3,158,508 Liters or 263,209 cases of water distributed to date; 103,004 Filters; 207,413 cartridges; test kits 33,750.
31	February 4 Thursday	• Deployed 10 targeted ARC FWRTs. • 1,127 homes visited by ARC teams today. • 14,338 homes visited by FWRT to date in targeted canvassing mission. • 3,264,204 Liters or 272,017 cases of water distributed to date; 103,402 Filters; 208,576 cartridges; test kits 34,456.
32	February 5 Friday	• Deployed 10 targeted ARC FWRTs. • 1,189 homes visited by ARC teams today. • 15,527 homes visited by FWRT to date in targeted canvassing mission. • 3,372,228 Liters or 281,019 cases of water distributed to date; 103,886 Filters; 209,439 cartridges; test kits 34,829. • The Small Business Administration approved a declaration for economic injury disaster loans.
33	February 6 Saturday	• Deployed 10 targeted ARC FWRTs. • 1,034 homes visited by ARC teams today. • 16,561homes visited by FWRT to date in targeted canvassing mission. • 3,459,864 Liters or 288,322 cases of water distributed to date; 104,088 Filters; 210,092 cartridges; test kits 35,254
34	February 7 Sunday	• 10 ARC Flint Water Response Teams to the field today. • 28 addresses have copper testing that exceeds the "action level" (1,300 ppb). DHHS is currently working on messaging regarding this issue, and DEQ is discussing filtering options. • State VAL is working on the Category B and Individuals and Households appeal. • 1,121 homes visited by ARC teams today. • 17,682 homes visited by FWRT to date in targeted canvassing mission. • 352,570,708 Liters or 293,809 cases of water distributed to date; 104,256 Filters; 210,596 cartridges; test kits 35,499
35	February 8 Monday	• 10 ARC Flint Water Response Teams to the field today. • Local EOC Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016. • *Warehouse #2 on Pierson Rd. established.* • 847 homes visited by ARC teams today. • 18,529 homes visited by FWRT to date in targeted canvassing mission. • 3,591,276 Liters or 299,273 cases of water distributed to date; 104,500 Filters; 211,255 cartridges; test kits 35,756

Flint Water Timeline

Day	Date	Event
36	February 9 Tuesday	• JIC Drafted a news release about the team visiting homes with high copper levels. • SEOC Logistics had a conference call with Seventh Day Adventists on agreement and staffing of Warehouse #2. • 847 homes visited by ARC teams today. • 19,334 homes visited by FWRT to date in targeted canvassing mission. • 3,644,640 Liters or 303,720 cases; 104,861 Filters; 211,721 cartridges; 35,998 test kits
37	February 10 Wednesday	• Boil water advisory has been issued in the City of Flint by the local utility due to a broken water main. • MDEQ implemented Sentential Sampling Program today. • The long term recovery continued meeting today and anticipates having a completed long term recovery plan by Thursday February 11, 2016. • SEOC staff met with UPS representatives today re: delivering cartridges to functional/mobility needs citizens. UPS is prepared to assist in this partnership and will provide service at no charge. UPS suggested treating each delivery as a separate package so each can be effectively tracked, and would be able to begin deliveries within the 2-3 week window. • 786 homes visited by ARC teams today. • 19,636 homes visited by FWRT to date in targeted canvassing mission. • 3,695,316 Liters or 307,943 cases of water distributed to date; 105,015 Filters; 212,144 cartridges; 36,158 test kits.
38	February 11 Thursday	• MDE is reporting that a portion of the emergency funds that were approved for the Flint Water Crisis included $340,000 for Flint Community Schools to hire/contract for nine school nurses. • U.S. Department of Education is scheduled visit Flint on February 12, 201 at 0830 at the Genesee Intermediate School District. MDE Deputy Superintendent and the Director of Special Education will attend. Family alliance members will also attend. • MDEQ has 10 - 3 person Sentinel Sampling Teams on the ground again today. These residents have agreed to conduct ongoing sampling with their water to be analyzed by the MDEQ laboratory. These residents will also be part of the Sentinel Sampling Program and samples will be collected every two weeks and will provide analysis for lead and copper. • In addition MDEQ continues to lead an Initial Site Assessment Team for high copper and high lead. This team is providing initial assessment in information to residents whose homes have water sampling results above the federal action levels for lead and copper. • 786 homes visited by ARC teams today. • 20,422 homes visited by FWRT to date in targeted canvassing mission. • 3,755,772 Liters or 312,981 cases of water distributed to date; 105,237 filters; 212,794 cartridges; 36,329 test kits.

Flint Water Timeline

Day	Date	Event
39	February 12 Friday	• The results from the samples collected in response to the water main break were non-detect for coliform bacteria. • Elevated Lead and Copper Initial Assessment Task Force is beginning identification of companion animals in visited homes for start of dog blood level testing. • Per the local EOC, following water transmission line break on 02/09/2016, the Boiled Water Advisory was lifted at approximate 1700 on 02/12/2016. A press release was coordinated and published on the website. • SEOC staff is working to comply with FOIA request. • 1,173 homes visited by ARC teams today. • 22,381 homes visited by FWRT in targeted canvassing mission to date. • *3,816,288 liters or 318,024 cases of water; 105,423 faucet filters, 213,678 replacement cartridges/filters,* and 36,511 water test kits distributed to date
40	February 13 Saturday	• Per MDEQ, all of the results from the samples collected in response to the water main break were "non-detect" for coliform bacteria. • City of Flint lifted the Boil Water Advisory issued in response to the 02/09 water transmission line break at approximately 1700 on 02/12/2016. • Six groups of 82 volunteers from Dow, Maximus, UofM-Flint, UofM-Ann Arbor, the City of Romulus and the MTA (Flint's mass transit operator) reported to the VRC today as well as 22 individual volunteers. • SEOC staff continues to work on FOIA request compliance. • *788 homes visited by six ARC teams today.* • 23,169 homes visited by FWRT in targeted canvassing mission to date. • 3,854,124 liters or 321,177 cases of water; 105,604 faucet filters; 214,300 replacement cartridges/filters; and 36,670 water test kits distributed to date.
41	February 14 Sunday	• There is a decrease in number of total residential parcels and total residential active water subscribers. Seven parcels were originally classified as residential parcels and were found to be right-of-way or easements. The data has been updated to remove those seven properties. • National Guard mission has been extended through 3/16/2016. • SEOC Logistics is working with Flint Schools to identify alternative locations to store water. Additionally, Logistics is continuing to fulfill resource requests for Warehouse #2, based on the Memorandum of Agreement with the Seventh Day Adventist. • Recovery Branch is working to outline the transition between National Civilian Community Corp (NCCC) and Southern Baptists for the Flint Water Response Teams. NCCC will complete their volunteer mission on 2/15/2016 and Southern Baptists will begin their mission on 2/16/16. ARC will return their iPads to the local EOC for the Southern Baptists teams use for data collection. • 1,046 homes visited by six ARC teams today.

Flint Water Timeline

Day	Date	Event
		• 24,215 homes visited by FWRT in targeted canvassing mission to date. • 3,944,400 liters or 328,700 cases of water; 105,788 faucet filters; 214,843 replacement cartridges/filters; and 36,826 water test kits distributed to date.
42	February 15 Monday	• Southern Baptists will assume responsibility for the rapid response activities as NCCC transition out tomorrow. • 792 homes visited by six ARC teams today. • 25,007 homes visited by FWRT in targeted canvassing mission to date. • 3,980,712 liters or 331,726 cases of water; 105,859 faucet filters; 215,115 replacement cartridges/filters; and 36,931 water test kits distributed to date.

OG,

We will announce it at the next five meetings to be advised that the Monday morning meeting (time) has changed. I would prefer not to do a smart message, seems a bit much, likely to create unnecessary confusion and will not reach all the parties involved. Is the smart message the Captains orders?
Thanks much
Gabe

Subject: Monday 9:30 Briefing

Captain Kelenske would like you to adjust the time of the morning briefing from 9:30 a.m. to 10:00 a.m., on Monday February 22.

Please send a smart message indicating the time change to 10:00 a.m. for Monday February 22, but ONLY for this coming Monday, this is NOT a regular schedule change.

This information should be included in the afternoon brief, as well as weekend briefs to assure everyone is aware of the time change for Monday.

I have also requested a list of each SEOC position that includes a brief description of the function of those positions.

I will also need a list of state agencies who have a representative seated/active in the SEOC.

I need this information by 3:00 today. Please let me know if you have questions.

FEB 19 2016

Anthony P. Katarsky
Governor's Authorized Representative
7150 Harris Road
Dimondale, Michigan 48821

Dear Mr. Katarsky:

This is in response to your February 19, 2016, request for an extension to appeal the denial of the Individuals and Households Program and reimbursement for emergency protective measures (Category B) under the Public Assistance program for FEMA-3375-EM-MI.

The basis of your request is that the City of Flint has not been able to compile and submit pertinent documentation to the state due to the mayor recently terminating the employment of the city administrator, police chief, and fire chief. You further indicate that the submittal of disaster related costs without the City of Flint's data will eliminate a major component of the basis of your appeal.

Based on your extenuating circumstances, your request for an extension is approved until March 4, 2016. Should you have any questions or concerns regarding your deadline, please contact Andrew Velasquez III, Regional Administrator, FEMA Regional Administrator, FEMA Region V at (312) 408-5501.

Sincerely,

Elizabeth A. Zimmerman
Associate Administrator
Office of Response and Recovery

Chicago, IL 60605

Dear Ms. Zimmerman,

I am writing to appeal your January 22, 2016 denial of my request that the emergency declaration FEMA-3375-EM be modified to provide federal assistance for Category B emergency protective measures, the Individuals and Households program, and the Hazard Mitigation Grant Program for the City of Flint. Respectfully, I disagree with the determination that the nature of this event was not of such severity and magnitude to warrant further public assistance for the reasons expressed herein.

Genesee County and particularly the City of Flint, experience poverty rates significantly higher than both the national and state average. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is nearly double the county. Household income is significantly below the median income at the national, state, and county level, and that city income is less than half the national median income.

The City of Flint has population fluctuates during the year due to the universities in Flint. This makes determining residency in the city of Flint much more difficult and we face the added challenge of the work day population change and the added stress this places on city resources. It is estimated that the population of the city increases by 34,000 every day during and around business hours and these individuals greatly impact the city's limited services and infrastructure.

Flint is a city with a very significant vulnerable population, particularly where lead is concerned. The percentage of children under 5 in Flint exceeds the national, state, and county rates. There are an estimated 8,200 children under the age of 5 in the city. This is especially important because children ages 0-5 are the most susceptible to the long term effects of continuous exposure to lead which include developmental and cognitive delays, and behavioral disorders.

The percent of disabled individuals is also 8.1 percentage points above the national rate. Unemployment in Flint is also significantly higher than national and state rates. The table below shows the unemployment rate in Flint has been nearly 3 times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15.6%	$53,482	6.4%	13.7%	12.3%	9.2%
State of Michigan	16.9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16.1%	15.5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26.3%

* U.S. Census Bureau American Community Survey 2010-2014, Selected Social Characteristics in the U.S. (5 year estimates)

The combination of the above factors has greatly hindered the rate at which we can provide effective response and recovery efforts in the community. Due to a significant portion of the population being unemployed, or in poverty, they are unable to quickly from financial impacts. This includes incidents such as disasters or emergencies that require unexpected financial expenditures to return to the pre disaster state. These individuals may also not have access to or be able to afford transportation or may be unable to travel which prevents them from visiting Points of Distribution (PODs).

The water contamination, which affected the water supply of 30,188 active water customers, is unprecedented, and the long term impacts of the contamination are continuous and not fully understood. The President recognized the significance of this event when he granted my request for an emergency declaration. Federal Emergency Management Agency (FEMA) officials designated the type of assistance granted to the City of Flint and the State of Michigan as Public

Assistance Category B, "emergency protective measures," but limited to direct federal assistance. Due to the nature of this event we have gone far beyond any initial estimates of the type and quantity of assistance that would be critical to the recovery of the water system and its customers. For instance, before the emergency was assessed, the extent and volume of commodities needed could only be roughly estimated (as seen in figure 1). We also would not have known how many citizens would require follow-up testing and case management through Michigan DHHS.

Figure 1: Water Resources Distributed**

Water-Liters*	4,120,704
Water-Cases*	343,392
Filters-Faucet	106,254
Replacement Filter cartridges	217,574
Filters-Pitcher	893
Water Test Kits	37,819

*Water is presented in liters and cases for comparison but is the same value.
**Data is as of 2/17/16 at 21:00.

This has become an emergency of national significance. In the weeks since the emergency declaration, the response has been overwhelming. There has been a broad partnership base built that includes all levels of government, local and national charities, and a large variety of non-governmental organizations. We have also received a large amount of support from celebrities, foundations, and over 3,000 volunteers who have contributed time, and over 150 individuals and groups that have donated money, or commodities. We have responded in partnership with all these individuals, organizations and agencies. In accordance with the emergency declaration, FEMA has supplied limited direct federal assistance in the form of water, water filters, water filter cartridges, water test kits, and other necessary related items for state and local partners to distribute to the citizens of Flint and water service customers.

With our support and coordination, the whole community has come together, particularly the voluntary agencies, to quickly and generously respond with donations of water, water resources, and time. The Food Bank of Eastern Michigan and Catholic Charities as two of the larger organizations have been working to distribute resources in the community. The two agencies continue to distribute over 45,000 cases per week. In addition, numerous additional community agencies, groups, and individuals, distribute commodities daily or weekly. Some are supplied by State and FEMA resources others are supplied through donations from communities and organizations. Unfortunately, needs continue to significantly exceed donations and voluntary assistance received. Other voluntary agencies such as the American Red Cross, Team Rubicon, Southern Baptists, Seventh Day Adventists, the National Civilian Community Corps, and many others have been working with us every day to distribute commodities and fill gaps in the response to this emergency. In response to the needs, the community has organized quickly and effectively, beginning a weekly community groups meeting to plan for the recovery in areas of resources, mental and physical health, education, communication and coordination. This group grew quickly to over 100 participants, and demonstrates a strong and ongoing commitment to response needs, recovery and mitigation for both the city and individuals and households.

Even as the response to the emergency begins to stabilize, it is clear that there will be many ongoing concerns that will continue to demand public and individual assistance for months and years to come. The state and local agencies, including the City of Flint, the County of Genesee, and the State of Michigan continue to incur significant costs. We anticipate the distribution need to supply water and replacement cartridges to continue for a minimum of 10 more months. This effort is projected to cost the state an additional $94,000,000 until December 31, 2016.

The Centers for Disease Control (CDC) and the Environmental Protection Agency (EPA), along with the Michigan Departments of Health and Human Services (MDHHS) and Environmental Quality (MDEQ) have issued statements regarding safe levels of lead. They have also worked together to develop and implement a plan of testing and intervention in areas testing high for lead and copper. Continued water sampling throughout the community is necessary to ensure water quality meets EPA standards. Following the addition of Corrosion Control Treatments (CCT) to the water supply, high lead and copper levels have been recorded in various areas, requiring additional testing and intervention. Due to the discoloration of the unfiltered water in some locations, we have still seen continued demand for bottled water at the Points of Distribution (PODs). We continue to see a high demand for water even following the initial, subsequent, and targeted canvassing of the city.

Further testing has become necessary to better assess the situation and identify the most impacted residences. This information allows us to provide targeted outreach to locations that pose the greatest threat to public health and safety. Once these locations have been identified, we send teams to conduct sampling and outreach with the homeowners. The EPA and MDEQ have partnered to create teams working to collect and process samples from homes identified as

exceeding EPA standards. Teams are comprised of a combination of representatives from the MDEQ, EPA, U.S. DHHS, the Genesee County Health Department, Michigan Department of Licensing and Regulatory Affairs (LARA) plumbing contractors, and community partners. Once homes with contaminated water have been identified, the teams work with occupants to implement needed interventions and conduct additional water sampling in those homes until levels fall below EPA standards. The efforts these teams are undertaking are provide an initial response to the addressed threat and identify occupants for additional follow-up and long term recovery. Due to the scope of this aspect of the overall response the items addressed above have cost the state over to $8,000,000 to date.

In addition to the full range of public assistance, I strongly urge you to reconsider your denial of the Individuals and Households Program, Hazard Mitigation Grant Program, and additional Category B costs for Michigan in this emergency. The expenses incurred by the state and local agencies, prior to the granting of limited direct federal assistance, were necessary to meet immediate public health and safety needs. Our ongoing response to this emergency, continuous studies, and test results will serve as future guidance, not only for exposure to the specific contaminants involved in this emergency, but for any future water system contamination in the nation. The work we are conducting will fill a void in the scientific and public health knowledge base.

The quantity of resources purchased and expended during the continued response to this emergency has placed a severe financial burden on the state. The combination of recent Governor's declarations and the volume of necessary commodities in this emergency have placed severe financial strains on the state. The State of Michigan, Genesee County, and the City of Flint lack the resources necessary to cover 100 percent of the costs expended to eliminate the threats to public health and safety caused by the water contamination. Since the beginning of the emergency, we have distributed over 686,000 water resources in the city of Flint. A breakdown of the daily distribution rate for water resources can be seen in figure 2 below.

Figure 2: Water Resources Daily Distribution Rate

Water-Liters*	118,092
Water-Cases*	9,841
Filters-Faucet	488
Replacement Filter cartridges	1,094
Filters-Pitcher	5
Water Test Kits	759

*Water is presented in liters and cases for comparison but is the same value.
**Burn rate is a 27 day average for points of distribution (POD) and Flint Water Response Teams (FWRTs).

Our evaluation of the direct and indirect costs of this event are attached. These costs are documented, and we have attempted to be conservative in our estimate regarding eligible reimbursement costs under Category B of the Public Assistance program. The yearly loss to the economy of the city of Flint is estimated at $115,000,000.

- The economic sectors affected included restaurant, hotel, and other businesses that use water as part of their customer service. The contamination and stigma of the water have caused proprietors to lose revenue and scale back operations. Many of the employees earn low wages, and, in the case of restaurant servers, depend on tips to make a living wage. The losses for this emergency were severe enough to warrant a Small Business Administration (SBA) Economic Injury Disaster Loan Program for the affected area. Typically this support covers only a small portion of the total businesses in the disaster area.
- Food establishments have been working with the Michigan Department of Agriculture and Rural Development (MDARD) to meet standards. Many of these establishments have incurred additional costs by adding both inline and faucet filters in order to meet the standards set by health officials. There are 615 food establishments in the city; to date, MDARD has completed assessments of 298. Many businesses, especially those serving food, continue to incur additional costs to provide assurances to their customers that no unfiltered tap water is being used in food preparation.
- The educational community was also impacted by this water contamination. During this event state agencies have worked with the schools to replace older fixtures and update water infrastructure to meet standards. The Michigan Department of Education (MDE) has also taken steps to provide guidance and education on nutrition to ensure that USDA Child Nutrition programs in the area are using the proper preparation techniques. The MDE has 244 Child Nutrition programs on the Flint water system, and all programs have been contacted and advised. The agencies and State Emergency Operations Center are continuing to ensure that necessary water resources are provided to schools. The Michigan Department of Licensing and Regulatory Affairs is replacing fixtures and

estimate that the replacement of the affected fixtures at the 40 schools will cost the state approximately $2,000,000.

The response to and recovery from this extended emergency is a long term community effort. With FEMA's full supplemental assistance and programs we can continue to provide a survivor centric response to this emergency and focus on the long term recovery.

The attached "EM-3375-Category B Assessment-as of 2/18/16" was developed to determine the eligible costs for Stafford Act Public Assistance reimbursement. Their conclusions are based on careful analysis beyond that normally provided during a Preliminary Damage Assessment process, and the figures may well be exceeded when Project Worksheets are developed. Their estimate of more than $44,222,960 in probable eligible Public Assistance Costs plus the more than $5,000,000 cost of direct federal assistance means the Category B expenditures in our joint response to this Event of National Significance were over $49,222,960. This is more than triple our Public Assistance impact indicator for a Major Disaster Declaration of $13,935,932.

The financial impact of this event is significant and widespread. The estimated $115,000,000 economic loss noted above added to the total impact noted on the attachment exceeds $164,222,960. It also does not include the donations of commodities for distribution which add over $2,000,000 to the total. The total estimated costs and losses are equal to a $402.57 per capita impact on the 412,895 individuals in the County if Genesee, and a $1,603.20 impact on the 102,434 individuals in the City of Flint directly affected by this emergency.

The City of Flint emergency has received a total of $71,249,700 in appropriations for the Flint emergency to date. In order to further facilitate the response and long term recovery efforts, I am proposing to add to the State of Michigan FY2017 budget an additional $165 million. These funds will be for the following items: safe drinking water; food and nutrition; physical, social and educational well-being; and water bill relief.

As mentioned above, I respectfully disagree with the original decision to limit the Public Assistance Category B to direct federal assistance, and not provide the Individuals and Households Program (IHP), and the Hazard Mitigation Grant Program (HMGP). The unique characteristics of this emergency combined with the severe financial impact warrant further assistance.

I am specifically requesting reconsideration of assistance in the form of all the Individual Assistance and Public Assistance programs for the affected county and jurisdictions specified in this request, and activation of the Hazard Mitigation Grant Program (HMGP).

Thank you for your consideration and your attention in this matter. Any questions regarding this appeal or requests for additional documentation should be directed to Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management & Homeland Security Division whom I have appointed as State Coordinating Officer for this request.

Sincerely,

Richard D. Snyder
Governor

Subject: RE: Monday 9:30 Briefing

The Captain requested a smart message be sent, AND ordered the meeting time changed.

I spoke with logistics on this and they suggested the smart message be sent early on Monday, to avoid any confusion over the weekend when you will be announcing the change in time for the Monday meeting.

Unless you hear differently from the Captain...git'er done.

OG,
We will announce it at the next five meetings to be advised that the Monday morning meeting (time) has changed. I would prefer not to do a smart message, seems a bit much, likely to create unnecessary confusion and will not reach all the parties involved. Is the smart message the Captains orders?
Thanks much
Gabe

Subject: Monday 9:30 Briefing

Captain Kelenske would like you to adjust the time of the morning briefing from 9:30 a.m. to 10:00 a.m., on Monday February 22.

Please send a smart message indicating the time change to 10:00 a.m. for Monday February 22, but ONLY for this coming Monday, this is NOT a regular schedule change.

This information should be included in the afternoon brief, as well as weekend briefs to assure everyone is aware of the time change for Monday.

I have also requested a list of each SEOC position that includes a brief description of the function of those positions.

I will also need a list of state agencies who have a representative seated/active in the SEOC.

I need this information by 3:00 today. Please let me know if you have questions.

We have reserved the 1917 conference room from 9:30 a.m. to 11:00 a.m. for your media event. This will allow the media attendees an opportunity to set up prior to the event. The conference room is located at the front of the building next to the cafeteria seating.

We anticipate seeing you at around 8:30 with a member of the Governor's detail, and the Governor's arrival is scheduled for 9:30 a.m. We will be ready. Please let me know if there are any additional requirements I should be aware of.

Attached is the list of roles and responsibilities for SEOC positions that you requested. Those highlighted in yellow indicate an active presence in the SEOC by state agency emergency management coordinators.

Please feel free to contact me if you have any additional questions.

Subject: SEOC Visit Follow Up

Hi Oralya:

Thanks for taking the time to chat with us today. I've put a rough/tentative buildout on the Governor's calendar. Will wait to hear from you on the conference call and more specific info on MSP personnel. Elizabeth is going to reach out to Department Directors for DTMB, LARA, DHHS, DEQ and, obviously, the Colonel. The list you gave is great but I think those were the directors we thought would be most beneficial to have without an excessive contingent of directors on site.

Additionally, I'll add you to the appointment for the media avail in 1917 on the Governor's calendar so you can see what we build out on that, as well.

Don't hesitate to call or email us with questions. I'll be available all weekend.

Thank you!
Corey

Position	Description
Governor's Representative	Represent the Governor's office in the SEOC. Provide recommendations and act as a liaison between SEOC staff and the Governor's office
State Director/Asst. State Directo	Evaluate the situation and decide if SEOC activation is warranted. Evaluate need for a governor's declaration of emergency/disaster or for a heightened state of alert. Determining SEOC/JIC staffing levels. Establish response priorities, develop IA, and coordinate response activities with affected local units of government, applicable federal agencies and private sector industry.
Scribe	Document and log discussions, determinations, and decisions resulting through meetings, briefing, and other forms of communications.
Site Liaison	Individual from affected site reports to the SEOC and serves as a technical analyst.
Federal Liaison	Federal partner that coordinates federal resources with the SEOC.
State Agency Technical Specialist	State agency representative assigned to the SEOC as a technical analyst.
Supreme Court	Maintain a log of all key decisions, activities, and conversations using the Activity Log in MICIMS. Serve as an advisor to the incident management section. Assist state departments.
EMAC/MEMAC	Assess all notifications and situations, notify division command staff and recommend appropriate actions. Coordinate with entities such as MSP, Special Operations Division to obtain additional information and coordinate actions.
PIO	Serve as SEOC Public Information Officer (PIO) and JIC (Flint) liaison in the SEOC. Support the state director in any and all media/public interviews or calls, including coordinating scheduling of interviews. Serve as the point of contact for state department representatives in the SEOC for communications and the JIC. Review and submit for state director approval all documents to be release to the public. Provide daily briefings to SEOC on daily JIC and PIO activities.
Operations Chief	Performs all functions assigned to the Operations Section in the SEOC. Manage SEOC operations and agencies supporting SEOC operations. Manage message control process and ensure appropriate communications. Announce key developments and changes in event status. Assist the State Director with determining when there is a need to request a governor's emergency/disaster declaration.
Message Control	Process and forward incoming messages to SEOC groups; process and forward outgoing messages; maintain official message log.
Security Desk	Provide security for SEOC staff. Ensure proper staff are signed in and credentialed.
Recovery Branch	Development, coordination, and execution of service- and site-restoration plans; the reconstitution of government operations and services; individual, private-sector, nongovernmental, and public-assistance programs to provide housing and to promote restoration; long-term care and treatment of affected persons; additional measures for social, political, environmental, and economic restoration; evaluation of the incident to identify lessons learned; post incident reporting; and development of initiatives to mitigate the effects of future incidents.
Planning Group Chief	Manage Damage Assessment Unit activities. Manage resource unit. Manage documentation unit. Manage situation report.
Status Plotter	Assist planning section chief in gathering and coordinating information. Assist GIS specialist and other SEOC staff in the production and maintenance of graphic displays, maps, charts, tables, etc. Verify accuracy of information distributed by SEOC and correct any errors.
Logistics Group Chief	Perform all functions assigned to Logistics Section, securing personnel to perform these functions, including provide communications, medical, food, and support services to the SEOC.
Hotline Operator	Maintain an open telephone line with each activated county liaison and with the affected nuclear power plant (where applicable). Forward information to the appropriate SEOC representative.
Logistics Supply Unit	Responsible for the donation management of the needed disaster commodities (facilitate the assessment of need and request for, and receipt, storage, processing and distribution of, needed disaster commodities).
GIS SUPPORT	Provide technical mapping services to SEOC, JIC, and other impacted agencies.

Position	Description
IT SUPPORT	Provide information technology support to SEOC and JIC operations and devices.
Finance Section Chief	All aspects of management, monitoring and reporting of all financial transactions and budgetary information, which includes processing claims and compensation, procurement and tracking costs and time while responding to emergencies state-wide. Four units fall under the FSC command: Time Unit, Procurement Unit, Cost Unit and Compensation/Claims Unit.
AuxComm	Auxiliary Emergency Communications role used during emergency situations. Volunteer radio operators who provide support to manage an incident.
National Weather Service	*Provide weather, water, and climate data, forecasts and warnings for the protection of life and property that may directly affect the* preparedness of citizens or the response or recovery of an emergency.
Food Unit	Coordinate ordering food and drinks for staff in SEOC, JIC, and other facilities with state employees during a disaster.
Agriculture	Coordinate with local health departments on food safety issues involving food service. Coordinate with state, local and federal agencies in organizing and deploying inspectors, sanitarians and veterinarians to assure animal and plant health. Coordinate, if *necessary, the issuance of agriculture protective action orders and advisories* covering the manufacture, distribution and sale of food feed and livestock.
American Red Cross	The American Red Cross provides support to state agencies on the activities or services available for an emergency or preparedness program. They are on hand to report, coordinate or collaborate on mission tasks.
Attorney General	Draft or review executive proclamations and orders involving disaster operations. Provide legal services and advice to state *departments and local governments.*
Civil Rights	Monitor and assist disaster victims who have claims of disappropriation of disaster services. Respond to claims of discrimination. React and investigate all cases of reported abuses of disaster services. Assist other deparments in the maintaining policies governing the sheltering of disaster victims.
Civil Service	Maintain coordination with the Office of the State Employer and other departments regarding manpower needs and labor relations activities and problems. *Coordinate information from personnel offices to SEOC on the canceling* of vacations, weekend work and union contracts. Coordinate State staffing and overtime for response operations.
Community Health	Upon activation, will provide direct assistance to affected local jurisdictions as specified in the MEMP and deemed necessary to protect the public, particularly concerned with incident-related issues that have the potential to impact, or have impacted public health and/or the environment.
Corrections	Works with other SOEC agencies to direct, monitor and assign *MDOC assets and personnel in a given crisis situation.* MDOC has resources to pull from 31 prison facilities, several warehouses and multiple parole and probation agents around the state. Resources include staff, vehicles, equipment, communications, etc.; these resources are continuously tracked and monitored for operability and financing.
Education	Analyze all incoming data and information to ensure that any requests or needs are commensurate with Michigan Department of Education capabilities. Coordinate supplies for feeding *disaster victims, if needed. Act as the education advisor to the SEOC* Director
Environmental Quality	We are acting in a liaison role between the SEOC and DEQ. We are supporting the ECC and local EOC (via supplying resources, addressing action items, coordinating communication and information flow, etc.) with the DEQ response to the Flint Water Incident.
Human Services	In SEOC, responsible for ESF 6 and shared primary responsibilities for ESF 14. *Coordinate with MDHHS – Human Service* management in local jurisdictions who are leads of human service annexes at the local level. Coordinate with SEOC and locals on *non-health related commodities and services necessary* for those affected by the emergency or disaster.
Licensing & Regulatory Affairs	LARA's duties at the SEOC include monitoring power outages, providing information regarding licensed health care facilities, professionals, and trades. During a recovery phase, we assist with inspections and assuring workplace safety.

Position	Description
Military and Veteran Affairs	Coordinate resources from the National Guard to the State. For Flint specific. Command and control for the 71 National Guard personnel that are working in the POD's. Assisting with water distribution plan, working on long range planning with planning section. Assisting with compiling reports and projects to the Governor's office
Natural Resources	Assist and support law enforcement activities such as security and scene control. Respond to all dNR facility safety issues. Activate fire response, support local fire fighting efforts, issue wildlife consumption warnings, support local fire fighting efforts in the disaster area.
Office of Services to the Aging	Determine effects of disaster on elderly. Determine damage to facilities operated by organizations providing essential services to seniors. Coordinate the transportation, sheltering, care and special needs of the elderly.
Dept. of State	Expedite the filling of emergency rules with the Office of the great Seal, as established by law. Coordinate the use of the Departments computer system programs with DTMB to support emergency operations.
State Fire Marshal	Maintain status and availability of fire services personnel and equipment through coordination with Mutual Aid Box Alarm System-Michigan where appropriate.
State Police	Support local MSP incident commander with public safety operations and traffic control with MDOT. Coordinate with local units of government and state agencies on road closures and activation of State Police assets such as specialized units or teams.
Technology, Management & Budget	DTMB's main function in the SEOC is to provide support to the Logistics Section. DTMB coordinates vendor and contract support for SEOC activities as well as information technology support.
Transportation	Coordinate MDOT response activities that indirectly or directly affect the traveling public and/or MDOT resources, particularly as these incidents escalate. This includes significant events affecting the readiness and capabilities of MDOT infrastructure.
Treasury	Provide tax assistance to disaster victims on casualty loss claims and other tax submissions. Issue special warrants for disaster payments based on emergency needs.

Subject: Request for Extension of Appeal Period for FEMA-3375-EM-MI

Attached is the State of Michigan's request for an extension of the appeal period for the denial of the Individual and Households Program (IHP) and emergency protective measures (Category B) under the Public Assistance program for FEMA-3375-EM-MI. Please let me know if anything further is needed.

STATE OF MICHIGAN
DEPARTMENT OF STATE POLICE
LANSING

RICK SNYDER
GOVERNOR

COL. KRISTE KIBBEY ETUE
DIRECTOR

February 19, 2016

Elizabeth A. Zimmerman
Associate Administrator
Office of Response and Recovery
Federal Emergency Management Agency
500 C Street SW
Washington, DC 20472

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Ms. Zimmerman:

Under the provisions of 44 C.F.R. § 206.46(d), I hereby request an extension until March 22, 2016 to submit an appeal for the denial of the Individual and Households Program (IHP), the Hazard Mitigation Grant Program (HMGP), as well as emergency protective measures (Category B) under the Public Assistance program for FEMA-3375-EM-MI. Pursuant to 44 C.F.R. § 206.46(d), I am submitting this written request for an extension within 30 days of the date of denial received on January 22, 2016.

As support of this extension request, I offer the following information:

The State of Michigan has requested documentation from the City of Flint to support our appeal, but to date, the city has not been able to supply this information. On February 12, 2016, Mayor Weaver terminated employment of the city administrator, police chief, and fire chief which is significantly complicating the ability of the city to provide information requested by our office.

Submittal of disaster related costs without the City of Flint's data will eliminate a major component of the basis for our appeal. This time extension is necessary due to the inability of the city to compile the information needed to support our appeal within the given time frame.

At this juncture, two days remain of the 30-day window to request an appeal as specified in 44 C.F.R. § 206.46. Therefore, it is necessary to request an extension to allow the State of Michigan the time necessary to properly develop the appeal for the denial of the IHP, HMGP, as well as emergency protective measures (Category B) under the Public Assistance program for FEMA-3375-EM-MI. An extension of 30 days, until March 22, 2016, will allow the City of Flint to assemble information and the State of Michigan to conduct the required analysis to develop the appeal request.

Sincerely,

Anthony P. Katarsky, Assistant Commander
Governor's Authorized Representative
Emergency Management and Homeland Security Division

To: Sara Grivetti
Cc: mikezelley@aol.com; Luke Zelly
Subject: Sara, please send this along to the directors & others you think are appropriate

Directors and Sara, I am providing an update on our work and role in the Flint Water Crisis. Many people in the IL movement have graciously called to offer their assistance. I asked that you hold until we engaged deeply to better understand the impact to the 26,000 Flint citizens with disabilities (US Census); the people we serve. We responded vigorously. The water issue is overwhelming for many organizations, including ours. Following is an update on our work and suggestions on how our friends in the IL and disability movement can help:

Friends of The Disability Network and people concerned for Flint citizens,

The water crisis is a significant and ongoing trial for all Flint citizens and particularly traumatic for many Flint water users who have disabilities. Our goal has been to deeply engage and respond vigorously; we have.

Our focus continues to be on:

1. **Immediate Accessible Emergency Response Actions** – accessible communications, water distribution, transportation, filters and testing.

2. **Preparation and Planning for Long Term Solutions** – engagement and leadership on accessible communications, water resources, education, unique mental & physical health needs, accessible infrastructure and economic development.

3. **Changing the Fear/Stigma of Disability** - from pity and victim to engagement and access for all.

4. **Promoting a Hopeful Future for Flint Citizens with Disabilities** - I believe that in a few years, Flint will have the purest water in the nation, become a national research center on water issues and support services for lead poisoning and ultimately become a more thriving, healthy, welcoming and accessible community for people with disabilities and their families.

Local Perspective: Many local organizations (us, other support organizations, businesses, public agencies) are involved in an "all hands on deck solution". We are personally affected & engaging beyond our capacity. We are living this crisis. We did not have people sitting on the bench waiting for this disaster to happen.

Of course we responded with emergency vigor, leadership and resources. That said, we had to put a hold on some of our daily work and critical systems change, in order to put resources into this immediate community emergency. Resources are desperately needed to respond to the water crisis and the incredible organizational drain on existing services and capacity.

How you can help: If you haven't done so already and want to assist the people of Flint, please consider:

1. Going to www.helpforflint.com to find information on how to donate to Flintkids.org, donate to the United Way Water Fund or volunteer with the American Red cross.

2. Making a specific "Water Crisis Response" donation to The Disability Network. Call Luke Zelley at 810-742-1800 or consider using (www.disnetwork.org – donate link). Donations will be identified and used specifically to provide services and supports for the immediate and long term disability response to the water crisis in Flint.

3. Encouraging the recovery and future of Flint by visiting Flint, buying Flint products, holding your next meeting in Flint or expanding your business to Flint to provide your direct services to the 26,000 (and growing number) of Flint citizens with disabilities (US Census) who need your help to NOT be victims and have a thriving future.

Thank you for your concern and consideration. All Flint citizens need support and prayers during this water emergency, including the unique needs of those with disabilities.

Attached is a summary of our response to date.

Mike Zelley, President

The Disability Network

Directors and Sara, Thank you for any help you can provide or coordinate. I know that like us, you are all short on resources, so even words of encouragement to the community are helpful. We welcome your suggestions also. We've had some success with local businesses hiring people with disabilities. That said, the growing needs for fresh food, jobs, medical attention, mental health services, hope and leadership are stark. Please pass along this information to people who may want to support the Flint recovery. Thank you all for your support and all you do in your own community.

Mike Zelley, the Board and staff at The Disability Network.

TDN Water Crisis Response

1. Individual Response:

a. **Reliable, credible information:** track & post updated water information to all staff, partners & customers (lobby, staff meetings, e-mails, newsletters)

b. **All TDN Programs:** water issue conversations with all inquiries, outreach to TDN program participants (NFT, Ramps, Technology, Employment, Youth) and all TDN customers (including non-Flint residents)

c. **TDN Customers:** Staff & volunteer outbound calls (water, filter & testing)

2. Community Response:

a. **Promote Accessible Communications (print, electronic & meetings):**
   - Deaf: Closed Captioning, sign language certified interpreters
   - Blind/Visually Impaired: Text, Braille & Large Print, Contrast
   - Cognitive/LD: simple language

b. **Continued Spotlight on Vulnerable Populations:**
   - Advocate for response to vulnerable populations with functional limitations (seniors, disability, literacy, etc.)
   - Create a TDN emergency water response team
   - Respond to requests: FEMA, Homeland Security, ACL, Congress, State

c. **Organize the Disability Community Response (be at every table):**
   - Disability representation at all community meetings
   - Recruit and host all disability organizations/agencies to develop a collective message on accessibility and accommodations

d. ***Promote long term, sustainable services-opportunities-hope:***
   - Early detection, services and accommodations benefit everyone in Flint (not victims, labeled as lead heads .... Life, jobs, careers, independence). Keep hope alive and overcome distrust of leaders

POSTPONED – DATE TO BE DETERMINED

State Partners Again with MSU Student Athletes in Flint to Help With Recycling and Water Distribution Efforts

FOR IMMEDIATE RELEASE
February 19, 2016
Release #: 40

Flint, Mich. – Student athletes from Michigan State University will once again partner with Schupan Recycling, Republic Services and the Michigan Community Service Commission (MCSC) to aid in recycling and water distribution efforts in Flint on Saturday, Feb. 20. These efforts will include collection of empty water bottles, distribution of recycling bags and information on how to participate in curbside recycling.

Recycling collection and water distribution will take place Saturday from noon to 4 p.m. in the parking lot of the Northwest Shopping Center, 2629 West Pierson Road, Flint, MI 48504 (corner of Clio Road and W. Pierson Road).

"Our first recycling event was so successful that the MSU students wanted to come back and help again," said Ginna Holmes, executive director of MCSC. "We are grateful for their contributions, as well as the contributions of Schupan and Republic for donating their recycling services and expertise."

Residents are asked to bring their empty water bottles to this location. Schupan Recycling will collect the bottles to process for turning into new products. Residents can also sign-up for curbside recycling from Republic Services.

Daily water distribution is ongoing at fire stations 1, 3, 5, 6 and 8. When picking up water, residents will be given a recyclable bag, donated by Petoskey Plastics, and instructions on how to recycle their water bottles either curbside or at a Schupan Recycling trailer location.

Recycling trailers are located at fire stations 1, 5 and 8, along with 3008 Airpark Drive S (Comcast) and 4119 North Saginaw (Empowerment Village).

Media is invited to attend the Saturday event.

Subject: DCDS Coding

Effective this current pay period, for any REGULAR AND OVERTIME hours worked on the Flint Water Emergency, please use Index 28900 and PCA 28670 and on the activity tab enter hours for the activity FNTWTR. This will help us to report more consistently with other state agencies and assist the State Budget Office with their tracking.

I know it adds a little extra time when inputting your time, but we really need to monitor time as accurately as possible. If you have problems with DCDS, please contact Nancy and she can walk you through the process.

Thanks so much. Appreciate your efforts.

Attachments: SEOC EMHSD Staff Schedule February 2016.xlsx

Good afternoon,

Attached is the SEOC staffing schedule for next week, February 22-28.

Again, if you cannot work a shift you have been assigned, it is your responsibility to work with your team and the Logistics Section Chief in advance to determine a replacement.

NOTE: I am sending this to the entire division recognizing that a few of you will not be reflected on this list. Please find your usual position to determine if you are scheduled for next week.

Thank you,
Wendy

Subject: Vernon Chapel water requests

Captain,

I just got off the phone with Lt. Roach and she was somewhat upset. Apparently Vernon Chapel Church has been asking the local EOC for 15 pallets of water to be delivered to their church about every three days. Lt. Roaches concern is that if we start doing this for every church that calls, we will deplete our supply. Lt. Roach told them they would give them five pallets, which is what they have told them in the past, however the person calling is consistently rude and demanding.

Couple bullets on this:

- *This church is somehow affiliated with the mayor.*
- This church is less than a mile from a pod and another "hub" church.
    - That church helped to set up the "hub" churches.

I am in agreement and support Lt. Roach's five pallets this time, I would like to reel that in even more and advise them to go to a hub or POD.
Your thoughts sir?

Thanks,
Gabe

Subject: RE: FLINT ISD taskers and email intro

Hi Chris,
I was cc on the emails yesterday regarding the survey results from the Head start Families. We sent out 1,100 simple surveys to the families of our 4 year old children on Thursday, on Monday we received 655 back. However since Monday, we have had 3 parent educational meetings on the water situation (assisting parents in understanding, proper nutrition, educational info, etc.) and we have received many, many more. Our initial number show there are 142 homes with no filters, we have address name, contact information etc.
Right now we are doing the following for the initial 142 families and all subsequent survey responses indicating NO filter :

1. Our Health Technicians are making a Personal calls to parents or personal contacts when picking up child to ask which method would work best for them to receive a filter, cartridge, water etc.
    A. Have product delivered by MSP
    B. Pick up the Filter at the school
    C. School staff will deliver and install the filter using Family Engagement Coordinators
    D. Or Send the filter or cartridge home with the child in backpack.

Yesterday we sent the same survey home with all of our Great Start Readiness (GSRP) preschool Students, (about 2,000) and will follow the same process with the responses.
We feel very confident we can meet the needs of most families if we can access the filters/cartridges. I will also send you a list of families that will welcome the (MSP) to deliver the needed product.

If you have any time to let me know how to access products, and set the ISD up as a Bulk recipient, we will assure that we only use what is needed and distribute directly to the families in need.
Please do not hesitate if you feel our systems and resources can be beneficial.

Cc: Brown, Melanie (DEQ); Baird, Richard (GOV)
Subject: RE: FLINT ISD taskers and email intro

If possible, I would like the list of addresses as we still have five teams in the field going to homes missed. Since the survey we may have gotten to some of those areas. We just found some mobile home parks that were missed and have since visited them which could have been some of the 142.

Let me know if we can get the addresses. I will give Dr. Hagel a call on the bulk recipient idea.

Chris

-----Original Message-----

To: lhagel@geneseeisd.org
Cc: Brown, Melanie (DEQ); Kelenske, Chris (MSP); Baird, Richard (GOV)
Subject: FLINT ISD taskers and email intro

Email intro:

Chris and Mel: Dr. Lisa Hagel is the Superintendent of the Genessee County ISD. As discussed yesterday, she had a survey sent home with the kids that indicated 142 homes without water filters. She also has a phone "alert system" to all the kids parents and runs a backpack program. Her phone number is

Dr. Hagel: Capt Chris Kelenske runs the State Emergency Operations Center and Melanie Brown runs the State Joint Information Center.

Taskers and good ideas:

1.) We need to set up the ISD as a bulk recipient of commodities. They don't have enough water or filters. Also, they can send commodities home with the kids. Dr. Hagel to explain what she envisions for distribution as she already has a system in place but is under-resourced.

2.) Dr. Hagel has the names and addresses of the 142 families that say they have no filter. We need to circle around to those locations to validate. She has some concerns about folks answering doors so that may be a challenge that needs to be addressed.

3.) Mel: Is there some way to leverage Dr. Hagel's communication systems and relationships with these families to better our dissemination of messaging and strategic communications? At the very least, this is a good news story.

4.) Mel: Dr. Hagel conducts a "lead impact meeting" every Monday at the ISD. This looks like an opportunity to send one of your folks to give/receive important information on what the parties are doing/information. Dr. Hagel to explain. When you set this up, let me know the details. Either Rich or myself will attend one.

Let me know what I can do to help and thanks in advance,

Kevin

This is the daily 2-1-1 summary on the Flint Water Response for Monday, February 15, 2016

NOTE: Attached to today's summary is a copy of the PDF reference document 2-1-1 partners use for Flint Water calls. This document is updated daily, sometimes several times a day. 2-1-1 agents access this through a shared DropBox file that ensures all 2-1-1 staff have immediate access to the most current information about the response.

GENERAL INFORMATION:

- **There will be an informational meeting one of the class action lawsuits** on Tuesday, February 16, 2016 from 6:30 pm – 8:30 pm at 432 N. Saginaw Street, Flint, MI in the North Bank Grand Ballroom at University of Michigan Flint Campus. *More information at www.flintwaterclassaction.com. The web site is operated by one of the law firms filing a suit.*
- **United Way Worldwide announces details of Beyoncé's Formation World Tour benefitting Flint** with proceeds to support United Way of Genesee County's work to help the people of Flint dealing with the Flint Water Crisis. Fans will have an opportunity to donate to the Flint Water Fund after purchasing their tickets. Every $10 donated is an entry for an upgrade to the best house seats at each concert. US Tour tickets go on sale February 22nd.

CALL VOLUME:

Central Michigan 2-1- 1was closed today for the Presidents' Day holiday. SW Michigan 2-1-1 partner, *which regularly handles after hours and weekend calls for Central Michigan, reported a few waves of calls that pushed wait times to approximately 10 minutes for short periods.*

Call summary for the week of February 8-14

- 777 callers used the Flint Water prompt to reach a 2-1-1 agent.
- 1009 referrals were provided (1.3/caller) and there were 30 unmet needs recorded.
    - The majority of calls came from zip codes 48504 and 48505
    - The most common requests were for Drinking (Bottled) Water, Water Filters, and Tap Water Testing.
    - 17 calls were to donate or volunteer.

SPECIAL NEEDS/REQUESTS

- **American Sign Language interpretation may be available for Flint-area events** through a professor at Mott Community College. Email Tom Page at Michigan 2-1-1 for contact information: tpage@uwmich.org.

☐ **Good360, a 501(c)(3) nonprofit that coordinates bulk donations from corporate partners, has identified a potential source of high-capacity water filters** for restaurants, churches, shelters and other businesses that are not currently eligible for free water filters. These are filtering systems, not faucet filters. ***Good360 is working to verify these filters meet NSF standards for lead and copper, but is asking for feedback if there is a need by local businesses and agencies for this kind of filtering option.***

RUMOR/SCAM CONTROL

- A community agency in Flint notified Michigan 2-1-1 that a client said they received a referral from 2-1-1 to a clinic asking for payment to do a child lead screening test. Central Michigan 2-1-1 verified there are no children's lead testing clinics in the database that charge a fee. The only locations in the 2-1-1 database are coordinated by the Health Department, either onsite or at various community locations. As of this time adults are charged a fee for lead testing. 2-1-1 has asked the community agency to seek additional information to assist with 2-1-1's investigation.

☐ Callers continue to ask about relocation assistance. 2-1-1 is informing residents that there is no government relocation assistance available at this time. We have identified several private initiatives to assist with relocation, but have been unable to verify the legitimacy of any of these efforts. **Can the Attorney General's office or another agency help investigate if any of these efforts are legal and legitimate?**

- https://www.facebook.com/IamShiftingParadigms/posts/821354508011097
- https://pages.giveforward.com/emergency/page-42jxcw4/
- http://www.plumfund.com/charity-fundraising/help-flint-mi-residents-relocate

UNRESOLVED

☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier?**

1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.

2/10/16 UPDATE: Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.

☐ **From 2/11/16: Dentists concerned about impact of drinking unfluoridated bottled water** on the long term dental health of Flint children. Michigan Association of United Ways reported hearing this issue at a meeting with pediatricians and dentists. One suggestion to address this was providing the school-based fluoride treatments.

☐ **From 2/11/16: *Community partners report Flint residents concerned about* 2-1-1 sharing their personal information.** Service agencies in Flint report some residents are afraid to call 2-1-1 or choose the Flint Water prompt due to concerns that 2-1-1 is tracking and reporting their needs and personal information to government agencies.

Update 2/12/16: 2-1-1 is reviewing the language of the phone prompts and hold messages to determine the best way to reassure callers that **2-1-1 calls are confidential and 2-1-1 will *never* release information without first receiving permission from the caller.**

☐ **From 2/12/16:** 2-1-1 has received several calls from residents seeking information about the safety of produce they canned at home using unfiltered city water prior to the emergency declaration. Losing this food could affect household food security. **CAN SEOC or MDHHS provide guidance about whether this food is safe to consume?**

These are filtering systems, not faucet filters. ***Good360 is working to verify these filters meet NSF standards for lead and copper, but is asking for feedback if there is a need by local businesses and agencies for this kind of filtering option.***

RUMOR/SCAM CONTROL

- A community agency in Flint notified Michigan 2-1-1 that a client said they received a referral from 2-1-1 to a clinic asking for payment to do a child lead screening test. Central Michigan 2-1-1 verified there are no children's lead testing clinics in the database that charge a fee. The only locations in the 2-1-1 database are coordinated by the Health Department, either onsite or at various community locations. As of this time adults are charged a fee for lead testing. 2-1-1 has asked the community agency to seek additional information to assist with 2-1-1's investigation.

- ☐ Callers continue to ask about relocation assistance. 2-1-1 is informing residents that there is no government relocation assistance available at this time. We have identified several private initiatives to assist with relocation, but have been unable to verify the legitimacy of any of these

efforts. **Can the Attorney General's office or another agency help investigate if any of these efforts are legal and legitimate?**

- https://www.facebook.com/IamShiftingParadigms/posts/821354508011097

- https://pages.giveforward.com/emergency/page-42jxcw4/
- http://www.plumfund.com/charity-fundraising/help-flint-mi-residents-relocate

UNRESOLVED

☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier?**

1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.

☐ **2/10/16 UPDATE:** Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.

☐ **From 2/11/16: Dentists concerned about impact of drinking unfluoridated bottled water** on the long term dental health of Flint children. Michigan Association of United Ways reported hearing this issue at a meeting with pediatricians and dentists. One suggestion to address this was providing the school-based fluoride treatments.

☐ **From 2/11/16: Community partners report Flint residents concerned about 2-1-1 sharing their personal information.** Service agencies in Flint report some residents are afraid to call 2-1-1 or choose the Flint Water prompt due to concerns that 2-1-1 is tracking and reporting their needs and personal information to government agencies.
Update 2/12/16: 2-1-1 is reviewing the language of the phone prompts and hold messages to determine the best way to reassure callers that **2-1-1 calls are confidential and 2-1-1 will *never* release information without first receiving permission from the caller.**

☐ **From 2/12/16:** 2-1-1 has received several calls from residents seeking information about the safety of produce they canned at home using unfiltered city water prior to the emergency declaration. Losing this food could affect household food security. **CAN SEOC or MDHHS provide guidance about whether this food is safe to consume?**

Revised 2.15.16_JP

Rumor Control | Health & Water Quality/Safety Concerns | Taxonomy Terms |Q&A | Printed Materials

Background Information:

Early January, Flint Water situation has been declared a State of Emergency and the Governor's Office got involved to set up resources. The concern is the lead and general quality of the water, piping, lead poisoning risk and health impacts. January 17, President Obama Signed a Declaration of Emergency releasing FEMA assistance for 90 days. Here's the press release. 2-1-1 is being advertised as the place to give and get help.

Many residents are upset at the situation and lack of steps being taken to fix the situation and the government is hopeful the partnership with us to get information to people and help assess the situation from people (unmet needs, trends, etc) will help them take steps – certainly along with other things they're doing! ***It's really important we express empathy and compassion to these callers, take time to listen, offer the help we can, record unique situations and report them to the partners – please email Jennie Pollak (jennifer.pollak@lifewayscmh.org) and I'll pass them up!***

The relief efforts include bottled water giveaway sites, water testing giveaways sites, water filter sites, homebound delivery of supplies, recycling centers, lead poison testing, as well as organized bottled water & monetary donation sites and volunteer organization.

Rebuild efforts have begun being announced: A lead pipe removal plan was announced on 2/9/16 by Flint Mayor Karen Weaver and will be led by retired Brigadier General Michael McDaniels. The plan will replace **residential** lead pipes with copper and is expected to begin by the end of March. There's no cost to homeowners. State Funding requests have been proposed.
www.detroitnews.com/story/news/michigan/flint-water-crisis/2016/02/09/flint-mayor-announces-lead-pipe-removal-plan/80052634/

Canvas efforts are in place to visit all residents, door to door in the City of Flint, providing filters, testing kits & drinking water. Teams are starting in neighborhoods with the highest lead concentration first. If the resident is not home, a flyer will be left instructing them to call 2-1-1. Treat these caller as a new caller, assessing their ability to pick up supplies or need for delivery. Canvas teams will make a second pass to reach residents.

Rumor Control – Record Referrals as OOD Disaster Related Rumor Control

Niagara Bottle E.Coli Rumor – Refer callers to Niagra Bottle Company website or the Consumer Affairs Dept to see if the bottles they've received were recalled. The recall was issued Summer 2015 from 2 Pennsylvania plants. www.niagarawater.com/consumer-notice/ Save OOD Referral for **Disaster Related Rumor Control** and Agency: **Niagara Bottling Company**

Revised 2.15.16_JP

Lead found in Bottled Water Received by Fire Stations – See official press release of <Dept of Environmental Quality Total Dissolved Solids> testing performed of bottled water. *There's over* 21 bottles of water that were tested – Sparklettes and Star Wars are some of the brands. Save OOD Referral for **Disaster Related Rumor Control** and Agency: **Joint Information Center.**

FEMA Relocation Assistance – There is no relocation assistance currently being provided as this is a *Declared Emergency, not Declared Disaster. Please let residents know relief efforts are focused on* water resources, testing and health support. Save OOD Referral for **Disaster Related Rumor Control** and Agency: **FEMA.**

Health and Water Quality/Safety Concerns; several questions and concerns have been reported – safe to bathe, cook, etc. Refer to <WATER SAFETY FLYER> for basic information or refer for additional questions/concerns. Save referral for **Water Quality Assurance** for **Central Michigan 2-1-1** when basic information is provided and to another agency when referral is provided.

2-1-1 Database Taxonomy terms:

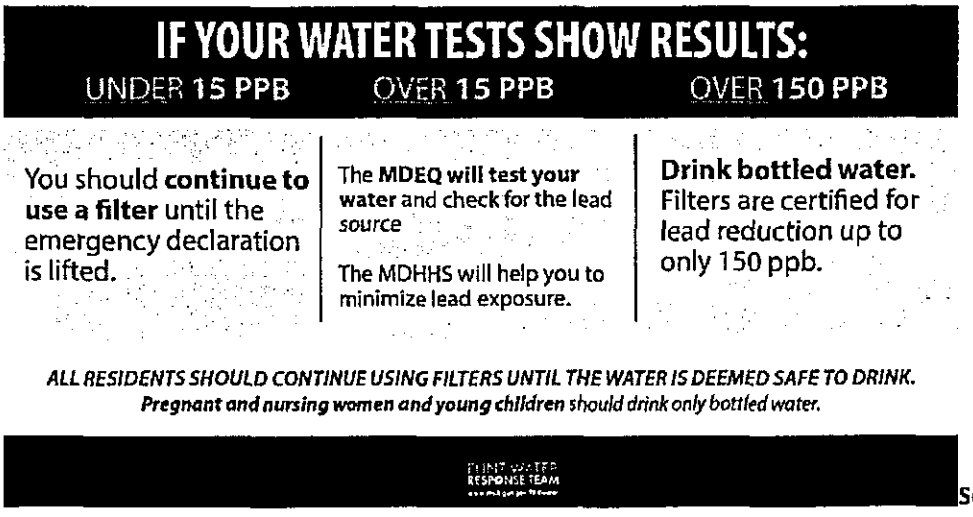
- Disaster Related Monetary Fund Management
- Drinking Water Donation Programs

Q&A:

Lead Test Results Received: Several residents have called asking what to do after receiving their test results. Please advise as directed below. Residents will receive their results in the mail (we're hearing 3-4 weeks) after returning the sample, and results will be posted online to www.michigan.gov/flintwater as soon as they're processed. Click "Testing Results" to see residential results. Please do not share individual household results, but instead direct them to find the file online. We are not lead testing experts! Please record this call as Water Testing Information (saved in OOD box). If you're able to answer their question, save the agency as Central Michigan 2-1-1 (saved in dropdown list). If you refer to the website, save agency as www.michigan.gov/flintwater (saved in dropdown list).



Se

Class Action Lawsuits – An informational meeting about the Class Action Suits will be held at UofM Flint Tuesday, February 16th. Information is noted in the ACLU record. A few lawsuits have been filed against the City of Flint and Governor Snyder, etc. regarding the Water Situation. If callers want more information or to join, refer them to the ACLU by Taxonomy term: **Class Action Litigation.**

Lead Poisoning Results – Lead poisoning results will be received by the clinic or doctor that performed the bloodwork and follow up will be arranged; however if a family is concerned about positive lead poisoning test results for their child, please refer to **Case/Care Management** programs. If the child has Medicaid, refer to CHAP through the Greater Flint Health Coalition **(Case/Care Management)**. If another form of insurance, please refer the Genesee County Health Department **(Case/Care Management*Lead Poisoning)**.

Governor Constituent Services – Constituent Services is available for residents to share concerns, complaints, etc. Many Flint callers are upset, remember to be empathetic and understanding for what they are experiencing, but if we are not able to resolve their concern, or provide referrals, or if they are

calling only to share their opinion, please direct them to Constituent Services. Taxonomy term: **Government Complaints/Government Ombudsman Offices.**

Skin Rashes – Health information is available for those with questions about skin rashes that may be attributed to the water conditions. A physician is on duty that can help answer questions. Taxonomy term is **Medical Information Lines.**

Questions about Lead: EPA has developed a hotline to answer specific questions about the effects of lead and lead poisoning. Taxonomy term: **Lead Information.**

Questions about Water Safety: *EPA has developed a hotline to Answer questions about drinking water* safety and also can refer residents to the free testing kits. Taxonomy term: **Water Quality Assurance.**

Loans for Small Businesses – Economic Injury Disaster Loans have been approved for businesses in Genesee County and City of Flint. Business owners must apply by Nov 7, 2016. Taxonomy term: Disaster Business Loans.

Information for Visually Impaired Residents –Bureau of Services for Blind Persons is helping provide resources for blind or visually impaired residents. Taxonomy term: Disaster Preparedness Information

Water Main Break/Water Shut Off – *The boil water advisory was lifted and no bacteria was found* 2.12. During a water main break, residents may experience a drop in pressure or no water in their tap. This was confused with residents thinking the City shut off their water. Be advised, there have been no water bill shut off notices issued since around December 2015. When service is restored, it may have an odor or be discolored-let the water run for a few minutes to clear the line. As water main breaks do occur, this may happen again.

Water for Pets - Official statements state filtered water is safe for pets to drink, although the Humane Society is providing water for pet owners. Taxonomy term: **Disaster Related Drinking Water.**

Water Resources for Business, Nonprofits, Nursing Homes, Churches –Commercial food/beverage business may receive up to 10 cases/day and non-food business may receive up to 5/day. Taxonomy term: **Disaster Related Drinking Water.** Schools should contact Food Bank of Eastern Michigan if they are not already a distribution site. Licensed daycare/foster care providers should contact DHHS if they do not have resources.

Agencies offering to be a distribution site - Water resource distribution is a coordinated effort and please refer organizations that are a 501c3 to the Food Bank of Eastern Michigan to set up directly.

Ages 0-6 and Pregnant Women Advised not to Drink Water – Some homes are testing very high for lead (higher than the current water filters are certified to remove lead) and officials are warning people, especially those with kids 0-6 or pregnant to not drink tap water, even with a filter until they get their tap water tested and know their levels. There are no specific water distribution centers set up for this population. Refer callers to **Tap Water Testing** and **Disaster Related Drinking Water** as appropriate. Here's an article about the situation:
http://www.mlive.com/news/flint/index.ssf/2016/01/flint_water_crisis_filter.html

Revised 2.15.16_JP

CHAP – Families have trouble accessing health care, with their health care provider or transportation. Until the CHAP Screening process is in place, please refer directly to the Genesee County CHAP. Taxonomy term: **Case/Care Management.**

Emotional/Mental Health Support – Genesee Health System (CMH) is offering a weekly workshop for those seeking support, prayer, relaxation, crisis management, mental health resources, blood pressure checks, etc. Taxonomy term: **Workshops/Symposiums*Disaster or Emergency Issues.**

Hair Care – Creative Hair School of Cosmetology will provide monthly shampoo, condition and style for those affected by the Flint Water Crisis. Taxonomy term: **Hairdressing/Nail Care**

Pitcher Water Filters – Pitcher filters are no longer stocked at the Fire Stations; instead they're provided to residents who have tried the faucet filters. Please offer a plumber/pipefitter to try to install the faucet filter first; Taxonomy term: **Disaster Specific Home Repair**. The plumber/pipefitter will alert the team for the need of a pitcher filter. If the person is sure a faucet filter won't fit (sprayer faucet), please email Jennie Pollak the caller's name and need for pitcher filter (Jennifer.pollak@lifewayscmh.org) to make note on the referral list.

New Faucet – Donated faucets have been secured for residents that have been identified to need a new faucet to fit the faucet filter. Taxonomy term: **Disaster Specific Home Repair**. The plumber/pipefitter will alert the team for the need of a new faucet.

Recycling – Water bottles and water filter cartridges can be recycled at various locations in Flint. Taxonomy term is **Residential Recycling Programs.** Please see <Flint_Recycling_Information_Handout>

Fraud Reporting – There have been reports of frauds or scams. If a resident is concerned, please direct them to report to FEMA or LARA. Taxonomy term is **Disaster Related Fraud Reporting.**

Volunteer Uniform: If callers have questions/concerns about those distributing resources, it's helpful to know which team. Red Cross volunteers have red vests, plumbers have neon yellow sweat shirts, and police and National Guard are in uniform.

Concerns about Treatment by National Guard: We've received concerns and complaints about how residents are treated at Fire Stations by National Guardsman. Please email Jennie Pollak at Jennifer.pollak@lifewayscmh.org an overview of situation including the caller's name and phone number (if interested) and she will send forward to a contact at the Michigan State Police.

Assisting agency call volume - Do not provide the phone number to Fire Stations, Genesee County Sheriff (*except to Apartment/Group Home Managers*) and Red Cross to help manage their call volume so they focus on relief efforts.

Filter doesn't fit faucet – All faucet filter kits come with several adaptions. Offer to have someone help install the faucet filter or suggest they get a pitcher filter if they're sure a faucet filter won't fit (sprayer faucets, etc).

Fire Station Resource Supply – *The supply at the Fire Stations are being checked on an hourly basis.* We've heard reports that they may temporarily run out of supplies; they will be replenished. We are not receiving updates when they are out or have supplies back in.

Revised 2.15.16_JP

Picking up filters for family members - People are no longer able to pick up water resources for another person. As of 1.22 People no longer need to bring ID to pick up supplies. Those unable to pick up supplies (homebound residents) may have them delivered by the Genesee County Sheriff's Office.

How Often? – People can pick up cases of water daily, replacement filter cartridges as needed and homebound residents can call as they need supplies delivered. There's one filter per household.

Township/nearby other city residents that receive City Water: if someone isn't a City of Flint resident but receives City of Flint water, they're called a "franchise customer" and it should be noted on their water bill (through Flint Township, etc). Direct callers to check their water bill or with their Township/Apartment manager to learn if their household is affected (if they are a franchise customer). They should be eligible for water filters, bottled water, etc. The canvas teams know about these residents and will be sure to deliver even though they are outside the City limits. Water filters will be mailed to franchise customers beginning 1/25. *Still waiting to hear about Delivery for homebound Franchise customers.*

Blood Lead Tests – *Concerns for lead poisoning have shown need for Blood Lead testing sites. Children* are at highest risk of developing lead poisoning, and the target of free community based lead testing clinics, though adult testing is available for a fee at the Health Department Saginaw St Clinic or their Primary Care Physician.

Water Bill Payment – Currently residents are obligated to pay their water bill since the courts have settled the disputes. If they have questions or concerns about their water bill, direct them to call the City of Flint Water Department for billing questions. The Governor did mention to provide aid to the City for utilities in his State of the State address but we are not aware that programs have been set to pay for resident's bills. Direct callers facing shut off to current resources, Taxonomy term: **Water Bill Payment Assistance**.

Apartment/Group home Managers picking up for residents - Public/Private housing unit apartment managers should be directed to call the Sheriff's Department water line, 810-257-3600 to coordinate pick up of water supplies for the units in their care. Residents may pick up resources for themselves, but Apartment/Nonprofit Group Home complexes may pick up water filters for their residents too.

Residents hired for Water Testing – Governor Snyder announced 2/8 partners were hiring 50 residents to assist with water testing. That opportunity was filled 2/9 so not entered into the database. Here's the article, FYI: www.mlive.com/news/flint/index.ssf/2016/02/flint_residents_being_hired_to.html

Water Resources for Business, Nonprofits, Nursing Homes, Churches –*Commercial food/beverage* business may receive up to 10 cases/day and non-food business may receive up to 5/day. Taxonomy term: **Disaster Related Drinking Water**. Schools should contact Food Bank of Eastern Michigan if they are not already a distribution site. Licensed daycare/foster care providers should contact DHHS if they do not have resources.

Eroded Hot Water heater - Refer to current resources (DHHS SER Program), but also record their name, address and phone number with a client note saying the cause is believed to be from the City Water in case specific assistance does become available

Revised 2.15.16_JP

Free Bus Transportation to Fire Stations - MTA (public transportation) is waiving the fare for people getting off at the Fire Station Water Resource Centers

Water filter scams - There have been reports of people selling water filters. If you hear of someone selling water filters, avoid that situation and call non-emergency Genesee County Sheriff's Office at 810-257-3407. All water filters are being provided free.

Water Testing Sample Questions – *Instructions and an application form were provided with the water* sample kit. There's also an instructional video online at www.michigan.gov/flintwater. Test Samples should be dropped off at Fire Stations, City Hall or Water Department (Taxonomy term **Tap Water Testing**). If homebound resident needs sample picked up, please save as Unmet Need **Tap Water Testing Drop Off** and Service Inaccessible/transportation. They'll work to get a volunteer pick it up. Also reference <DW Flint Sampling> document.

How to read water filters: If the indicator says the filter needs to be replaced, another filtration or drinking source should be identified. Images of filters are available at www.michigan.gov/flintwater

- The PUR Faucet Filter has a Red/Yellow/Green reading. Yellow is a warning the filter should be replaced soon. Red Means the filter needs replacement
- The Pitcher Filters have a thermometer style reading. There are instructions that tell when the filter needs to be changed. Waiting for more information. Replacement cartridges should be in later this week (week of 1/18).

Office of Mayor Karen W. Weaver, Ph.D.
City of Flint, Michigan, County of Genesee

Declaration of State of Emergency

Authority Emergency Management Act: Michigan Emergency Management Act 390 of 1976

BY THE MAYOR:

Whereas; in accordance with the Michigan Emergency Management Act, I am declaring a State of Emergency for the incorporated boundaries of the City of Flint, Michigan; and

Whereas; the City of Flint has experienced a Manmade disaster by switching to the use of the Flint River before connecting to KWA; and

Whereas; the City of Flint children have experienced increased blood lead levels since the switch to the Flint River; and

Whereas; this damage to children is irreversible and can cause effects to a child's IQ, which will result in learning disabilities and the need for special education and mental health services and an increase in the juvenile justice system; and

Whereas; this will increase the need for foster and adoptive parents as a result of social services needed due to the detrimental effects of the high blood lead levels; and

Whereas; I am requesting that all things be done necessary to address this State of Emergency Declaration, effective immediately; and

Whereas; this action is being taken to protect the health, safety, and welfare of the citizens of Flint; and

Whereas; I request that the Genesee County Board of Commissioners call a Special Meeting no later than the end of December 2015 to take action supporting this State of Emergency; and

Now, Therefore, I, Mayor Karen W. Weaver declare a State of Emergency in the City of Flint, effective, December 14, 2015;

Karen W. Weaver

Flint mayor asks county for support of emergency declaration

CREDIT STEVE CARMODY / MICHIGAN RADIO

A push to declare a state of emergency in Flint is running into some pushback.

Mayor Karen Weaver called for the declaration this week. She says the city needs state and federal help to repair its problem-plagued water system.

Flint's water system is antiquated. In 2014, partly to save money, the city switched from Detroit water to the Flint River for its drinking water.

But the corrosive river water damaged pipes and led to increased lead levels in the drinking water. The city switched back to Detroit water this fall, but researchers still say people should not drink it unfiltered.

Weaver announced her state of emergency declaration Monday night. But for it to move forward, she's asking the Genesee County Commissioners to back the city's declaration.

"We're looking for resources. We need some help, and I hope they will approve it," says Weaver.

The mayor would like Genesee County Commissioners to hold a special meeting this month to back her call to declare a state of emergency in Flint.

But Genesee County Commission Chair Jamie Curtis is reluctant. He says he hasn't seen the paperwork yet and he wants to make sure it doesn't just repeat the health emergency declaration the county declared in October.

Curtis admits he's frustrated with the way Flint's mayor has handled this request.

"I don't know what it is that Weaver wants me to do when she doesn't call me ... have a meeting with me," says Curtis.

Curtis says he's open to taking up the state of emergency declaration next month.

In the end, it will be up to Gov. Rick Snyder to decide whether to declare a disaster in Flint.

The governor's office issued this statement:

"Flint residents deserve safe, clean water, and the Governor's Office continues to work with Mayor Weaver. We also are working with the bipartisan Flint Water Task Force that the governor appointed to review the city, state and federal actions regarding the water infrastructure challenges and health concerns. The task force also is expected to offer recommendations on what each level can do moving forward to address these issues in Flint and potentially other areas in our state."

Recent tests showed a small number of Flint residents have elevated blood lead levels.

Researchers are concerned though that many people in Flint may have consumed lead-tainted water for many months before switching to bottled water. The results of that exposure may not be seen for years.

Subject: New Article: Genesee County commissioners will consider Flint disaster-area request

Situational Awareness: The Genesee County Commissioners will have a hearing about the Flint emergency declaration on Jan. 4.

Genesee County commissioners will consider Flint disaster-area request
By Ron Fonger | rfonger1@mlive.com
on December 15, 2015 at 5:36 PM

FLINT, MI -- Mayor Karen Weaver's request for a federal disaster designation will get a full hearing before the Genesee County Board of Commissioners Jan. 4.

County board Chairman Jamie Curtis said Tuesday, Dec. 15, that he will do what he can to support the request even though he hasn't been involved in planning discussions so far.

Weaver declared a state of emergency because of Flint's water crisis Monday, Dec. 14, starting the process of having the city declared a disaster area -- something that requires county and state approvals before federal officials consider the request.

Curtis initially told The Flint Journal-MLive that he didn't believe the county needed to act on Weaver's declaration because county officials had already declared a health emergency in October.

The board chairman said the health emergency triggered the release of millions in state funds for water filters and to help reconnect Flint to the Detroit water system.

But after a news conference Dec. 15, Weaver said she would send Curtis a certified copy of her declaration and let commissioners decide the fate of her request.

"We're going to do what we said we were going to do ... It can be on their conscience if they don't approve this," she said of the county.

Curtis said he would do "everything I can for the safety of Flint and Genesee County residents," but said he was disappointed in not being included in conversations about the emergency request to date.

Curtis experienced the work required in requesting disaster relief in 2012 after heavy rains flooded parts of the county.

Even though the county documented about 1,800 specific losses tied to the flooding, the Federal Emergency Management Agency ultimately rejected the county's request for disaster assistance.

Weaver's declaration does not include a specific cost associated with the lead in water crisis but she said Tuesday that in addition to damaging the health of citizens, the city's infrastructure, including water transmission pipes, has suffered damage.

Capt., here is the version I received Friday. A hard copy was also forwarded to Michelle and Henrik for review per the request of Dr. Weaver. The resolution was supposed to be signed yesterday or today but I have not received word yet if that occurred. I will follow-up on that again tomorrow.

I spoke with Chris DeVriendt (Jen Boyer's Asst) several times today. Chris advised he was going to help the City of Flint put their declaration into MICIMS. He advised he was trying to ascertain what help the Mayor is actually requesting. He also advised the City of Flint claimed their plan was being implemented but he was unsure of exactly what they were doing. Chris seemed to be on the right track today, however, it seems like he may not receiving answers he needs. Chris and I will stay engaged. Please let me know what else you need. BJ

To all Recipients:

Transmitted herewith is the Support Emergency Operations Plan for the City of Flint in support to the Genesee County Emergency Action Guidelines (EAG). The plan provides a framework for the City of Flint to use in performing emergency functions before, during, and after a natural disaster, technological incident or a hostile attack.

The policies contained herein do not discriminate on the basis of race, color, national origin, religion, sex, age, disability or political beliefs.

This plan was adopted by Flint City under Resolution No._____
Dated_____. It supersedes all previous plans.

Karen Weaver 12-11-15

Signature of Chief Executive Official (Mayor) Date

Dr. Karen Weaver

CITY OF FLINT, MICHIGAN

INTRODUCTION TO THE PLAN

I. Purpose

The City of Flint has elected to be incorporated into the Genesee County Emergency Management Program. By becoming part of the county emergency management program, the City of Flint and Genesee County have certain responsibilities to each other. This Support Emergency Operations Plan has been developed to identify the responsibilities between the City of Flint and Genesee County in regards to pre-disaster emergency management activities. It also provides for City of Flint government agencies to respond to various types of emergencies or disasters that affect the community. This support plan is to be used in concurrence with the Genesee County Emergency Action Guideline, as it is a supporting document. The support plan will be maintained in accordance with the most current standards of the Genesee County Emergency Action Guidelines. Review of this support plan shall be accomplished concurrently with the county plan.

II. Scope

This plan is a flexible document in which changes from the content of the plan may occur due to unique nature of emergencies. Each agency that has a supported role in this plan or its elements has developed Standard Operating Procedures (SOP) which provides systematic instructions for accomplishing assigned functions. In addition, to support emergency preparedness and response efforts, the local government also conducts other activities such as personnel training, participating in exercises, encouraging chronic disease prevention techniques; educate the public on awareness activities, and use of appropriate land use planning decisions for mitigation and prevention purposes as well. Through this plan, the City of Flint continues to implement the National Incident Management System, participating in efforts to provide an effective and efficient incident management operation.

III. Plan Maintenance and Implementation

The plan has been developed together with local community, and county officials to ensure consistency within the county emergency management program documents. The plan is required to be approved by the City of Flint's Chief Executive Official every four years, or whenever the CEO changes and is to be forwarded to the County Emergency Management Office. Upon approval, it will be implemented, tested through exercises in concurrence with County officials, and review/updated to maintain currentness with the Genesee County Emergency Action Guidelines.

This plan has been provided to all municipal agencies, elected officials, the county emergency management office and the MSP/EMHSD district coordinator.

IV. Emergency Management Program Oversight

The City of Flint has appointed the Chief of Fire to serve as the city's emergency management liaision responsible for working with the County Emergency Management Coordinator in matters pertaining to emergency management for the municipality. Pursuant the requirements in P.A. 390, of 1976, as amended, Section 19, Genesee County has adopted a resolution that incorporates the City of Flint into its emergency management program, necessary for diaster assistance.

CITY OF FLINT, MICHIGAN

BASIC INFORMATION

I. Community Profile

The City of Flint is situated in the center of Genesee County. At 33.42 square miles, it is the county's largest city. According to the United States Census Bureau, Flint's estimated population is 99,763.

Flint has an average number of people identified as individuals with special/functional needs for a city of its size. Many of these individuals reside in congregate care centers, but others reside in non-group homes where help is provided as needed or on-call.

According to the Genesee County Hazard Mitigation Plan, the three situations the community is most vulnerable to is: inclement weather (e.g. thunderstorms, hail, lightning and severe wind storms, snow, tornadoes), structure fires and hazardous material incidents. All of these incidents can happen anywhere within the community, but hazardous material incidents are more likely to occur on the major expressways and highways. I-475, I-69, M-21 & M-54 all pass through Flint while I-75/US 23 is very close to its western border. More information regarding hazard vulnerability can be found in the County's Hazard Mitigation Plan/Analysis.

Within the community, there are 19 sites that contain extremely hazardous materials. Pursuant to SARA Title III, off-site emergency response plans have been developed by the LEPC to prepare the fire department(s) to respond to the specific hazardous materials on the sites. In addition, the owners of the site(s) have reported the types of hazardous material that is housed on-site, as required by the Emergency Planning and Community Right-To-Know Act.

II. Emergency Management Authority

Pursuant to P.A. 390 of 1976, as amended, the municipal CEO may declare a local state of emergency for the City of Flint. Also, Sections 1-801and 3-306 of the Flint City Charter describe procedures regarding emergency rules and ordinances. Upon a declaration, PA 390 also authorizes the CEO to issue directives, such as restrictions to travel on local roads. The local declaration activates this emergency plan as well as the emergency operations center to conduct activities to ensure the safety of people, property, and the environment.

Since the City of Flint has been a recipient of federal preparedness assistance, a resolution has been adopted by the local government for establishing the National Incident Management System as the standard for incident management for all-hazards. Through the adoption, the City continues to implement the concepts of the NIMS through training, planning, and exercising activities.

III. Response Resources

The City of Flint maintains fulltime departments of both Police and Fire. They are responsible for providing public safety and welfare to the community. Each department is comprised of qualified emergency personnel, and maintains equipment capable of responding to emergencies. A list of resources that the departments use for emergency situations can be requested through the municipal emergency management liaison. Under certain circumstances, if the incident requires additional resources beyond the capability of the City of Flint, the CEO may enact mutual aid. This is a familiar practice within both departments.

IV. Emegency Management Organization

The City of Flint emergency management organization consists of a number of departments responsible for conducting activities in response to emergencies within the community. These departments have been assigned to specific emergency functions for which the municipality has identified necessary in order to provide an effective response to secure the safety of people, property, and the environment. Each agency is responsible for implementing pre-disaster activities to help prevent and/or prepare for various hazards that the community is vulnerable to such as: chronic diseases, flooding, hazardous material spills, inclement weather, tornadoes, and public disturbance to name a few; a more profound list can be found in the County's Hazard Mitigation Plan/Analysis. Prevention and preparedness activities include: awareness training, exercising, hygienic practices to prevent spreading of infectious diseases, stockpiling equipment, and educating people on how to care for themselves during an emergency.

The CEO serves as the incident manager for municipal coordination. At his/her side includes the Finance Director and the Emergency Management Liaison (EML). The EML's duties include planning, operations, and logistics.

The table lists the functions, assigned agencies, primary point of contact of municipal EOC representatives.

Function	Agency	Primary Contact
Direction and Control	City Hall	Dr. Karen Weaver, Mayor
	City Hall	City Administrator Natasha L. Henderson
Fire Services	Fire Department	Fire Chief David Cox Jr.
Law Enforcement	Police Department	Police Chief James Tolbert
Warning & Communications	Genesee County 911 (GCCD)	Dave Ackley
Public Information	City PIO	Sean Kammer
Damage Assessment	Assesments	Assessor William E. Fowler
Public Works	DPW - Utilities -Transportation	Kay Muhammad
Emergency Medical Services	Fire Department	Fire Chief David Cox Jr.
Human Services	Fire Department	Emergency Management Liaison Fire Chief David Cox Jr.
Finance	Finance Department	Dawn Steele

Line of Succession

The following is a list of the 2nd and 3rd alternates for each agency/function identified in the plan to maintain the emergency tasks assigned.

Agency	2nd Alternate	3rd Alternate
City Hall	City Administrator	Finance Director
Fire Department	Safety/Training Officer	On Duty District Commander
Police Department	Captain Collin Birnie	Captain Leigh Golden
Genesee County 911 (GCCD)	911 Supervisor Tabit	On Duty Shift Supervisor
Public Information Official	Sean Kammer	Maxine Murray
Assesments	Deputy Assesor Jacquetta Overton	Support Supervisor Tracy Weiss
DPW - Utilities Department - Transportation Dept.	Kay Muhammad	Rob Bincsik Betty Wideman
Emergency Medical Services	On Duty District Commander	On Duty Ranking Officer
Finance Department	Dawn Steele	Patrick Jones

CITY OF FLINT, MICHIGAN
GENERAL EMERGENCY MANAGEMENT GUIDELINES

The following guidelines are general to the municipality, all agencies, and individuals who have a role in responding to an emergency within the community and coordinated by the City of Flint. Being that emergency planning is a work in progress guidelines are continuously reviewed and modified due to the situation and complexity of incidents.

a) Report to the local emergency operations center when activated for scheduled exercises or disasters, or delegate another individual to staff the EOC and implement the plan.

b) Implement mutual aid agreements or contracts with other organizations to supplement local resources that have been exhausted.

c) Ensure compliance with this plan and the County Emergency Plan, and any pertinent procedures and documents issued, which impact the provision of emergency services in the municipality.

d) Train department emergency personnel in emergency management functions and NIMS/ICS concepts.

e) Assists in the development, review and maintenance of the plan and of the County EOP.

f) Develop and maintain standard operating procedures for specific functions or actions identified in the plan.

g) Maintain a list of resources available by the departments/agencies.

h) Protect records and other resources deemed essential for continuing government functions and each agency's emergency operations in accordance to procedures and policies.

i) Establish mutual aid agreements and/or contracts with other jurisdictions/entities to supplement municipal resources.

j) Establish a system of coordination, such as the incident command system, within the EOC. Field operations, however, are required to use the incident command system.

k) Participate in the review and update of this emergency operations plan, in accordance to a schedule identified by the municipal emergency management liaison and the county emergency management coordinator.

l) Adapt and provide printed emergency management materials and verbal messages to those who are vision impaired, non-English speaking, or deaf/hard of hearing.

m) Conduct pre-disaster public awareness activities including education classes, self-care guidelines, communications plans, and protocols.

n) Make recommendations to the CEO regarding protective actions.

o) Record and log significant events throughout the duration of the emergency, as well as the decisions made by the incident commander and municipal CEO.

p) Continuously conduct emergency planning activities as it is a work-in-progress, periodically being reviewed and updated.

q) Understand your department's collective bargaining agreement as it pertains to emergencies (e.g. employee callbacks, pay rate changes.

CITY OF FLINT

EMERGENCY RESPONSE PROCEDURES

The following are procedures that the City of Flint conducts and coordinates with the county in response to a local state of emergency.

a) Information about a potential emergency should be directed to the Emergency Management Liaison (EML).

b) Assure that the municipal emergency response agencies, elected officials, and the county emergency management coordinator are notified of the situation.

c) Municipal agencies assess the nature and scope of the emergency or disaster.

d) If the situation can be handled locally, do so, using the following sequenced guidelines.

   a. The EML advises the CEO and coordinates all emergency response actions.

   b. The CEO declares a local state of emergency and notifies the county emergency management coordinator of this action.

   c. A local state of emergency declaration is forwarded to the county office.

   d. The emergency management liaison activates the emergency operations center (EOC). The EOC is located within Flint Fire Station #1 located at 310 E. Fifth St. If this location is unavailable an alternate locations is at the Genesee County Sheriff's Department.

   e. The EOC shall establish an incident tracking system such as the FBI's *Virtual Command Center.*

   f. Emergency Operations Center representatives are notified, through Genesee County 911, by the municipal Emergency Management Liaison to report to the EOC.

   g. The EML directs departments/agencies to respond to the emergency situation in accordance to each agency's functional guidelines indicated in the attachments to this plan. These departments/agencies shall report out their progress to the EOC on the hour.

   h. The CEO issues directives as to travel restrictions on local roads and recommends protective actions from the commanding agency. Protective action recommendations will be based on weather forecasting and if the incident complexity increases due to inability to respond rapidly and with a "ready" supply of resources to mitigate the incident.

   i. Notify the public officials, as well as the public, of the situation, through the Public Information Official, and take appropriate actions.

   j. Keep the county emergency management coordinator informed of the situation and actions taken.

e) If municipal resources become exhausted or if special resources are needed, request county assistance through the county emergency management coordinator.

f) If assistance is requested, the county emergency management coordinator assesses the situation and makes recommendations on the type/level of assistance. The County will also take the following steps:

1. Activate the County Emergency Operations Center
2. Activate the County Emergency Operations Plan/Emergency Action Guidelines
3. Respond with county resources as requested
4. Activate mutual aid agreements
5. Coordinate county resources with municipal resources
6. Notify Michigan State Police/ Emergency Management and Homeland Security (MSP/EMHSD) District Coordinator.
7. Develop a jurisdiction situation report and a damage and injury assessment report via and submit to the MSP/EMHSD.
8. Assist the municipality with prioritizing and allocating resources.

g) If county resources are exhausted, the county makes a request to the Governor to declare a state of emergency or state of disaster in accordance with procedures set forth in PA 390, as amended. The county shall not request state assistance or a declaration of a state of disaster or a state of emergency unless requested to do so by the CEO of City of Flint if the situation occurs solely within the confines of the municipality.

h) If state assistance is requested, the MSP/EMHSD District Coordinator, in conjunction with the county emergency management coordinator and municipal emergency management liaison, assess the disaster or emergency situation and recommends the necessary resources that are required for its prevention, mitigation, or relief efforts.

i) After completing the assessment the MSP/EMHSD District Coordinator immediately notifies the State Director of Emergency Management and Homeland Security of the situation.

j) The State Director of Emergency Management and Homeland Security notifies the Governor and makes recommendations.

k) If state assistance is granted, procedures are followed in accordance to the Michigan Emergency Management Plan and the County Emergency Operations Plan.

ADDENDA

CITY OF FLINT

EMERGENCY ACTION GUIDELINES

The following attachments provide guidelines for each function that has been assigned to the agencies in response to an emergency or disaster situation.

Attachment A: Direction and Control
Attachment B: Fire Services
Attachment C: Law Enforcement
Attachment D: Warning and Communications
Attachment E: Public Information
Attachment F: Damage Assessment
Attachment G: Public Works
Attachment H: Emergency Medical Services
Attachment I: Human Services

Each agency assigned is responsible for maintaing the guidelines, as well as approving any changes to the guidelines or changes to the official responsible for implementation.

ATTACHMENT A

DIRECTION AND CONTROL

The Chief Executive Official, with support from the Emergency Management Liaison, is responsible for directing and controlling emergency management operations. The following guidelines represent a checklist of actions that the CEO and liaison must consider for providing an effective response to an emergency or disaster situation.

a) Declare a local state of emergency or disaster and notify the county emergency management office.

b) Issue orders and directives, i.e., travel restrictions, and recommend protective actions to be taken by the general public.

c) Activates and maintains the local emergency operations center.

d) Provide for continuity of operations.

e) Generate and disseminate information to the public via Public Information Official.

f) Seek federal post-disaster funds, as available, as well as pre-disaster assistance.

g) Maintain record of activity regarding decisions on emergency actions.

h) Review and evaluate assessment data.

i) Maintain liaison with state and federal officials.

j) Coordinate with County officials in response and recovery efforts.

k) Coordinate and conduct information sharing activities to identify potential and enacted WMD or terrorism activities, and mobilize and direct resources in response to such incidents.

l) Prepares and maintains an emergency plan for the municipality subject to the direction of the elected officials; reviews and updates as required.

m) Develops and maintains a trained staff and current emergency response checklists appropriate for the emergency needs and resources of the community.

n) Coordinate with State and federal officials in collecting and sharing terrorism related information.

The executive official(s) has reviewed and approves the assigned guidelines. These will be maintained in accordance to the most current standards of the county's emergency plan.

FIRE SERVICES

The Fire Department, is responsible for fire service actitivites. The following guidelines represent a checklist of actions that department officials must consider for providing an effective response to an emergency or disaster situation. In addition, the Chief of Fire, or his designee, is to serve as the Citys Emergency Management Liason.

a) Provide command level representatives to the EOC and Unified Incident Command Post, when activated.

b) Coordinates fire, and search and rescue services with appropriate personnel at the County Emergency Management Agency; including assistance to regional specialty teams such as, but not limited to, the Regional Response Team, MUSAR, and the Bomb Squad.

c) Coordinates with County EMC and the State of Michigan in the decontamination and monitoring of affected citizens and emergency workers after exposure to CBRNE hazards.

d) Assists with emergency alerting and notification of threatened population.

e) Assists with evacuation of affected citizens, especially those who are institutionalized, immobilized or injured.

f) Provides resources for fire services response and rescue operations.

g) Assists in salvage operations and debris clearance.

h) Advises elected officials about fire and rescue activities.

i) Conduct safety analysis of the emergency , inform and recommend corrections to the CEO.

j) Respond to hazardous materials spills in accordance to the procedures in Appendix 1.

k) Assist in search and rescue operations.

l) Assist in searching for bombs and/or explosive devices in connection with WMD events.

a) Maintain a daily log of expenditures for possible reimbursement from state or federal agencies.

Chief of Fire, David Cox Jr., has reviewed and approves the assigned guidelines. These will be maintained in accordance to the most current standards of the county's emergency plan.

APPENDIX 1:

FIRE SERVICES

HAZMAT RESPONSE GUIDELINES

The Fire Department is responsible for the response to hazardous materials spills. However, through a Memorandum of Understanding, the Genesee County Hazmat Team, will respond and assume a supportive role. In the event Genesee County's team is unavailable, a mutual aid request can be made of Oakland County's Hazmat Team or Region 3 Regional Response Team Network. Private companies are an option as well. Until a Hazmat team responds, the Fire Department's response will be acted in accordance to the following procedures.

a) Assume incident command upon arrival at the scene.

b) Establish scene security or coordinate with other available agencies to establish scene security.

c) Monitor and evaluate environmental health risks or hazards from hazardous materials releases.

d) Inspect possible sources of contamination.

e) Provide technical assistance and liaison with other appropriate agencies or organizations for the remediation of hazardous waste releases and other contamination sources.

f) Disseminate information to the Emergency Operations Center Public Information Officer on hazardous material releases issues.

g) Makes protective action recommendations based on severity and complexity of incident type.

h) Ensure PPE is fit tested to responders.

i) Prior to proceding with cleanup, analyze and evaluate the contamination and safety factors of the spill by a certified Safety Officer/technician.

j) Decontaminate equipment and gear.

Chief of Fire, David Cox Jr., has reviewed and approves the assigned guidelines. These will be maintained in accordance to the most current standards of the county's emergency plan.

LAW ENFORCEMENT

The Police Department, is responsible for law enforcement actitivites. The following guidelines represent a checklist of actions that department officials must consider for providing an effective response to an emergency or disaster situation.

a) Develops and maintains procedures for the Police Department.

b) Coordinates security and law enforcement services; with appropriate personnel at the County Emergency Operations Center.

c) Establishes security and protection of critical infrastructure and facilities.

d) Provides traffic and access control in and around affected areas.

e) Assists with emergency alerting and notification of threatened population.

f) Assists with the evacuation of affected citizens, especially those who are institutionalized, immobilized or injured.

g) In cooperation with the Fire Department, performs search and rescue operations.

h) Implement any curfews ordered by the CEO.

i) Provides access control to affected areas.

j) Provide emergency assistance to persons with special/functional needs.

k) Investigate incident and provide intelligence information to state and federal officials.

l) Mitigates situations involving explosives through the department's Bomb Squad. Additional resources can be obtained through the Michigan State Police Bomb Squad or the ATF

m) Maintain a daily log of expenditures for possible reimbursement from state or federal agencies.

n) Designate a representative for the Emergency Operations Center.

Chief of Police, James Tolbert, has reviewed and approves the assigned responsibilities. These responsibilities will be maintained in accordance to the most current standards of the county's emergency plan.

WARNING AND COMMUNICATIONS

The Genesee County 911 (GCCD) is responsible for warning and communications actitivites. The following guidelines represent a checklist of actions that department officials must perform in order to provide an effective response to an emergency or disaster situation.

a) Genesee County 911 will warn the Emergency Management Liason as well as the Police and Fire Departments. The Emergency Management Liason will then direct Genesee County 911 to contact the following as he/she deems necessary:
   - Chief Executive Official
   - Emergency Operations Center Representatives
   - Genesee County Emergency Coordinator
   - Surrounding communities or agencies that may be needed for mutual aid.

b) Provide the necessary support to maintain communications at the City Emergency Operations Center.

c) Establish communications with the county Emergency Operations Center if activated. The communications equipment available for this link is 800 MHz radios, telephone and cell phones.

d) Establish communications with the Incident Command Post, if established.

e) Coordinate with Genesee County to activate appropriate public warning systems (e.g. Emergency Alert System, Code Red). Public warning can also be done via television and/or radio by CEO or his/her designee.

f) Activate procedures for notification of special needs population in the area.

g) Assist contacting and warning special facilities and locations, such as schools, hospitals, nursing homes, major industries, institutions, and place of public assembly.

h) Maintain a daily log of expenditures for possible reimbursement from state or federal agencies.

Genesee County 911, Dave Ackley has reviewed and approves the assigned responsibilities. These responsibilities will be maintained in accordance to the most current standards of the county's emergency plan.

PUBLIC INFORMATION

The City of Flint Public Information Official is responsible for public information actitivites. The following guidelines represent a checklist of actions that the PIO must consider for providing an effective response to an emergency or disaster situation.

a) Function as the sole point of contact for public officials, including Flint City Council and the City Clerk, as well as the news media.

b) Collect information from municipal emergency response agencies located in the emergency operations center and other locations.

c) Prepare news releases to be disseminated to the local media.

d) Conduct press tours of disaster area(s) within the community.

e) Establish a Public Information Center to become the central point from which news releases are issued.

f) Establish and maintain contact with the County Public Information Official if the County's Emergency Operations Plan is activated.

g) Coordinate public information activities with the county Public Information Officer if the County Emergency Operations Center is activated.

h) Assist the county in establishing a joint information center (JIC).

i) Assist the county with establishing a Rumor Control Center.

j) Assist the municipal emergency management liaison in developing and distributing education material on the hazards that face the municipality.

k) Develop and maintain Emergency/Public Information procedures.

l) Maintain a log and file of all information released to the media.

m) Manage Social Media outlets.

n) Respond to EOC when requested.

n) Maintain a daily log of expenditures for possible reimbursement from state or federal agencies.

Public Information Official, Appointee, Sean Kammer, has reviewed and approves the assigned responsibilities. These responsibilities will be maintained in accordance to the most current standards of the county's emergency plan.

PUBLIC INFORMATION:

CITY COUNCIL

Flint City Council members will play a crucial role in disseminating information to their constituents. Invariably, they will be inundated with calls during an emergency. The following guidelines represent a checklist of actions that the Public Information Official should consider in order to provide an effective communication plan with Council members.

a) In conjunction with City Council, develop procedure for the initial notification of an emergency. This should include a specific Council member and his/her contact information, as well as second and third alternate Council members. This Councilperson shall then notify all other Council members.

b) Provide written status reports to the Council. This should be done as often as necessary in order to keep the Council updated on the current status of the incident.

c) Establish an avenue of communication, to the EOC, that allows Council members to provide information and/or ask questions that have been presented to them by their constituents.

d) Relay instructions/orders for the public, originating out of the EOC, to the Council so they can, in turn, relay them to citizens. This information should be presented to the Council in written form.

The Public Information Official, Sean Kammer, has reviewed and approves the assigned responsibilities. These responsibilities will be maintained in accordance to the most current standards of the county's emergency plan.

DAMAGE ASSESSMENT

The **Assessor's Office**, is responsible for damage assessment actitivites. The following guidelines represent a checklist of actions that department officials must consider for providing an effective response to an emergency or disaster situation.

a) Record initial information from first responders such as law enforcement, fire services, and public works.

b) If necessary, activate a damage assessment field teams via departmental protocol.

c) Provide information to the municipal Emergency Management Liaison. The Liaison will then provide assessment data to the county for preparation of a jurisdictional damage report.

d) If the situation warrants, assist the municipal CEO with the preparation of a local state of emergency declaration and forward to the County Emergency Management Coordinator.

e) Prepare a request for county assistance in conjunction with the municipal Emergency Management Liaison.

f) Plot damage assessment information on status boards in the municipal Emergency Operations Center.

g) Record all expenditures for municipal personnel, equipment, supplies, services, etc., and track resources being used.

h) Prepare reports for the municipal public information official.

i) Coordinate with County Damage Assessment Office (Equalization Director) in large events that involve County activation.

j) Fill out required forms in EMD-PUB 901 Damage Assessment Handbook and forward to County Damage Assessment Officer.

k) Designate a representative for the Emergency Operations Center.

The City Assessor, William E. Fowler, has reviewed and approves the assigned responsibilities. These responsibilities will be maintained in accordance to the most current standards of the county's emergency plan.

William E. Fowler 9-23-14

PUBLIC WORKS

The **Department of Public Works (DPW)** is responsible for maintaining, preserving and/or restoring the Citys public services. The following guidelines represent a checklist of actions that department officials must consider for providing an effective response to an emergency or disaster situation.

a) Assess resources that are available at the time of the incident.

b) If necessary, coordinate activities designed to control the flow of flood water, including sandbagging, emergency diking, and pumping operations.

c) Coordinate travel restrictions/road closures within the municipality.

d) Identify evacuation routes.

e) Provide emergency generators and lighting.

f) Maintain transportation routes and assist with traffic control.

g) Assist with access control.

h) Assist with urban search and rescue activities, i.e., persons trapped in damaged buildings or under heavy debris/objects.

i) Assist private utilities with the shutdown and restoration of gas and electric services.

j) Assist with transportation of essential goods, i.e., food, medical supplies.

k) As necessary, establish a staging area for public works.

l) Report damage information to the Damage Assessment Team.

m) If necessary, assist with damage surveys for the federal public assistance grant program.

n) If the county Emergency Operations Center is activated, establish and maintain contact with the person representing public works.

o) Notify Law Enforcement of the location(s) of disabled vehicles.

p) Inspect critical infrastructure and other public utilities for safety. This should be done in conjunction with the City's Building Safety Department.

q) Maintain a daily log of expenditures for possible reimbursement from state or federal agencies.

r) Assist the Fire Department in response efforts to hazmat incidents.

Public Works Director, Kay Muhammad, has reviewed and approves the assigned responsibilities. These responsibilities will be maintained in accordance to the most current standards of the county's emergency plan.

Kay Muhammad 12/11/15

EMERGENCY MEDICAL SERVICES

The Flint Fire Department EMS Supervisor is responsible for emergency medical service actitivites. He/She shall oversee the implementation of the Genesee County Medical Control Authority (GCMCA) Mass Casualty Incident Protocol should it be necessary. The following points represent a checklist of actions that agency officials must consider for providing an effective response to an emergency or disaster situation.

a) Assist evacuating nursing homes, hospitals, and other medical facilities.

b) Assist with decontamination.

c) Coordinate emergency medical care to victims.

d) Identify a facility to be used as a temporary morgue if necessary.

e) Coordinate with hospitals and shelter managers to staff medical teams at shelters.

f) When appropriate, coordinate field units' participation in damage assessment activities.

g) Ensure that emergency medical teams responding on-scene have established an on-scene medical command post and a medical commander.

h) Maintain a daily log of expenditures for possible reimbursement from state or federal agencies.

i) Designate a representative for the Emergency Operations Center.

EMS Supervisor, Carrie Edwards-Clemons, has reviewed and approves the assigned responsibilities. These responsibilities will be maintained in accordance to the most current standards of the county's emergency plan.

Signature 9-23-14 Date

ATTACHMENT I

HUMAN SERVICES

The Emergency Management Liaison, or his designee, will serve as the Human Services Liaison and will be responsible for human services activities. The liaison will coordinate and/or keep informed human services activities occuring within the city, with Genesee County Departments of Human Services (GCDHS). The following points represent a checklist of actions that the liaison must consider for providing an effective response to an emergency or disaster situation.

a) Coordinate all human services activities through the County Emergency Manager.

b) Coordinate the provision of transportation for evacuation. Mass Transportation Authority (MTA) will be a resource for this task.

c) Open and manage shelters in the municipality. The American Red Cross (ARC) will be a resource for this task.

d) Set up canteen to feed emergency workers in the municipality. ARC will be a resource for this task.

e) Provide food and clothing to municipality workers and victims of disaster residing in the municipality.

f) Assist the county and the City PIO, with establishing a Rumor Control Center.

g) Arrange for provision of Crisis Counseling or Critical Incident Stress Debriefing (CISD) for both victims and identified disaster workers.

h) If the County Emergency Operations Center is activated, establish and maintain contact with the person representing Human Services. If the county Emergency Operations Center is not activated, establish and maintain contact with the county Human Services Official directly at the county Department of Human Services.

i) Coordinate with ARC and other pertinent organizations for the distribution of emergency clothing for disaster victims.

j) Coordinate efforts to provide transportation for disaster victims. Consider local school buses or MTA.

k) Coordinate animal and pet control. Genesee County Animal Control will be a resource for this task.

l) Implementation of a family reunification system. ARC will be a resource for this task.

m) Maintain a daily log of expenditures for possible reimbursement from state or federal agencies.

These responsibilities will be maintained in accordance to the most current standards of the county's emergency plan.

I have located $25,000 to assist in paying for the FWATF communications needs. I would like added to the scope of work for them to update the Local Emergency Operations Support Plan (Pub 204) and train and exercise the plan with appropriate personnel. I attached the template we provide locals to use in developing the plan. Flint has a plan in place but with everything going on and based on interactions recently I am not convinced it is followed or if they even know about it. I am certain the new Mayor is not aware of the Local Support Plan.

Please let me know if you need additional on this or have questions.

SUPPORT EMERGENCY OPERATIONS PLAN

An all-hazards plan supporting the (County Emergency Operations Plan/Emergency Action Guidelines), for use in the event of disaster or severe emergency of natural, human, wartime, technological or terrorism origin.

(Date)

The information contained in this template, developed by the Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD), should be used to assist in developing a Support Emergency Operations Plan which must then be reviewed by the Local Planning Team (LPT) and modified based on the community's emergency response capabilities.

Promulgation Document

Officials of **(Municipality)**, in conjunction with County and State Emergency Eanagement (EM) agencies, have developed this Support Emergency Operations Plan that will enhance the local emergency response capability.

This plan, when used properly and updated, will assist local government officials to accomplish their primary responsibilities of protecting lives and property in their community. This plan and its provisions will become official when it has been signed and dated below by the Chief Executive Official (CEO) of the municipality.

Chief Executive Official
(Municipality)

Date

Approval and Implementation

The Support Emergency Operations Plan, referred to in this document as the Support EOP, describes how **(Municipality)** will handle emergency situations in cooperation with the **(County)** Emergency Management Program. The Support EOP assigns responsibilities to agencies for coordinating emergency response activities before, during, and after any type of emergency or disaster. The Support EOP does not contain specific instructions as to how each department will respond to an emergency; these can be found in the plan annexes or separate Standard Operating Procedures (SOP).

The goal of the Support EOP is to coordinate emergency response efforts to save lives, reduce injuries, and preserve property. The Support EOP addresses emergency issues before and after an emergency, but its primary goals are to assemble, mobilize and coordinate a team of responders that can respond to any emergency, and describe response procedures in relation to the county response procedures.

The Support EOP will use a graduated response strategy that is in proportion to the scope and severity of an emergency. **(Municipality)** will plan, prepare and activate resources for local emergencies that affect the local area (or a specific site) and/or widespread disasters that affect the entire state and/or nation.

The Support EOP was developed by a Local Planning Team (LPT). The LPT consists of key departments covering emergency functions such as law enforcement, fire, public works, and public health. The team works to establish and monitor programs, reduce the potential for hazard events in the community through planning, review, and training, and assist the **(County)** Emergency Management Program in developing and maintaining the County EOP.

The Support EOP must be signed by the current CEO each time it is updated, with the exception of the following activities:

1. Minor updates e.g. changing system names, grammar, spelling or layout changes
2. Updates to the annexes

These activities may be updated in the plan without the CEO signature by the following individuals:

1. Emergency Management Liaison
2. Department head responsible for an annex

Homeland Security Presidential Directive (HSPD) 5 facilitates a standard management approach to major incidents, the National Incident Management System (NIMS). NIMS is administered as part of the National Response Framework (NRF) which integrates the federal government into a single, all discipline, and all-hazards plan. NIMS will provide a nationwide approach that enables federal, state, tribal and local government agencies to "work effectively and efficiently together to prepare for, respond to, and recover from domestic incidents, regardless of cause, size or complexity." This Support EOP has integrated NIMS concepts, including the Incident Command System (ICS), and language to help incident management operate in accordance to the NIMS using the guidance provided by the Department of Homeland Security (DHS).

During an emergency, all response personnel will use the ICS to manage the incident and employ emergency resources at the site. The Emergency Operation Center (EOC) will coordinate additional resources when needed. This EOP will be used during community recovery after an emergency.

This plan supersedes all previous plans.

Record of Revisions

The following is a list of revisions made to the Support EOP. This chart tracks the date that changes were made, reason for the changes, updated pages, and who made the revision.

Date	Reason for Revision	Page Numbers	Revised By

Record of Distribution

The following is a list of the individuals and facilities that have been provided a copy of the Support EOP in order to conduct the assigned tasks addressed in this plan.

Title of Recipient	Name of Recipient	Agency	Date	Number of Copies
Chief Executive Official				
(Legislative body, e.g. City Council/Commission, Township Board of Commissioners)				
(County) Emergency Management Coordinator				
(Municipality) Emergency Management Liaison				
Communications and Warning Official				
Damage Assessment Official				
Fire Services Official				
Mass Care, Emergency Assistance, Housing, and Human Services Official				
Public Health and Medical Services Official				
Public Information Official				
(Municipality) Public Information Center				
(Municipality) Emergency Operations Center				

Basic plan

Purpose

(Municipality) has elected to incorporate into the **(County)** Emergency Management Program. As partners in the five phases of emergency management, mitigation, preparedness, prevention, response and recovery, **(Municipality)** and the **(County)** Emergency Management Program share joint responsibilities. The **(Municipality)** Support EOP has been developed to identify these responsibilities. It is to be used in concurrence with the County EOP. In accordance with Section 19 of the Michigan Emergency Management Act (1976 PA 390, as amended), activation of this this plan at the beginning of a disaster or emergency also establishes eligibility to receive state assistance for disaster related expenses incurred during a State of Emergency or Disaster declared by the Governor, for which federal assistance is unavailable.

Scope

The **(Municipality)** Support EOP is an adaptable document that can be applied to all hazards. Due to the unique nature of emergencies, it may become necessary to deviate from the contents of the plan when responding to an incident. Agencies that have been assigned supporting roles in this plan have developed and will maintain SOPs that provide systematic instructions for accomplishing their assigned functions. The local government conducts additional activities, such as personnel training, participation in exercises, public information, land-use planning, etc., to support emergency preparedness, mitigation, and response efforts. To facilitate efficient emergency management operations, **(Municipality)** continues to implement the NIMS.

Authorities and References

A. Authority of local officials during an emergency:

1. 1976 PA 390, as amended,
2. **(Municipality)**, local Emergency Management resolution,
3. **(Municipality)**, adoption of the Support EOP,
4. Executive Directive No. 2005-09, the state adoption of the NIMS,
5. The Robert T. Stafford Disaster Relief and Emergency Assistance Act,
6. Emergency Planning and Community Right to Know Act of 1986 (EPCRA) also known as the Superfund Amendments and Reauthorizations Act (SARA), Title III,
7. Good Samaritan Law and Know Act of 1986.

B. References used to develop the Support EOP:

1. NIMS,
2. NRF,
3. Michigan Emergency Management Plan (MEMP), Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMSHD),
4. Pub 204, MSP/EMHSD.

Plan Development and Maintenance

To ensure that this Support EOP addresses the needs of the community and is consistent with the **(County)** EOP, this document was developed in a cooperative, whole community effort between municipal

government, local community, and the County Emergency Management Program. The Support EOP is updated after every change of the municipal CEO or update to the County EOP. After the plan is adopted by resolution of the **(council/board)** and approved by the CEO, it is forwarded to the County Emergency Management Program. The plan will be implemented, tested through exercises in concurrence with county officials, and maintained in accordance with the standards and currentness of the **(County)** EOP.

This plan has been provided to all municipal departments, local elected officials, the County Emergency Management Program and all agencies tasked within the document. It includes this Basic Plan, which provides an overview of the municipality's preparedness and response strategies, and functional annexes that describe the actions, roles and responsibilities of participating organizations.

Situation Overview

B. **(Municipality)** has taken various preparedness and incident management steps to enhance capabilities in responding to incidents including:

1. The mitigation of potential hazards.
2. Identification of emergency response agencies and mechanisms that will protect life and property before, during and after an emergency.
3. Tasking agencies, organizations, and individuals with specific functions and responsibilities relative to emergency operations. Assigned tasks are explained in further detail under "Organization and Assignment of Responsibilities."
4. Integration with the **(County)** EOP, **(County)** hazard mitigation plan, MEMP, etc.

C. Community profile:

(Municipality) is located in the **(geographical area)** of **(County)**. The community has a population of **(number)** residents. Approximately **(percentage)** of residents have been recognized as individuals with Access and Functional Needs. Many of the residents that require Functional Needs Support Services (FNSS) reside in congregate care centers, while others reside in non-group homes where support is provided as needed or on-call.

D. Hazard and threat analysis:

According to the **(County)** **(Hazard Mitigation Plan/Hazard Analysis)**, communities in the county are most vulnerable to: **(common hazards)**. Areas within **(Municipality)** that are especially vulnerable to these hazards are: **(locations)**. Additional hazards that have been identified as unique to **(Municipality)** include: **(unique local hazards)**.

(Number) sites that contain extremely hazardous materials are located in **(Municipality)**. Facility owners have reported the types of hazardous materials that are stored on-site, as required by the Emergency Planning and Community Right-To-Know Act (EPCRA). Pursuant to SARA Title III requirements, off-site emergency response plans have been developed by the Local Emergency Planning Committee (LEPC) to prepare fire departments for responding to the release of the specific hazardous materials on these sites.

E. Relationship between municipality and County Emergency Management Program:

Emergency management and response are primarily local responsibilities. However, disasters and emergencies might exhaust the resources and capabilities of local governments. Therefore, **(Municipality)** has chosen to incorporate into the **(County)** Emergency Management Program. To coordinate emergency management related matters with the County Emergency Management Program, the **(Municipality)** has appointed the **(title)** to serve as the Emergency Management

Liaision. The Emergency Management Liaison facilitates communication and coordination between **(Municipality)** and county, and is the local point of contact for the County Emergency Management Coordinator (EMC).

Planning Assumptions

A. *The proper implementation of this plan will result in saved lives, incident stabilization, and property* protection in **(Municipality)**.

B. Some incidents occur with enough warning that necessary notification can be issued to ensure the appropriate level of preparation. Other incidents occur with no advanced warning.

C. Depending upon the severity and magnitude of the situation, local resources may not be adequate to deal with an incident. It may be necessary to request assistance through volunteer organizations, the private sector, mutual aid agreements (MAAs)/memorandums of understanding (MOUs), and/or county, state and federal sources. When provided, these will supplement, not substitute for, relief provided by local jurisdictions.

D. All emergency response agencies within **(Municipality)** that have been tasked in the plan are considered to be available to respond to emergency incidents. Agencies will work to save lives, protect property, relieve human suffering, sustain survivors, stabilize the incident, repair essential facilities, restore services and protect the environment.

E. When a jurisdiction receives a request to assist another jurisdiction, reasonable actions will be taken to provide the assistance as requested.

F. Emergency planning is a work-in-progress; the Support EOP is consistently reviewed and updated.

G. During an emergency or disaster, parts of the plan may need to be improvised or modified, if necessary, based on the situation.

Concept of Operations

A. Activation of the Support EOP and declaration of a local state of emergency:

When a threat is perceived, the Emergency Management Liaison activates the this Support EOP and the local Emergency Operations Center (EOC) to facilitate activities that ensure the safety of *people, property and environment. Pursuant to 1976 PA 390, as amended, the* **(CEO/other official designated by charter)** may declare a local state of emergency for **(Municipality)** if circumstances indicate that the occurrence or threat of widespread or severe damage, injury, or loss of life or property exist. In the absence of the **(CEO/other official designated by charter)**, pursuant to local leglislation, the **(title)** is authorized to declare a local state of emergency. Upon a local declaration, PA 390 authorizes the the **(Chief Executive Official/other official designated by charter)** to issue directives as to travel restrictions on local roads. To facilitate activities that ensure the safety of people, property and environment, a local declaration also activates this Support EOP and the municipal Emergency Operations Center (EOC). A local state of emergency shall not be continued or renewed for a period in excess of seven days except with the consent of the governing body of the municipality.

B. The following procedures are conducted and coordinated with the county in response to an incident:

1. The Emergency Management Liaison will perceive the threat, assess the hazard and ensure that municipal emergency response agencies, elected officials and County EMC are notified of the situation.

2. Municipal agencies assess the nature and scope of the emergency or disaster.

3. If the situation can be handled locally, the following guidelines are used:

    a. The Emergency Management Liaison advises the CEO and coordinates all local emergency response actions.
    b. The Emergency Management Liaison activates the EOC. The EOC is located at **(address)**. If this location is unavailable, the alternate EOC location is **(address)**.
    c. The CEO declares a local state of emergency. The Emergency Management Liaison notifies the County EMC and forwards the declaration to the County Emergency Management Program.
    d. Emergency Response Agencies are notified by the Emergency Management Liaison to report to the EOC through **(identify notification system(s), e.g., telephone, smart messaging, etc.)**.
    e. The CEO directs departments/agencies to respond to the emergency in accordance with the guidelines outlined in this plan and its annexes, and issues directives as to protective actions and travel restrictions on local roads.
    f. The Emergency Management Liaison keeps the County EMC informed of the situation and actions taken.

4. If the emergency is beyond local control, municipal resources become exhausted, or special resources are needed, county assistance is requested through the County EMC.

5. If county assistance is requested, the County EMC assesses the situation and makes recommendations on the type and level of assistance. The county will also take the following steps:

    a. Activate County EOC and EOP
    b. Respond with county resources
    c. Activate MAA/MOUs to supplement county resources
    d. Notify MSP/EMSHD District Coordinator
    e. Make available incident information to MSP/EMSHD and statewide agencies via the Michigan Critical Incident Management System (MI CIMS) online platform, by submitting and maintaining applicable MI CIMS boards and logs.

6. If county resources and capabilities are exhausted, the county requests the Governor to declare a State of Emergency or State of Disaster in accordance with procedures set forth in 1976 PA 390, as amended. If the emergency occurs solely within the confines of the municipality, the county shall not request state assistance or the Declaration of a State of Disaster or Emergency unless requested to do so by the municipal CEO.

Organization and Assignment of Responsibilities

A. Emergency Management Organization:

1. The **(Municipality)** emergency management organization is comprised of **(number)** agencies and departments that are responsible for conducting activities in response to emergencies within the community. To facilitate an effective emergency response, these departments have been assigned to nine specific emergency functions. All agencies are responsible for implementing pre-disaster activities to prevent, mitigate and prepare for the various hazards that the community is vulnerable to. These activities include awareness training and public education, exercising, preparing Standard Operating Procedures (SOPs) and job aides, hygienic practices to prevent spreading of infectious diseases, stockpiling equipment, regulating land-use, etc.

2. The following table lists the established emergency support functions, assigned agencies, primary points of contact, and phone numbers.

Function	Agency	Primary Contact	Phone
Direction, Control , and Coordination			
Communications and Warning			
Damage Assessment			
Fire Services			
Mass Care, Emergency Assistance, Housing, and Human Services			
Public Health and Medical Services			
Public Information			
Public Safety			
Public Works			

3. The following table lists the alternates designated to represent the emergency functions.

Agency	1st Alternate	2nd Alternate

4. **(Municipality)** maintains **(number)** fulltime departments. All departments contribute to the safety and welfare of the community. Each department employs qualified emergency personnel and maintains equipment that can be used in emergency response. A list of resources available for utilization during incidents can be requested through the Emergency Management Liaison. If resource needs exceed the capabilities of the community, the CEO may activate MAA/MOUs and pre-disaster contracts, or it may become necessary to request county assistance.

B. Responsibilities:

1. The following responsibilities have been assigned to each organization that has been assigned responsibility in this plan:

   a. Assist in the development, review and maintenance of Support EOP and County EOP.
   b. Report to the local EOC when activated for scheduled exercises or emergencies.
   c. Build capabilities and develop/maintain SOPs for specific functions or actions identified in the plan. Continuously review and update procedures.
   d. Maintain a list of resources available through the departments.
   e. Establish MAA/MOUs and contracts with other jurisdictions and organizations to supplement municipal resources.
   f. Activate MAA/MOUs and contracts with other organizations to supplement response activities when local resources become exhausted.
   g. Train personnel in emergency management functions and NIMS/ICS concepts.
   h. Protect vital records and other resources deemed essential for continuing government functions and each agency's emergency operations in accordance to procedures and policies.
   i. Ensure compliance with this plan and the County EOP, and any pertinent procedures and documents that impact the provision of emergency services in the municipality.

2. The annexes attached to this plan further describe nine emergency support functions and their associated responsibilities in mitigation, preparedness, prevention, response and recovery. Annexes include the organizations that are responsible for carrying out the emergency functions, and assign tasks associated with each function.

ANNEXES

The annexes attached to the Basic Plan describe all-hazard functions and include the roles and responsibilities that each responsible agency should consider during an emergency for which the Support EOP has been activated. Each annex contains: the agencies responsible for carrying out a function, their assigned tasks, and the concept of operations.

The annexes attached to this plan include the following functions:

Annex A, Direction, Control, and Coordination

Annex B, Damage Assessment

Annex C, Communications and Warning

Annex D, Fire Services

Annex E, Mass Care, Emergency Assistance, Housing, and Human Services

Annex F, Public Health and Medical Services

Annex G, Public Information

Annex H, Public Safety

Annex I, Public Works

ANNEX A

DIRECTION, CONTROL, AND COORDINATION

The Direction, Control, and Coordination function is responsible for the activation, organization and operation of the local EOC, the facilitation of incident management, response, and recovery efforts, and coordination with the County Emergency Management Program.

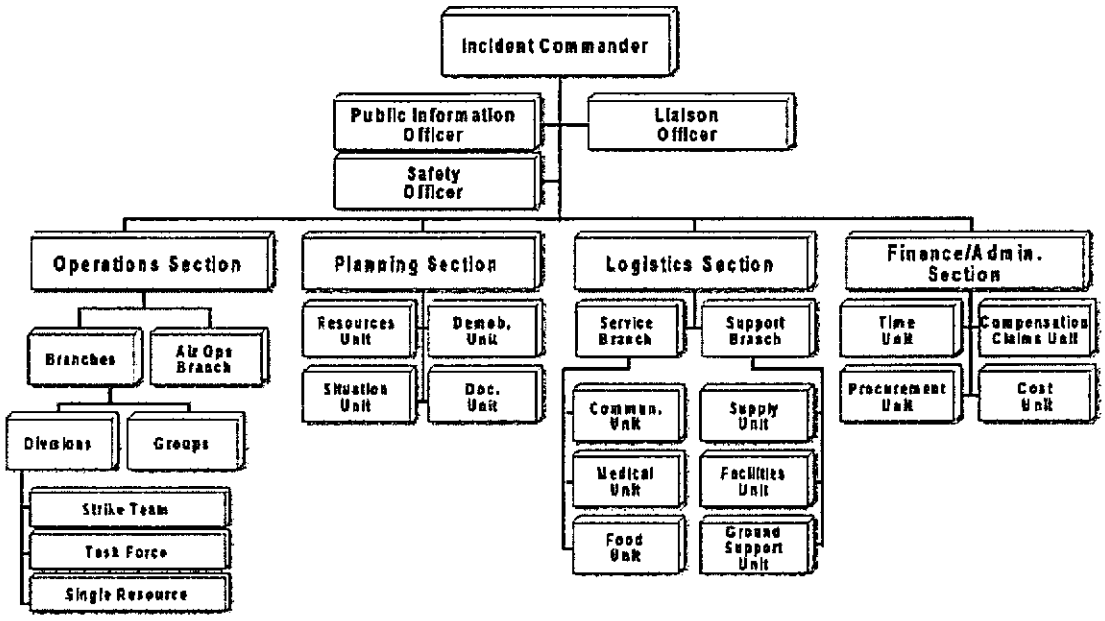
Direction, Control, and Coordination officials will maintain liaison and coordinate emergency management and response activities with the Direction, Control and Coordination function at the county level. This annex relates to the following annex(es) in the **(County EOP/EAG)**: **(Applicable county annexes or ESFs; e.g., Direction and Control Annex, ESF#5 – Information & Planning)**

Responsible Agency: Executive Office

Direction, Control, and Coordination Checklist

	Report to the EOC, when activated, for scheduled exercises and disasters, or delegate another representative from the agency to staff the EOC and implement the plan.
	EOC operations
	Activate the EOC and ensure that appropriate staff is notified.
	Establish a system of coordination, such as ICS (see Figure 1), within the EOC. (Field operations at the ICP are required to utilize ICS.)
	Maintain administrative materials for the EOC, i.e., pencils, paper, maps, and status boards.
	Ensure copies of the Support EOP and EOC SOPs are available to EOC staff.
	Coordinate with law enforcement officials for EOC security.
	Local authority
	Direct and coordinate response activities in accordance with this plan, including prioritizing allocation of scarce resources.
	Relieve jurisdiction employees of normal duties and temporarily reassign them to emergency duties, and employ temporary workers, as necessary.
	Declare a local state of emergency.
	Issue directives as to travel restrictions on municipal roads.
	Recommend appropriate protective measures to ensure the health and safety of people and property.
	Assistance to other agencies
	Advise the County Emergency Management Coordinator of the situation and maintain liaison with the County Emergency Management Program.
	Establish communications with and provide support to the Incident Command Post (ICP).
	Provide frequent staff briefings and ensure all groups function as planned.
	Inform legislative body of measures taken.
	Review and authorize the release of information to the public through the Public Information Officer (PIO).
	Logistics
	Ensure all resources are made available for response.
	Formulate specific assistance requests to adjacent jurisdictions and the county.
	Activate MAA/MOUs and contracts with other jurisdictions and organizations.
	Provide aid to other communities as provided for in MAA/MOUs.
	Ensure staff maintains logs of actions taken and financial records.

Figure 1. ICS Incident Management Structure



DIRECTION, CONTROL, AND COORDINATION

The following agency is responsible for this annex:

AGENCY	TITLE OF CONTACT

The line of succession for the CEO for representing the Direction, Control, and Coordination function during a response to an emergency or disaster situation is:

TITLE	AGENCY

The line of succession for the Emergency Management Liaison for representing the Direction, Control, and Coordination function during a response to an emergency or disaster situation is:

TITLE	AGENCY

The CEO and Emergency Management Liaison are responsible for reporting or delegating an individual from their agency to report to the EOC during scheduled exercises or emergencies to coordinate and represent the Direction, Control, and Coordination function.

SIGNATURE OF CHIEF EXECUTIVE OFFICIAL	DATE

SIGNATURE OF EMERGENCY MANAGEMENT LIAISON	DATE

ANNEX B

COMMUNICATIONS AND WARNING

The Communications and Warning function is responsible for alerting and notification of key officials, receiving and disseminating warning and critical emergency information to the public, and the establishment, maintenance, and coordination of communication protocols and links between the EOC and other incident facilities.

The Communications and Warning Official will maintain liaison and coordinate emergency management and response activities with the Communications and Warning functions at the county level. This annex relates to the following annex(es) in the **(County EOP/EAG)**: **(Applicable county annexes or ESFs; e.g., Communications Annex and Warning Annex, ESF#2 – Communications and ESF#15 – External Affairs)**

Responsible Agency: **(e.g., 911 Dispatch Center, IT Department)**

Communications and Warning Checklist

	Report to the EOC, when activated, for scheduled exercises and disasters, or delegate another representative from the agency to staff the EOC and implement the plan.
	Communication links
	Ensure lines of communication have been established between all agencies represented in the local EOC, their department offices and their staff at the incident site. Available channels for establishing communications includes **(communications channels, e.g. telephone, cell phone, radios, pagers, etc.)**
	Coordinate communications between municipal and county EOC. Available channels for establishing communications include **(communications channels, e.g. telephone, cell phone, radios, pagers, etc.)**
	Establish communications links with the adjacent communities and higher levels of government.
	Coordinate warning frequencies and procedures with adjacent communities and other government agencies.
	Disaster warning and information
	Activate public warning systems when instructed to do so by the CEO or Emergency Management Liaison. Warning methods include **(warning methods, e.g., sirens, door-to-door notification, reverse 911, etc.)**
	Ensure that warning messages received through the Law Enforcement Information Network (LEIN), National Warning System (NAWAS), Emergency Alert System (EAS), local weather spotters, or other verifiable means are issued in a timely manner.
	Determine which facilities are endangered by the incident and contact those facilities. Ensure they are contacted when protective actions are rescinded.
	Notify special locations (e.g., schools, hospitals, nursing homes, major industries, institutions, and places of public assembly).
	Ensure that public warning systems provide notification to residents with Access and Functional Needs, such as the elderly, hearing impaired, non-English speakers, individuals with mobility limitations, etc.
	Official notification
	Ensure that all necessary officials have been notified and/or updated about the incident.
	Notify neighboring jurisdictions of impending hazard or hazardous situations when instructed to do so by the Chief Executive Official or Emergency Management Liaison.

COMMUNICATIONS AND WARNING

The following agency is responsible for this annex:

AGENCY	TITLE OF CONTACT

The line of succession for representing the Communications and Warning function during a response to an emergency or disaster situation is:

TITLE	AGENCY

(Title of individual or responsible department) is responsible for reporting or delegating another individual from their agency to report to the EOC during scheduled exercises or emergencies to coordinate and represent the Communications and Warning function.

SIGNATURE OF COMMUNICATIONS AND WARNING OFFICIAL	DATE

ANNEX C

DAMAGE ASSESSMENT

The Damage Assessment (DA) function is concerned with the process of documenting damage from emergencies in the community. Information gathered may be used to determine the extent of damage and impact on the community resulting from an incident to justify future federal funding, declarations of emergency, and disaster proclamations. An accurate damage assessment is a necessary part of the recovery phase and determines qualification for state and federal disaster aid.

The Damage Assessment Official will maintain liaison and coordinate emergency management and response activities with the DA function at the county level. This annex relates to the following annex(es) in the **(County EOP/EAG)**: **(Applicable county annexes or ESFs; e.g., Damage Assessment Annex, ESF#5 – Informtion & Planning and ESF#14 – Long-Term Community Recovery)**

Responsible Agency: **(e.g., Assessing Office, Building Department)**

Damage Assessment Checklist

	Report to the EOC, when activated, for scheduled exercises and disasters, or delegate another from the agency to staff the EOC and implement the plan.
	Damage assessment
	Maintain current list of DA field team members.
	Maintain damage assessment field team supplies for contingency purposes, i.e., MSP/EMSHD Pub 901 Michigan Damage Assessment Handbook, blank forms, flashlights, cameras, pencils, paper, maps, etc.
	Activate DA field teams.
	Collect both public and private damage assessment information.
	Record initial information on damages from first responders.
	Augment DA field teams, as the situation dictates.
	Dissemination of DA information
	Provide an initial DA to EOC staff.
	Provide and verify DA information to the CEO and, if necessary, assist in preparation of a local state of emergency declaration.
	Prominently display DA information in the EOC, including maps, situation updates and assessment data.
	Provide the PIO with current DA information for release to the public.
	Provide DA data to the Emergency Management Liaison. The Emergency Management Liaison will forward information to the County Emergency Management Program for submission in MI CIMS.
	Logistics
	Maintain a status list of requested resources.
	Compile and maintain a record of expenditures for personnel, equipment, supplies, etc.

DAMAGE ASSESSMENT

The following agency is responsible for this annex:

AGENCY	TITLE OF CONTACT

The line of succession for representing the DA function during a response to an emergency or disaster situation is:

TITLE	AGENCY

(Title of individual or responsible department) is responsible for reporting or delegating another individual from their agency to report to the EOC during scheduled exercises or emergencies to coordinate and represent the DA function.

SIGNATURE OF DAMAGE ASSESSMENT OFFICIAL	DATE

ANNEX D

FIRE SERVICES

The Fire Services function is concerned with detecting and suppressing wild land, rural, and urban fires and any of these that result from, or occur coincidentally with, an incident response.

The Fire Services Official will maintain liaison and coordinate emergency management and response activities with the Fire Services function at the county level. This annex relates to the following annex(es) in the **(County EOP/EAG): (Applicable county annexes or ESFs; e.g., Fire Annex, ESF#4 – Firefighting and ESF#9 – Search and Rescue, etc.)**

Responsible Agency: **(e.g., Fire Department)**

Fire Services Checklist

	Report to the EOC, when activated, for scheduled exercises and disasters, or delegate another representative from the agency to staff the EOC and implement the plan.
	Response activities
	Coordinate fire response and search and rescue activities with appropriate personnel at the County Emergency Management Program, including assistance to regional special teams such as Regional Response Teams, Michigan Urban Search and Rescue (MUSAR), bomb squads, etc.
	Respond to hazardous materials spills.
	Coordinate with the County EMC and the State of Michigan in the decontamination of affected citizens and emergency workers after exposure to CBRNE hazards.
	Assist in searching for bombs and explosive devices in connection with terrorism or weapons of mass destruction (WMD) events.
	Assistance to other agencies
	Advise EOC staff about fire and rescue activities.
	Provide communications and other logistical supplies, as needed.
	Assist with evacuations.
	Assist in damage assessment operations.
	Assist in warning the population. Loud speakers on fire vehicles or door-to-door warning may be utilized.
	Assist in salvage operations and debris clearance.

FIRE SERVICES

The following agency is responsible for this annex:

AGENCY	TITLE OF CONTACT

The line of succession for representing the Fire Services function during a response to an emergency or disaster situation is:

TITLE	AGENCY

(Title of individual or responsible department) is responsible for reporting or delegating another individual from their agency to report to the EOC during scheduled exercises or emergencies to coordinate and represent the Fire Services Functions.

SIGNATURE OF FIRE SERVICES OFFICIAL	DATE

ANNEX E

MASS CARE, EMERGENCY ASSISTANCE, HOUSING, AND HUMAN SERVICES

This function is concerned with issues related to the provision of mass care, emergency assistance, housing, and human services to disaster survivors, including those that require FNSS, throughout the prevention, preparedness, mitigation, response, and recovery phases of disasters and emergencies.

The Mass Care, Emergency Assistance, Housing, and Human Services Official will maintain liaison and coordinate emergency management and response activities with the Mass Care functions at the county level. This annex relates to the following annex(es) in the **(County EOP/EAG)**: **(Applicable county annexes or ESFs; e.g., Human Services Annex, ESF#2 – Communications and ESF#6 – Mass Care, Emergency Assistance, Housing, and Human Services)**

Responsible Agency: **(e.g., Recreation Department, Housing Office)**

Mass Care, Emergency Assistance, Housing, and Human Services Checklist

	Report to the EOC, when activated, for scheduled exercises and disasters, or delegate another representative from the agency to staff the EOC and implement the plan.
	Disaster-related needs
	Coordinate activities of municipal departments that provide mass care and human services.
	Coordinate with the County Emergency Management Program, the American Red Cross (ARC) and other agencies to distribute food, water, and clothing, and meet other basic needs of disaster survivors and emergency responders.
	Coordinate to provide transportation for disaster survivors and emergency responders.
	Arrange for the provision of crisis counseling to disaster survivors and emergency responders.
	Coordinate procedures for the tracking of family members and reunification of families.
	Identify and account for personal property that may be lost during a disaster.
	Coordinate with the County EOC to establish procedures for the registration and management of volunteers and donations.
	Coordinate with agencies in the community that work with individuals with access and functional needs to ensure disaster related needs are met.
	Protective action
	Coordinate the provision of transportation for evacuation.
	Provide staff and resources to manage open shelters.
	Coordinate care for individuals at shelters and for those who have been sheltered-in-place.
	Determine whether shelters must be opened long or short-term.
	Provide guidance/policies for the care of household pets that are brought to shelters by evacuees (only service animals are allowed into ARC shelters).
	Pre-identified shelter locations include: **(shelter locations; information on pre-identified shelter locations should be available from the County Emergency Management Program or ARC)**

MASS CARE, EMERGENCY ASSISTANCE, HOUSING, AND HUMAN SERVICES

The following agency is responsible for this annex:

AGENCY	TITLE OF CONTACT

The line of succession for representing the Mass Care, Emergency Assistance, Housing, and Human Services function during a response to an emergency or disaster situation is:

TITLE	AGENCY

(Title of individual or responsible department) is responsible for reporting or delegating another individual from their agency to report to the EOC during scheduled exercises or emergencies to coordinate and represent the *Mass Care, Emergency Assistance, Housing, and Human Services function.*

SIGNATURE OF MASS CARE, EMERGENCY ASSISTANCE, HOUSING AND HUMAN SERVICES OFFICIAL	DATE

ANNEX F

PUBLIC HEALTH AND MEDICAL SERVICES

The Public Health and Medical Services function is responsible for assessing public health and medical needs, health surveillance, and provision of medical care personnel, supplies and equipment.

The Public Health and Medical Services Official will maintain liaison and coordinate emergency management and response activities with the Public Health and Medical Services function at the county level. This annex relates to the following annex(es) in the **(County EOP/EAG)**: **(Applicable county annexes or ESFs; e.g., Emergency Medical Services Annex and Public Health Annex, ESF#8 – Public Health and Medical Services)**

Responsible Agency: **(e.g., Fire Department, EMS agency)**

Public Health and Medical Services Checklist

	Report to the EOC, when activated, for scheduled exercises and disasters, or delegate another representative from the agency to staff the EOC and implement the plan.
	Patient care
	Coordinate with medical providers and shelter managers to staff medical personnel at shelters.
	Identify the transportation resources and personnel needs to transport disaster survivors to temporary care centers.
	Provide transportation of patients and assist hospitals with transfer of patients.
	Ensure identification and notification of disaster survivors and emergency responders in need of crisis counseling and/or debriefing.
	Coordinate the monitoring of disaster survivors and emergency responders for exposure to chemical, radiological, or biological contaminants, and assist in their decontamination.
	Public health
	If necessary, identify a site for a temporary morgue. NOTE: The medical examiner is responsible for identifying the deceased. Law enforcement and EMS may provide additional support in collecting and transporting.
	Assist with animal and pet control and support the county Animal Control Unit in the quarantine and disposal of diseased animals.

PUBLIC HEALTH AND MEDICAL SERVICES

The following agency is responsible for this annex:

AGENCY	TITLE OF CONTACT

The line of succession for representing the Public Health and Medical Services function during a response to an emergency or disaster situation is:

TITLE	AGENCY

(Title of individual or responsible department) is responsible for reporting or delegating another individual from their agency to report to the EOC during scheduled exercises or emergencies to coordinate and represent the *Public Health and Medical Services function.*

SIGNATURE OF HEALTH AND MEDICAL OFFICIAL	DATE

ANNEX G

PUBLIC INFORMATION

The Public Information function ensures accurate, coordinated, timely, and accessible information is disseminated to governments, media, the general public, and the private sector throughout the prevention, *preparedness, mitigation, response, and recovery phases of disasters and emergencies.*

The Public Information Official will maintain liaison and coordinate emergency management and response activities with the Public Information function at the county level. This annex relates to the following annex(es) in the **(County EOP/EAG)**: **(Applicable county annexes or ESFs; e.g., Public Information Annex, ESF#15 – External Affairs)**

Responsible Agency: **(e.g., Executive Office)**

Public Information Checklist

	Report to the EOC, when activated, for scheduled exercises and disasters, or delegate another from the agency to staff the EOC and implement the plan.
	Pre-disaster public education
	Assist the Emergency Management Liaison in developing educational materials on the hazards facing the community and explaining what people can do to protect themselves to recover from incidents.
	Ensure that written materials are developed for non-English speaking individuals or others who require FNSS.
	Disaster warning and information
	Develop and release updated EAS messages based on incoming information.
	Document which EAS messages have been delivered over radio and television.
	Ensure that accurate information is disseminated describing such items as the locations of shelters, missing persons information hotline, volunteer hotline, rumor control hotline, etc.
	Distribute prepared public educational materials.
	Media coordination
	Establish and maintain contact with the EOC and/or the ICP.
	Prepare press releases and ensure that all press releases and official information is reviewed by **(positions that will review press releases, e.g. CEO, City/Township Manager, etc.)**.
	Verify that information is accurate before releasing it to the media.
	Schedule media briefings.
	Establish a Public Information Center as the central point from which municipal news releases are issued at **(location)**.
	Assist the county in establishing a Joint Information Center (JIC; the JIC can be used by agency representatives for releasing information to the news media).
	Coordinate public information activities with the County PIO and the JIC.
	Schedule interviews between the CEO and media agencies.
	Monitor all forms of media, both traditional and social, for rumors, and address rumors as soon as possible

PUBLIC INFORMATION

The following agency is responsible for this annex:

AGENCY	TITLE OF CONTACT

The line of succession for representing the Public Information function during a response to an emergency or disaster situation is:

TITLE	AGENCY

(Title of individual or responsible department) is responsible for reporting or delegating another individual from their agency to report to the EOC during scheduled exercises or emergencies to coordinate and represent the Public Information function.

SIGNATURE OF PUBLIC INFORMATION OFFICIAL	DATE

ANNEX H

PUBLIC SAFETY

The Public Safety function is concerned to ensuring the safety of all citizens, maintaining law and order, protecting public and private property and providing protection for essential industries, supplies and facilities.

The Public Safety Official will maintain liaison and coordinate emergency management and response activities with the Public Safety function at the county level. This annex relates to the following annex(es) in the **(County EOP/EAG): (Applicable county annexes or ESFs; e.g., Law Enforcement Annex, ESF#13 – Public Safety and Security)**

Responsible Agency: **(e.g., Police Department)**

Public Safety Checklist

	Report to the EOC, when activated, for scheduled exercises and disasters, or delegate another from the agency to staff the EOC and implement the plan.
	Response activities
	Provide security and access control at critical facilities and incident sites.
	Implement any curfews ordered by the governor or CEO.
	Enforce evacuation orders and assist in evacuations.
	Ensure prisons and jails are notified of potential threat and determine whether proper safety and security precautions are being taken.
	Implement urban search and rescue capabilities, including animals.
	Investigate incident and provide intelligence information to county, state and federal officials.
	Transportation
	Secure unusable roads. (Use Fire Services and Public Works for support, if necessary).
	Identify routes that need barricades and signs. Request necessary assistance from Public Works.
	Ensure vehicles on evacuation routes are removed. If necessary, request that Public Works agencies move vehicles off the road. Maintain record of where vehicles are being taken.
	Coordinate with the Road Commission or Public Works in rerouting traffic and putting the appropriate signs in place.
	Assistance to other agencies
	Assist Warning function in warning the public, when necessary.
	Assist the medical examiner with mortuary services.
	Assist families isolated by the effects of the disaster.

PUBLIC SAFETY

The following agencies are responsible for this annex:

AGENCY	TITLE OF CONTACT PERSON

The line of succession for representing the Public Safety function during a response to an emergency or disaster situation is:

TITLE	AGENCY

(Title of individual or responsible department) is responsible for reporting or delegating another individual from their agency to report to the EOC during scheduled exercises or emergencies to coordinate and represent the Public Safety function.

SIGNATURE OF PUBLIC SAFETY OFFICIAL	DATE

ANNEX I

PUBLIC WORKS

The Public Works function is responsible for conducting pre- and post-incident assessments, ensuring critical services are met through existing contracts, providing technical assistance and engineering expertise and construction management, providing emergency repair of damaged public infrastructure and critical facilities, and the clearing of debris from public roads.

The Public Works Official will maintain liaison and coordinate emergency management and response activities with the Public Works function at the county level. This annex relates to the following annex(es) in the **(County EOP/EAG)**: **(Applicable county annexes or ESFs; e.g., Public Works Annex, ESF#1 – Transportation, ESF#3 – Public Works and Engineering and ESF#12 – Energy)**

Responsible Agency: **(e.g., Public Works Department)**

Public Works Checklist

	Report to the EOC, when activated, for scheduled exercises and disasters, or delegate another from the agency to staff the EOC and implement the plan
	Response activities
	Coordinate debris removal activities.
	Coordinate activities designed to control the flow of floodwater.
	Damage assessment
	Provide engineering expertise to inspect public structures and determine if they are safe to use.
	Provide DA information for roads, bridges, buildings, infrastructure, etc. to DA function.
	Transportation
	Provide barricades and signs for road closures and boundary identification (to include activating MAA/MOUs if additional barricades are needed).
	Provide technical expertise in road weight limits, road capacity, etc., to determine whether evacuation routes are adequate for traffic flow.
	Notify law enforcement of the location(s) of disabled vehicles.
	Contact appropriate Michigan Department of Transportation (MDOT) and county transportation officials to request travel restrictions on state and county roads, if necessary.
	Assistance to other agencies
	Assist in identifying access control areas.
	Assist with urban search and rescue activities, if necessary.
	Maintain contact with local utilities to determine the extent and cause of damage and outages. Report this information and restoration schedules to EOC staff.
	Coordinate with utility companies in the restoration of essential services.
	Logistics
	Provide vehicles and personnel to transport essential goods, such as food and medical supplies, when directed by the EOC staff.
	In conjunction with public health, help identify sources of potable water.
	Assist in identifying and obtaining the appropriate construction equipment to support disaster response and recovery operations.
	Provide emergency generators and lighting.

PUBLIC WORKS

The following agencies are responsible for this annex:

AGENCY	TITLE OF CONTACT

The line of succession for representing the Public Works function during a response to an emergency or disaster situation is:

TITLE	AGENCY

(Title of individual or responsible department) is responsible for reporting or delegating another individual from their agency to report to the EOC during scheduled exercises or emergencies to coordinate and represent the Public Works function.

SIGNATURE OF PUBLIC WORKS OFFICIAL	DATE

ANNEX G

PUBLIC INFORMATION

The Public Information function ensures accurate, coordinated, timely, and accessible information is disseminated to governments, media, the general public, and the private sector throughout the prevention, preparedness, mitigation, response, and recovery phases of disasters and emergencies.

The Public Information Official will maintain liaison and coordinate emergency management and response activities with the Public Information function at the county level. This annex relates to the following annex(es) in the **(County EOP/EAG)**: **(Applicable county annexes or ESFs; e.g., Public Information Annex, ESF#15 – External Affairs)**

Responsible Agency: **(e.g., Executive Office)**

Public Information Checklist

	Report to the EOC, when activated, for scheduled exercises and disasters, or delegate another from the agency to staff the EOC and implement the plan.
	Pre-disaster public education
	Assist the Emergency Management Liaison in developing educational materials on the hazards facing the community and explaining what people can do to protect themselves to recover from incidents.
	Ensure that written materials are developed for non-English speaking individuals or others who require FNSS.
	Disaster warning and information
	Develop and release updated EAS messages based on incoming information.
	Document which EAS messages have been delivered over radio and television.
	Ensure that accurate information is disseminated describing such items as the locations of shelters, missing persons information hotline, volunteer hotline, rumor control hotline, etc.
	Distribute prepared public educational materials.
	Media coordination
	Establish and maintain contact with the EOC and/or the ICP.
	Prepare press releases and ensure that all press releases and official information is reviewed by **(positions that will review press releases, e.g. CEO, City/Township Manager, etc.)**.
	Verify that information is accurate before releasing it to the media.
	Schedule media briefings.
	Establish a Public Information Center as the central point from which municipal news releases are issued at **(location)**.
	Assist the county in establishing a Joint Information Center (JIC; the JIC can be used by agency representatives for releasing information to the news media).
	Coordinate public information activities with the County PIO and the JIC.
	Schedule interviews between the CEO and media agencies.
	Monitor all forms of media, both traditional and social, for rumors, and address rumors as soon as possible

PUBLIC INFORMATION

The following agency is responsible for this annex:

AGENCY	TITLE OF CONTACT

The line of succession for representing the Public Information function during a response to an emergency or disaster situation is:

Subject: RE: Water loads - press release

I don't know about all of you but I am confused as to who know what now so let's start over.

BJ thank you for directing us to this available water it is a wonderful savings for the community . We have acquired two truckloads of water for the cost of transportation, a savings of about $5,000.

We have confirmed with FEMA HQ – the approval for the release of 2 loads of water out of Fredrick, Maryland. Darwin Freight is scheduled to pick up 1 load on Thursday the 10th and the 2nd load on Friday the 11th.

I contacted Dan Schulman for FEMA (312) 408-4427 dan.shulman@fema.vhs.gov and provided follow up information for the loads and identified myself as contact person if they had any questions. Jamie and I will prepare a press release to inform the community of the donation of the water and the collaboration of community that made it possible.

FEMA only concern about the donation is that it was made based on the availability of the water not due to any particular issue in Flint or anywhere else.

Jamie give me a call tomorrow and we can finalize the press release and I can have one of our staff prepare it. If I have forgotten anything or if anyone thinks we need to take any other steps let me know.

William E. Kerr

Bill:

Why don't we do the press release together. I am ccing in Jamie Lee Venable. I also think we need to include some type of acknowledgment for the BJ at the State Police Post. This really was her baby in terms of identifying and connecting the resource. If you can respond to the email below and just cc in myself and Jamie-Lee and we can put a quick release together.

Subject: FW: Water loads

Jamie,

Got it all taken care of 2 loads of water coming to Flint , 10 and 11 of December. Please see the e-mail below there is a question about a press release and contact for area. Do you want to handle this or would you prefer us to?

Subject: Water loads

Hi Bill,

We have confirmed with FEMA HQ - Tureana Dash receiving release numbers for 2 loads of water out of Fredrick, Maryland. I have passed on the release number to Darwin Freight. They are looking to set up to pick up 1 load on Thursday the 10th and the 2nd load on Friday the 11th.

I received a call from Chicago Dan Schulman for FEMA(312) 408-4427. Dan needed follow up information for the loads if asked who could they contact here at our Food Bank I gave him your name. He also wanted to know if asked who in the city could they refer to for questions and are we doing a press release when we receive the water. I let him know I would talk with you and either have you call or I would follow-up.

Thanks

Tina

- Mott Children's Health Center distributed 117 PUR filters (that you attach to the faucet, [part of the batch that the United Way purchased and was distributed at U of M Flint).

- Mott Children's Health Center's leadership has put together a lead information packet. The intent of the packet is to distribute to patients. The packet includes information on appropriate filters and resources and how to obtain them. Genesee County Health Department will update Mott Children's Health Center as necessary with new distribution locations.

- As noted by Mott Children's Health Center, most parents of newborns continue to use bottled water to mix with formula.

- Genesee County Health Department continues to distributed water filters at its lead screening clinic in Burton.

- After a complete inventory is taken at all water filter distribution sites of remaining water filter cartridges, The State of Michigan has agreed to purchase additional PUR replacement filters.

- As of December 4, Michigan Department of Health and Human Services has distributed the following:

Water Filters	11,046
Water Pitchers	184
Replacement Cartridges	1,073

- Michigan Department of Health and Human Services and Genesee County Community Action Resource Department have distributed the following in November: water filters 778, Zero Water Pitchers 63, and replacement filters 924. Total filter distribution as of October 1 is 10,951.

- The MDEQ and the City are coordinating the distribution and analysis of containers (bottles) for water testing. Bottles are available at City Hall and the water plant. Genesee County Health Department does not have bottles for distribution. Customers' name, phone, and address are required to be documented on a form when the water sample is submitted for analysis, not when the bottle is picked up. Analysis is conducted in Lansing at the MDEQ lab.

- Genesee County Health Department (GCHD) will distribute an additional 100 water filters to the City of Flint for distribution at City of Hall.
- Besides all the water filter distribution occurring at the blood lead screening clinics and offsite exhibits by Genesee County Health Department's staff, the Health Department continues to distribute water filters at its Burton WIC clinic and continues to educate parents on lead in water issues. Distribution at the WIC clinic has been swift and additional inventory, another 100 water filters, will be added to the WIC distribution inventory.
- Genesee County Health Department will distribute a press release that supports Professor Marc Edwards, of Virginia Tech University's announcement that Flint residents do indeed need to continue to use water filters.
- After a through inventory of water filters, Michigan Department of Health and Human Services (MDHHS) will purchase more Pur replacement filters. As suggested by MDHHS staff, GCHD will inventory its supply of replacement filters and give inventory outcome to MDHHS.
- Genesee County Health Department will host blood lead screening clinics at Grace Emmanuel and Bethel United Methodist churches.

Genesee County Health Department is working with the CDC to develop phosphate educational materials.

United Way (UW) CEO, Jamie Gaskin and Genesee County Health Department Health Officer, Mark Valacak have been discussing the strategic use of Americore volunteers during this water crisis. Suggested volunteer work includes: distribution of filters, lead education, and assist at health fairs and at church exhibits. Volunteers may be available in February of 2016.

UW Jamie Gaskin reported that UW will giveaway 110 Thanksgiving baskets. The baskets will contain a water filter system.

For those who need 8oz - Zero cup water filters, please contact Tony Sitko at Flint Community Schools. His email address is:tsitko@flintschools.org.

Genesee County Health Department will give City of Flint 50 PUR water filters for distribution at City Hall.

Water filter distribution is well over 13,596.

BJ Roach from the State Police had nothing to report at this time.

We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Genesee County Health Department will send staff to Flint Community Schools' city wide parent meeting at Brownell STEM Academy. Genesee County Health Department representatives will present lead education. The presentation will take place on Wednesday, November 18 at 9:30 am.
- Brownell STEM Academy lead screening was hosted by Flint Community Schools with assistance from McLaren Health Plan and Genesee County Health Department. Twenty seven kids were tested. Test results will be mailed to parents in two weeks.
- During the 3:00 to 6:00 pm clinic, a combination of Pur and Brita water filters and replacement filters were distributed. A total of 60 filters and replacement filters were distributed.

- Genesee County Health Department, Genesee Health Plan, Crim Fitness Foundation, University of Michigan Flint Nursing Program, The MDHHS environmental consultants' ETC, and 211 exhibited at Brownell's lead screening clinic where they educated participants on lead preventative and nutrition.

- Home Depot was at Brownell's clinic answering water filter installation questions.

- GCCARD distributed a combination of water filters and replacement filters totaling 154.
- DHHS distributed a combination of water filters and replacement filters totaling 59.
- To date approximately 14,000 water filters have been distributed.
- *Tamara Brickey (Genesee County Health Department) is working with Grand Blanc Schools* for the purpose of distributing water filter replacement cartridges.
- Tamara continues to contact various organizations to get them replacement filters so that they in turn can distribute replacement filters to their clients.

- Genesee County Health Department's (GCHD) Women, Infant and Children (WIC) program has distributed 300 water filters.
- Sixty water filters and replacement cartridges were distributed at yesterday's lead screening clinic.
- There was an additional three lead clinic participants at Genesee County Health Department's lead screening clinic hosted by Genesee County Health Department and McLaren Health Plan on Thursday, November 5 in Burton, Michigan. The final total for this lead screening clinic is 42 participants.
- There was a correction made to abc12's segment covering the lead screening program that was corrected on GCHD's social media platforms. Abc12 will make the correction at their end as well.

Jim,
This is an issue for higher levels of administration. I will be at the DEQ/MDHHS / Mayor Flint meeting on Friday at 10, but I am not aware of the Mayor's planning, or when he meets with her.

I am CC'ing the appropriate people- with high priority. Based on this- we can figure out next steps and loop him in.

Good morning, just learned 2 truckloads of water was ordered for Genesee co food banks. The cost for delivery is $1500 per truck which is being paid for by the United Way. Jamie Gaskin, UW, advised that is half the cost they would have paid otherwise so he is extremely thankful. This was just stated in our weekly Flint Water meeting. 😊

All

There were several questions about the water that is currently available for pick up in Frederick, Maryland. There are about 16 truckloads left, about 14,400 liters per truck. You don't have to take whole truckloads either. Water is in half liter increments.

- Mott Children's Health Center distributed 117 PUR filters (that you attach to the faucet, [part of the batch that the United Way purchased and was distributed at U of M Flint).

- Mott Children's Health Center's leadership has put together a lead information packet. The intent of the packet is to distribute to patients. The packet includes information on appropriate filters and resources and how to obtain them. Genesee County Health Department will update Mott Children's Health Center as necessary with new distribution locations.

- As noted by Mott Children's Health Center, most parents of newborns continue to use bottled water to mix with formula.

- Genesee County Health Department continues to distributed water filters at its lead screening clinic in Burton.

- After a complete inventory is taken at all water filter distribution sites of remaining water filter cartridges, The State of Michigan has agreed to purchase additional PUR replacement filters.

- As of December 4, Michigan Department of Health and Human Services has distributed the following:

Water Filters	11,046
Water Pitchers	184
Replacement Cartridges	1,073

- Michigan Department of Health and Human Services and Genesee County Community Action Resource Department have distributed the following in November: water filters 778, Zero Water Pitchers 63, and replacement filters 924. Total filter distribution as of October 1 is 10,951.

- The MDEQ and the City are coordinating the distribution and analysis of containers (bottles) for water testing. Bottles are available at City Hall and the water plant. Genesee County Health Department does not have bottles for distribution. Customers' name, phone, and address are required to be documented on a form when the water sample is submitted for analysis, not when the bottle is picked up. Analysis is conducted in Lansing at the MDEQ lab.

- Genesee County Health Department (GCHD) will distribute an additional 100 water filters to the City of Flint for distribution at City of Hall.
- Besides all the water filter distribution occurring at the blood lead screening clinics and offsite exhibits by Genesee County Health Department's staff, the Health Department continues to distribute water filters at its Burton WIC clinic and continues to educate parents on lead in water issues. Distribution at the WIC clinic has been swift and additional inventory, another 100 water filters, will be added to the WIC distribution inventory.
- Genesee County Health Department will distribute a press release that supports Professor Marc Edwards, of Virginia Tech University's announcement that Flint residents do indeed need to continue to use water filters.
- After a through inventory of water filters, Michigan Department of Health and Human Services (MDHHS) will purchase more Pur replacement filters. As suggested by MDHHS staff, GCHD will inventory its supply of replacement filters and give inventory outcome to MDHHS.
- Genesee County Health Department will host blood lead screening clinics at Grace Emmanuel and Bethel United Methodist churches.

Genesee County Health Department is working with the CDC to develop phosphate educational materials.

United Way (UW) CEO, Jamie Gaskin and Genesee County Health Department Health Officer, Mark Valacak have been discussing the strategic use of Americore volunteers during this water crisis. Suggested volunteer work includes: distribution of filters, lead education, and assist at health fairs and at church exhibits. Volunteers may be available in February of 2016.

UW Jamie Gaskin reported that UW will giveaway 110 Thanksgiving baskets. The baskets will contain a water filter system.

For those who need 8oz - Zero cup water filters, please contact Tony Sitko at Flint Community Schools. His email address is:tsitko@flintschools.org.

Genesee County Health Department will give City of Flint 50 PUR water filters for distribution at City Hall.

Water filter distribution is well over 13,596.

BJ Roach from the State Police had nothing to report at this time.

Sent: Tuesday, December 01, 2015 5:37 PM
Subject: PRESS RELEASE: Mayor Weaver Unveils 100 Day Plan

For Immediate Release

Mayor Karen Weaver Unveils 100 Day Plan

Flint, Michigan – December 1, 2015 – Mayor Karen Weaver today laid out the plan for her next 100 days in office at a morning press briefing held in the lobby of Flint City Hall. The Mayor's plan for the next 100 days will focus mainly on addressing issues related to water and lead, but will also include building a vigorous community engagement program, implementation of the City's Master Plan and increased attention to youth initiatives. The plan also lists restoring "Home Rule" to City government as a key objective.

"During the course of my campaign for this esteemed office, I made several pledges to the citizens of this community," said Mayor Weaver. "First and foremost I pledged that I would work tirelessly to resolve the City's water problems. I also made a pledge to work diligently to restore democracy and home rule, in addition to giving voice, truth and transparency to our residents." While there are other items the Mayor is interested in addressing, the next 100 days will focused on those areas.

In dealing with the water issues in Flint, Mayor Weaver is working toward having the City declared a Federal Disaster Area as her first item. "We are faced with the largest public health and public service threat in the history of the City," said the Mayor. "It will require resources far beyond our capabilities to remediate our water infrastructure problems." Mayor Weaver has already begun meeting with representatives and senators at both the State and Federal levels. In addition to the Federal Declaration, the Mayor is also seeking to restructure the City's Water Advisory Committee to include mayoral appointments, implementing a lead poisoning mitigation program in conjunction with local medical centers and expanding the Keep the Water Flowing program to include additional aid agencies.

Community engagement and the reestablishment of trust in local government will be vigorously sought by Mayor Weaver, as laid out in the 100 day plan. Beginning this month, the Mayor will conduct monthly Town Hall Meetings in each of the City's nine wards. In addition, the Mayor plans to attend block club and neighborhood association meetings frequently, continue the Mayor's "Open Office" time on Wednesday mornings to hear from constituents and create a "Mobile City Hall" to provide direct access to the Mayor.

Another key to the Mayor's outreach strategy will be to meet frequently with various community stakeholders to gather input and reach out to educational institutions in an effort to gain insight into the problems facing Flint. Through relationships with local colleges and universities, the

Mayor hopes to develop surveys for such issues as specific as determining the scope of problems with the City's street lights and more general such as identifying citizen needs. Work is also being done through a university partnership to digitize old paper records of underground pipe materials to better track the location of lead-based service lines throughout the City.

Youth engagement is another part of the outreach strategy of the 100 day plan. Mayor Weaver is seeking to establish *Operation HYRE* (Helping Youth Reach Employment) in which she will call upon local businesses and vendors to provide summer employment opportunities for 500 City youth in 2016. The hope is to expand that year to year. In addition, the Mayor is seeking to form a Youth Advisory Council to provide opportunities for engagement in local government with students.

Mayor Weaver acknowledged that the ambitious scope of her plan will be rely on a spirit of cooperation within the community. "I am working every day to improve our quality of life," the Mayor stated. "Flint's stability depends on our collective effort to provide economic opportunity, promote healthy lifestyles, and ensure community prosperity. With our legendary Flintstone spirit we will prevail."

As the event closes, @JackLessenberry: "I think this is the best #IssuesAndAle, with the best audience and topic, we've ever had."

Senator Jim Ananich @jimananich

Flint Community Schools have Pur Water Filters and the drinking fountains have been shut off. The kids get water via donations.

Senator Jim Ananich @jimananich

If you call 211, you can get replacement water filters. #FlintWaterCrisis

Senator Jim Ananich @jimananich

Reminder: A member of Sen. Ananich's staff is live tweeting the @Issues_Ale event about the #FlintWaterCrisis this evening.

Senator Jim Ananich @jimananich

"I've told my colleagues, I don't think you understand the level of mistrust now. And I don't think we're going to get that back." -Ananich

Senator Jim Ananich @jimananich

"One of the things I have been pushing for is to have one professional that is designated to helping our community." -Sen. Ananich

Senator Jim Ananich @jimananich

.@MonaHannaA: People trust their peers and their pastors most: there are efforts to educate community leaders. #FlintWaterCrisis

Senator Jim Ananich @jimananich

.@JackLessenberry: "My question is, where is @MMFlint with his video cameras!" #FlintWaterCrisis

Senator Jim Ananich @jimananich

Steve Carmondy: "Once you leave the city, people don't care about Flint. We need to educate MI." #IssuesAndAle #FlintWaterCrisis

Senator Jim Ananich @jimananich

Q from the audience: "My water bill is about $70-$100 a month, for poison. Is there any hope that this will change?" #FlintWaterCrisis

Senator Jim Ananich @jimananich

.@MonaHannaA: "We don't want our kids to be statistics in 20 years. We can't sit back now." #IssuesAndAle

Senator Jim Ananich @jimananich

.@MonaHannaA: "Nutrition plays a vital role in secondary prevention: foods high in iron and Vitamin C will help." #FlintWaterCrisis

Senator Jim Ananich @jimananich

.@MonaHannaA: "This should have been declared national problem. The @USNationalGuard should have been out dist. water!" #FlintWaterCrisis

Senator Jim Ananich @jimananich

Q from a teacher in the audience, noticeably shaken: "Why aren't there trucks from the state, delivering water?" #IssuesAndAle

Senator Jim Ananich @jimananich

.@MonaHannaA: "This would have never have happened in Ann Arbor or Bloomfield Hills. It happened in Flint." #IssuesAndAle #FlintWaterCrisis

Senator Jim Ananich @jimananich

Cause for applause, from @JackLessenberry: "Would this have happened in Ottawa county? And not in Flint?" #IssuesAndAle #No

Senator Jim Ananich @jimananich

Q from the audience: Can water be used in humidifiers: YES. That goes for bathing as well. #IssuesAndAle #FlintWaterCrisis

Maegan Wilson @wilson_maegan

@jimananich Thank you so much. Water is life and a human right. #FlintWaterCrisis

Senator Jim Ananich @jimananich

.@MonaHannaA says from memory: "October 2014: water not okay for GM cars, but okay for kids brains." #IssuesAndAle #FlintWaterCrisis

Senator Jim Ananich @jimananich

The main cause of this #FlintWaterCrisis was the decision to not use corrosion controls. #IssuesAndAle

Senator Jim Ananich @jimananich

"MI needs to fix its infrastructure, esp. in Flint. This was a preventable problem." -Sen. Ananich

Senator Jim Ananich @jimananich

Once that is discovered, it will be made widely known. #IssuesAndAle #FlintWaterCrisis

Senator Jim Ananich @jimananich

Marc Edwards and @MonaHannaA: Flint water is still not safe to drink. It needs to be under the current federal safety standards.

Senator Jim Ananich @jimananich

"I will make sure that we get every resource to our community that we can." -Sen. Ananich pic.twitter.com/jsuA6tE918

Senator Jim Ananich @jimananich

"A number of folks believe that because the switch to Detroit has happened, that it's all over. That's NOT the case." -Sen. Ananich

Senator Jim Ananich @jimananich

.@MonaHannaA: "There is a direct correlation to lead poisoning and violent crimes later in life." #IssuesAndAle #FlintWaterCrisis

Senator Jim Ananich @jimananich

.@MonaHannaA: "Lead should never touch the body of a child. We've lost our high achievers." #IssuesAndAle

Senator Jim Ananich @jimananich

Marc Edwards: Tells of how he analyzed the water from @LeeAnne_Walters home. He remembers being "stunned" at the levels. #IssuesAndAle

Senator Jim Ananich @jimananich

Steve Carmody, @miradionetwork Flint reporter, begins the evening with an intro of how the #FlintWaterCrisis began. #IssuesAndAle

Subject: Genesee Co EM resignation

Good morning, Jen Boyer just tendered her resignation letter to the Sheriff. Her last day is Dec 15. I am trying to confirm whether has accepted the EM position in Midland County. I will let you know as soon as I know. Also, the Sheriff did not approve her talking to the Mayor. He advised her the Mayor could call him direct. With the Sheriff's lack of knowledge and experience in Emergency Management, it may be wise for our Dept/Division to meet with the Mayor. Please let me know your thoughts. Thanks, BJ

It may be better and I actually asked Jen if she thought that would b better. She wanted to see what the Sheriff would and would not let her do.

- Parent packets developed by the State and local organizations are almost exhausted. Genesee County Health Department is working with the State on the next version of this parent packet.
- GCHD met with Michigan Department Health and Human Services today to review and revise current lead education material..
- Mark has developed a laudatory resolution to thank the University of Michigan for their assistance with the water filter distribution on Saturday, October 3, 2015. The resolution will be presented to the Genesee County Board of Commissioners.
- Genesee County Health Department's Health Officer, Mark Valacak will meet with United Way's CEO, Jamie Gaskin to discuss grant support for community lead education.
- Water filters distributed as of 11/20/15: 14,473.
- GCHD will share nutrition and lead education with organizations currently doing nutrition education in the community. GCHD will also share locations where individuals can access water filters.

Subject: Re: Genesee County Health Department EOC 11/17/15

Genesee County Health Department is working with the CDC to develop phosphate educational materials.

United Way (UW) CEO, Jamie Gaskin and Genesee County Health Department Health Officer, Mark Valacak have been discussing the strategic use of Americore volunteers during this water crisis. Suggested volunteer work includes: distribution of filters, lead education, and assist at health fairs and at church exhibits. Volunteers may be available in February of 2016.

UW Jamie Gaskin reported that UW will giveaway 110 Thanksgiving baskets. The baskets will contain a water filter system.

For those who need 8oz - Zero cup water filters, please contact Tony Sitko at Flint Community Schools. His email address is:tsitko@flintschools.org.

Genesee County Health Department will give City of Flint 50 PUR water filters for distribution at City Hall.

Water filter distribution is well over 13,596.

BJ Roach from the State Police had nothing to report at this time.

- Genesee County Health Department will send staff to Flint Community Schools' city wide parent meeting at Brownell STEM Academy. Genesee County Health Department representatives will present lead education. The presentation will take place on Wednesday, November 18 at 9:30 am.

- Brownell STEM Academy lead screening was hosted by Flint Community Schools with assistance from McLaren Health Plan and Genesee County Health Department. Twenty seven kids were tested. Test results will be mailed to parents in two weeks.

- During the 3:00 to 6:00 pm clinic, a combination of Pur and Brita water filters and replacement filters were distributed. A total of 60 filters and replacement filters were distributed.

- Genesee County Health Department, Genesee Health Plan, Crim Fitness Foundation, University of Michigan Flint Nursing Program, The MDHHS environmental consultants' ETC, and 211 exhibited at Brownell's lead screening clinic where they educated participants on lead preventative and nutrition.

- Home Depot was at Brownell's clinic answering water filter installation questions.

Subject: RE: Genesee County Health Department EOC 11/20/15

- Parent packets developed by the State and local organizations are almost exhausted. Genesee County Health Department is working with the State on the next version of this parent packet.

- GCHD met with Michigan Department Health and Human Services today to review and revise current lead education material..
- Mark has developed a laudatory resolution to thank the University of Michigan for their assistance with the water filter distribution on Saturday, October 3, 2015. The resolution will be presented to the Genesee County Board of Commissioners.
- *Genesee County Health Department's Health Officer, Mark Valacak will meet with United Way's CEO,* Jamie Gaskin to discuss grant support for community lead education.
- Water filters distributed as of 11/20/15: 14,473.
- GCHD will share nutrition and lead education with organizations currently doing nutrition education in the community. GCHD will also share locations where individuals can access water filters.

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- GCHD Community Health Director, Tamara Brickey, distributed 40 water filters during a food drive on Saturday at the University of Michigan-Flint.
- GCHD Health Educator, Terria Fagan distributed 9 water filters and was able to provide lead education to a parent group of approximately 20 at Flint Southwestern Academy.

- The United Way, The Community Foundation, and GCHD are teaming together to come up with plans for further community education around lead, and support for the Flint schools.
- The Food Bank of Eastern Michigan is currently in need of water donations. Please encourage individuals looking to donate water to contact the Food Bank.
- Hilda McShane is currently on vacation through the Thanksgiving holiday. If you have any updates for 11/25/15, please email them to Tamara Brickey tbrickey@gchd.us.

That is the update for today.

Thanks,

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Genesee County Health Department will send staff to Flint Community Schools' city wide parent meeting at Brownell STEM Academy. Genesee County Health Department representatives will present lead education. The presentation will take place on Wednesday, November 18 at 9:30 am.

- Brownell STEM Academy lead screening was hosted by Flint Community Schools with assistance from McLaren Health Plan and Genesee County Health Department. Twenty seven kids were tested. Test results will be mailed to parents in two weeks.

- During the 3:00 to 6:00 pm clinic, a combination of Pur and Brita water filters and replacement filters were distributed. A total of 60 filters and replacement filters were distributed.

- Genesee County Health Department, Genesee Health Plan, Crim Fitness Foundation, University of Michigan Flint Nursing Program, The MDHHS environmental consultants' ETC, and 211 exhibited at Brownell's lead screening clinic where they educated participants on lead preventative and nutrition.

- Home Depot was at Brownell's clinic answering water filter installation questions.

The EOC is not "activated" and I don't think it will b nor will the county eoc. Filter Distribution is continuing along with lead education and testing. Does someone feel efforts are not going well or are falling short ?

Paul

Per your call/question the other day reference a state declaration of an emergency in Flint:

As you know, the Governor can declare at any time for any reason

- From PA 390... "Emergency" means any occasion or instance in which the governor determines state assistance is needed to supplement local efforts and capabilities to save lives, protect property and the public health and safety, or to lessen or avert the threat of a catastrophe in any part of the state.
- From the start, the state (EMHSD as well as other state agencies) was engaged and EMSHD continually urged officials to work with and through the local EM to coordinate the response and recovery.
- A local declaration of an emergency was never put in place and local resources were being used in conjunction with the DCH.
- We never received any requests for assistance under PA390.

What is gained with a Governor's Declaration?

- Command and control for 28 days
- Ability to apply Section 19 funding
- Ability to apply Section 18 funding

Discussion Points

- There is no local declaration of an emergency; there is no request for state assistance under PA390.
    - Local resources have been sufficient to address the situation (outside of needing money which I believe is being handled).
- The state will formally own the event if we put a Governor's Declaration in place. This could be viewed as the state having owned up to how the water issue was caused (e.g. "The triggering event was caused by the state; that is why the state is now declaring.").
- A state declaration sets a precedent for issuing a state declaration for an infrastructure maintenance event. What if lead is found in other areas of the state's drinking water due to infrastructure issues? This action opens the door to any other jurisdiction with water quality issues.
- State financial support has already been provided outside of PA 390, so timing is questionable.
- Section 18 use could drain the Disaster Contingency Fund.

Please let me know if you would like to discuss or if this is not what you were looking for.

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- GCCARD distributed a combination of water filters and replacement filters totaling 154.
- DHHS distributed a combination of water filters and replacement filters totaling 59.
- To date approximately 14,000 water filters have been distributed.
- Tamara Brickey (Genesee County Health Department) is working with Grand Blanc Schools for the purpose of distributing water filter replacement cartridges.
- Tamara continues to contact various organizations to get them replacement filters so that they in turn can distribute replacement filters to their clients.

We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Genesee County Health Department's (GCHD) Women, Infant and Children (WIC) program has distributed 300 water filters.
- Sixty water filters and replacement cartridges were distributed at yesterday's lead screening clinic.
- There was an additional three lead clinic participants at Genesee County Health Department's lead screening clinic hosted by Genesee County Health Department and McLaren Health Plan on Thursday, November 5 in Burton, Michigan. The final total for this lead screening clinic is 42 participants.
- There was a correction made to abc12's segment covering the lead screening program that was corrected on GCHD's social media platforms. Abc12 will make the correction at their end as well.

We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Mass Transit Authority is working with Flint Community Schools' Brownell/Holmes Academy to transport parents to the lead screening clinic on Thursday, November 12th. Pickups for families will be at both Freeman and Eisenhower elementaries.
- Lead clinic at Genesee County Health Department's Burton Clinic in partnership with McLaren Health Plan on 11/5/2015 tested 40 participants.
- Mark Valacak from the Genesee County Health Department shared information regarding DEQ's issued report regarding their Flint Community School's findings. The findings indicated that the source of the lead at Freeman Elementary was due to plumbing fixtures on water fountains.
- 100 water filters via Rep. Neeley were distributed at an event at Our Lady of Guadalupe church yesterday 11/9/15.
- UW has limited funds to help Flint residents with their water bills, but are limited to a onetime donation and based the donation is based on specific income criteria. DHHS has similar onetime giving criteria.
- The City of Flint will distribute water filters at city hall at the front entrance of city of hall and ask customer to complete DHHS forms. Distribution of water filters will continue until supplies run out or will continue when supplies are replenished.

Thank you,

Subject: meeting between Mayor Weaver & EMSD captain

Good afternoon Ms. Murray,

In reference to a conversation between Captain Kapp and Mayor Weaver last week, I have been asked to assist the EMHSD commander, Captain Kelenske, in scheduling a meeting with Mayor Weaver due to his assistant being out of the office for the next two weeks. Captain Kelenske would like to brief Mayor Weaver on the operations of Emergency Management Homeland Security Department (EMHSD).

If you can assist me with a few dates in January where Mayor Weaver is available for about 2 hours to meet in Lansing, Captain Kelenske would like to also give her a tour of the State Emergency Operations and the Intelligence Operation centers where his presentation to her may be of valuable. If she is not available for a tour of the Operations Centers after their meeting, then Captain Kelenske can meet with her at your office.

Unfortunately I do not have direct access to Captain Kelenske's calendar so this may take us a couple of tries, but you and I have become really good at this!!

Thank you,
Nichole

Mayor Karen Weaver Declares State of Emergency

Posted by: Sean Kammer

Mayor Karen Weaver has declared a State of Emergency in response to a man-made disaster caused by the City switching to the Flint River as a water source. This switch has resulted in elevated lead levels in drinking water which prompted both the City and the County Health department to issue a health advisory earlier this year.

Mayor Weaver states that this was one of the things she had promised to do while campaigning for mayor.

Declaring an emergency intends to help raise awareness of the issue that the water is still not safe to drink and activates the City's Emergency Support Plan in order to respond to the crisis.

On October 16 of this year, the City switched back to the Detroit Water and Sewerage Department as the source of water, however lead levels remain well above the federal action level of 15 parts per billion in many homes. Residents are advised to continue using water filters while long term solutions are being developed.

The Mayor will hold a press conference about the State of Emergency on Tuesday, December 15 at 2pm at City Hall.

Here is the letter, pasted below and attached. The attachment says DRAFT but it's good to go.

- Meegan

Dear Flint Water Advisory Task Force Members,

Thank you for your correspondence on Dec. 7, and, most importantly, for your hard work to promote public health and protect our residents as we move forward. Your efforts are both respected and appreciated.

As acknowledged in your letter, we have taken many steps to address the challenges in Flint as they relate to reducing lead exposure. I am pleased to see the progress since October, and recognize there is more work that must be done to ensure that this progress continues.

At the state level, there has been a confluence of efforts between Michigan Departments of Environmental Quality and Health and Human Services to coordinate with the Genesee County Health Department, local schools, and our partners in the non-profit community.

These partners are making progress, and we know we must always strive to improve practices and communication for continual improvement.

You make a solid suggestion about establishing a person who is independent of any one of the involved state agencies to serve as the point person to coordinate the ongoing work. I am recommending that Harvey Hollins, director of the Office of Urban Initiatives, carry out this effort. Harvey is well-versed in the issues and the challenges faced by our cities and will be effective in this role. Senior members of our executive team will continue to engage with your task force and provide direction and support to Harvey to ensure you will have continued support and cooperation. We also have retained Chris DeWitt, a veteran communications specialist, to strengthen community outreach efforts to make sure residents have access to the information they need.

I also support your suggestion of a dashboard to make information about our work and progress more accessible to the Flint community. These are critical measures that can be used as we look the challenges and progress in Flint, but also can be a part of efforts moving forward in other areas of our state. It's important that people have confidence that we are working to address any problems and will take the necessary actions to improve

interaction among city, state and federal agencies. We also will continue to work with the medical community to consider how we can work together on wraparound needs of children who might experience health problems.

People in Flint and across our state deserve safe, clean water. I want them to be confident that the water coming out of their tap is safe for their families. And I want them to trust that their government – at all levels – is working effectively to protect them.

I thank you again for investing your time and expertise in this vitally important effort.

Subject: Re: Weaver Emergency Proclamation

I just got off the phone with Chris, Jens Asst, and he is working with the mayors office to enter the declaration into MICIMS. He is going to keep me informed today as to what or if Flint has a game plan. I also asked him to clarify what federal aid they have claimed they received. I will keep u posted

Office of Mayor Karen W. Weaver, Ph.D.
City of Flint, Michigan, County of Genesee

Declaration of State of Emergency

Authority Emergency Management Act: Michigan Emergency Management Act 390 of 1976

BY THE MAYOR:

Whereas; in accordance with the Michigan Emergency Management Act, I am declaring a State of Emergency for the incorporated boundaries of the City of Flint, Michigan; and

Whereas; the City of Flint has experienced a Manmade disaster by switching to the use of the Flint River before connecting to KWA; and

Whereas; the City of Flint children have experienced increased blood lead levels since the switch to the Flint River; and

Whereas; this damage to children is irreversible and can cause effects to a child's IQ, which will result in learning disabilities and the need for special education and mental health services and an increase in the juvenile justice system; and

Whereas; this will increase the need for foster and adoptive parents as a result of social services needed due to the detrimental effects of the high blood lead levels; and

Whereas; I am requesting that all things be done necessary to address this State of Emergency Declaration, effective immediately; and

Whereas; this action is being taken to protect the health, safety, and welfare of the citizens of Flint; and

Whereas; I request that the Genesee County Board of Commissioners call a Special Meeting no later than the end of December 2015 to take action supporting this State of Emergency; and

Now, Therefore, I, Mayor Karen W. Weaver declare a State of Emergency in the City of Flint, effective, December 14, 2015;

Karen W. Weaver

Dr. Karen W. Weaver, Mayor

Subject: Fwd: Water Donation

FYI.

Are you hearing that the new Mayor wants to declare a local emergency on this water issue?

The below article is reference the water we were able to identify from FEMA.

Emergency Management/Preparedness Sector
FEMA Sends 28,000 Liters of Bottled Water to Flint amid Lead Troubles
(MLive)
Flint, Michigan: The federal government is helping to replenish the bottled water supply in Flint. Two trucks delivered about 28,000 liters of water from the Federal Emergency Management Agency to the Food Bank of Eastern Michigan today, Dec. 14. The water will then be donated to "partner agencies" in the city of Flint who will distribute the water to residents. Cassie Ringsdorf, a FEMA spokeswoman, said the agency maintains commodity stockpiles at warehouses around the country and makes them available. "These commodities are available for use, within hours, should an incident occur that requires support from FEMA," Ringsdorf said in an email to The Flint Journal-MLive. A news release from the Food Bank credited Michigan State Police Lt. Billie Jo Roach with having identified the availability of the water from FEMA. Flint remains in a public health emergency and officials have said residents should not drink unfiltered tap water because of rising lead levels while the city used the Flint River as its water source from April 2014 until October 2015. The Journal could not immediately reach a representative of the MSP Emergency Management and Homeland Security Division for further comment. FEMA said the Food Bank claimed two truckloads of water and agreed to pay all transportation costs associated with the donation.

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas
Team Priority – Continue to work on the "Zero Contact Address List" of 959 Addresses.

Map Support

The Apartment List from 2/2/16 was completed today. It appears once all entries are completed, some of the apartment addresses may need to be re-visited. Additional maps showing the 959 addresses with Zero Contacts made have been provided. ARC will continue to work on these sites until completed. The maps and addresses will be included with this plan and take NOTE that the Excel Address List has been updated since being sent out last night to include Site Numbers for each address as well as the franchised addresses.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail, unless specifically directed otherwise by the SEOC.
2. For apartment complexes, use the paper forms to record the contacts you make with residents. For reporting purposes, please report the names of the complex and the number of units per complex that the teams made contact with to the SEOC.

Subject: Scheduled Donations

Unfortunately at this time, I have no donor that has set a consistent schedule for donations. Many organizations have offered to send frequent trucks of donated water, but are unable to set a schedule for those deliveries. This is due to various reasons, such as availability of the truck and driver or operations of their own business. Target, Walmart, Niagara, and Aqua Hydrate are those that have offered up consistent deliveries, but cannot set a date and time of those.

Thanks.
Wendy

Flint Water Inter-Agency Coordinating Committee

Cost Reimbursement Guidelines

1. All individuals seeking reimbursement for costs related to the Flint Water Inter-Agency Coordinating Committee (FWICC) must ensure they are registered with the State of Michigan as a vendor in order to receive payment from the state. Vendor registration can be completed using the Contract and Payment Express located at www.Michigan.gov/CPExpress.

2. Reimbursements for travel costs related to FWICC activities are limited to the approved rates established by the State of Michigan, Department of Technology, Management and Budget (DTMB) which can be located at:
   http://www.michigan.gov/documents/dtmb/Travel_Rates_Jan_2016_509155_7.pdf

3. Requests for reimbursement should be in the form of a cover letter stating that all costs being submitted for reimbursement are directly related to FWICC activities and include the following information:
   - Name of individual to be reimbursed
   - Mailing address that matches the State of Michigan payment system
   - Total amount being requested for reimbursement
   - Signature of individual to be reimbursed

4. Requests for reimbursement must be supported by documentation of the expense, such as lodging receipts and mileage logs, in order to be processed for payment.

5. Requests for reimbursement should be submitted to the following address:
   Grants and Financial Management Section
   Michigan State Police, Emergency Management and Homeland Security Division
   P.O. Box 30634
   Lansing, Michigan 48909

6. Requests for reimbursement will be reviewed by the Grants and Financial Management Section for completeness and forwarded to the FWICC Chair for approval.

7. Once approved, payment for reimbursement will be processed within 7 days.

8. Questions should be directed to Ms. Penny Burger, EMHSD Financial Manager, at 517-284-3991 or burger@michigan.gov.

Team Priority – Apartment List from 2/2/16 and the List of Addresses with Zero Contacts

Map Support
The Apartment List from 2/2/16 remains the priority until completed. Additional maps showing the addresses with Zero Contacts will be provided with this Plan.

Sample Script for Team Members:
We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail, unless specifically directed otherwise by the SEOC.
2. For apartment complexes, use the paper forms to record the contacts you make with residents. For reporting purposes, please report the names of the complex and the number of units per complex that the teams made contact with to the SEOC.

Kroger Warehouse Plan
(Warehouse #2)

Mission

- Overflow for donated and un-palletized water from Clio Warehouse, Food Bank, etc.
- After expiration dates and recall notices have been verified, palletize and re-stock PODs.

Staffing

- DOC Manager
- DOC Supervisor for work crew
- 6 man work crew – DOC
- Adventists willing to assist with the warehouse. Tom Weber is coordinating with Mike from DOC on arranging having them work with current DOC warehouse managers.

Days and Hours of Operation (staggered with Food Bank)

- Fridays – 1 pm –6 pm (open to receive shipments)
- Saturdays – 12 pm - 6 pm (open to receive shipments)
- Mondays – 1 pm –6 pm (open to receive shipments)

Food Bank Hours of Operation

- Saturdays – 9 am – 3 pm
- Sundays – 9 am – 3 pm
- Mondays – 9 am – 4:30 pm
- Tuesdays – 9 am – 4:30 pm
- Fridays – 9 am – 4:30 pm

Intent

This warehouse is only for receiving and not for distribution, therefore will only be open during surges identified from the Food Bank's experience.

This site could turn into a POD as well and hours would be extended. With a large parking lot for citizens to safely park and walk in the front door to acquire filters, cartridges, and water. Also, a recycling center will be located in the parking lot.

State Partners with MSU Student Athletes to Help with Flint Recycling and Water Distribution Efforts

New Recycling Site Open Friday from Noon to 4 p.m.

Flint, Mich. – Student athletes from Michigan State University are partnering with Schupan Recycling, Republic Services and the Michigan Community Service Commission (MCSC) to help with recycling and water distribution efforts in Flint on Friday, Feb. 5, including collection of empty water bottles and distribution of recycling bags and bins.

"We are excited to have students from MSU volunteer their time to help the residents of Flint," said Ginna Holmes, executive director of the MCSC. "The state is thankful to Schupan and Republic for stepping up to help recycle all the water bottles. We're also looking forward to engaging other volunteers in the future to assist with these recycling efforts."

Recycling collection and water distribution will take place Friday from Noon to 4 p.m. in the parking lot of the Northwest Shopping Center, 2629 West Pierson Road, Flint, MI 48504 (corner of Clio Road and W. Pierson Road).

Residents are asked to bring their empty water bottles to this location. Schupan Recycling will be collecting the bottles to process for turning into new products.

Residents also will be able to pick up a blue recycling bin from Republic Services.

Media is invited.

State Encourages Food Establishments to take Advantage of Free Water Safety Inspections

Local and State Leaders Showcase Water Assessments Done at Flint Food Establishments

Flint, Mich. – In an effort to support Flint food-based businesses, Lt. Gov. Brian Calley, along with local and state food regulators and business development officials, provided a behind-the-scenes look at how the Michigan Department of Agriculture and Rural Development (MDARD) and Genesee County Health Department are working with local food establishments to conduct water assessments and ensure food safety precautions are in place.

"Flint has hundreds of restaurants, retail food markets and food processors committed to serving its residents safely," Calley said. "These establishments can now receive free assessments from MDARD and the Genesee County Health Department to ensure food safety precautions are in place."

"In response to this emergency and the need to assess lead levels in water being used at Flint food establishments, MDARD has mobilized 14 food inspectors, working full-time to conduct risk-based compliance assessments and verify adherence to current water source requirements," said MDARD Director Jamie Clover Adams. "MDARD inspectors are assisting the Genesee County Health Department in conducting the sampling and inspections, allowing the health department to focus its efforts on checking other priority facilities in its jurisdiction, including childcare facilities."

Food establishments must take extra precautions to protect food safety during the Flint water emergency. These precautions include having the water tested by an accredited laboratory to prove it is safe to use; installing approved water filters, as needed; flushing unfiltered faucets and hard-plumbed equipment on a daily basis; or using commercially bottled water for all cooking, cleaning/washing and drinking.

"Flint's restaurants and other food establishments are demonstrating they are taking the necessary precautions to reduce potential food safety risks associated with Flint water," said Mark Valacak, Health Officer, Genesee County Health Department. "Safe food preparation and handling is the cornerstone of any food business's success, and we are

MORE

dedicated to working cooperatively with MDARD and the food service establishments we regulate to ensure the safety of our food supply."

The State of Michigan is covering the cost of water sample testing for food establishments on the City of Flint water supply.

"The restaurants, bars, cafes and other food businesses, like the Flint Farmers' Market, in Flint are the backbone of the city's culture and economic success, and help define who we are as a community," said George Wilkinson, Group Vice President, Flint & Genesee Chamber of Commerce. "Whether a relative new-comer or a well-established dining institution, we need to do whatever we can to support Flint food businesses and ensure their success."

Flint has a total of 633 licensed food businesses, including restaurants, food processors and retail grocery stores. Assessments have been prioritized according to risk, with those in known high-lead areas taking first priority, and by request from food establishments. Food businesses who have not yet had an assessment or free water sample testing can call MDARD's Call Center at 800-292-3939 to schedule an appointment.

As of Feb. 4, MDARD has completed approximately 225 initial assessments of food businesses and has begun doing follow-up assessments. If the businesses are taking the required precautions, they are determined to be in compliance with state and federal food regulations. A list of food businesses determined to be in compliance with current water use regulations is available at www.michigan.gov/flintwater. The list is updated regularly.

Flint food businesses not included on the list are not necessarily out of compliance with Michigan food regulations. Some businesses have not yet received a compliance assessment from food inspectors.

Initial water samples taken at the facilities were "first-draw" samples, taken when the water had not been in use for at least six hours. If first-draw samples showed any lead levels, follow-up samples are being taken. MDARD will continue to work with businesses to make sure they are in compliance with water use requirements and assist them in getting water test sample results below detectable levels.

For more information, or to schedule a food establishment water assessment, contact MDARD at 800-292-3939.

Mr. Frank Skaggs, Director
Field Operations Center-East
U.S. Small Business Administration
101 Marietta Street NW, Suite 700
Atlanta, Georgia 30303-2725

Dear Mr. Skaggs,

In May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to using its own water treatment plant drawn from the Flint River. The different properties of the water resulted in leaching of lead from pipes in the city's water infrastructure into the water supply. The consumption of the contaminated water caused increased lead exposure to the citizens. Exposure to lead can cause short and long-term negative health effects. However, the main health concerns are long-term effects in children, such as developmental, cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Officer.

On October 1, 2015 the Genesee County Health Department declared a Public Health Emergency due to the elevated blood lead levels in citizens. In response the City of Flint declared a local State of Emergency on December 15, 2015. Further, on January 4, 2016 Genesee County declared a local State of Emergency and requested a governor's declaration of a state of emergency. A State of Emergency was declared for the city of Flint and the County of Genesee on January 5, 2016 due to the presence of lead in the public water supply above the EPA threshold of 15 ppb.

At least 5 businesses in the area have been impacted due to the nature of this event. A Sample Survey of these businesses was conducted by the Chamber of Commerce to determine the economic impact of those losses. The survey results , which are attached, show that 5 of the 5 businesses surveyed have an average gross revenue loss of 24% for the disaster period as compared to the same period in the previous year.

Based on the survey, I hereby certify, in accordance with the Code of Federal Regulations, Part 123.3, that, in the City of Flint in Genesee County more than five (5) small businesses combined, and more than one (1) individually, suffered substantial economic injury as a direct result of the contaminated public water supply that led to the initial public health emergency on October 1, 2015. I further certify that the degree of economic injury suffered is so severe that financial assistance at reasonable rates and terms is not otherwise available, thereby creating the necessity for federal involvement in the form of subsidized loans.

Sincerely,

Richard D. Snyder
Governor, State of Michigan

There must be at least five (5) businesses to request a disaster declaration. There must be at least one (1) sample business for each county (or political subdivision no larger than a county) which the Governor is requesting be included in the disaster declaration. If the request is for (1) county, there must be at least (5) businesses within the county. If six (6) counties are being requested, there must be at least six (6) businesses, with at least one (1) in each county.

ESTIMATED DISASTER ECONOMIC INJURY WORKSHEET
FOR BUSINESSES

Accurate responses to the questions below will assist in evaluating a request for an economic injury disaster declaration from the U.S. Small Business Administration.

1. Name of Property Owner: The Lunch Studio

   Name of Property Owner: Tracey Wheelyer

   Business/Property Address: 444 S. Saginaw Flint Mi 48502

   Mailing Address: 444 S. Saginaw Flint Mi. 48502

   Telephone Numbers: Business: 810-424-9868 Home _____

2. **Estimated Adverse Economic Impact**

   Did the disaster economically impact your business? If so, when did the impact start and end?
   10-15 (month/year) to 1-29-16 (month/year) . . .

   What were your business' revenues during that period? $ _____

   What were your business' revenues during the same period of the prior year? _____

3. Amount of business interruption insurance received or anticipated, if any: $ 0

4. Provide a brief explanation of what adverse economic effects the disaster had on your business:

   Business went down, I had to rent a water softener, R.O. machine and water cooler -

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas

Team Priority – MSHDA Housing/Apartment List
Priority – City Sections 5, 12, 27, 29, 30
Secondary – City Sections 15, 18, 31

Map Support

Maps will be provided daily to provide detailed information on city sections. Teams will target specific homes not originally reached during the first two rounds of canvassing.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail.

Flint Water Emergency Response
Talking Points for Capt. Chris Kelenske
Congressional & Legislative Briefing 2/2/16

NOT INTENDED TO BE DISSEMINATED TO THE MEDIA OR PUBLIC IN THIS FORMAT

High-level Messages

- Our primary mission continues to be ensuring all Flint residents have access to safe water and are aware of the information and free resources available to them, which include bottled water, water filters, replacement cartridges, and water test kits.

- The health and safety of Flint residents remains a top priority. It is essential that all Flint residents have the water in their homes tested as soon as possible.

- While water filters will eliminate lead in most homes, those with lead levels above 150 parts per billion will need to take extra precaution.

- If levels are above 150 ppb, residents should not drink water from the filtered faucet and should use bottled water only.
    - DEQ and DHHS will visit homes found to have lead levels over 150 ppb for additional testing.

- It's important to note that while we are concerned about this, to date, less than one percent of Flint homes have been identified as having lead levels of this amount, and only 6.3 percent of homes tested so far show levels above the action level of 15 parts per billion.
    - As of yesterday, results had been received for 5,356 homes.

- Results showing lower levels indicate residents should continue following established protocols, which include recommendations that pregnant and nursing mothers and young children drink bottled water as a precaution.
    - Residents are also encouraged to clean the aerators on their faucets to lessen lead sediment. Instructions for how to do this can be found on our website at www.michigan.gov/flintwater.

- Free water testing kits are available at all five fire station water resource sites. Water samples can also be returned to these fire stations for testing.

- Anyone who is unable to get to a fire station to pick up a free testing kit should call United Way 2-1-1 for assistance.

- For the last week, as we've moved into the second phase of our response operations, door-to-door delivery efforts by water response teams continue, but are increasingly targeted to ensure we are reaching every home.

- We also continue to operate five water resource sites at fire stations, staffed by Michigan National Guard soldiers, daily from 9 a.m. to 9 p.m. to provide free bottled water, filters, replacement cartridges, and water testing kits.

- Since January 9, using both door-to-door water response teams and water resource sites at the city's fire stations, we have distributed a total of 244,933 cases of water; 101,911 water filters; and 33,184 water testing kits.

- A recycling plan has also been put into place. The plan includes drop-off sites for recyclables and increased promotion of the curbside pickup already offered to Flint residents.

- In addition, Young's Environmental Cleanup and Schupan Recycling are offering bottle drop-off locations throughout the city, and TerraCycle will recycle PUR and Brita water filter replacement cartridges dropped off at all five water resource sites located in Flint fire stations.

- Due to a continued outpouring of support from persons and organizations wishing to donate bottled water, a new office has been set up to coordinate all deliveries. Inquiries should be directed to FlintDonations@michigan.gov or by phone at 517-420-4162.

- Persons wishing to help can also visit www.helpforflint.com for donation options.

- All of the resources I have mentioned in this update can be found by visiting www.michigan.gov/FlintWater or by calling United Way 2-1-1.

INFORMATION – IF ASKED...

Supplemental Appropriation Request

- The State Budget Office has assembled an emergency supplemental budget request for the current fiscal year to address the immediate funding needs for the Flint water crisis.

- The supplemental request was put together by reviewing the financial needs submitted by various state agencies as well as the City of Flint.

- The total amount of the supplemental request is $22.6 million from the general fund; when federal and restricted funds are included, the supplemental request totals $28 million.

- While we know that more money will be needed to address the water crisis in Flint for the long term, this supplemental funding will provide the immediate financial support that is necessary.

- This funding will provide additional bottled water, faucet filters and lead-testing kits for Flint households, as well as expanded healthcare initiatives and wraparound services, such as diagnostic testing, nurse visits (including more school nurses) and environmental assessments, as well as access to child and adolescent health centers. Funding also will help the city alleviate the need for water shutoffs, and old fixtures will be replaced in schools, daycares and hospitals.

Possible Lead in Bottled Water Issue

A few residents have raised concerns about lead being present in the bottled and canned water that is being distributed through the water distribution sites.

We believe these concerns might originate from individuals using a total dissolved solids test strip in an attempt to test for lead. This test strip does not measure lead, and therefore would not give an accurate result.

However, we take every concern seriously, and therefore the DEQ is expeditiously testing the bottled and canned water being distributed in Flint to ensure it is lead free. In the meantime, we have taken the extra steps to hold back product bearing similar product codes until the test results come back. To assure incoming product is lead free, we will begin testing batches of new product and are working with the manufacturer to assure product integrity moving forward.

Water Resource Site Locations

- Water resource sites are open daily from 9 a.m. to 9 p.m. and are located at:

  Fire Station #1
  310 East 5th St.
  Flint, MI 48502

  Fire Station #3
  1525 Martin Luther King Ave.
  Flint, MI 48503

  Fire Station #5
  3402 Western Road
  Flint, MI 48506

  Fire Station #6
  716 West Pierson Road
  Flint, MI 48505

  Fire Station #8
  202 East Atherton Road
  Flint, MI 48507

Filters

- When used properly water filters remove 99% of lead in water. Residents are urged to use filtered water for drinking, food preparation, brushing teeth and watering pets. Unfiltered water may be used for bathing and cleaning.

- One filter and one replacement cartridge are being provided per household initially. Each filter is good for approximately 100 gallons of water. The filter has an indicator on it that will turn from green to red when it needs to be replaced.

- The filters have a two to five-year, non-replaceable battery that operates the indicator light.

- There is a detailed video posted on www.michigan.gov/flintwater that explains how to properly install a water filter cartridge. An instruction sheet also has been provided to 2-1-1 to share with those individuals without internet access.

Resources for homebound individuals

- 2-1-1 is collecting a list of limited mobility or homebound individuals needing home delivery of water resources and is providing that information to the Genesee County Sheriff's Department, who is making these deliveries.

- The Plumbers and Pipefitters Union has agreed to provide free water filter installation to homebound residents needing assistance. This is also being coordinated through 2-1-1.

Water Bills

- The City of Flint is responsible for issuing water shut-off notices for non-payment. Per the Mayor, the city has put a halt on all notices or disconnections. Shut off notices have not been mailed since the beginning of December.

- The city advises that there has been no disconnection of service for nonpayment on an active account since August 7, 2016.

- The City is currently reviewing its policy on shut off notices in light of the declared emergency and amended preliminary injunction order issued on January 11, 2016.

- The City has a legal obligation to bill for services provided by its utility services department and to maintain operation of both with water and sewer systems.

- Water payment inquiries should be referred to the City of Flint.

Chronology

- October 1, 2015: Public Health Emergency Declaration issued
- December 14, 2015: State of Emergency declared by City of Flint.
- January 4, 2016: Genesee County Board of Commissioners declared a local emergency
    - Genesee County also requested a Governor's Declaration of Emergency with the local declaration.
- January 5, 2015: Governor declared State of Emergency
    - State Emergency Operations Center activated in Lansing to coordinate state response
    - Joint Information Center (JIC) activated on January 6, 2016 in Lansing; moved to Flint on January 11, 2016
- January 9, 2016: Water resource sites established at fire stations. 9 a.m. to 4 p.m. on January 9, 2016 but 9 a.m. – 9 p.m. starting January 10, 2016.
- January 12, 2016: Water resource teams began going door-to-door (4 teams)
- January 12, 2016: Governor Snyder issued an Executive Order activating the Michigan National Guard
- January 14, 2016: Governor requested Presidential declaration of emergency and expedited major disaster for Genesee County
- January 16, 2016: President Obama approved the Governor's request for a federal emergency in Flint.
    - Denied request for major disaster
- January 20, 2016: Governor Snyder submitted an appeal to President Barack Obama following the denial of a major disaster declaration.
- January 22, 2016: President Obama denied Governor Snyder's appeal for a federal disaster declaration to aid Flint.
- January 28, 2016: Gov. Rick Snyder today issued a proclamation calling for an extension to the emergency declaration in the city of Flint and Genesee County until April 14, 2016.

NEWS RELEASE

FOR IMMEDIATE RELEASE
February 2, 2016
Release #: 27

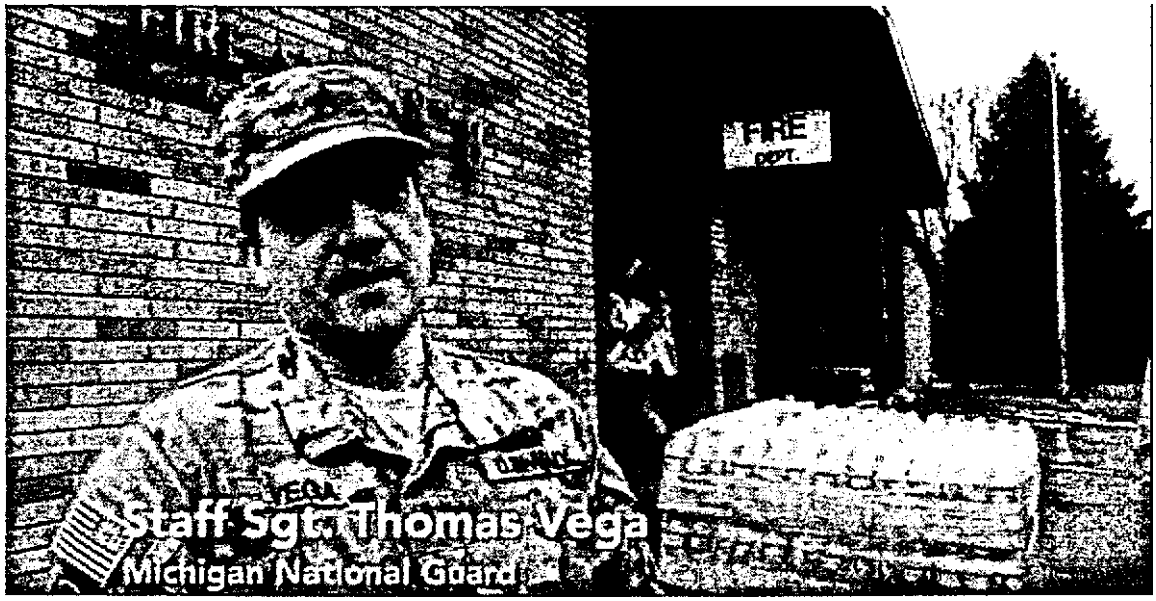
Michigan National Guard Continue Efforts at Water Resource Sites

FLINT, Mich. Approximately 70 Michigan National Guard Soldiers continue to assist with the distribution of bottled water, water filters, replacement cartridges and water testing kits at the water resource sites located at five of the city's fires stations.

As part of the distribution process, residents seeking water filters and replacement cartridges are asked to share their address. This data is being collected and mapped in real-time to assist with long-term recovery and help water response teams know where to focus their door-to-door efforts.

It is important to note that photo identification is not required and no resident will be denied resources.

Learn more about the Michigan National Guards efforts by viewing this video.



MORE

Flint residents can pick up water test kits, water filters, filter cartridges, and cases of bottled water. Also, residents can return filled water test kits at any one of the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

The water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a water bottle and filter cartridge recycling site)
310 East 5th St.

Fire Station #3
1525 Martin Luther King Ave.

Fire Station #5 (also a water bottle and filter cartridge recycling site)
3402 Western Road

Fire Station #6
716 West Pierson Road

Fire Station #8 (also a water bottle and filter cartridge recycling site)
202 East Atherton Road

All water filters distributed at the water resource sites are certified by NSF International for lead reduction. Individuals wishing to verify that a specific filter is NSF-certified can do so via the NSF website.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by visiting www.helpforflint.com or by calling 211.

Protesters: 'Arrest Rick Snyder! Make him drink the water!'

By Ryan Stanton | ryanstanton@mlive.com

It's hard out here for a governor.

Facing continued pressure to resign over the Flint water crisis, Michigan Gov. Rick Snyder has been **publicly heckled** while trying to dine out in Ann Arbor, he's been the subject of criticisms written in chalk on downtown sidewalks, his face is on wanted posters plastered around multiple cities, and then there's the protests.

Dozens of protesters demonstrated once again Wednesday night outside the embattled governor's personal condo in downtown Ann Arbor.

Protest organizer Jan BenDor of Michigan Rising said they're planning to continue holding weekly protests outside the Main Street loft condo the governor and his wife moved into this past year. The Snyders had been living in a gated community just outside the city before deciding to make the move downtown.

"We're just hoping to keep this situation in the public eye," BenDor said of the Flint water crisis. "Often even the worst tragedies just disappear after a week or so of concern, and this is a long-term horrible thing that has happened in our state. So, we want to make sure everybody keeps helping with this."

Protesters: 'Arrest Rick Snyder! Make him drink the water!'

MDHHS begins investigation into rash reports in Flint's water crisis

Free iPhone app shows Flint residents water distribution sites in city

UM-Flint's enrollment dropped 3 percent after water crisis went national

All Stories

The condo's window blinds were closed Wednesday night, and it wasn't clear that anybody was home, but protesters still chanted loudly.

"Arrest Rick Snyder! Make him drink the water!" they yelled as they marched along Main Street.

"Jail the nerd!" they chanted in unison multiple times.

"No more procrastination! We want incarceration!"

The protesters didn't channel all of their energy into anger and frustration toward the governor, though.

They also handed out fliers informing passersby how they can help the residents of Flint, with suggested charities to support.

"We're encouraging people to donate to the **FlintKids.com** website for the long-term health care of the poisoned children," BenDor said. "And we are also encouraging donations to some other agencies that are doing uniquely good work."

The flier also directs people to a CrowdRise page for a charity for Flint residents called **Crossing Water.**

Ann Arbor resident Susan Fecteau was among those protesting. She's also behind the anti-Snyder sidewalk chalk messages seen around downtown.

"You enjoying your clean water up there, Rick?" read one of the messages written on the sidewalk right outside the governor's window Wednesday night.

Fecteau said she's been out chalking just about every day for weeks now and she's been watched and photographed. She's not sure who's doing it, but somebody has been wiping away her messages after she leaves, but she keeps going back.

She said Wednesday's protest was about making sure people are fully aware of what has happened in Flint.

She said people need to take back their government.

"People need to to get educated about it, and understand that when we vote guys in like this, this is what happens, this is the result," she said.

"And I've been stunned as I've been talking to people. I'm surprised people still don't know what has happened. People don't understand about the emergency manager law. They don't understand about FOIA and that he's FOIA-proof."

Not everyone was happy with the protest, though.

Paula Porter, an employee of the Four Directions store on the ground level under the governor's condo, came out and confronted the protesters. She questioned whether what they were doing was constructive or effective.

"I'm on their side, but I'd prefer they go to Flint," she said. "I've lived in Flint. Go spend time in Flint, get things done."

Porter said she doesn't think the governor is going to care much about what protesters outside his condo have to say.

A city police officer was on the scene at one point responding to complaints that people were stuffing fliers into one or more mail slots.

Dave Murray, a spokesman for the governor, said in response to the protest that Snyder is focused on the people of Flint, not politics.

"He's making sure Flint residents are getting the assistance they need as we move forward, addressing issues related to health, education and infrastructure," he said.

"Today the governor discussed his $30 million proposal to bring relief to Flint residents who have been paying for water they cannot use to drink or cook with. This is on top of the $28 million our partners in the Legislature approved last week to provide immediate relief and the $9 million approved in October.

"People across our state, from both sides of the aisle, are coming together to help the people of Flint."

Edible Flint Works to Address Water Emergency through Urban Gardening

Urban Agriculture Organization Makes a Positive Impact in Flint Communities

Flint, Mich. – Since 2009, Edible Flint has been working with individuals and institutional partners to support Flint residents in growing and accessing healthy food in order to reconnect with the land and each other. As a part of their continuing outreach to Flint's residents, Edible Flint is gearing up to ensure a bumper crop of lead fighting vegetables and address concerns over urban gardening in Flint.

Edible Flint supports more than 300 community and individual gardens in the city through its Garden Starters program. This program provides gardening classes, technical expertise, resources and supplies. In response to the recent Flint water emergency, the organization has plans to expand their programs as they prepare for the upcoming gardening season.

Not only are they looking to support additional food gardeners through their Garden Starters program, they are currently reviewing the selection of seeds and transplants being distributed this year to ensure vegetables that fight lead exposure are included. In addition, Edible Flint, which tests approximately 50 new gardens each year, will be increasing the number soil tests (including lead screening) for Flint's food gardens. They also intend to provide hose filters for garden irrigation for program participants.

"Edible Flint is committed to supporting Flint residents by providing access to resources to grow nutritious fresh food," said Terry McLean, Michigan State University Extension (MSUE) Educator, and Edible Flint Leadership Board Member. "Through our urban gardening program we hope to provide a catalyst for recovery and community engagement."

McLean added, Edible Flint has been working with MSUE partners to reassure gardeners of the safety of eating and growing vegetables grown in Flint's community gardens.

For more information on Edible Flint, visit http://www.edibleflint.org.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/26/2016 08:00:00
Operational Period End:	02/02/2016 08:00:00
Situation Report No.	27
SEOC Status:	Full
SEOC Hours of Operation Begin:	02/01/2016 08:00:00
SEOC Hours of Operation End:	02/01/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (February 1, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded rapid response requests.
- Fielded Governor's office requests.
- Facilitated distribution team calls.
- Coordinated warehouse deliveries for donated and purchased water.
- Continued to check the status of the Food Bank warehouse.

JIC:
- Updated internal talking points about the ongoing Flint water emergency.
- JIC is planning to issued a news release regarding a meeting between DEQ and EPA, and the continued interagency partnership.
- JIC is working to set up a legislative and congressional briefing call this week.

Recovery Branch:
- Attended local briefing, SEOC state agency briefing, and distribution process meetings.
- Worked with GIS to develop an area map and spreadsheet with addresses based on data specified as "follow up required" for Red Cross teams.
- Worked with GIS to map and analyze city of Flint apartment buildings to send out water response teams.
- Worked with GIS to develop a map and street addresses for franchise customers to send out to Red Cross water resource teams.
- Coordinated meeting with MCSC, local EOC, and ARC regarding volunteer coordination and reporting.
- Team priority visited today: franchise customers.
- City sections visited today: franchise customers, 22, 33, 4, 7, 1, 32, 13, 12, 15, 37.
- City sections scheduled tomorrow: franchise customers, additional to be determined.
- 10 American Red Cross teams scheduled for Tuesday, February 2, 2016.

o Data is for 2/1/16 as of 5:00 pm:
o Total homes visited:
- 11,876 (round 3 total).
- 1,686 (total 1/31).
- 1,164 (today).

o Water cases (liters calculated by multiplying # of cases x 12):
- 87,792 liters or 7,316 cases (round 3 total).
- 13,932 liters or 1,161 cases (total 1/31).
- 5,796 liters or 483 cases (today).

o Replacement cartridges:
- 1,866 (round 3 total).
- 144 (total 1/31).
- 473 (today).

o Faucet filters:
- 6,228 (round 3 total).
- 407 (total 1/31).
- 437 (today).

Planning Section:
- Published Sit Rep #24
- Published IAP #8.
- Compiled a list of activities from all state agencies taking place this week for the Governor's office.
- Trained additional Planning Section staff.
- Participated in IAP development process to include tactics meeting and planning briefing.

Operations Section:
o Attended the unified command group meeting to determine tactics for the operational period.
o Facilitate daily local EOC and SEOC state agency briefings
o Participated in the development of the Incident Action Plan including the tactics and planning briefing.
o 20 ARC volunteers were active across the operation today.
o 30 event-based volunteers were active across the operation today.

o Warehouse Numbers as of 1600:
❑ Water (liters):
• 600,882.
❑ Filters (faucet):
• 49,016.
❑ Replacement cartridges:
• 373,190.
❑ Test Kits (prepped):
• 23,795.
o PODs (1700 1/31 – 1600 2/1):
❑ Water (cases):
• 110,700 liters or 9,225 cases.
❑ Filters (faucet):
• 317.
❑ Replacement Cartridges:
• 543.
❑ Test kits:
• 798.

Finance Section:
• Developed template for state agency costs to be reported on a weekly basis.
• Created document for Recovery Branch Chief outlining requirements for possibly using donations toward 25% match of federal funds.
• Reviewed state agency costs submitted to date.

GIS Branch Updates:
• Prepared for a possible TV interview about GIS.
• Completed and distributed daily maps.
• Updated parcels with newest franchise customers.
• Prepared maps for Captain Kelenske to use with Executive Council.
• Prepared report on maps for Governor's office.
• Created a map of apartments and assisted living centers.

DTMB:
• Provided translation of lead fact sheet and printing for water testing document.
• Provided four drivers to assist with transportation of supplies on Monday, three for the point of distribution sites and one at the food bank.
• Provided assistance to ensure www.helpforflint.com and www.flintvolunteer.com are not blocked by state network.

DHHS-CH:
• CHECC remains at a Level 2 activation and continues to staff the hotline for health related questions.
• MDHHS participated in the Unified Command Group (UCG) call this morning.
• Requested that MDHHS Environmental Health Director include EPA on the notification for homes in Flint that are testing for high lead levels.
• Worked with MDHHS PIO and DTMB on the translation of materials on the Flint Water website.

DEQ:
• 382 test kits delivered to lab.
• Coordinated with the EPA for participation on the High Lead Home Strike Force.
• Coordinated with EMHSD to post DEQ reports to the Flint water website.
• Finalized EPA tracking sheet and summary and worked on new tracking spreadsheet for EPA Flint Drinking Water Task Force and Safe Water drinking plan.
• Drinking water test results to date (9/3/15 to 2/1/16):
o 5,227 out of 5,590 (94%) are at or below 15ppb.

Local EOC Update:
• Coordination of rapid response deliveries to homebound residents and special locations.
• Finalized rapid response delivery plan with ARC, Team Rubicon, Michigan Community Service Commission and SEOC.
• IC/Genesee County EMC attended county commission meeting, briefed commission on response efforts, and addressed questions and concerns.
• Addressing public concerns, including rumors of availability of FEMA relocation assistance.
• Coordinating with charter schools outside the city of Flint/Flint water system for supply of water resources to students that are Flint residents.
• Attended conference call with Dow Chemical to discuss potential donation of filter systems. Will provide spec sheets to SEOC Logistics.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
3. Improve and maintain the public information strategy and process.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT and the FWICC

4. Develop a long term public health and services plan.
6. Develop an overview of possible assistance programs.
9. Enhance situational awareness and common operating picture of all activities.
5. Continue to maintain adequate staffing to support operational requirements.

Emergency Declarations

Local Declarations

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 1. The JIC was operational until 11 p.m. on January 31, 2016.

State agencies at the JIC included the Michigan State Police, Michigan Community Service Commission, Michigan Economic Development Corporation and Departments of Environmental Quality, Natural Resources, Transportation, Health and Human Services, and Military and Veterans Affairs. The Genesee County Sheriff's Office and the American Red Cross were also present. Tasks accomplished:

- Media hotline staff answered more than 20 emails and phone calls ranging from questions on a meeting between DEQ and EPA officials, pets and lead, and viewing water sample testing.

- Key agency PIOs fielded multiple news inquiries throughout the day, including conducting or scheduling interviews with Michigan Radio, Lansing State Journal, Detroit Free Press, and WNEM TV 5.

- Updated internal talking points about the ongoing Flint water emergency.

- Continued routing public information materials for approval, including communications from MDHHS and MDARD.

- JIC is planning to issue a news release around 7 p.m. regarding a meeting between DEQ and EPA, and the continued interagency partnership. This news release will take the place of the nightly numbers release.

- Updated ICS-204 with new task accomplishments and update work requirements.

Agriculture and Rural Development (MDARD)

As of 2/1/16, MDARD completed water assessments at all 18 food businesses in the high risk area and 105 in the medium risk and 80 in other areas (numbers differ from those reported 1/29/16 due to risk reclassification of some businesses.) The overall assessment compliance rate is 69.8%. We also have collected 84 water samples to date, with more scheduled for this week.

MDARD Environmental Stewardship Division (ESD) Staff has been working with several local entities regarding urban ag/gardening questions related to the Flint Water issue. A conference call is schedule for 2/2/16 to better understand how we can coordinate efforts.

MDARD Animal Industry Division (AID) held a conference call 1/29/16 with 12 industry/academic/medical/federal partners. The call created situational awareness among partners and stakeholders interested in the pet issue related to Flint water. AID is partnering with MSU College of Veterinary Medicine (CVM) to address animal issues, developing information pieces for the public and for veterinarians (with JIC approval), testing and laboratory issues. Also, MSU CVM is working with local MSU staff to identify specific community needs. AID is working with individual veterinarians/pet owners in the area on an individual basis as needed.

American Red Cross (ARC)

The American Red Cross deployed and supported 10 Water Response Teams on Monday.
The Volunteer Reception Center (VRC) was in operation today. The VRC will operate from 9am to 5pm through Sunday.
Assembly of water test kits will resume when materials become available.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Maintaining media awareness regarding situation and community activities.

Forwarded Metro Times assessment of Bill Signing event coving Flint Recovery to MSP-SEOCPIO in follow up to last week's discussion on same subject:
http://www.metrotimes.com/blogs/archives/2016/02/01/gov-snyders-flint-aid-bill-signing-a-pr-disaster

Reviewed coverage of Baltimore Pastor Dr. Jamal Bryant's mid-day "The Environmental Justice Rally" today
The assembled group has collected some 47,124 bottles of water. The collection of water will be distributed among six churches: First Trinity M.B. Church, 1226 Beach Street; Cathedral of Faith Church of God in Christ 6031 DuPont Street, Christopher Martin, Pastor; Quinn Chapel AME Church 2101 Lippincott Blvd, Rev. Gerald Cardwell, Pastor; United Outreach Ministries 1429 Roosevelt Ave., LeMarcus Keels, Pastor; and Kingdom of Heaven Ministries 2430 Dutcher Road. The rally was open to the public and Flint, MI Mayor, Karen Weaver was scheduled to give remarks. See more at: http://afro.com/baltimore-pastor-jamal-bryant-heads-to-flint-to-lead-environmental-justice-water-rally/#sthash.L6Ir1UiT.dpuf

Discussed Hispanic/Latino outreach with LARA and use/distribution of resource materials in Spanish; discussed grass-roots activity vs Water Resource Teams engagement

Discussed with MDE and DHHS data inquiry of individuals who may have left the respective Flint service areas for other Michigan or national points of service - may be a possible avenue for finding at-risk/high risk individuals exposed or entitled to services

Forwarded list of Departmental activities to Planning inquiry:

* Michigan Department of Civil Rights (MDCR) continues to try and track down information/materials that have been or are scheduled to be translated into foreign languages and American Sign Language (ASL). MDCR is also trying to confirm what has actually been distributed on the ground in Flint and to whom/which agency or entity. (We have been getting many questions from various organizations related to these communities).

* MDCR Community Relations Division Arab American Liaison Charles Schoder will attend a convening by the Genesee Health System to discuss Flint water issues on 02Feb16 in Flint

* The Hispanic/Latino Commission of Michigan will host its business meeting on Wednesday, 03 Feb from 12:30-14:45 at the Hispanic Center of Western Michigan, 1204 Grandville Ave. SW, Grand Rapids, 49503. LARA Director Zimmer will attend the

meeting and discuss possible ways they can be of assistance (Note: This is due to EO2016-3 transferring the three ethnic commissions from MDCR to LARA)

* MDCR Communications Director Vicki Levengood will be at the JIC 03 Feb and 04 Feb (Wednesday and Thursday)
* MDCR Communications Staff Lisa Collins will be at the JIC 02 Feb and 03 Feb (Tuesday and Wednesday)

Community Health (MDCH)

The CHECC remains active at a Level 2, and continues to staff the hotline to answer any health-related questions that 2-1-1 is unable to answer in order to support GCHD.

Contact Information for the MDHHS Environmental Health Director was provided to the Paul Smith from the Governor's Office this afternoon at his request, to discuss blood lead level data for a dashboard that is in development.

Requested that MDHHS Environmental Health Director include EPA on the notification list for homes in Flint that are testing high for lead, at the request of DEQ. The notification is currently being provided to the GCHD. EPA would like to be notified at the same time if possible.

Worked MDHHS PIO and DTMB on the translation of materials on the Flint Water website, as well as updating outdated information that is currently on the website at the request of MDARD. Forwarded Aerator informational document from the JIC to DTMB for translation as well. Working with LARA to ensure all documents are translated in not only Spanish, but also Mandarin and Chinese.

Confirmed that Dr. Eden Wells will serve as the MDHHS representative for the FEMA-Congressional Call tomorrow. Coordinated with the MDHHS PIO to prepare Dr. Wells for that report.

Provided the Flint Blood Lead Count Report by zip code to the SEOC and the Lt. Governor's representative in the SEOC, who had requested the information previously.

Corrections (MDOC)

We continued operations at the warehouse and all PODs were well supplied.

We continue to keep trucks dedicated to delivering to individual PODs and have Rapid Responses ready for any POD that gets to a critical level of supplies.

382 Water Samples were collected and delivered to the DEQ Lab in Lansing.

We had 17 employees and an SAI work crew on the ground in Flint today. We continue to staff the SEOC from 0800-2000, 7 days/week.

The overhead bay door was damaged yesterday by one of our drivers (Rod Ridgeway). It was reported to the Local EOC and Lt. Russo completed an accident report as there was damage to the facility.

Education (MDE)

1. Michigan School for the Deaf. Report from MSD that two of the three new drinking fountains were installed this weekend (Jan 30-31). Landlord said he anticipates mid-week, this week, to install final new drinking fountain. Based on that, MSD contacted Joe Madziar, and he indicated next Friday (February 5) would be a tentative date for LARA to schedule Stevens Hall testing.
2. MDE completed request for listing of all Food Programs and Organizations within 16 zip code area. This spreadsheet has been uploaded to the Activity Log. Marla Moss included narrative that outlines efforts of MDE related to Food Programs that has been included in Activity Log for Education as well.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

382 samples were delivered to the lab this morning.

Coordinated with EPA for participation on High Lead Home Strike Force.

Coordinated with EMHSD for DEQ to obtain ability to upload DEQ reports to the Flint Water website.

Finalized EPA tracking sheet and summary and worked on new tracking spreadsheets for EPA Flint Drinking Water Task Force and Safe Drinking Water Plan.

All required postings made it to web by EPA timeline.

Human Services (MDHS)

Working with MDEQ on some information regarding water testing.
Went to Flint SOB, met with Chief Deputy & staff. Received direction to support them from the SEOC working with several other

state agencies already engaged.
CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Updated the LARA Executive Team

LARA's Bureau of Services for Blind Persons has staff assigned to and living in Flint. They will be reaching out to these clients covered by BSBP.

LARA's Michigan Office of New Americans is processing translation requests for Arabic, Mandarin and Hmong.

LARA continues to monitor DEQ's test results for Health Care Facilities, Child Care Facilities, Adult Foster Care Homes and Schools.

Military and Veterans Affairs (DMVA)

1. DTG: 0113002016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC:Ssg Gazzeny, Darryl L. Cell Email: armyinfantry31@yahoo.com

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: 1-125 IN has 3 Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs).Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. SEOC has the POC with MDOT. Lt. Benke will be linking up with MDOT technician to do a visual reconnaissance.

1.) Workers from the City of Flint determined that they do not have the capabilities to support the road sign warnings. Local EOC was working through the Genesee County Road Commission and determined that they do not have the recourses to sustain our long term operations.

b. Flint City Electricians have assessed outside lighting issue at station 5 and 8. In addition, they will be fulfilling long requested work order for maintenance on all lighting at those stations. Station 8 work order to be initiated NLT 01FEB2016 0730.

8. PERSONNEL: ! Soldiers are currently assigned to the POD operations. 3 Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8. 12 Soldiers were released and conducted reverse RSOI. 12 new Soldiers will report 2JAN2016 in support of TF Flint.

9. INTELLIGENCE / FORCE PROTECTION: Michigan militia did establish a presence within the AO. The intentions were not harmful and in support of efforts made to resolving issues to residents of Flint.

10. LOGISTICS: In support of recycle project sponsored by Schupon, the special purpose recycle bags have not been distributed to POD operations.

11. COMMUNICATIONS: No communications issues at this time.

P: 800 MHz radios issued to PODs and WRTs.
A: RRF cell phones alternate for WRTs.
C: Personal cell phone
E: Runner

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:
• POD operations are still functioning well. We are trying to improve the efficiency, professional appearance, and long-term establishment of the POD's, but, overall the POD's operations are remaining successful.
• Recycling has been implemented at PODs 1, 5, and 8. Recycling is happening frequently but at a restriction due to the lack of supply of clear recycle bags given from schupan..
• Consolidated Station Report OUT (last 24 hours)
Bottled water-3523 Water (Gallons)-244 Lead Testing Kits-235
Pitcher (23 cup)-0 Brita Faucet Filter-136 Brita Replacement Cartridge-186
Pur Filter-162 Pur Replacement Filter-346

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan.gov are being forwarded to the Operations Lt. The phone number for the on duty Operations Lieutenant is 517-241-8000

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management with daily updates and resource requests received.

DTMB Print & Graphic Services to provide translation of Lead Fact sheet and printing for water testing document.
DTMB providing four drivers to assist with transportation of supplies on Monday, three for the point of distribution sites and one at the food bank.
Provided an AT&T conference line for the JIC to use to conduct media conference call.
Provided assistance to ensure www.helpforflint.com and www.flintwolunteer.com sites are not blocked by State network.
Provided building access and parking for employees and Federal partners in the SEOC and Flint State Office Building.
Provide Constitution Hall conference room until February 29 for DEQ to use

Transportation (MDOT)

MDOT is providing traffic measures at Fire Station #6 on Pierson Rd. and Fire Station #3 on Martin Luther King Blvd:
-4 portable changeable message boards (2 each site).
-100 grabber traffic cones (narrow reflective cones) (50 each site)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

Cc: Katarsky, Anthony (MSP)
Subject: FW: Support EOP, updated template and PI annex
Attachments: support eop_public info.docx; Support EOP template.docx

See attached. The consultant could look at the following:

- Develop plans and procedures for establishing a Public Information Center and Joint Information Center for an emergency or disaster
    - Position Procedures
        - Lead Public Information Officer (PIO)
        - Information Gathering Assistant PIO (Product Writer, Media Monitoring)
        - Information Dissemination Assistant PIO (Media Inquiry, Website, Public Inquiry, Functional Needs, Media Room Liaison, Social Media)
        - Administrative Support (Logistics)
        - Community Outreach Assistant PIO (Neighborhood Watch, Faith-Based Organizations, Nonprofits, Private Sector, Businesses)
        - Intragovernmental Affairs Assistant PIO (City Council, County Commissioners, etc.)
    - Operations Procedures
        - Information Gathering Operations
        - Information Dissemination Operations
        - Administrative Support Operations
        - Community Outreach Operations
        - Intragovernmental Affairs Operations

This is a great document that breaks down different ways to conduct a JIC. While it may not be how we exactly do things at the state, it's a good foundation.

I have located $25,000 to assist in paying for the FWATF communications needs. I would like added to the scope of work for them to update the Local Emergency Operations Support Plan (Pub 204) and train and exercise the plan with appropriate personnel. I attached the template we provide locals to use in developing the plan. Flint has a plan in place but with everything going on and based on interactions recently I am not convinced it is followed or if they even know about it. I am certain the new Mayor is not aware of the Local Support Plan.

Please let me know if you need additional on this or have questions.

Subject: RE: Genesee County Health Department EOC 11/5/15

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Genesee County Health Department and McLaren's Blood lead screening clinic tested 39 children.
- Sixty filters and 60 cartridges were distributed at the lead clinic.

- Dr. Mona Hanna-Attisha gave a presentation this morning to Head Start's Health Advisory Board regarding lead. It was called "Lead Exposure and Head Start: Tipping The Scale"
- As of today, over 13,469 filters distributed.

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- (Updated information) Genesee County Health Department's Burton Clinic staff have distributed 2,000 parent packets to the Genesee Intermediate School District, 450

parent packets to Genesee County Community Action Resource Department, 50 parent packets to Representative Neely, 250 parent packets to Race to the Top Childcare, and electronic distribution to all day care Flint list serve.

- Genesee County Health Department Board of Health, Kay Doerr, distributed a YouTube link https://youtu.be/hezVLFW8ums that features Flint resident, Melissa Mays for our review.

- Genesee County Health Department's Burton Clinic will host a lead screening clinic tomorrow, November 5. Clinic hours are 8:00 am to 12 noon and 1:00 to 4 pm.

- The City of Flint's DPW office in the North Building of the City Hall complex on E. Fifth Street (next to the Flint Police Department) will have filters and replacement cartridges for distribution.

- Genesee County Health Department distributed 100 water filters to Genesee County Community Action Resource Department.

- Mass Transit Authority (MTA) will assist Genesee County Health Department with the distribution of water filter systems (Brita® and Pur) to Your Ride customers.

Subject: RE: Water Contracts
Attachments: Absopure.docx

Chris -

There are a couple of State contracts that we could use, Absopure and Safeware.

I spoke with the contact with Absopure and although this is not a Statewide contract, they are willing to extend the pricing to the locals. This is their peak processing season and suggests putting in orders as soon as possible so they have quantities on hand should the water situation worsen. The locals can contact Art Amelotte (aamelotte@absopure.com) at Absopure and reference the SOM Contract No. 071B4300122 and use their own purchase orders. (Sheet attached)

We also have the Safeware contract 071B2200059 that the locals may contact too. They may contact John McLoughlin (jmcloughlin@safewareinc.com) at (800) 331-6707 ext. 1240 or cell or Rick Bond (rbond@safewareinc.com) at

If you need additional information or clarification, please let me know.

Jeanette

Jeanette

Can you let me know what contracts we have in place for water (bottled or other) that the locals would be able to utilize? This is in case the algal bloom in Lake Erie gets worse as the Toledo water plant supplies water to some areas in Monroe County.

If they locals want to use that contract (with their funds) is there a process for that or do they just call them?

Thanks

Chris

NAME & ADDRESS OF CONTRACTOR:
Absopure Water Company
8845 General Drive
Plymouth, MI

PRIMARY CONTACT EMAIL
Art Amelotte

Director Tom Frieden
Centers for Disease Control and Prevention
1600 Clifton Road
Atlanta, GA 30329

Secretary Burwell, Administrator McCarthy, Administrator Fugate and Director Frieden:

Recent developments regarding the level of lead in the water in one of the communities I represent, Flint, Mich., have raised significant concerns about the safety of its drinking water. For this reason, I am requesting immediate resources to provide safe drinking water to the residents of Flint until additional testing can be completed that confirms the water is safe, particularly for young children.

Although the city of Flint and the Michigan Department of Environmental Quality have conducted tests and taken the position that the lead level in the water is safe and below the action level, there are significant questions about the efficacy of their testing. In fact, Dr. Marc Edwards of Virginia Tech University, an established drinking water expert, conducted his own tests as part of a study that determined the water in Flint was above the lead action level.

Additionally, yesterday the Greater Flint Health Coalition, a group of health professionals in the community, released a report showing elevated blood lead levels in residents in Flint, particularly in young children. In response, the Coalition has requested that the Genesee County Health Department release a health advisory indicating that the water in Flint is unsafe to drink.

Thus, I am requesting resources from your agency to provide clean drinking water to the residents of Flint until additional testing can determine when the water will be safe to drink and a long-term solution can be implemented.

This is a serious health issue, particularly for young children, and until the water is demonstrated to be safe, immediate action must be taken to ensure Flint's residents have potable drinking water.

I look forward to working with you and thank you for your immediate attention.

Sincerely,

Dan Kildee

The Honorable Dan Kildee
United States House of Representatives
227 Cannon House Office Building
Washington, D.C. 20515

Dear Representative Kildee:

This is in response to your letter of September 22, 2015, to Federal Emergency Management Agency (FEMA) Administrator Craig Fugate, as well as the U.S. Department of Health and Human Services, Centers for Disease Control and Prevention and the Environmental Protection Agency. You requested federal assistance to provide safe drinking water to residents of the City of Flint, Michigan, until additional testing confirms that the water is safe. Administrator Fugate requested that I respond to you because Michigan is within FEMA Region V.

As you may be aware, the Robert T. Stafford Disaster Relief and Emergency Assistance Act, Public Law 93-288, as amended, authorizes FEMA to provide federal assistance to a state after the governor requests that the president issue a disaster declaration and the president approves the request because it has been determined that the severity and magnitude of the incident exceeds local, tribal and state capabilities. If providing safe water to its residents is beyond the city's capability, the city, through Genesee County Emergency Management, should contact the Michigan State Police Division of Emergency Management and Homeland Security. However, in this situation, it may be more expedient and practical to pursue water sources from other local or private sector entities.

If you have questions or would like additional information, please contact me or have a member of your staff contact my Congressional Affairs Specialist, Dan Shulman, at (312) 408-4427.

Sincerely,

Andrew Velasquez III
Regional Administrator

Subject: FW: water testing update-county buildings

Hello, this is a FYI ref water testing in County Bldgs in Flint. I also learned today that some of the initial water testing was done on faucets with aerators – the testing was positive for lead. They took the aerators off and found the aerators full of sediment. The same faucets were tested again without the aerators- the water tested fine and without lead limits. They are going to check drinking fountains in the schools to see there is something similar in that respect to be causing the elevated testing.

The meeting at the Health Dept went well. They have instituted their ICS and are going to hold daily briefings everyday at 1:00pm and an email updates/briefings to the partnered agencies. They are going to roll this out at the meeting tomorrow at the United Way tomorrow at 10:00am so everyone is on the same page. I talked at length about having daily objectives, briefings, and agencies reporting back on their progress. We talked quite a bit about public education. A Fact sheet of lead Q& A's is currently being developed by Michelle Bruneau, DHHS. I advised everyone of this on the 4pm conference call. They were going to reach out to Michelle to see where that was at. Everyone on the 4pm conf call appreciated the update I provided.

At this point approx. 8,000 filters have been distributed. Tomorrow's meeting will be interesting. I will keep you in the loop. BJ

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- A total of 159 water filters were distributed by DHHS and GCCARD. One hundred and fifty six filters were distributed of which one went to a daycare and 37 were installed in homebound/senior locations. Two- 8 cup pitchers/ 1- 23 cup pitcher was distributed to a daycare.

- Greater Flint Health Coalition's Genesee Children's Healthcare Access Program (CHAP) has a supply of filters (provided by United Way) and is providing those directly to client families currently served by Genesee CHAP. Genesee CHAP works at the family, provider, and system levels to serve Flint & Genesee County families with children on Medicaid. Susan Schneberger serves as Senior Program Director for Genesee CHAP and can be reached at chap@flint.org.

- Flushing and Flint DaVita Dialyses locations received 120 water filters. Fresenius Medical Care (FMC) of Flint received 30 water filters.

If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Genesee County Health Department Community Health Director, Tamara Brickey, connected Chris Mann (GCHD IT consultant) with Ed Berger from MTA to reference the water filter database for an upcoming water filter distribution to disabled clients.

- Tamara Brickey, spoke with Vicki Austin Sacharski from the Disability Network for the purpose of connecting Disability Network clients with water filters. DN will track information of those clients who call in with questions about filters and get the information to GCHD. We will pass that information along to MTA for delivery. GCCARD may be able to assist with installation.
- Tamara is reaching out to a regional representative from DaVita Dialysis to help coordinate the distribution of water filters.

- Department of Health and Human Services has distributed the following:
  113 filters (of which 1 went to daycares)
  10 – 8 cup pitcher
  1 – 23 cup pitcher- to daycare
  Total distributed 124

- Flint Community Schools Superintendent, Bilal Tawab met on Friday, October 16, 2015 with representatives of MDEQ, LARA, and DHHS to discuss a new round of water testing at each of the Flint Community Schools starting on Wednesday, October 21,2015.

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- 100 water filters were delivered to Burton location of Planned Parenthood for distribution by GCHD.

- Tamara Brickey (GCHD Community Health Director) and Hilda McShane (GCHD Marketing Specialist), met with MTA about reaching disabled and dialysis patients. MTA will work with GCHD to determine which MTA Your Ride clients may be in need of water filters.

- Another dialysis provider in Flint has requested 30 filters for patients.

- Toni (Nursing Director, GCHD), Jori July (GCHD Immunizations Supervisor) and Hilda McShane met this AM with Molina. Further arrangements with Molina will be made. No date set at this time.

- GCHD is still awaiting communication from Total Health Care.

- Department of Education has come out with a statement that all school age kids in Flint should be lead tested. Our state colleagues along with Toni will work on getting education out to the schools/families regarding getting kids tested.

- Diplomat has a program that they do with physicians about vitamins for kids. Dr. Mona Hanna-Attisha (Hurley) is talking to them about changing the formulary of the vitamin to help with lead issues in kids.

- Jim Henry (GCHD Environmental Health Supervisor) met with DEQ representatives on Friday. DEQ is proposing starting a new round of water testing in all schools receiving Flint water as of Wednesday, October 21, 2015. DEQ is proposing a stakeholder meeting every Friday to discuss updates.

Subject: Genesee County Health Department water filter system daily mass notification - 10.16.15

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- The attached document was provided, emailed, and mailed to 346 licensed food establishments using City of Flint Water by the Genesee County Health Department (GCHD). The Michigan Department of Agriculture and Rural Development (MDARD) emailed and mailed the attached document to: grocery, food processing establishments, and party stores using City of Flint water. This document is available at www.gchd.us.

- Michigan Department of Health and Human Services (MDHHS) and Genesee County Community Action Resource Department (GCCARC) distributed 247 water filter systems and 11 water pitchers on 10.15.15.

- The Michigan Childhood Lead Poisoning Prevention Program (CLPPP) created a toolkit to help agency partners, primary care providers and community advocates prepare for lead week, October 25-31, 2015. The Michigan toolkit contains ideas for local lead week activities, a sample press release, sample social media posts and a sample news article. Several CLPPP brochures have also been revised in

anticipation of lead week, including the handout for parents, "Is Your Child Safe From Lead?" and a new handout for pregnant and breastfeeding mothers. A CLPPP program profile and a quick reference guide for primary care providers is also in the toolkit.

- Genesee County Health Department Nursing Director, Toni La Rocco, will meet with Molina Healthcare of Michigan representative, Omar Sims, to plan a lead clinic in the near future.

- DaVita Dialysis' Hurley location received 100 water filter systems on 10.16.15 from the Genesee County Health Department.

- Planned Parenthood is scheduled to receive 100 water filter systems on 10.19.15 from the Genesee County Health Department.

- Genesee County Health Department is working with Flint Mass Transit Authority (MTA) to distribute the water filter system to disabled and kidney dialysis YOUR RIDE customers.

- Chris Mann will have additional conversations with the State to discuss updates to the database for tracking filter distribution.

- Genesee County Environmental Health Supervisor, Jim Henry, is meeting with the DEQ laboratory director to discuss future samplings.

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- As requested by the state of Michigan, Chris Mann of GCHD made all the requested changes to the water filter system database.
- DaVita Dialysis Center has requested 100 water filter systems. Filters will be dropped off Wednesday, October 14.
- Genesee County Health Department will be delivering 100 water filters to Planned Parenthood on Monday, October 19.
- City of Flint Schools' Superintendent is reaching out to his principals requesting input on the distribution of the water filter system to staff and families.
- Dr. Laura Carravallah reached out to Marc Edwards of Virginia Tech regarding the copper levels in the Flint water. Marc did test the Flint water and copper levels in the water are within EPA standards.

- Nursing Director, Toni LaRocco, is finalizing plans for an upcoming lead clinic with McLaren Health Plan on November 5. Toni and staff are in talks with Molina Healthcare of Michigan to schedule another lead clinic.

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Chris Mann and GCHD Community Health Director, Tamara Brickey, are working with the State to insert more field information to the current Excel water filter database.

- GCCARD's Lippincott location does not have stable internet connection and because of this, staff are not using the most up-to-date water filter system Excel file. The State is gathering this information and will send Genesee County Health Department their Excel database and we will upload the data on a daily basis.

- Tamara has made contact with Flint Schools. She will make arrangement with staff and student's families to receive a water filter system. A date for the filter distribution to staff and student's families has not been set.

- Jim Henry, GCHD Environmental Health Supervisor got a call from State. They are looking for our staff to do another round of sampling at all Flint schools who receive city of Flint water.

- Planned Parenthood will receive 100 water filters for distribution to their clients.

- GCHD will be making contact with the Disability Network to continue planning to reach the disabled population within Flint that need assistance obtaining a water filter.

- MDEQ reached out to the CDC regarding the effects of bathing in water contaminated with lead. The experts are looking further into this matter. See attached FAQ Flint Water Fact sheet.

- Dr. Caravella of GCHD's Board of Health is concerned whether the distributed water filter systems will remove copper. She is concerned about individuals in the community who have a rare condition related to copper.

- Jim Henry is working to receive lab results in a timely manner.

- GCHD Director of Nursing, Toni LaRocco had a conversation with various individuals from the State regarding blood lead clinic. Toni is working to implement an upcoming lead clinic for children, 0-5 scheduled with McLaren Health Plan. Toni is reaching out to the University of

Michigan – Flint to have students and faculty present at all clinics. Toni is working on other locations to host clinics with other health plans. The first message for people should be that the first choice in testing should be at their primary care provider.

- FAQs regarding lead and water for providers and public will be released in future from MDHHS.
- As of October 13 the total distribution for both DHHS and GCCARD is 8447.
- 336 filters and pitchers were distributed on 10/13 by DHHS and GCCARD.
- Daycares also began picking up filters and pitchers on yesterday as well from GCCARD.

Subject: Genesee County Health Department water filter system daily mass notification - 10.13.15

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- 20,000 filters + 9,000 replacement filters have been delivered to Genesee County Community Action Resource Department (GCARD) and Michigan Department Health Human Services (MDHHHS).
- We are reminding partners to blackout the barcode on filter boxes before distribution.
- As of 10.13.15 Flint Housing Commission has distributed water filters to all of its housing units.
- Valley Area Agency on Aging (VAAA) is creating a list of homebound seniors. Three (3) state employees and Five (5) GCCARD employees are working through that list and will help with home installation.
- Distribution has been completed at Rosehaven Manor, Court Street Commons, Riverfront Dorms, Job Corp, and University of Michigan-Flint international student population
- Municipalities with residents that receive Flint City water will be contacted and asked to be the distribution point for the water filter system in their area by the City of Flint.
- Eileen Tomasi from Flint Schools has asked to use the elementary schools as water filter distribution points for both staff living in Flint and parents of school children. GCHD is awaiting a follow up conversation with the Flint Community Schools.
- Genesee County Health Department (GCHD) is starting to see an increase in requests for blood lead testing. GCHD Nursing Director, Toni LaRocco, is working with McLaren Health Plan to develop a lead clinic in November. University of Michigan-Flint has offered nursing students to assist at the clinic. Adults can use the Genesee County Health Department's Primary Care Clinic and the Health Department will bill insurance, or go on standing orders.

- Total filters distributed by MDHHS and GCCARD, 8,000. Genesee County Health Department has distributed 4,000 filters, which include approximately 2,700 to the public, 100 to Wellness Services, 100 to GCHD Primary Care Clinic, 100 to WIC, 100 to Reverence, and 375 to Hurley Maternal Infant Health Home Visiting Services.

Subject: RE: Genesee County Health Department water filter system daily mass notification - 10.19.15

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- 100 water filters were delivered to Burton location of Planned Parenthood for distribution by GCHD.
- Tamara Brickey (GCHD Community Health Director) and Hilda McShane (GCHD Marketing Specialist), met with MTA about reaching disabled and dialysis patients. MTA will work with GCHD to determine which MTA Your Ride clients may be in need of water filters.

- Another dialysis provider in Flint has requested 30 filters for patients.

- Toni (Nursing Director, GCHD), Jori July (GCHD Immunizations Supervisor) and Hilda McShane met this AM with Molina. Further arrangements with Molina will be made. No date set at this time.

- GCHD is still awaiting communication from Total Health Care.

- Department of Education has come out with a statement that all school age kids in Flint should be lead tested. Our state colleagues along with Toni will work on getting education out to the schools/families regarding getting kids tested.

- Diplomat has a program that they do with physicians about vitamins for kids. Dr. Mona Hanna-Attisha (Hurley) is talking to them about changing the formulary of the vitamin to help with lead issues in kids.

- Jim Henry (GCHD Environmental Health Supervisor) met with DEQ representatives on Friday. DEQ is proposing starting a new round of water testing in all schools receiving Flint water as of Wednesday, October 21, 2015. DEQ is proposing a stakeholder meeting every Friday to discuss updates.

- Genesee County Health Department (GCHD) is starting to see an increase in requests for blood lead testing. GCHD Nursing Director, Toni LaRocco, is working with McLaren Health Plan to develop a lead clinic in November. University of Michigan-Flint has offered nursing students to assist at the clinic. Adults can use the Genesee County Health Department's Primary Care Clinic and the Health Department will bill insurance, or go on standing orders.

- Total filters distributed by MDHHS and GCCARD, 8,000. Genesee County Health Department has distributed 4,000 filters, which include approximately 2,700 to the public, 100 to Wellness Services, 100 to GCHD Primary Care Clinic, 100 to WIC, 100 to Reverence, and 375 to Hurley Maternal Infant Health Home Visiting Services.

> **Subject:** PRESS RELEASE: Mayor Dayne Walling Response to MDEQ's Admission of Fault in Flint's Water Emergency

For Immediate Release

Mayor Dayne Walling Response to MDEQ's Admission of Fault in Flint's Water Emergency

Flint, Michigan – October 19, 2015 – The following is a response from Mayor Dayne Walling regarding the MDEQ's statement admitting fault in the Flint water emergency:

Today, the Michigan Department of Environmental Quality (MDEQ) acknowledges its leading role in the decision-making that led to the contamination of Flint's drinking water. The people of Flint hear this admission and we demand that the State fully fix this problem they caused. While the State taking responsibility and the switch to Detroit water are steps in the right direction for Flint, actions speak louder than words. Now, the Governor and the State need to provide tens of millions of dollars to fix Flint's water and infrastructure as well as to provide for the families, children and schools affected. I will continue to push for changes and advocate for our City until every drop of water is 100% safe.

The MDEQ assured Flint that the switch was being handled safely and responsibly. We relied on the information from MDEQ, and clearly that information was wrong. My heart goes out to the children and families who are affected by this issue.

This morning our local Senator Jim Ananich said the following: "We do not know whether the misapplication of federal rules was intentional or due to negligence. That's why the Legislature needs to have a robust role in any investigation, and in ensuring those responsible for Flint's water crisis are held accountable." I applaud Senator Ananich's Statement and I urge the Governor and State Officials to take the necessary steps to ensure accountability so that this never happens again to any community.

–END–

Subject: Genesee County Health Department water filter system daily mass notification - 10.16.15

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- The attached document was provided, emailed, and mailed to 346 licensed food establishments using City of Flint Water by the Genesee County Health Department (GCHD). The Michigan Department of Agriculture and Rural Development (MDARD) emailed and mailed the attached document to: grocery, food processing establishments, and party stores using City of Flint water. This document is available at www.gchd.us.

- Michigan Department of Health and Human Services (MDHHS) and Genesee County Community Action Resource Department (GCCARC) distributed 247 water filter systems and 11 water pitchers on 10.15.15.

- The Michigan Childhood Lead Poisoning Prevention Program (CLPPP) created a toolkit to help agency partners, primary care providers and community advocates prepare for lead week, October 25-31, 2015. The Michigan toolkit contains ideas for local lead week activities, a sample press release, sample social media posts and a sample news article. Several CLPPP brochures have also been revised in anticipation of lead week, including the handout for parents, "Is Your Child Safe From Lead?" and a new handout for pregnant and breastfeeding mothers. A CLPPP program profile and a quick reference guide for primary care providers is also in the toolkit.

- Genesee County Health Department Nursing Director, Toni La Rocco, will meet with Molina Healthcare of Michigan representative, Omar Sims, to plan a lead clinic in the near future.

- DaVita Dialysis' Hurley location received 100 water filter systems on 10.16.15 from the Genesee County Health Department.

- Planned Parenthood is scheduled to receive 100 water filter systems on 10.19.15 from the Genesee County Health Department.

- Genesee County Health Department is working with Flint Mass Transit Authority (MTA) to distribute the water filter system to disabled and kidney dialysis YOUR RIDE customers.

- Chris Mann will have additional conversations with the State to discuss updates to the database for tracking filter distribution.

- Genesee County Environmental Health Supervisor, Jim Henry, is meeting with the DEQ laboratory director to discuss future samplings.

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- As requested by the state of Michigan, Chris Mann of GCHD made all the requested changes to the water filter system database.
- DaVita Dialysis Center has requested 100 water filter systems. Filters will be dropped off Wednesday, October 14.
- Genesee County Health Department will be delivering 100 water filters to Planned Parenthood on Monday, October 19.
- City of Flint Schools' Superintendent is reaching out to his principals requesting input on the distribution of the water filter system to staff and families.
- Dr. Laura Carravallah reached out to Marc Edwards of Virginia Tech regarding the copper levels in the Flint water. Marc did test the Flint water and copper levels in the water are within EPA standards.
- Nursing Director, Toni LaRocco, is finalizing plans for an upcoming lead clinic with McLaren Health Plan on November 5. Toni and staff are in talks with Molina Healthcare of Michigan to schedule another lead clinic.

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Chris Mann and GCHD Community Health Director, Tamara Brickey, are working with the State to insert more field information to the current Excel water filter database.

- GCCARD's Lippincott location does not have stable internet connection and because of this, staff are not using the most up-to-date water filter system Excel file. The State is gathering this information and will send Genesee County Health Department their Excel database and we will upload the data on a daily basis.

- Tamara has made contact with Flint Schools. She will make arrangement with staff and student's families to receive a water filter system. A date for the filter distribution to staff and student's families has not been set.

- Jim Henry, GCHD Environmental Health Supervisor got a call from State. They are looking for our staff to do another round of sampling at all Flint schools who receive city of Flint water.

- Planned Parenthood will receive 100 water filters for distribution to their clients.

- GCHD will be making contact with the Disability Network to continue planning to reach the disabled population within Flint that need assistance obtaining a water filter.

- MDEQ reached out to the CDC regarding the effects of bathing in water contaminated with lead. The experts are looking further into this matter. See attached FAQ Flint Water Fact sheet.

- Dr. Caravella of GCHD's Board of Health is concerned whether the distributed water filter systems will remove copper. She is concerned about individuals in the community who have a rare condition related to copper.

- Jim Henry is working to receive lab results in a timely manner.

- GCHD Director of Nursing, Toni LaRocco had a conversation with various individuals from the State regarding blood lead clinic. Toni is working to implement an upcoming lead clinic for children, 0-5 scheduled with McLaren Health Plan. Toni is reaching out to the University of Michigan – Flint to have students and faculty present at all clinics. Toni is working on other locations to host clinics with other health plans. The first message for people should be that the first choice in testing should be at their primary care provider.

- FAQs regarding lead and water for providers and public will be released in future from MDHHS.

- As of October 13 the total distribution for both DHHS and GCCARD is 8447.

- 336 filters and pitchers were distributed on 10/13 by DHHS and GCCARD.

- Daycares also began picking up filters and pitchers on yesterday as well from GCCARD.

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- 20,000 filters + 9,000 replacement filters have been delivered to Genesee County Community Action Resource Department (GCARD) and Michigan Department Health Human Services (MDHHHS).

- We are reminding partners to blackout the barcode on filter boxes before distribution.

- As of 10.13.15 Flint Housing Commission has distributed water filters to all of its housing units.

- Valley Area Agency on Aging (VAAA) is creating a list of homebound seniors. Three (3) state employees and Five (5) GCCARD employees are working through that list and will help with home installation.

- Distribution has been completed at Rosehaven Manor, Court Street Commons, Riverfront Dorms, Job Corp, and University of Michigan-Flint international student population

- Municipalities with residents that receive Flint City water will be contacted and asked to be the distribution point for the water filter system in their area by the City of Flint.

- Eileen Tomasi from Flint Schools has asked to use the elementary schools as water filter distribution points for both staff living in Flint and parents of school children. GCHD is awaiting a follow up conversation with the Flint Community Schools.

- Genesee County Health Department (GCHD) is starting to see an increase in requests for blood lead testing. GCHD Nursing Director, Toni LaRocco, is working with McLaren Health Plan to develop a lead clinic in November. University of Michigan-Flint has offered nursing students to assist at the clinic. - 336 filters and pitchers were distributed on 10/13 by DHHS and GCCARD.
- Daycares also began picking up filters and pitchers on yesterday as well from GCCARD.

Subject: Genesee County Health Department water filter system daily mass notification - 10.13.15

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- 20,000 filters + 9,000 replacement filters have been delivered to Genesee County Community Action Resource Department (GCARD) and Michigan Department Health Human Services (MDHHHS).
- We are reminding partners to blackout the barcode on filter boxes before distribution.
- As of 10.13.15 Flint Housing Commission has distributed water filters to all of its housing units.
- Valley Area Agency on Aging (VAAA) is creating a list of homebound seniors. Three (3) state employees and Five (5) GCCARD employees are working through that list and will help with home installation.
- Distribution has been completed at Rosehaven Manor, Court Street Commons, Riverfront Dorms, Job Corp, and University of Michigan-Flint international student population
- Municipalities with residents that receive Flint City water will be contacted and asked to be the distribution point for the water filter system in their area by the City of Flint.
- Eileen Tomasi from Flint Schools has asked to use the elementary schools as water filter distribution points for both staff living in Flint and parents of school children. GCHD is awaiting a follow up conversation with the Flint Community Schools.
- Genesee County Health Department (GCHD) is starting to see an increase in requests for blood lead testing. GCHD Nursing Director, Toni LaRocco, is working with McLaren Health Plan to develop a lead clinic in November. University of Michigan-Flint has offered nursing students to assist at the clinic. Adults can use the Genesee County Health Department's Primary Care Clinic and the Health Department will bill insurance, or go on standing orders.

- Total filters distributed by MDHHS and GCCARD, 8,000. Genesee County Health Department has distributed 4,000 filters, which include approximately 2,700 to the public, 100 to Wellness Services, 100 to GCHD Primary Care Clinic, 100 to WIC, 100 to Reverence, and 375 to Hurley Maternal Infant Health Home Visiting Services.

Frequently Asked Questions About
Lead in Flint Water

MDHHS
Michigan Department of Health & Human Services

- Lead is hard to avoid completely. It can be found in old paint, water pipes and brass water faucets, in dirt, at some job sites, and in metal used for some hobbies.
- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - Even small amounts of lead can harm kids' health because they are little and still growing.
  - Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using an NSF-approved filter. Find an approved filter at http://www.gchd.us/docs/lead_filter_information.pdf.
- Some filters can remove up to 99% of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - Change the filter cartridge as often as you should.
  - Run only cold water through the filter.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop. Use the tips below to know when it's best to use filtered water:

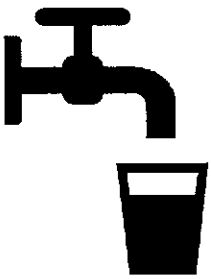
Lead in Water

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- **You can't see, smell, or taste lead in water.**
- **Lead won't change the color of your water.**
- **The only way to know what your home's lead levels are is by having your water tested in a lab.**

Please call the Flint Water Dept. at 810-787-6537 to request a free or low-cost water test.

In The Kitchen



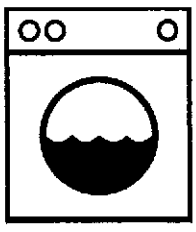
Use filtered tap water for:

- Drinking (including making coffee, drink mixes, juice, baby formula)
- Cooking (even if you boil the water, the lead will stay in the water and food)
- Washing fruits and vegetables

You can use unfiltered tap water for:

- Washing your hands
- Washing dishes
- Wiping down countertops

Cleaning



You can use unfiltered tap water for:

- Mopping floors
- Washing clothes

Your washing machine and dryer won't put lead from the water into the air of your home.

In the Bathroom

Use <u>filtered</u> tap water for:

- Brushing kids' teeth

You can use <u>unfiltered</u> tap water for:

- Showers
- Baths (don't let kids drink the water as they play in the tub)
- Brushing your teeth (if you are an adult)

Lead will not cause rashes or other skin problems. However, if chlorine levels or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

Caring for Pets

Use <u>filtered</u> tap water for:

- Pets' water bowls

You can use <u>unfiltered</u> tap water for:

- Baths

If you notice your pet acting differently than normal, please contact your vet.

Other Sources of Lead in Your Home

Lead Paint

- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

Dirt

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

Dust

- The dust in your home can contain tiny amounts of both the paint and the dirt that contain lead.

Hobbies & Jobs

- Solder, fishing sinkers, bullets, and stained glass framing materials are some of the items in your home that may contain lead. You could also track home lead dust from your job site.

Have Questions?

For more information about protecting yourself and your family from lead, please visit:

<u>www.michigan.gov/lead</u>

Or you can call the Michigan Department of Health and Human Services at:

1-800-648-6942

The staff at this number will help direct you to the best department that can answer your questions about lead in your home.

To request a free or low-cost water test, please call the Flint Water Dept. at:

1-810-787-6537

Subject: FW: water testing update-county buildings

Hello, this is a FYI ref water testing in County Bldgs in Flint. I also learned today that some of the initial water testing was done on faucets with aerators – the testing was positive for lead. They took the aerators off and found the aerators full of sediment. The same faucets were tested again without the aerators- the water tested fine and without lead limits. They are going to check drinking fountains in the schools to see there is something similar in that respect to be causing the elevated testing.

The meeting at the Health Dept went well. They have instituted their ICS and are going to hold daily briefings everyday at 1:00pm and an email updates/briefings to the partnered agencies. They are going to roll this out at the meeting tomorrow at the United Way tomorrow at 10:00am so everyone is on the same page. I talked at length about having daily objectives, briefings, and agencies reporting back on their progress. We talked quite a bit about public education. A Fact sheet of lead Q& A's is currently being developed by Michelle Bruneau, DHHS. I advised everyone of this on the 4pm conference call. They were going to reach out to Michelle to see where that was at. Everyone on the 4pm conf call appreciated the update I provided.

At this point approx. 8,000 filters have been distributed. Tomorrow's meeting will be interesting. I will keep you in the loop. BJ

Hello, just received this. Sean Kammer attended the meeting yesterday and advised he would provide the list of residents outside the city limits that are receiving Flint. As you can see, he did provide the list but only after complaints instead of automatically sending it to avoid this. I have messages into Tamara Brickey, Public Health Division Director - Genesee County Health Department, asking for updates, issues, etc. Will let you know what I find out. BJ

Subject: Franchise Customers

All,

I'm getting reports that franchise customers receiving Flint water who reside outside the City of Flint are being turned away when trying to get filters. I have attached the lists of franchise customers who live in neighboring communities. These customers should be able to get filters. Please circulate these lists to all of the distribution sites far-and-wide. Please let me know if there is any other information I can share that will be helpful.

Thank you,

Subject: Flint Water Issue

Hello, I just spoke to Jen Boyer. She too is highly frustrated with the lack of communication and lack of an open EOC. Jen has talked to Tamara Brickey, Genesee Co Health Dept, more than once ref opening their EOC. Tamara has been resistant to that idea. Jen has offered the use of her EOC but that idea has been rejected or not accepted. Jen has talked about daily briefings but once again not accepted. In Flint, the Mayor (or designee) is the CEO and first in line during a disaster/emergency. We all know the Mayor has not declared. The Sheriff does not communicate with the Board Chair, Jamie Curtis, but has supposedly contacted two other Board members ref Jen's /county's involvement. They are hesitant to get involved due to the lack of declaration by the city. This whole process is very political and frustrating. It seems like no one wants to step up because if something goes wrong they will take the blame. I still think they hope the "State" swoops in the fix everything. I would like to go to the meeting Tuesday and really beat the drum ref an EOC being opened and daily briefings being held. Even though the issues have been brought up more than once, they aren't getting it. I was present when Jen talked to Tamara ref daily briefings and her response was basically she did not have daily info to put out. I guess I need to try to be more "persuasive" – no worries I will do it in a tactful manner. Will you please see if I can be excused from the Forum Tuesday so I can take a run at this?? I know you all are frustrated too. Please advise. Thanks, Bj

> Hello, I attended meetings today at Genesee Co DHHS and Genesee Co Untied Way ref the continuing problem with Flint's water. The first meeting consisted of DHHS, GCCARD, Dept. of Human Services, Genesee CO Health Dept., Commission on Aging, EM Jen Boyer, and a few other county depts. The distribution of filters was the main topic of conversation. I learned that so far 20,000 Britta filters were purchased from Home Depot with the million dollars the state provided. The filters are in Flint and will be housed at the GCCARD warehouse awaiting distribution. Genesee Co Public Health Dept is taking the lead on public messaging/press releases. Overall, a fairly productive meeting. Everyone from this meeting headed over to the next meeting at the United Way in Flint. Reps from the United Way ran the meeting which also included reps from the school district, public housing, and one rep, Sean Kammer, Asst to the City Administrator at the City of Flint. Unfortunately, Sean left early and requested he be emailed the information. Once again, a fairly productive meeting with distribution being the main topic of conversation, the use of volunteer groups to help install filters for elderly clients, school distribution, and public education/messaging. Much was worked out for distribution with it starting with priority groups. Attached is a summary of the meeting. Today, 1800 filters were being distributed to Flint Public Housing incl Section 8 housing with the agreement their building maintenance will install the filters for those who can not. Other priority groups should start in the morning. It was also requested the UPC codes be blacked out so returns could not be made to Home Depot. Zero Water is providing filtered cups for after school activities and athletes. All classrooms will get filtering units with a 24 cup capacity. There are talks of filters for all drinking fountains. For those who can not attach a regular filter to their faucet, ZeroWater filtered pitchers are going to be supplied. United Way ordered some today

and may be in this week. Under sink filters will not be purchased due to cost and potential installment issues. Briat pitchers do not meet lead standards so they will not be used.

Jen Boyer has reached out to volunteer groups (CERT, VDF) for help with installments of filters for elderly or special needs people. There are also talks by the City fo Flint water dept. of connecting outdoor spickets so people can go fill jugs for free. This may be decided by the end of the week. This water is good being it isn't going through any distribution pipes. There were talks of paying UAW plumbers ,etc to help with installs but I voiced my concerns ref that so hopefully that does not happen. Talks of military trucks (Camels) were brought up for water distribution for possibly the next week while the city works on getting their outdoor spickets figured out but I believe that has to be authorized by the Governor.

Genesee Co Public Health Dept is taking the PIO lead with help from the PIO from the United Way, Tom Wickersham. Tom is a PIO for Gm and volunteers for the United Way. 211 will be used as well as some websites to advise of distribution points and as well as education. Right now 4 points will be used :2 DHHS offices, and 2 GCCARD locations. The Genesee County Community Action Resource Department **(GCCARD)** is an organization of individuals whose overall goal is to eliminate barriers and level the playing field for the poor, seniors, children and the hard to serve population of Flint and Genesee County. These opportunities may include pre-school training through our Head Start department for the young; receiving additional and/or job training in order to find a permanent job; seeking and finding of adequate housing if displaced; receiving of nutritional meals delivered on a daily basis, or receiving home improvement repairs when necessary.

A few areas of concern: lack of participation by the City of Flint government. The rep left early today with really not contributing anything to the effort while he was there. Ginna Holmes knows the Flint Mayor and is reaching out to him today ref this issue. The other area is people in the group expecting the state, namely Emergency Management, to run the meetings and the event. I explained we will not be running either but will participate and be a resource as much as possible. I think the Co Public Health Dept is going to take a lead role with help from others. Ginna Holmes and Jen Boyer will work closely with them along with DHHS. We have another meeting scheduled for Thursday at 10:00am at the United Way in Flint. The United Way has done a tremendous job so far with this incident. I will be at the meeting. I hope this helps. Please let me know if you have questions. BJ

> Hello, I attended meetings today at Genesee Co DHHS and Genesee Co Untied Way ref the continuing problem with Flint's water. The first meeting consisted of DHHS, GCCARD, Dept. of Human Services, Genesee CO Health Dept., Commission on Aging, EM Jen Boyer, and a few other county depts. The distribution of filters was the main topic of conversation. I learned that so far 20,000 Britta filters were purchased from Home Depot with the million dollars the state provided. The filters are in Flint and will be housed at the GCCARD warehouse awaiting distribution. Genesee Co Public Health Dept is taking the lead on public messaging/press releases. Overall, a fairly productive meeting. Everyone from this meeting headed over to the next meeting at the United Way in Flint. Reps from the United Way ran the meeting which also included reps from the school district, public housing, and one rep, Sean Kammer, Asst to the City Administrator at the City of Flint. Unfortunately, Sean left early and requested he be emailed the information. Once again, a fairly productive meeting with distribution being the main topic of conversation, the use of volunteer groups to help install filters for elderly clients, school distribution, and public education/messaging. Much was worked out for distribution with it starting with priority groups. Attached is a summary of the meeting. Today, 1800 filters were being distributed to Flint Public Housing incl Section 8 housing with the agreement their building maintenance will install the filters for those who can not. Other priority groups should start in the morning. It was also requested the UPC codes be blacked out so returns could not be made to Home Depot. Zero Water is providing filtered cups for after school activities and athletes. All classrooms will get filtering units with a 24 cup capacity. There are talks of filters for all drinking fountains. For those who can not attach a regular filter to their faucet, ZeroWater filtered pitchers are going to be supplied. United Way ordered some today and may be in this week. Under sink filters will not be purchased due to cost and potential installment issues. Briat pitchers do not meet lead standards so they will not be used.

Jen Boyer has reached out to volunteer groups (CERT, VDF) for help with installments of filters for elderly or special needs people. There are also talks by the City fo Flint water dept. of connecting outdoor spickets so people can go fill jugs for free. This may be decided by the end of the week. This water is good being it isn't going through any distribution pipes. There were talks of paying UAW plumbers ,etc to help with installs but I voiced my concerns ref that so hopefully that does not happen. Talks of military trucks (Camels) were brought up for water distribution for possibly the next week while the city works on getting their outdoor spickets figured out but I believe that has to be authorized by the Governor.

Genesee Co Public Health Dept is taking the PIO lead with help from the PIO from the United Way, Tom Wickersham. Tom is a PIO for Gm and volunteers for the United Way. 211 will be used as well as some websites to advise of distribution points and as well as education. Right now 4 points will be used :2 DHHS offices, and 2 GCCARD locations. The Genesee County Community Action Resource Department (GCCARD) is an organization of individuals whose overall goal is to eliminate barriers and level the playing field for the poor, seniors, children and the hard to serve population of Flint and Genesee County. These opportunities may include pre-school training through our Head Start department for the young; receiving additional and/or job training in order to find a permanent job; seeking and finding of adequate housing if displaced; receiving of nutritional meals delivered on a daily basis, or receiving home improvement repairs when necessary.

A few areas of concern: lack of participation by the City of Flint government. The rep left early today with really not contributing anything to the effort while he was there. Ginna Holmes knows the Flint Mayor and is reaching out to him today ref this issue. The other area is people in the group expecting the state, namely Emergency Management, to run the meetings and the event. I explained we will not be running either but will participate and be a resource as much as possible. I think the Co Public Health Dept is going to take a lead role with help from others. Ginna Holmes and Jen Boyer will work closely with them along with DHHS. We have another meeting scheduled for Thursday at 10:00am at the United Way in Flint. The United Way has done a tremendous job so far with this incident. I will be at the meeting. I hope this helps. Please let me know if you have questions. BJ

"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY"

Water Filter Distribution

Funding Availability
$100,000 - CS Mott Foundation
$225,000 - private funding and grant requests to UWGC
$1,000,000 - from DHHS for filter purchase
$250,000 - from Community Foundation (not public yet)

Filters

- 1,500 were distributed through Concerned Pastors - Harvey has list
- 4,000 given to Health Department will be distributing to special populations, started Saturday. There are 1,000 left. Working with Hurley to distribute through Healthy Start programs. IT will be taking spreadsheet to see who has already received this.
- Do not get Brita pitchers - they are not lead compliant
- 2,500 pitchers will be purchased by UWGC today

Public Housing Is automatically going to get filters dropped today. Call Frank Woods to ask questions.

- Howard - 96 units
- Aldridge - 93 units
- River Park - 188 units
- Atherton - 192 units
- Scattered Sites - 68 units
- Garland - 40 units
- Forrest Park - 19 units
- Richert Manor - 132 units
- KMS - 159 units
- Centerview - 90 units
- Mince - 110 units

20,000 units through DHHS - housed at GCCARD

- Can be given to all residents
- 1,800 will be sent to Housing commission (section 8) today
- Veterans - there is a community department for veterans, these filters would secure through GCCARD.
- Health Dept needs some for their WIC department and wellness clinic and kidney dialysis centers. DHHS will supply filters to health dept to fill this need.
- Senior Citizens - Meals on Wheels - 653 households, will be distributed through GCCARD filters
- Family Service agency - 800 seniors are helped through this program, GCCARD will reach out and make sure there is not a duplication with Meals on Wheels. This group of residents a special plan will be put together for install through seniors homes.

- Senior Resident Communities - can we give filters to these housing facilities and can their maintenance person install. Health Dept will get those contacts to GCCARD.
- 20,000 vouchers will be distributed through case workers - vouchers will be received at DHHS today.
- DHHS clients will be able to receive their filters from either office as early as tomorrow. GCCARD will be available in those lobbies as well for non clients.
- Home Depot can deliver for FREE water filters to site

5,000 donated to UWGC from Zero Filter for after school and UWGC is purchasing one picture for every classroom at cost from Zero Filter to Flint Community Schools - we are also looking at purchasing one filter for every faucet, those filters are $250 each. UWGC will order today and they should be delivered by Wednesday.

City of Flint Water Dept - we have asked city to allow residents to come to the City of Flint Water plant and fill jugs of water. City of Flint plans to have a plan put together by week end.

UWGC has requested the state to appoint a full time emergency person to convene these meetings.

October 3, 2015 Distribution
Lead Agency - Genesee County Health Department
Distribution Site - University of Michigan-Flint Recreation Center
Requirements

- Live within zip codes 48501-48507
- Currently pregnant, breastfeeding or formula feeding an infant
- Have a child between the ages of 0-5

One filter will be given per household
Filter name and model being given - Pur Ult Vert Mount Water Filter System
Quantity of filters being given - 4,000
Contact - Tamara Brickey 810.257.2629

2-1-1 will be phone number for residents to call
Site can be setup within 24 hours.
Distributions Points
Information that can be shared to public
Eligibility for filters - open distribution within zip codes
Questions - health specific (ex. can my child take a bath, how do I install filter, filter type or intake type, (filters will be faucet and pitchers only)

Release #: 26

DEQ and EPA Continue Interagency Cooperation Discussions on Flint Water

FLINT, Mich. – Michigan Department of Environmental Quality Director Keith Creagh met today with Interim Regional Administrator Robert Kaplan from the U.S. Environmental Protection Agency as part of ongoing interagency cooperation to address the Flint water crisis. The EPA and DEQ have met regularly since a state of emergency was declared in Flint in early January.

"These conversations with the EPA are a critical part of our shared response to the emergency in Flint," said Creagh. "We know that moving forward will require all levels of government – along with partners in the business and nonprofit communities and the community of Flint – to work together with the sense of urgency this crisis demands."

Creagh and the EPA regional administrator have weekly phone calls. In addition, program staff from the DEQ and EPA remain in daily contact to coordinate response. At today's meeting, Creagh and Kaplan along with technical staff from both agencies discussed working together to maximize the data that is being collected to make sure the agencies are closely aligned in their work.

The DEQ is also working in conjunction with the EPA to plan and review the 200 sentinel test sites, enabling both entities to capture the information needed across the entire spectrum of data so we have a better overall analysis of the distribution system.

"We want to have systems and structures in place that will lead us to better conclusions for the people of Flint," Creagh said. "We appreciate the partnership with EPA and other government and non-government agencies."

The discussion included a five-part strategy the DEQ implemented to establish a baseline of data to determine when the water in Flint is safe to drink.

MORE

The strategy includes:

- Residential water testing: At-home water testing done by residents is key in guiding experts to areas of concern.

- School testing: Michigan DEQ in collaboration with the Michigan Department of Licensing and Regulatory Affairs (LARA) has tested all 13 public schools in the city and continues to test non-public schools, children's centers and senior centers. The state will retest the public schools once it has completed replacing water fixtures. Fixture replacement has begun at Freeman School, which will be retested after water flushing happens within the next week.

- Food service/restaurant provider testing: Michigan DEQ is working in collaboration with the Michigan Department of Agriculture and Rural Development (MDARD) to test establishments and ensure they are using water filters, flushing water systems properly and using the correct food and water standards.

- Blood level testing: Michigan DEQ is working in conjunction with the Michigan Department of Health and Human Services (MDHHS) to ensure that residents with high blood lead levels have their water tested for lead. Homes with high water lead levels are provided additional services by MDHHS and the Genesee County Health Department to ensure residents' exposure to lead is minimized.

- Flint water distribution system testing: Michigan DEQ and the City of Flint are working to monitor and test the quality of the water as it travels throughout the city's water distribution system. Additionally, sentinel sites are being established to set a baseline for data collection. Sentinel sites are homes that will be used as representative samples to determine the effectiveness of corrosion controls in reducing lead levels.

"Our ongoing conversations with the EPA will help us solidify this plan so we can have confidence in the outcomes," Creagh said.

Water resource sites remain open daily from 9 a.m. to 9 p.m. and can be found at the five city fire stations. For locations, go to www.michigan.gov/flintwater. Additional information is available at www.michigan.gov/flintwater, or by calling United Way 211.

Attachments: Book1.xlsx

Cap,

The numbers provided in the amended report are correct. The individual daily numbers that are reported represent what was distributed at the pods on that day up until 4pm. The cumulative total includes the previous day's total plus what was distributed from 4pm thru 9pm, plus what was distributed by the FWRT's. In the case of Nat's example, on 1/29 216,605 cases of water were reported, then for 1/30 planning added the 6,337 cases that were distributed in the pods up to 4pm on 1/30, the 3,406 that were distributed by the pods after 4pm on 1/29, and the 840 cases the FWRTs distributed on 1/30 (for a total of 227,188). Planning can clarify the language in the daily summary to more accurately reflect what the numbers represent or possibly change the format of the report to a table that would show the details (attached).

More issues. Please put someone on this to identify what has happened and what the true numbers are. It may be when we did the inventory.l that this got messed up. We need to identify the cause of discrepancies.

> **Subject: Re: SEOC Update 1/30/16 - Flint Water - Limited Distribution**
>
> Captain,
>
> Thanks for looking into this, but there's still a problem. I see that the narrative was changed to reflect to totals in the box, but that would then indicate that the totals from 1/29 (and likely earlier) were incorrect. On 1/29, the totals were:
>
> Cases: 216,605
> Filters: 98,641
> Test kits: 31,111
>
> If I add the daily numbers for 1/30 to those totals, I do not get the numbers in this document. For instance, cases of water would only be 222,942 (216,605 plus 6,337), not 227,188. Whatever has

caused this discrepancy needs to be corrected for every impacted day, so that the overall totals equal the sum of the daily totals for each category. If the reason for the discrepancy is new data coming in after the report is released, that needs to be accounted for in the next day's report. But whatever the reason, every total on this sheet has to be verifiable going back to day 1. Right now, it isn't.

Sorry for creating another headache, but the G needs these numbers to be accurate.

Thanks.
Nat

Here is a revised version with the corrected numbers in red for distributed commodity and active residential water subscribers. The ARC rep in the SEOC confirms that the number of volunteers listed for yesterday is correct. There was a significant contingent of carpenters and millwrights that volunteered yesterday so the number was much higher than recent days.

Subject: Re: SEOC Update 1/30/16 - Flint Water - Limited Distribution

Volunteer numbers also need to be checked. Just got another email. Let's double check all numbers.

Subject: SEOC Update 1/30/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/30/16 – 26th Day (25th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Finalize SBA application

Attached Documents:

- Sit Rep # 25
- Lead Residents Sampled Results
- Copper Residents Sampled Results

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).

Items to Note

- 10 ARC Flint Water Response Teams to the field today.

- Deployed SEOC liaison to UCG.
- Worked with GIS to map and analyze City of Flint apartment buildings to send out water resource teams.
- Coordinated the posting of the Food and Nutrition Service response to Michigan's request to increase the access and availability of WIC benefits and services on the www.mi.gov/FlintWater site.
- Information reported to the JIC:
    - As of 1/30/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Total	Targeted Canvassing Mission 1/30/2016
30,770	37,844	9,026	1,368

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	227,188
b. Filters	99,969
c. Filter cartridges	203,932
d. Test kits	31,512

3. Resources purchased:
    a. Cases of water 2,481,324 Liters (additional 879,400 Liters donated)
    b. Filters 164,616
    c. Filter Cartridges 376,903
    d. Test kits 62,701
4. Teams going out tomorrow:
    a. 10 American Red Cross Teams scheduled for Sunday, January 31, 2016.

Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/30/16, as of 5 pm, 1,368 homes were visited today.
2. **Total number of homes visited:**
    a. Targeted Canvassing Mission: 9,026
3. **Total number of National Guard on the ground:**
    a.
4. **Total Number of Volunteers each day:**
    a. 792 volunteers on 1/30/2016.
5. **Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,831	27,956
Active residential water subscribers	29,994	22,229

6. **Number of Water filters distributed (each day and to date):**
    a. 706 were distributed on 1/30/2016, and total distributed to date is 99,347.
7. **Cases of Bottle water distributed (each day and to date):**

a. 6,337 were distributed on 1/30/2016, and total distributed to date is 222,942.

8. **Number of testing kits distributed (each day and to date):**
   a. 65 were distributed on 1/30/2016, and total distributed to date is 31,176.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
   a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351
      *this data will not be updated again until Tuesday.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
       i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
       ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
       iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22

    *This data will not be updated again until Tuesday
11. **Number of homes with safe drinking water:**
    a. 4,084 water samples out of 4,351 sampled through **January 29, 2016** are at or below the action level of 15 ppb for lead. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

    **Per DEQ, numbers were not available tonight but will be provided tomorrow.

Local EOC

- Coordinated short-term resource needs of incoming volunteer groups.
- Addressing public concerns regarding filter efficiency.
- Addressing concerns regarding rapid response delivery system.
- Planning for transition of operational control to local level.
- Planning for demobilization of MSP/EMHSD support staff at Genesee County EOC.
- Attended conference call with Michigan Community Service Commission regarding long-term volunteer management plan.
- Refined 211 data entry and record keeping process.
- Provided EPA with 50 "Flint Water Response Team" badges and lanyards to wear when they are working in the community.
- EPA advised they deployed two sampling teams to work on sequential sampling and a filter pilot through Monday, February 1, 2016.
  - The filter pilot was described as collection of a sample from an unfiltered tap, followed by collection from a filtered tap, installation of a new filter, and collection of a sample through the newly installed filter. *They have identified 30 homes for this 3 day effort.*

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/29/16 – 25th Day (24th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Draft data documents for Governor's team for dashboards.

- Draft timeline of events.
- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations and work to increase warehouse locations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- *Work on plan for Volunteer Expansion (to increase the utilization of the* volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Sit Rep # 24

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- MSP EMHSD Operations Chief in the Local EOC will be shifted to the Unified Coordination Group (Federal Agencies) to provide connection to SEOC.
    - Local EOC to take a more active role in command and control at the local level.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- Recovery compiled a list of apartment buildings to send out to water response teams.
- SEOC Logistics coordinated Niagara water donation delivery times/dates of 25.5 semi-trailers.
- SEOC Logistics Worked with warehouse to send temporary donation's for the weekend to the LEOC established staging area.
- JIC coordinated with Genesee County Emergency Operations Center and State Emergency Operations Center regarding concerns from undocumented workers and English as second language speakers, including fielding a phone call from the Mexican Consulate in Detroit. Efforts are underway to reach out to these communities and to translate more materials for publication.
- Planning developed SBA loan request letter.
- GIS continued refinement of data.
- Information reported to the JIC:
    - As of 1/29/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Total	Targeted Canvassing Mission 1/29/2016

30,770	37,844	7,658	924

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	216,605
b. Filters	98,641
c. Filter cartridges	202,566
d. Test kits	31,111

3. Resources purchased:
   a. Cases of water 2,151,444 Liters (additional 715,404 Liters donated)
   b. Filters 162,536
   c. Filter Cartridges 376,903
   d. Test kits 62,701
4. Teams going out tomorrow:
   a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

aStanding Information Requirements

1. **Number of homes visited each day:**
   a. 1/29/16, as of 5 pm, 924 homes were visited today.
2. **Total number of homes visited:**
   a. Targeted Canvassing Mission: 7,658
3. **Total number of National Guard on the ground:**
   a.
      i. Number in PODs:
      ii. Command Cell:
      iii. Cyber Mission:
      iv. Joint Forces Headquarters:
4. **Total Number of Volunteers each day:**
   a. 100 volunteers on 1/29/2016.
5. **Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,831	27,855
Active residential water subscribers	26,673	22,158

6. **Number of Water filters distributed (each day and to date):**
   a. 1,218 were distributed on 1/29/2016, and total distributed to date is 98,641.
7. **Cases of Bottle water distributed (each day and to date):**
   a. 7,458 were distributed on 1/29/2016, and total distributed to date is 216,605.
8. **Number of testing kits distributed (each day and to date):**
   a. 221were distributed on 1/29/2016, and total distributed to date is 31,111.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
   a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351
   *this data is updated bi-weekly
10. **Number of people with elevated blood level (kids, adults, total):**

a. Per CHECC: These numbers are only updated bi-weekly
    i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
    ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
    iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22

11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. 4,084 water samples out of 4,351 sampled through January 29, 2016 are at or below the action level of 15 ppb for lead. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

Local EOC

- Attended long-term recovery planning meeting with MSP/EMHSD, FEMA and community leaders.
- Planning for transition of operational control to local level.
- Planning for demobilization of MSP/EMHSD support staff.
- Coordinating distribution of Spanish-language water sample forms to affected populations.
- Identifying and securing additional warehouse space.
- Refining rapid response process and coordinating rapid response deliveries to special locations.
- Continuing to coordinate vehicle and technology demobilization.
- Implementing the recycling program with the Community Recycling Coalition.
- Coordinating in-kind and monetary donations through Michigan Community Service Commission.
- Coordinating volunteer management with Michigan Community Service Commission, ARC, and other VOADs.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/28/16 – 24th Day (23rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Sit Rep # 23
- Maps:
  - Parcel Contact Status, includes data as of 5 pm today. (Provide earlier by GIS)
  - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today. (Provide earlier by GIS)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- We continue to send ARC teams to targeted areas potentially missed.
- Collins Road SEOC will be shutdown. New SEOC at 7150 Harris Drive in Windsor Township (former GOB) will be activated for SEOC staff only. All EMHSD admin personnel will start at the new facility on Monday.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- MSP HQ staff completed data entry on all ARC paper copies.
- Recovery Staff attended local Community Partners Meeting.
- Recovery Branch worked with GIS to develop an area map and spreadsheet with addresses based on data specified as "follow up required "for Red Cross teams.
- SEOC Logistics researched possible warehouse options with the local EOC, FEMA and General Motors.
- We have a corporate owned (originally thought to be a franchise owned) Kroger that is no longer in business near Fire Station 6. Looking to get a lower cost for potentially use.
- Received an inquiry regarding potential scams being perpetrated on residents of Flint. This information was referred to the Attorney General's office for a possible news release and further action.
- Issued a media advisory and coordinated a press conference about recycling with Lt. Gov. Brian Calley at noon at Fire Station #1. Used social media to promote the event as it occurred.
- SEOC Operations coordinated water pitcher request for vulnerable population.
- Information reported to the JIC:
  - As of 1/28/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Total	Targeted Canvassing Mission 1/28/2016
30,770	37,844	6,734	1,768

2. Distributed:

Commodity	Total to Date

a. Number of cases of water	207,055
b. Filters	97,342
c. Filter cartridges	201,848
d. Test kits	30,801

3. Resources purchased:
    a. Cases of water 1,980,504 Liters (additional 517,152 Liters donated)
    b. Filters 154,052
    c. Filter Cartridges 299,508
    d. Test kits 62,701
4. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

New Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/28/16, as of 5 pm, 1,768 homes were visited today.
2. **Total number of homes visited:**
    a. Targeted Canvassing Mission: 6,734
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Command Cell:
        iii. Cyber Mission:
        iv. Joint Forces Headquarters:
4. **Total Number of Volunteers each day:**
    a. 125 volunteers for 1/28/2016.
5. **Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,238	25,221
Active residential water subscribers	26,673	20,788

6. **Number of Water filters distributed (each day and to date):**
    a. 1,806 were distributed on 1/28/2016, and total distributed to date is 97,342.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 8,428 were distributed on 1/28/2016, and total distributed to date is 207,055.
8. **Number of testing kits distributed (each day and to date):**
    a. 466 were distributed on 1/28/2016, and total distributed to date is 30,801.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351

*this data is updated bi-weekly

10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38

ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7

iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22

11. **Number of homes with safe drinking water:**
    a. 3,726 water samples out of 3,972 sampled through January 28, 2016 are at or below the action level of 15 ppb for lead. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

Local EOC

- Planning for transition of operational control to local level.
- Discussed transition and demobilization of EOC support team with SEOC staff, Genesee County Sheriff's Office and Genesee County Emergency Management & Homeland Security.
- Identifying and securing additional warehouse space.
- Implementing recycling program. Promoted program at a press conference with Lt. Gov. Calley.
- Coordinating in-kind and monetary donations through Michigan Community Service Commission.
- Coordinating volunteer management with Michigan Community Service Commission, ARC and other VOADs.
- Continuously addressing public concerns over perceived fraud through door-to-door teams.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/27/16 – 23rd Day (22nd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Sit Rep 22
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today. (Provided earlier by GIS)
        - The first one indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.

- Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today. (Provided earlier by GIS)
  - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
  - ARC teams are targeting the homes we show that were not visited.
- Information provided to the Governor's Office (Paul Smith) for an extension to the Governor's Declaration of an Emergency. This has to be approved by both houses of the legislature. The extension will put us on the same timeline as FEMA's declaration.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- Recovery Branch compiled a list of targets for apartment complexes. Once plan is in place, a team will go to each complex and verify all tenants have been given or have a water filter. Once outreach has taken place for each complex, GIS will manually mark entire parcel as complete.
- SEOC Logistics worked with the Michigan Community Service Commission on donations management and volunteers.
- GIS coordinated with DNR and DEQ to establish timelines for lead mapping and strategize updates of lead statuses based on plumber activities.
- GIS coordinated with DTMB/CSS to meet with local GIS staff to review city GIS infrastructure and provide recommendations on future asset management.
- Planning and Financial provide information for Senate Appropriations Committee meeting this afternoon.
- Financial Reviewed donations as match guidelines for required 25% federal match.
- Information reported to the JIC:
  - As of 1/27/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvassing Total	Targeted Canvassing Mission 1/27/2016
30,770	37,844	4,966	1,020

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	196,456
b. Filters	95,417
c. Filter cartridges	200,654
d. Test kits	30,255

3. Resources purchased*:
    a. Cases of water 165,042 (additional 32,234 donated)
    b. Filters 154,052
    c. Filter Cartridges 299,508
    d. Test kits 62,701
4. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/27/16, as of 5 pm, 1,020 homes were visited today.
2. **Total number of homes visited:**
    a. Targeted Canvassing Mission: 4,966
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Command Cell:
        iii. Cyber Mission:
        iv. Joint Forces Headquarters
4. **Total Number of Volunteers each day:**
    a. 109 volunteers for 1/27/2016.
5. ***Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,238	22,939
Active residential water subscribers	26,673	19,677

6. **Number of Water filters distributed (each day and to date):**
    a. 971 were distributed on 1/27/2016, and total distributed to date is 95,417.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 7,592 were distributed on 1/27/2016, and total distributed to date is 196,456.
8. **Number of testing kits distributed (each day and to date):**
    a. 341 were distributed on 1/27/2016, and total distributed to date is 30,255.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People Tested for Lead 10/1/2015 to 1/22/2016: *3,351
    *this data is updated bi-weekly
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22
11. **Number of homes with safe drinking water:**

a. 2,991 homes, per data from September 3, 2015 to January 27, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.
*This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

GIS Information

AS OF **1/27/2016** AT 5 p.m. USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38,238** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **34,849 (91%)** of the parcels have been engaged (e.g. face to face, left an information card, etc.) as part of response efforts
- **22,939 (60%)** of the parcels have been confirmed to have some form of filter
- **10,723 (28%)** of the parcels have volunteered for water testing sites
- **4,918 (13%)** of the parcels have not had personal contact (not home or did not visit a POD)

We are also tracking that there are 29,994 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **26,673** residential parcels that have the ability to use the Flint Water System. Of these

- **25,457 (95%)** of the parcels have been engaged as part of response efforts
- **19,677 (74%)** of the parcels have been confirmed have some form of filter
- **9,561 (36%)** of the parcels have volunteered for water testing
- **3,718 (14%)** of the parcels have not had personal contact (not home or did not visit a POD)

Local EOC

- Planning for transition of operational control to local level.
- Identifying and securing additional warehouse space for donations management.
- Coordinating rapid response deliveries to identified locations.
- Coordinating demobilization of vehicles and technology.
- Working to implement recycling program. Press conference scheduled for 01/28/2016.
- Coordinating in-kind and monetary donations through Michigan Community Service Commission.
- Coordinating volunteer management with Michigan Community Service Commission, ARC and other VOADs.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/26/16 – 22th Day (21th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Validate all data from the WRTs/PODs and identify focus areas.

Attached Documents:

- Sit Rep # 21
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first one indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- Press conference to be held in Flint with the Governor, Mayor and some state agency personnel.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- We have taken a significant number of paper records from the ARC WRTs so we can get the data entered into our system. MSP HQ staff has been pulled to the SEOC for data entry. These are a portion of the records the ARC had as they were not using the door to door App as directed. This data will further clarify areas covered/not covered by any teams.
- The WRTs are going to "targeted" locations where we are showing residences not contacted.
- We are working on identifying any multi-unit housing to ensure all have filters (e.g. apartment buildings). Some have been taken care of but we are ensuring these locations are not missed.
- Information reported to the JIC:

- As of 1/26/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvass Mission Total	Targeted Canvassing Mission 1/26/2016
30,770	37,844	3,946	1,350.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	186,309
b. Filters	94,301
c. Filter cartridges	199,489
d. Test kits	29,841

3. Total number of customers on the Flint water system
   a. 29,994 current water system subscribers
   b. ~45,000 hookups (This is our high end target #)
   c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased*:
   a. Cases of water 146,142 (additional 26,834 donated to the state warehouse and does not include other locations like GCCARD/Food Banks, Churches, etc.)
   b. Filters 154,052
   c. Filter Cartridges 299,508
   d. Test kits 62,701
5. Teams going out tomorrow:
   a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Standing Information Requirements

1. **Number of homes visited each day:**
   a. 1/26/16, as of 5 pm, **1,350** homes were visited today.
2. **Total number of homes visited:**
   a. Targeted Canvassing Mission: **3,946**
3. **Total number of National Guard on the ground:**
   a.
      i. Number in PODs:
      ii. Command Cell:
      iii. Cyber Mission:
4. **Total Number of Volunteers each day:**
   a. 98 volunteers for 1/26/2016.
5. ***Number of homes with filters:**
   a. 18,487 homes had filters, per entered GIS data as of 1/25/2016.
6. **Number of Water filters distributed (each day and to date):**
   a. 1,091 were distributed on 1/26/2016, and total distributed to date is 94,301.
7. **Cases of Bottle water distributed (each day and to date):**

a. 7,862 were distributed on 1/26/2016, and total distributed to date is 186,309.

8. **Number of testing kits distributed (each day and to date):**
   a. 403 were distributed on 1/26/2016, and total distributed to date is 29,841.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
   a. Per CHECC: People tested for lead 10/1/2015 to 1/8/2016: **2,642;**
      *this data is updated bi-monthly
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC:
       i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
       ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
       iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**
       *this data is updated bi-monthly
11. **Number of homes with safe drinking water:**
    a. **1,099** homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

    *This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

Local EOC

- Delivered iPads to warehouse and provided on-site training to drivers, followed with written instructions.
- Facilitated recycling planning meeting and planned for implementation of the program.
- Attended local "Pastors and Police" meeting to coordinate water distribution plan with faith-based organizations.
- Planning for a transition of operational control to local level.
- Coordinated the incoming donations of water and filters through the Michigan Community Service Commission.
- Coordinated volunteer management with Michigan Community Service Commission, ARC and other VOADs.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/25/16 – 21th Day (20th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.

- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Validate all data from the WRTs/PODs and identify focus areas

Attached Documents:

- Sit Rep # 20
- Michigan Department of Health and Human Services Situation Report for January 20, 2016
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first map indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).

Items to Note

- 11 ARC Flint Water Response Teams to the field today.
- 8 EPA PIOs will be in the JIC tomorrow. The JIC is unaware of the role or expectations at this time.
- Reference the rash I discussed on the call tonight:
    - There was one specific complaint about rashes that Community Health personnel plan on working with ATSTD/CDC. DEQ is requesting that EPA collect all appropriate water samples to enable a full analysis of the water at the address (an apartment) for bacterial contamination, and a full metals and organics panel. Lead is not associated with skin rashes, but other contaminants are and DEQ wants to find out what, if any, other contaminants are in the water.
    - It was also discussed that it would be ideal if Community Health can forward to the EPA the other addresses and contact information for which they've received complaints of rashes, so that EPA could also test there for appropriate parameters to see if we can identify a cause.
    - SEOC DEQ desk will continue to monitor and work this issue.
- SEOC OPS, Health, MDEQ SEOC, Logistics participated in conference calls with the Governor's office and private partners on potential alternative filtration systems for schools, daycares, etc.
- Created a form for drivers to track rapid response deliveries.

- Media avail at fire station 8 this morning received positive news coverage.
- The NAACP is holding a public meeting at U of M Flint on Tuesday.
- Rachel Maddow will hold a town hall meeting on Wednesday. MSP Third District Commander advised.
- Developed new Incident Action Plan (#7 published in MICIMS) and ICS 204s for the new operational period (1/26/2015-2/2/2016).
- MDOC assumed all warehousing responsibilities today.
- Reviewed state agency financial information received for update to current spend plan.
- Information reported to the JIC:
    - As of 1/25/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvassing Mission 1/25/2016
30,770	37,844	2,596 – ARC*

*American Red Cross data has not been entered in the app, but is currently being caught up. Starting January 26, 2016, the American Red Cross has been instructed that iPads must be used in the field for data entry in order to clearly capture the homes that have filters.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	176,118
b. Filters	93,048
c. Filter cartridges	198,552
d. Test kits	29,320

3. Total number of customers on the Flint water system
    a. *29,994 current water system subscribers*
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased*:
    a. Cases of water 141,982 (additional 24,634 donated)
    b. Filters 124,052
    c. Filter Cartridges 285,586
    d. Test kits 62,701

    * Numbers have not been updated due to the following circumstances:
        - Outstanding donations and inventory at the warehouse which has not been reported to the SEOC. Staff in the SEOC is working with donations management and warehouse to reconcile numbers.
        - Outstanding data from GCCARD on deliveries from 1/8-1/12. Staff in the SEOC and local EOC is working with GCCARD to obtain data.
        - At the beginning of tracking the planning factor used was 72 cases of water per pallet and 22 pallets per semi-truck. Per bill of lading received from the warehouse today,

it has been identified that this assumption is not correct. *Staff is working to reconcile numbers.*

5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/25/16, as of 5 pm, 2,596 homes were visited today.
2. **Total number of homes visited:**
    a. *Phase II*: 37,844
    b. Targeted Canvassing Mission: 2,596
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Command and Control Staff for NG Personnel:
4. **Total Number of Volunteers each day:**
    a. 135 volunteers for 1/25/2016.
5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 1,151 were distributed on 1/25/2016, and total distributed to date is 93,048.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 9,514 were distributed on 1/25/2016, and total distributed to date is 176,118.
8. **Number of testing kits distributed (each day and to date):**
    a. 478 were distributed on 1/25/2016, and total distributed to date is 29,320.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for lead 10/1/2015 to 1/8/2016: **2,642;**
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC:
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**
11. **Number of homes with safe drinking water:**
    a. 1099 homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

GIS Information

I have had numerous discussions with GIS staff as to getting our data validated and as close to final as possible. We are tracking 38,144 residential properties within the city (noting large apartment complexes are classified as commercial so they are not a part of this). Of these:

- 34,318 have been engaged by Flint Water Response Teams and PODs (90%) - The remaining 10% is going to be a focus for the teams in the near future
- 23,281 have led to a direct citizen engagement (61%)
- 5,173 were not home during any attempt to visit and have not been recorded as having visited a POD (14%)
- 5,864 of the properties the teams visited were vacant or destroyed (15%)

Additionally, we have been tracking the status of "Active Water Subscribers" from the Flint Department of Public Works. These are residential properties which have meters put on the homes by the city. Of the total 29,994 subscribers citywide, 26,673 have been confirmed as being on residential parcels. Of the 26,673:

- 18,487 Have been confirmed as having received a filter by the Flint Water Response Teams or PODs (69%)
- 3,928 Were not home when visited (15%)
- The remaining 16% we have no data to confirm or deny whether they have a filter

Of special significance from the water subscriber data is that the old lead maps that we are digitizing from the Flint Water Department contain 993 suspected homes with lead lines in them. Of these only 659 have received a filter.

It is significant to note that we are continuing to receive paper forms from the field and processing them. The ARC and volunteers were specifically told to use the App and we provided Ipads but tonight I was told this was not being done by everyone which has caused us some lags in data. This is likely improve the overall numbers as we process historic records (ARC had ~7,000 of these records).

It cannot be reiterated enough that data is still coming in and we are still actively cleansing it.

Local EOC

Operations:

- Coordinated with Foodbank of Eastern Michigan for issuing of Resource Request.
- Coordinating and following up on vehicle demobilization.
- Facilitated rapid response deliveries to special locations.
- Finalizing components of recycling program.
- Received authorization to operate bottle collections for recycling at Fire Station 1 and 5 PODs.
- Initiated activities to plan for inclusion of institution sampling (schools, daycares, nursing homes, etc.) in Genesee County EOC IAP.
- Coordinating volunteer management with Michigan Community Service Commission.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/24/16 – 20th Day (19th Full Day) After Governor's Declaration of an Emergency

I have asked state agency SEMCs to archive their SitRep items so you only have current operational period information in the SitRep Agency Summaries. Director Creagh added to daily report.

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs).
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Situation Report # 19
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first one indicates based upon the outreach that has been conducted, which parcels have we had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- WRTs with NG personnel are transitioning out. No field teams. NG will continue to staff the PODs.
- Tony Katarsky will be acting SEOC State Director. Capt. Kelenske not in the SEOC - available by phone (in the Holland, MI area).

Items to Note

- Deployed National Guard/state/local teams and 19 ARC Flint Water Response Teams to the field today.
- JIC was operational with limited staff out of the SEOC today. Co-located JIC in Flint will be back and operational tomorrow.
- SEOC Logistics worked with MDOC on warehouse management transition.
- Recovery Branch began demobilization of trucks and vans.
- Demobilization of National Guard Water Response Teams will be effective as of Monday, January 25.
- School for the Deaf

- As of 1/23/16: LARA and DEQ teams on site; water testing complete in school building and LRC dorm. Stevens Hall will be tested when landlord finishes upgrades.
- As of 1/23/16: all water faucets replaced in Stevens Hall. 3 new drinking fountains on order; expected mid-week. Once fountains are installed, Stevens Hall will be scheduled for water testing.

- SEOC Finance Donations Management team to obtain list of donors and donations for FEMA request.
- SEOC Planning Section worked on burn rate data from FWRT and PODS for FEMA request.
- GIS continued to clean up V2 Dataset (patched approximately 1000 records).
- GIS coordinated with the DEQ to transfer lead service line mapping to their GIS department tomorrow. Wall maps showing known lead service lines based off of geographical locations and zip codes provided for Chief Hagler, SEOC DEQ staff and Director Creagh.
- Out of 37,003 homes visited, 5,660 were not home/did not answer. The number of homes visited is lower than the Phase II number as some duplicate contacts at addresses were eliminated.
- Information reported to the JIC:
  - As of 1/24/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	1/24/2016
30,770	37,844	7,012 National Guard/State/Local 4,132 ARC

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	164,991
b. Filters	91,763
c. Filter cartridges	197,775
d. Test kits	28,763

3. Total number of customers on the Flint water system
   a. 29,944 current water system subscribers
   b. ~45,000 hookups (This is our high end target #)
   c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 141,982 (additional 24,634 donated)
   b. Filters 124,052
   c. Filter Cartridges 285,586
   d. Test kits 62,701

5. Teams going out tomorrow:
   a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Additional Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/24/16, as of 5 pm, 11,144 homes were visited today
2. **Total number of homes visited:**
    a. Phase II: 37,844
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Number on Cyber Mission:
        iii. Number with FWRTs:
        iv. Command and Control Staff for NG Personnel:
4. **Total Number of Volunteers each day:**
    a. 315 volunteers for 1/24/2016.
5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 4,920 were distributed on 1/24/2016, and total distributed to date is 91,763.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 16,125 were distributed on 1/24/2016, and total distributed to date is 164,991.
8. **Number of testing kits distributed (each day and to date):**
    a. 3,177 were distributed on 1/24/2016, and total distributed to date is 28,763.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
11. **Number of homes with safe drinking water:**
    a. 577 homes, per data from September 3, 2015 to January 20, 2016. Note, per MDEQ, this data is from **uncontrolled samples** provided by residents.

*This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

<u>Local EOC</u>

Operations:

- Distribution of supplies at five water resource sites in the City of Flint.
- Door-to-door distribution of supplies with 34 water response teams (19 ARC volunteer teams, 15 MSP/GCSO/NG teams).
- Facilitating rapid response deliveries to homebound residents and special locations by three teams staffed by Team Rubicon, and Lt. de Castro (MSP/EMHSD).
- Improved logistics for rapid response teams by providing transportation and iPads starting on 01/25/2016.
- Coordinated with ARC for distribution of additional iPads for data entry.
- Identified alternative warehouse locations for lose donations.
- Directed volunteer requests to appropriate state agencies.
- Started coordination for resource demobilization.

- Coordinated with 22 churches so they had water, filters, etc. Delivered Saturday. Some advised they were set with supplies. Lt. Roach (MSP District Coordinator will maintain contact with Pastors).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19h Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs

Attached Documents:

- SitRep 18

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have National Guard/state/local agency, type 3 teams
- We will have 40 ARC, type 5 teams (2-4 personnel).

Items to Note

- Deployed state/local teams and 40 ARC Flint Water Response Teams to the field today.
- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- SEOC Logistics worked on future resource planning and a local business commodity supply plan.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
- Information reported to the JIC:

- As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date	1/23/2016
37,943	6,323 National Guard 7,361 ARC

2. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Total to Date
a. Number of cases of water	148,866
b. Filters	86,843
c. Filter cartridges	194,622
d. Test kits	25,586

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. ~45,000 hookups (This is our high end target #)
   c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 133,662 (additional 24,634 donated)
   b. Filters 115,700
   c. Filter Cartridges 266,200
   d. Test kits 61,161

5. Teams going out tomorrow:
   a. National Guard State 3 teams---Goal tomorrow 300 homes per team
   b. 40 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get to them and track in the iPad.

New Standing Information Requirements

1. **Number of homes visited each day:**
   a. 1/23/16, As of 5 pm, 13,684 homes were visited today
2. **Total number of homes visited:**

a. 37,943, does include duplicate counts from the second canvasing

3. **Total number of National Guard on the ground:**
   a.
4. **Total Number of Volunteers each day:**
   a. 310 volunteers for 1/23/2016
5. **Number of homes with filters:**
   a. 17,595 homes had filters, per entered GIS data as of 1/22/2016,
6. **Number of Water filters distributed (each day and to date):**
   a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. ***Cases of Bottle water distributed (each day and to date):***
   a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. **Number of testing kits distributed (each day and to date):**
   a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. **Number of people tested for elevated blood levels (kids, adults, total):**
   a. Unknown at this time until we get the data
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time until we get the data
11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. Unknown at this time

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep # 17
- Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.

- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- National Guard/State/Local type 3 teams
- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- *I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state* director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed state/local teams and 15 ARC Flint Water Response Teams to the field today.
- SEOC Operations worked on getting local contact into the JIC along with developing *messaging for resources and donations.*
- SEOC Planning worked on the further development of long term strategy.
- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)
            - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
    - 11,471 Non-Water Subscribers in Flint.
        - Non Water Subscribers with a Filter = 2,196 (19%)
        - Non Water Subscribers without a Filter = 9,275 (81%)
    - The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.

- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

    - o <u>As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

To Date	1/22/2016
37,697	5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity	Total to Date
a. Number of cases of water	121,404
b. Filters	82,687
c. Filter cartridges	191,704
d. Test kits	23,415

3. Resources purchased:
    a. Cases of water 130,782 (additional 21,682 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

4. Teams going out tomorrow:
    a. National Guard State type 3 teams -- Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

<u>Local EOC</u>

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
    - o Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.

- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17h Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)
- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
    - Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to) EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard/state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel (at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

    - <u>As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard/State/Local ;) type 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard (MSP supported), type 3 teams), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deploye state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.

- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - o <u>As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. 29,317 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
    a. Number of cases of water 90,337
    b. Filters 73,229
    c. Filter cartridges 185,852
    d. Test kits 19,866

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 111,630 (additional 18,502 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 18 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.

- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard, type 3 teams , with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- Additional NG personnel being requested to assist with Warehouse inventories.

- NG personnel on the ground with the WRTs tomorrow with more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

    - <u>As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. 22,129 homes visited by the FWRTs to date.

    2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
        a. Number of cases of water 77,794
        b. Filters 69,730
        c. Filter cartridges 184,457
        d. Test kits 16,671

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 95,760 (additional 16,056 donated)
        b. Filters 115,700
        c. Filter cartridges 243,200
        d. Test kits 61,161

    5. Teams going out tomorrow:
        a. National Guard ( ) type 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>
Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have , state/local agency, type 3 teams (l), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed . state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact

two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.

- Information reported to the JIC:

  - <u>As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)</u>

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
   a. Number of cases of water 37,313
   b. Filters 53,713
   c. Filter cartridges 169,520
   d. Test kits 7,379

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 82,992 (additional 16,056 donated)
   b. Filters 115,700
   c. Filter cartridges 243,200
   d. Test kits 61,161

5. Teams going out tomorrow:
   a. State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

<u>Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency</u>

<u>Mission focus for the day:</u>

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed

- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
    - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 10 ARC Flint Water Response Teams to the field today.
    - 4,963 homes visited today.

01/16/16

01/17/16

- Information reported to the JIC:

    - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 27,195
    b. Filters 50,432
    c. Filter cartridges 168,605
    d. Test kits 4,861

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. State ( ) type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams l), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.

- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of ‹ personnel in the PODs for distribution. Mission has not changed.
    - NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

    - <u>As of 1/16/16 7pm (start date was Tuesday, 1/12/16)</u>

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
    a. Number of cases of water 20,876
    b. Filters 47,935
    c. Filter cartridges 167,401
    d. Test kits 3,322

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. State ( ) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams (, with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.

- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

    - <u>As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)</u>

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 18,576
    b. Filters 45,916
    c. Filter cartridges 165,382
    d. Test kits 3,217

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 44,688 (additional 12,884 donated)
    b. Filters 78,520
    c. Filter cartridges 163,081
    d. Test kits 18,761

5. Teams going out tomorrow:
    a. State ; type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.

- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345

Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
  - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
  - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
  - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
  - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)

- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93

Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

<u>Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency</u>

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- *The Governor signed an Executive Order activating the National Guard. Mission will* be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- *The door to door teams will continue at 0830 Wednesday morning and continue* through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts
        - Filter Replacements
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)
    - Ordered on 1/12/16 to arrive Wednesday
        - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR Vertical faucet mount

        - 2,500 – PUR Horizontal mount
    - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
        - 10,000 – PUR replacement filters (3 pack)
        - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
        - 10,700 – PUR combo packs

- To arrive Thursday
    - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 1,300 – Zero Water pitchers
    - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 11,000 – PUR vertical faucet mount
        - 1,500 – PUR Horizontal faucet mount
        - 5,000 – Brita faucet mount
        - 10,000 – Brita adv faucet mount white
        - 12,000 – Brita adv faucet mount chrome
    - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 117,600 – PUR replacement filter

- Test Kits
    - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
    - 500 have been assembled and are ready for distribution
    - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
    - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
    - 100, 000 square feet of secure warehouse obtained.
    - Accepting commodities beginning Wednesday, January 13

- Logistics Support
    - *The American Red Cross Logistics Planner arrived from DC today as* requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
    - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
    - We are working on version 2.0 so this can be used at the PODs
    - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
    - Notes from the field commander:
        - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine

groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."

- In the end, there were 394 total home visits with the following breakdowns:
  - 217 Door Hangers
  - 152 Vacant Homes
  - 117 Water Distributions
  - 112 Filters
  - 3 Pitchers
  - 48 Water Test Kits

- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.

- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

• Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
• Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
• Working to establish a warehouse for local resource storage.
• Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
• Discussed potential long term water sources between local EOC and SEOC.
• Established planning cycle/meeting scheduled for 1/12/16.
• Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate

with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
    - Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
        - Debris Removal = ***self-explanatory and we do not have this***
        - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
        - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.

- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

<u>Items to Note</u>

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.

- We have ordered an additional (expedited delivery with ETAs tomorrow)
  - 40,000 Brita Filters
  - 40,000 Brita Replacement Filters
  - 1000 Zero 8-Cup Pitchers
  - 1000 Zero 8-Cup Pitchers
  - 2000 PUR Replacement Filters
  - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
  - Requested PSA on the radio. Media has been approved and working with MAB.
  - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
  - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
    - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
    - JIC moving tomorrow to Flint.

Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

Fire Station Inventory Levels:

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.

- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.

- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.

- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local

EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

- DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
- 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
- Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502

- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- *Meet with Flint City GIS*
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational

period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move *forward, find quick wins, and regain trust.*
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).

2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
3. Obtain and maintain situational awareness and common operating picture of all activities.
4. Establish SEOC operational period and hours of operations.
5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
6. Develop a comprehensive GIS strategy.
7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
9. Provide technical assistance to the local Damage Assessment process.
10. Establish a Joint Information Center (JIC) and develop a public information strategy.
11. Monitor MI CIMS for resource requests and address as appropriate.
12. Establish and disseminate cost center information for the incident.

- Additional tasks include:
    - Determine what federal agencies are already involved and their status
    - Identify potential water supplies
    - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
    - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
    - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
    - Water Pipeline Locations
    - Filter Distribution Locations
    - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
    - Affected School Locations
    - Predictive analysis of blood lead levels for affected area
    - Updated Parcels
    - Demographics
    - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

Captain K

In addition to what we reported to Planning, i.e. 4084 water samples out of 4351 sampled through January 29, 2016 are at or below the action level of 15 ppb for lead, pictured below, and attached for consideration is an excel sheet with some additional statistics for your consideration.

Threshhold	# tests	%
Total # test results	4351	
# tests <5 ppb	3587	82%
# tests between 5 to 15 ppb	497	11%
# tests > 15 ppb	267	6%
Total % of three thresholds		99% (rounding)
# tests ≤ 15 ppb	3997	92%

Gov. Snyder Approves $28 Million in Immediate Aid for City of Flint
Appropriation will fund several programs to address Water Crisis

FOR IMMEDIATE RELEASE
January 29, 2016
Release #: 23

Flint, Mich. – Gov. Rick Snyder today, signed a $28 million budget supplemental which assists Flint residents by addressing the city's on-going water crisis. The supplemental, which Snyder called for in his State of the State Address January 19th, was approved by the legislature Thursday and signed by the Governor this morning.

"I thank the Legislature for their quick action to make this additional $28 million a reality. It is a necessary next-step in ongoing recovery efforts for the city," Snyder said. "We know that more money will be needed to address long-term concerns and I want to reassure the families of Flint that I remain dedicated to fixing this problem."

House Bill 5220, approved unanimously in both the House and Senate, will help ensure Flint residents have access to safe, clean drinking water in addition to the following:

- Supply free bottled water, faucet filters, and testing kits for Flint residents;
- Put nine nurses in local schools to monitor student health and well-being;
- Provide better nutrition for students and infants through WIC and in-school nutrition programs;
- Replace fixtures in schools, daycares, nursing homes and hospitals;
- Provide for an infrastructure study using independent experts;
- Treat any children who have high lead levels in the blood, using diagnostic testing, nurse visits and environmental assessments in the home.

Gov. Snyder will propose a long-term funding solution to address the ongoing needs of Flint in his Feb. 10 formal budget recommendation to the legislature.

In the continuing effort to identify the location of lead pipes and other components of Flint's water infrastructure, Geographic Information Systems (GIS) experts from the

City of Flint, State of Michigan, the University of Michigan–Flint, and Federal Emergency Management Agency (FEMA) have translated hundreds of hand-drawn plat maps and hand-written notes from the 1980's into digitized maps. The maps are helping the State target its response and determine where safe water is needed.

"Since most of the water system infrastructure is underground, we can't simply walk out and survey it," said Capt. Chris A. Kelenske, deputy state director of emergency management and homeland security and

commander of the Michigan State Police Emergency Management and Homeland Security Division. "This mapping will be a critical component of the State's coordinated response in Flint."

Once maps are fully digitized, they will be synced with 2015 parcel data and can then be overlaid with Census and infrastructure information which will allow analysts to pinpoint which inhabited homes have lead service lines.

Additionally, efforts continue to ensure city-wide distribution of bottled water, filters, water replacement cartridges and water testing kits.

Water response teams continue door-to-door delivery efforts with American Red Cross and other volunteers visiting 924 Flint homes today. Since Jan. 9, 2016, the following resources have been distributed to residents, both at the water resource sites and by water response teams:

- 216,605 cases of water
- 98,641 water filters
- 31,111 water testing kits

Additionally, water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a water bottle recycling site)
310 East 5th St.

Fire Station #3
1525 Martin Luther King Ave.

Fire Station #5 (also a water bottle recycling site)
3402 Western Rd.

Fire Station #6
716 West Pierson Rd.

Fire Station #8 (also a water bottle recycling site)
202 East Atherton Rd.

Due to an overwhelming response from individuals donating water and other items, a new office has been set-up to assist with donations and inquiries on how individuals can assist. Please direct future inquiries to:

FlintDonations@michigan.gov

State Using Technology to Identify Lead Pipes and Track Water Resource Distribution in Flint

FOR IMMEDIATE RELEASE
January 29, 2016
Release #: 22

Flint, Mich. – In an effort to help identify the location of lead pipes and other components of Flint's water infrastructure, GIS experts from the City of Flint, State of Michigan, the University of Michigan – Flint, and FEMA have translated hundreds of hand-drawn plat maps from the 1980s and hand-written notes on thousands of cards about updates to home plumbing systems into digitized maps. These maps are helping with the response and determine where safe water is needed.

"Mapping infrastructure to this depth of detail is highly unusual," said Capt. Chris A. Kelenske, deputy state director of emergency management and homeland security and commander of the Michigan State Police, Emergency Management and Homeland Security Division. "Since most of the water system infrastructure is underground, we can't just walk out and survey it, so GIS mapping is a critical component of the state's coordinated response."

Once the maps are in digital format, they are synched with 2015 parcel data. The maps can then be overlaid with Census information and infrastructure information, allowing analysts to pinpoint which homes have lead service lines.

"The state is making progress in organizing, cataloging, and converting water service line information from paper to searchable databases and digitized maps," said Scott Bailey, a GIS data analyst with FEMA helping with the mapping project. "This is going to be a success story because prior to this event, this type of information was not available in a GIS environment."

The GIS systems have already assisted response teams as they go door to door to deliver water supplies to residents. Each team is armed with an iPad that feeds information into the GIS system. The online application uploads home data in real time, noting whether there are children in the household and which ones have been provided with bottled water, a water test kit, a water filter and replacement cartridges. The information has also helped identify the number of inhabited homes in a city affected by blight. Old data may show a street full of residents, when some houses are actually vacant.

For more information the GIS project, contact James Tchorzynski, at 517-230-5568. Additional information is available at www.michigan.gov/flintwater, by calling 211 or 844-875-9211, or visiting www.helpforflint.com

Water Resource Sites Open Daily from 9 a.m. – 9 p.m.
Audio Available from Governor Snyder's Tele-Town Hall

FOR IMMEDIATE RELEASE
January 28, 2016
Release #: 21

Flint, Mich. – As efforts continue to ensure Flint residents have safe drinking water, Governor Snyder last night held a live tele-town hall where he and other state officials fielded questions from residents on the state's actions. A recording of the conversation can be heard here.

One of the most visible aspects of the response continues to be the distribution of bottled water, filters, water replacement cartridges and water testing kits by National Guard members at five of the city's fire stations.

As part of the distribution process, residents seeking water filters and replacement cartridges are asked to share their address. This data is being collected and mapped in real-time to assist with long-term recovery and help water response teams know where to focus their door-to-door efforts. It is important to note that no resident will be denied resources if an address is not provided, and a photo identification is not required.

Since Jan. 9, 2016, the following resources have been distributed to residents, both at the water resource sites and by water response teams:

- 207,055 cases of water
- 97,342 water filters
- 30,801 water testing kits

Water response teams also continued door-to-door delivery efforts. Today, 125 American Red Cross and other volunteers visited 1,768 homes providing free bottled water, filters, water replacement cartridges and water testing kits.

Earlier this afternoon, a coalition of public-private partners announced Flint's coordinated recycling program for empty water bottles and used water filter cartridges. Residents can learn more here.

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a water bottle recycling site)
310 East 5th St.

Fire Station #3
1525 Martin Luther King Ave.

Fire Station #5 (also a water bottle recycling site)
3402 Western Rd.

Fire Station #6
716 West Pierson Rd.

Fire Station #8 (also a water bottle recycling site)
202 East Atherton Rd.

All water filters distributed by the State of Michigan are certified by NSF International for lead reduction. Individuals wishing to verify that a specific filter is NSF-certified can do so via the NSF website.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

Subject: RE: GIS Information - Deadline 5 p.m. 1/28/16

I hope this is comprehensive enough. I wrote it really fast and likely missed some things. I can refine further if needed.

- What have we done on the GIS side of things? Include the partners we have collaborated with.
  - Overall coordination
    - Coordinated the initial response of GIS staff from city (Calix Martinez), county (Ken Koleda) and state government
    - Inventoried GIS resources and conducted an onsite visit with Flint GIS staff who brought in Department of Public Works specialists to explain data and hand off data that would be critical to the incident
    - Build the GIS strategy for the response efforts of the Flint Water Emergency
    - Coordinated the integration of DNR and DTMB/CSS staff into SEOC operations
    - Coordinated the sharing of information with federal partners
    - Synchronized the efforts of approximately 25 GIS specialists supporting the Flint Water Emergency
    - Engaged the ESRI Disaster Response
  - Web-Based Tools
    - Built the plan to digitize field information and lead the initial deployment of iPADS from the City of Flint in coordination with Calix Martinez (City of Flint GIS Administrator)
    - iPAD deployment to install needed apps and configure accounts
    - Installed and configured apps for field teams, and worked with DTMB during each
    - Coordinated trainings with the field teams through the City of Flint GIS Coordinator (Calix Martinez)
    - Created several Collector Apps for field teams and PODS to push live updates to our databases for resource distributions
    - Created live dashboards for display in EOC's and ECC's that show live numbers from field teams and PODS and live track where teams have been during the day
    - Configured and assisted in the administration of the City of Flint's online GIS to act as a single platform for GIS information sharing
    - Created web-based map layers and published them to apps and the GIS website to facilitate field team activities (e.g. ~ the Vulnerable Populations app)
    - Live validated location information entered into the system when teams were in the field
    - Archived data and finished validating data for phases of the operation
  - Support to planning
    - Developed methods to tie field team activities to parcels so that statistics could be run on a per parcel basis
    - Developed field team areas and supplied maps by team area for field use and planning use that show areas to target by parcel
    - Provide metrics for completion as a percentage of the total parcels in the form of total number contacted, total number confirmed as having filters, total being tested, etc.
    - Created a layer of active water subscribers as it relates to parcels for use in analysis
    - Generated the methods used to quickly transfer old printed drafting maps of lead service lines to parcels and tied lead status to parcels for the highest risk areas of the city as it relates to the study conducted by Dr. Dr. Mona Hanna-Attisha and provided target areas for teams of known lead service lines (we completed 50% of the city and DNR completed remaining 50%)

        - Coordinated with U of M Flint to assist in the completion of their lead mapping initiatives and are planning a session to cross validate results against our findings from the maps developed during the emergency response
        - Cross validate addresses from state systems to confirm if they reside within the affected area
    - Generated printed maps for situational awareness
        - Maps of incident facilities (PODS, Warehouse, EOC, JIC, etc.) as they relate to specific local and state operations
        - Map key facilities from state agency and local databases related to the incident (e.g. ~ restaurants, health facilities, schools, etc.)
        - Maps of lead distributions from service line data
        - Maps of parcels broken down by field team data (e.g. ~ filter present, contacted, etc.)
        - Map out water test kit results and update heat maps of the affected area to show overall lead distributions and compare them to lead service lines data
    - Data
        - Coordinated the building of a centralized GIS repository at the SEOC and guided various entities in generating content in support of the incident from local, state, and federal partners
        - Build content from address lists to map out facilities in flint
        - Maintain statistics for percent parcels contacted
    - Accomplishments
- What are we currently doing?
    - Refining the numbers used to evaluate what parcels still need to be contacted
    - Working with recovery unit to streamline collection of data on multi-tenant commercial properties
    - Validating incoming field data
    - Maintaining apps and web-based GIS
    - Providing data to partnering GIS and coordinating GIS efforts for the response
    - Providing Field teams with lists and maps of parcels to target in the upcoming operational period by team area
    - Providing wall maps and hand out maps in support of planning and other initiatives
    - Maintaining databases
    - Coordinating with local GIS to build a long term plan for how the city will manage DPW resources into the future in coordination with DTMB/CSS and DNR
- What needs to be done?
    - We need to fully refine our numbers to flesh out areas of the city still need assistance
    - We need to empower Flint GIS and Public Works with tools and training to use modern technology to maintain their water infrastructure
        - CRITICAL TO LONG TERM RECOVERY
    - Develop a mechanism in conjunction with Flint and DEQ to track plumber activities so infrastructure changes are properly documented in City Asset Management Systems
        - CRITICAL TO LONG TERM RECOVERY
    - Continue to help plan SEOC resources and begin transitioning tasks that will be recurring for the foreseeable future to state departments responsible the respective content (water testing mapping to DEQ, infrastructure mapping to Flint DPW, etc.)
- What is the baseline information that other state and federal agencies need reference GIS?
    - Service lines
    - Water mains
    - Water valves
    - The Flint Water Infrastructure Report
    - Dr. Mona's Report (heatmap)
    - Water test kit heat maps
    - Full parcel information for the city (up to date)
    - Franchise customer locations (140 customers outside of Flint)
    - Team assignment areas used by the field

- Layers for CIKR that are being addressed by state agencies (restaurants, schools, daycares, etc.)
- Locations of multi-tenant

- What are the performance outcomes we need to meet individually and collectively?
  - Filter every active water users tap or account for gaps in coverage (knowing we will never reach 100%)
  - Build a plan to deploy an asset management solution for Flint DPW and train their public works persons to properly use it
  - Check all CIKR on the water system with an inspector
  - Build a plan to populate changes to local infrastructure conducted as a result of response efforts into Flint DPW tracking systems
  - Remediate the effects of lead at (1) positive water test sites and (2) confirmed lead line locations (with water testing first)

Subject: GIS Information - Deadline 5 p.m. 1/28/16

By 5 pm today I need the following for a meeting with the Governor's Staff:

- What have we done on the GIS side of things? Include the partners we have collaborated with.
  - Accomplishments
- What are we currently doing?
- What needs to be done?
  - Hurdles?
- What is the baseline information that other state and federal agencies need reference GIS?
- What are the performance outcome we need to meet individually and collectively?
  - How do we get there?

Essentially this is an informational briefing I need to provide.

Capt. Chris A. Kelenske
Deputy State Director/Commander
Emergency Management and Homeland Security Division
Michigan State Police

PLEASE NOTE Effective February 1, 2016, the Emergency Management and Homeland Security Division is moving.

My new contact informaiton will be:

Phone: 517-284-3966
Fax: 517-284-3857

Physical Address:
7150 Harris Drive
Dimondale, Michigan 48821

Mailing Address:
PO Box #30634
Lansing, MI 48909

"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY."

PHOTO/VIDEO OPPORTUNITY TODAY

January 28, 2016

****NEW TIME****

Lt. Gov. Brian Calley to participate Community Coalition kicks off water bottle recycling program

Who:
Lt. Gov. Brian Calley will join a coalition of public-private partners including the State of Michigan, City of Flint, Genesee County, Schupan Recycling, Republic Services, Young's Environmental Cleanup, Keep Genesee County Beautiful and UM-Flint

Speakers include:
- Lt. Governor Brian Calley
- Matt Flechter, Recycling Market Development Specialist, State of Michigan
- Heather Griffin, Waste Services Coordinator, City of Flint
- Shane Kelley, Planner, Genesee County Metropolitan Planning Commission

What:
Will host a media event to announce Flint's coordinated recycling program in place for empty water bottles and used water filter cartridges

When:
Thursday, January 28, 2016
NOON

Where:
Fire Station #1
310 E. 5th St., Flint
- The press conference will take place behind the fire station near the water distribution station

Details:
Public and private partners will detail the collaborative short- and long-term recycling efforts for water bottles and filter cartridges.

###

NOTE:
ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632).

Efforts Continue to Provide Safe Water Resources in Flint
1,020 Homes Visited Today by Water Response Teams

FOR IMMEDIATE RELEASE
January 27, 2016
Release #: 20

Flint, Mich. – Water response teams comprised of 109 city, county and state personnel, American Red Cross and volunteers continued door-to-door delivery efforts today visiting 1,020 homes. These teams are canvassing the city providing free bottled water, filters, water replacement cartridges and water testing kits to Flint homes not yet identified as having a water filter.

As part of the distribution process, residents seeking water filters and replacement cartridges are asked to share their address. This data is being collected and mapped in real-time to assist with long-term recovery and help water response teams know where to focus their door-to-door efforts. It is important to note that no resident will be denied resources if an address is not provided, and a photo identification is not required.

Since Jan. 9, 2016, the following resources have been distributed to residents, both at the water resource sites and by water response teams:

- 196,456 cases of water
- 95,417 water filters
- 30,255 water testing kits

In addition to water response teams, water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a recycling site)
310 East 5th St.

Fire Station #3
1525 Martin Luther King Ave.

Fire Station #5 (also a recycling site)
3402 Western Rd.

Fire Station #6
716 West Pierson Rd.

Fire Station #8 (also a recycling site)
202 East Atherton Rd.

All water filters distributed by the State of Michigan are certified by NSF International for lead reduction. Individuals wishing to verify that a specific filter is NSF-certified can do so via the NSF website.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

###

NOTE: ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632). FOR FLINT WATER EMERGENCY DONATION INFORMATION, GO TO www.helpforflint.com.

Flint Water

Day	Date	Event
	October 1 Thursday	• Genesee County Health Department declares a Public Health Emergency
	December 15 Tuesday	• City of Flint declares a local State of Emergency.
	January 4 Monday	• Local State of Emergency declared by Genesee County along with request for a Governor's Declaration. • Genesee County EOC activated.
1	January 5 Tuesday	• Governor Snyder issues Declaration of Emergency for the City of Flint and the County of Genesee (end of day). • SEOC is activated and will be staffed 0800-1700 beginning January 6. • FEMA Region V contacted to provide update (Watch Desk and State Director call with FEMA Region V Administrator).
2	January 6 Wednesday	• SEOC Staffed (M-F 0800 to 1700), SEOC State Director has call with FEMA Region V, Deputy Administrator, to request LNOs. • Contacted local EM, advised him of 0830 daily call and initiate contact. • JIC established at 4000 Collins Rd, Lansing, MI. • Briefing held with SMEs Dr. Wells and George Krisztian. • 1400 media round table at Collins Road with Capt. Kelenske and Dr. Wells
3	January 7 Thursday	• FEMA LNOs arrive in the evening and have discussion with State Director (via phone). • Initial damage assessment submitted to EMHSD by local jurisdictions (evening). Infrastructure replacement costs only. Information provided to the local EOC on the best methods of identifying health and non-structural impacts for the damage assessment process. • Deployed two EMHSD personnel to the local EOC to assist with command and control.
4	January 8 Friday	• FEMA LNOs arrive at SEOC 0800. • SEOC State Director orders SEOC to stay open 7 days a week, 0800 – 2000 until incident is stabilized. • Media is driving a message of what the state is doing versus locals. • Held first legislative/congressional conference call. • JIC has been co-located in the City of Flint. • Originally we were advised we had 80-90 PODS from the local EM. Identified those as party stores, etc.

		Received confirmation of the 8 POD locations but there is confusion in the SEOC as to what the local EOC has coordinated. Five fire stations have been dedicated to be PODs (from the Mayor). Logistics for these locations is being worked on by the SEOC and EOC. • Finalizing 9 church locations to distribute 2000 filters (200 each) plus water. • State personnel deployed to (3) assist with incident management functions at the local EOC (not public information)
5	January 9 Saturday	• Third FEMA LNO in SEOC. • 5 PODs open 0900-1600. Staffed by ARC. • Ten state personnel in the local EOC to ensure command and control at the local level. • Working on "one team" messaging. • The County EOC has no support from the City of Flint, liaison is necessary for smooth operations and to serve residents.
6	January 10 Sunday	• 9 Churches provided filters and water for Sunday distribution. ARC assisting. • 5 PODs open 0900-2100 until further notice. • Freeman Elementary School pilot project initiated. • State agencies working to translate materials into multiple languages.
7	January 11 Monday	• Working to identify warehouse for our use. • Media event held at a POD. • Media event held at the Genesee County Office Building. • Some supply issues arose due to the hard time keeping up with the large demand for water. • Working to finalize logistics plan and get the plan in place.
8	January 12 Tuesday	• Focus is on receiving, storing, and increasing quantities of supplies; fine tuning logistics, increasing door to door team; increase collaboration and messaging of collaboration with local agencies. • Four state WRTs plus the Sheriff's Department teams...App developed and used in the field. • EO activating the National Guard. Mission is to replace ARC volunteers in PODs. • Governor requested FEMA to identify a POC for non-Stafford Act resources (Federal agencies acting under their own authority). Approved by FEMA Region V Administrator and LNO Zuelke identified. He will be a liaison to the FWIACC. • 7,824 cases of water arrived (109 pallets) • Ordered 19,152 cases to arrive 1/13 (109 Pallets), 1/3 going to GCCARD and rest going to warehouse • 12,768 cased to arrive daily beginning 1/14 (177 pallets a day). • PSA video pushed out by the Governor's office.

9	January 13 Wednesday	• Planning for increase in teams. • Draft request for a Presidential Declaration of a Major Disaster and an Emergency sent review. • 5 WRTs in field. • Flint Mass Transportation Authority adding PODs to route. • NG deployed 5-7 personnel to PODS.
10	January 14 Thursday	• Request for Presidential declarations submitted to FEMA. • Current number of citizens who are willing to be sample sites is 114. • Senator Ananich visits SEOC. • Secured 80,000 square foot warehouse. • Email to state employees for volunteer opportunity. • Deployed 8 WRTs. • NG deployed total personnel to PODs.
11	January 15 Friday	• LG visits local and state EOC. • Short session on managing stress held in SEOC. • I state/local and 5 ARC WRTs deployed. • Standing requirements for JIC information created. • 7,474 homes visited by FWRTs. • 18,576 cases of water distributed to date; 45,916 filters; 165,382 filter cartridges; 3,217 test kits.
12	January 16 Saturday	• Received Emergency Declaration – limited to Direct Federal Assistance. FCO David Samaniego on site. • Major Disaster Declaration Denied. • Deployed state/local teams and 10 ARC teams. • LG visited local EOC and discussed local EOC operations. • DEQ sampling kits are being received at PODs now. • 20,876 cases distributed; 47,935 filters; 167,401 filter cartridges; 3,322 test kits. • 11,324 homes visited by WRTs to date • 3,850 homes visited
13	January 17 Sunday	• Deployed 11 state/local WRTs and 10 ARC FWRTs. • 4,963 homes visited • Website attacks of Michigan.gov, city of Flint, and Flint township website occur. • Conference call with legislative and congressional representatives. • 16,353 homes visited by WRTs to date. • 27,195 cases of water distributed to date; 50,432 filters; 168,605 cartridges; 4,861 test kits. • Supplies provided to ~14 churches

14	January 18 Monday	• Jesse Jackson in Flint. • Deployed ! state/local and 10 ARC FWRT. • *Resource request sent for MIANG assistance to deliver water, filters, test kits, and replacement filters to* residents. • Community Health Emergency Coordination Center was notified that the Center for Disease Control Agency for Toxic Substances & Disease Registry will have a team of 3-5 people coming to Michigan. This team is coming to provide technical assistance as part of their regular mission. • Governor approved the use of the National Guard for the Door to Door Operations in Flint. National Guard personnel arriving on Wednesday (1-20-16). • Media availability event at the Volunteer Reception Center. • Faith based organizations continue to assist with distributing resources. • 5,040 homes visited. • 21,299 home visited to date by FWRT. • 37, 313 cases of water distributed to date; 53,713 filters; 169,520 cartridges; 7,379 test kits.
15	January 19 Tuesday	• White House press release identified the Department of Health and Human Services (DHHS) as the lead for the federal government response to the public health crisis in Flint. HHS will have staff in Michigan in the *next few days.* • National Guard in-processed Soldiers to augment points of distribution operations. • Deployed state/local and 10 ARC FWRT. • Flint video is now on available on Comcast On-Demand. • 2,809 homes visited. • 24,108 to date by FWRT • 77,794 cases of water distributed to date; 69,730 filters; 184,457 cartridges; 16,671 test kits.
16	January 20 Wednesday	• Legislative and Congressional Conference Call. • JIC held a media advisory and news release at 1100 about the Michigan National Guard's increase in support and change in mission. • Governor appeals denial of federal major disaster declaration for Flint. • Dr. Nicole Lurie, Assistant Secretary for Preparedness and Response, US DHHS has arrived. • Deployed ! National Guard/state/local teams and 10 ARC FWRT. • 3,395 homes visited. • 27,503 homes visited to date by FWRT. • 90,377 cases of water distributed to date; 73,229 filters; 185,852 cartridges; 19,866 test kits.

17	January 21 Thursday	• Deployed National Guard/state/local and 10 ARC FWRT • 6,416 homes visited. • 6,416homes visited by FWRT, phase II. • 105,091 cases of water distributed to date; 79,571 filters; 189,428 cartridges; 21,625 test kits. • Dr. Lurie the US DHHS ASPR at the CHECC and SEOC to explain the US DHHS transition.
18	January 22 Friday	• Deployed National Guard/state/local and 15 ARC FWRT. • National Guard is working to deploy 3 cyber personnel to assist at the Michigan Cyber Command Center (MC3). • 6,166 homes visited. • 12,582 homes visited by FWRT, phase II. • 121,404 cases of water distributed to date; 82,687 filters; 191,704 cartridges; 23,415 test kits.
19	January 23 Saturday	• Deployed National Guard/state/local and 40 ARC FWRT. • 14,118 homes visited. • 21,291 homes visited by FWRT, phase II. • 153,005 cases of water distributed to date; 84,505 filters; 195,264 cartridges; 24,866 test kits.
20	January 24 Sunday	• Deployed National Guard/state/local and 19 ARC FWRT. • DEQ confirmed that a multidisciplinary team will be revising the process for home lead level test results being reported to the household. Letters are being revised to reflect one way of reporting the lead levels and actions to be taken. • Beginning Monday 1/25/2016 at 0730 the MDOC will be assuming management duties at the Warehouse. • MDNR and MSP GIS are working to map known lead service lines based off of geographical locations and zip codes. • MIARNG has Soldiers and Airmen deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). • 11,243 homes visited. • 37,943 homes visited by FWRT, phase II. • 164,991 cases of water distributed to date; 91,763 filters; 197,775 cartridges; 28,763 test kits.
21	January 25 Monday	• Held a media availability at Flint Fire Station No. 8 to provide an update on the activities and mission of the water response teams. Maj. Gen. Gregory Vadnais, Spl/F/Lt. Dave Kaiser, Genesee County Sheriff's Office and the American Red Cross participated in the event. • JIC coordinated with FEMA to arrange a Congressional/Legislative briefing for tomorrow afternoon. • MDHHS leadership and CHECC staff met with federal partners from SAMHSA and CDC/HHS today to discuss technical assistance and federal activities.

		• National Guard demobilized canvassing teams. Soldiers are currently assigned to the POD operations and cyber mission. • Deployed 11 ARC FWRT. • 2,596 homes visited by ARC as part of the targeted canvassing mission. • 176,118 cases of water distributed to date; 93,048 filters; 198,552 cartridges; 29,320 test kits.
22	January 26 Tuesday	• Operations for the Flint Water Response Teams has shifted to a targeted effort to get filters into homes that we show have not been contacted. • Governor Snyder signed Executive Order 2016-3 transferring the ethnic commissions – the Hispanic/Latino Commission of Michigan (HLC), the Michigan Asian Pacific American Affairs Commission (MAPAAC), and the Commission on Middle Eastern American Affairs (CMEAA) - from MDCR to the Department of Licensing and Regulatory Affairs (LARA). • Michigan's HHS Regional Coordinator will serve as the Federal Health Coordinating Officer (FHCO) within a Unified Coordination Group (UCG) that will be operational this week in an effort to streamline information and coordinate federal activities. • Legislative and Congressional Call with FEMA. • NAACP meeting at U of M Flint. • Deployed 10 ARC FWRT. • 1,350 homes visited by ARC. • 3,946 homes visited to date for targeted canvassing mission. • 186,309 cases of water distributed to date; 94,301 filters; 199,489 cartridges; 29,841 test kits.
23	January 27 Wednesday	• Senate Appropriations Committee meeting. • Press conference at the University of Michigan-Flint's Northbank Center to provide an update about current actions and next steps to address about Flint water. • MDHHS CHECC staff met with the HHS State Coordinator Officer (SCO) regarding what HHS resources will be sent to Michigan, to include a nine person team. The team will consist of the following individuals: Mental Health staff, Sanitarian, Health Educator, Nurse, Nurse Manager, Behavioral Health staff, Risk Communication Developer, and Data Support. • Donations Management team and several branches of State and FEMA met regarding donation and volunteer management, will be meeting weekly. • Deployed 10 ARC FWRT. • 1,020 homes visited by ARC. • 4,966 homes visited to date for targeted canvassing mission. • 196,456 cases of water distributed to date; 95,417 filters; 200,654 cartridges; 30,255 test kits.

24	January 28 Thursday	• Media advisory and coordinated a press conference about recycling with Lt. Gov. Brian Calley at 1200 at Fire Station #1. • Community Partnership meeting, local, state, and FEMA representatives attended. • MDHHS is collective historical blood lead data is being obtained and an accurate display that is clear and understandable is in development. • Deployed 10 ARC FWRT. • 1,768 homes visited by ARC. • 6,734 homes visited to date for targeted canvassing mission. • 207,055 cases of water distributed to date; 97,342 filters; 201,848 cartridges; 30,801 test kits.
25	January 29 Friday	• Began working on SBA loan application. • Deployed 10 ARC FWRTs. • 924 homes visited by ARC. • 7,658 homes visited to date for targeted canvassing mission. • 216,605 cases of water distributed to date; 98, 641 filters; 202,566 cartridges; 31,111 test kits.
26	January 30 Saturday	• Deployed 10 ARC FWRTs. • 1,368 homes visited by ARC teams today. • 9,026 homes visited to date in targeted canvassing mission. • 227,188 cases of water distributed to date; 99,969 filters; 203,932 cartridges; 31,512 test kits.
27	January 31 Sunday	• Deployed 10 ARC FWRTs • 551* homes visited by ARC teams today (number low due to issue with iPads these additional homes will be added to the numbers tomorrow). • 9,577 homes visited to date in targeted canvassing mission. • 234,490 cases of water distributed to date; 100,593 filters; 204,736 cartridges; 32,093 test kits.

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/30/16 – 26th Day (25th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Finalize SBA application

Attached Documents:

- Sit Rep # 25
- Lead Residents Sampled Results
- Copper Residents Sampled Results

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- Deployed SEOC liaison to UCG.
- Worked with GIS to map and analyze City of Flint apartment buildings to send out water resource teams.
- Coordinated the posting of the Food and Nutrition Service response to Michigan's request to increase the access and availability of WIC benefits and services on the www.mi.gov/FlintWater site.
- Information reported to the JIC:
    - As of 1/30/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Total	Targeted Canvassing Mission 1/30/2016
30,770	37,844	9,026	1,368

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	227,188

b. Filters	99,969
c. Filter cartridges	203,932
d. Test kits	31,512

3. Resources purchased:
    a. Cases of water 2,481,324 Liters (additional 879,400 Liters donated)
    b. Filters 164,616
    c. Filter Cartridges 376,903
    d. Test kits 62,701
4. Teams going out tomorrow:
    a. 10 American Red Cross Teams scheduled for Sunday, January 31, 2016.

Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/30/16, as of 5 pm, 1,368 homes were visited today.
2. **Total number of homes visited:**
    a. Targeted Canvassing Mission: 9,026
3. **Total number of National Guard on the ground:**
    a.
4. **Total Number of Volunteers each day:**
    a. 792 volunteers on 1/30/2016.
5. **Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,831	27,956
Active residential water subscribers	26,673	22,229

6. **Number of Water filters distributed (each day and to date):**
    a. 706 were distributed on 1/30/2016, and total distributed to date is 99,969.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 6,337 were distributed on 1/30/2016, and total distributed to date is 227,188.
8. **Number of testing kits distributed (each day and to date):**
    a. 65 were distributed on 1/30/2016, and total distributed to date is 31,512.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351
    *this data will not be updated again until Tuesday.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015:

        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22

    *This data will not be updated again until Tuesday
11. **Number of homes with safe drinking water:**
    a. 4,084 water samples out of 4,351 sampled through **January 29, 2016** are at or below the action level of 15 ppb for lead. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

**Per DEQ, numbers were not available tonight but will be provided tomorrow.

Local EOC

- Coordinated short-term resource needs of incoming volunteer groups.
- Addressing public concerns regarding filter efficiency.
- Addressing concerns regarding rapid response delivery system.
- Planning for transition of operational control to local level.
- Planning for demobilization of MSP/EMHSD support staff at Genesee County EOC.
- Attended conference call with Michigan Community Service Commission regarding long-term volunteer management plan.
- Refined 211 data entry and record keeping process.
- Provided EPA with 50 "Flint Water Response Team" badges and lanyards to wear when they are working in the community.
- EPA advised they deployed two sampling teams to work on sequential sampling and a filter pilot through Monday, February 1, 2016.
    - The filter pilot was described as collection of a sample from an unfiltered tap, followed by collection from a filtered tap, installation of a new filter, and collection of a sample through the newly installed filter. They have identified 30 homes for this 3 day effort.

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas

Priority – City Sections 27, 29, 30, 31, 22, 33, 4

Secondary – City Sections 7, 1, 13

Map Support

Maps will be provided daily to provide detailed information on city sections. Teams will target specific homes not originally reached during the first two rounds of canvassing.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail.
